

# LUGANDA

## BASIC COURSE

## P R E F A C E

*Luganda is a Bantu language which is spoken either as a first or as a second language by a large portion of the people of Uganda. In addition, it is closely related to some of its neighbors, including Lunyoro and Runyankole.*

*The Luganda material and its authenticity have been the responsibility of Frederick K. Kamoga of Makerere University, who also contributed the kinship charts; the tonal analysis is the work of Earl W. Stevick of the Foreign Service Institute; responsibility for all other matters has been shared by the authors. A number of specific suggestions, and certain supplementary materials, were contributed by George W. R. Kalule, who had directed a staff of teachers in use of a preliminary version at Columbia University. Rebecca Kiziri and John H. Kizito assisted in originating the dialogs.*

*This is not a course in the usual sense. Rather, it is a collection of materials which can be useful in the interaction between teachers and learners. Although detailed suggestions are given for using these materials, much still depends on the initiative and judgment of the individuals involved in each class. A companion volume, the **Luganda Pretraining Program**, should be used in conjunction with the first twenty lessons.*

*The authors are indebted to their predecessors in the study and description of Luganda: J. D. Chesswas; Mrs. E. O. Ashton, E. M. K. Mulira, E. G. M. Ndawula; A. N. Tucker; D. T. Cole; A. E. Meeussen. Many of the grammatical notes in this book consist of references to appropriate parts of Ashton et al., **A Luganda Grammar**, and Chesswas, **The Essentials of Luganda**.*

*This work was undertaken at the suggestion of Allan M. Kulakow of the Peace Corps, and has taken account of the special needs of that agency. Peace Corps financial support is gratefully acknowledged. Tapes to accompany both volumes were produced in the language laboratory of the Foreign Service Institute under the direction of Gary Alley. Recording technicians were Arthur Young and Jose Ramirez. Typing was by Mrs. Irma C. Ponce. Final editing was by Earl W. Stevick.*

## 0. Introduction

1. A non-native speaker of Luganda will find that his Luganda is much more intelligible if he learns to handle pitch and length as integral parts of the language. 'Pitch' refers to height on a musical scale, and 'length' to duration in time. The surface units of duration are consonants and vowels, either of which may be single (short) or double (long). The surface units of pitch are three tones: high, low and drop. Learning to produce these units is relatively simple. What is not simple in this particular language is remembering when to use which tone. The purpose of this Synopsis is to pull together into one continuous whole all of the information that we have about pitch and duration. References back to the Synopsis are made at appropriate points throughout the Lessons themselves.

2. One way to describe the use of pitch and duration in Luganda would be to record the patterns used with each form of each verb and each noun, and with each sequence of two or more words, and then classify these patterns without attempting to state how they are related to one another. This kind of summary has in fact been done elsewhere, but the results have still been too complex to be of much immediate help to the ordinary learner. Our approach in this Synopsis will be to concentrate on the regularities that lie beneath the enormous complexity of the surface patterns.

## 1. Surface units

3. The basic unit of length will be called a 'mora'. A single consonant has no moras; a double consonant has one. A single vowel has one mora, and a double vowel has two. Single and double vowels and consonants may be illustrated quite simply: [òkùtâ.] 'to let go' vs. [òkúttá] 'to kill'; [òkúlímá] 'to cultivate' vs. [òkúlífímá] 'to spy'.<sup>1</sup>

4. Only two of the tones occur in all positions in the word. These are high level [´] and low level [˘]: [àvá´] 'he comes from' vs. [bávà˘] 'they come from'. The third tone occurs only at the end of a word. It has two variants. Fall [ˆ] occurs at the end of a phrase with declarative intonation [àlyâˆ]

<sup>1</sup>It is suggested that the reader, at first reading of this Synopsis, ignore the underlining, accent marks, and all other symbols until their meanings have been explained.

'he eats'. Downstep ['] occurs after certain types of boundary: [bábá' bákúngúlá ppám̩bá] 'they harvest cotton', the pitches of which are:

[ - - - - - ° \ - ]<sup>2</sup>

## 2. Underlying units

5. One can predict the pitches and durations of any Luganda sentence if one has four kinds of information about it: (a) the vowels and consonants in each of the smallest meaningful parts of each word, (b) whether each mora (length-unit) is 'marked' or not; (c) the grammatical constructions within the sentence, and (d) whether each pause is at the end of a statement, or at the end of a yes-no question, or at the end of some other kind of question, or is somewhere other than at the end of the sentence. As one moves from this information to the actual tones themselves, it is useful to think in terms of some intermediate units, called 'word boundary' (par. 11-17), five 'junctures' (par. 34-9) and three 'tone rules' (par. 45-7).

### 2.1 Duration

#### 2.1.1 Units of duration

6. When a Luganda speaker pronounces a word a bit at a time, the breaks come after vowels: [báfùmbá] 'they took' is [ba fu mba], and not \*[ba fum ba]. Similarly, [òkújjá] 'to come' is [o ku jja] and not \*[o kuj ja]; [òkúlíímá] 'to spy' is [o ku lii ma] and not \*[o ku li i ma]. What we have represented by open space in these examples may appropriately be called 'natural syllaboid breaks'. These 'syllaboid breaks' do not coincide with what we may call 'analytical syllable boundaries'. These are drawn in such a way that a nasal is separated from a consonant that follows it: [m̩.bwâ'] 'it is a dog', [è̩m.bwâ'] 'dog', [bá.fù̩m.bá] 'they cook'. Similarly, a double consonant is split in half: [ò kúj já'] 'to come'. Either type of consonant contributes one mora to the (analytical) syllable of which it is a part: 'they cook' is pronounced [bafuumba].

<sup>2</sup>In this tonetic notation, [°] stands for a voiceless long consonant, and [•] for a voiced long consonant.

7. A combination of any consonant plus [w] or [y] usually contributes an extra mora to the syllable of which it is a part: the third syllable of [ò kù lwà lá] has two moras. Phonetically, it is [lwáà].
8. Every word ends with a vowel. If the following word begins with a vowel or a syllabic nasal, then the result--even across word boundary--is a long vowel. If the syllabic that begins the second word is a vowel, then the resulting long vowel has the quality of the second: [àtémà] 'he cuts' plus [òmùtɪ́] 'tree' is [àtémòmùtɪ́].
9. In this Synopsis, we adopt the convention that where a long vowel is written single because it is lengthened by an adjoining consonant, then any tone mark that pertains to a mora that has been so added, is written with the consonant that is responsible. Thus, what is phonetically [eddwáàliro] 'hospital' we will write [eddwàliro], and what is phonetically [agéénze] 'he has gone' we will write [agéenze].
10. There are two rules which limit the length of syllables. One is that no syllable may have more than two moras. Thus in [èggwángà] 'tribe' the analytical syllable [gwan] should have one mora from [a], one from [gw] and one from [n]; in fact it has only two. A corollary of this rule is that a vowel before a double consonant is always short.
11. The other rule is that a syllable immediately before word boundary (or at the end of a phrase) is pronounced with only one mora: in [àsòmýê<sup>3</sup>] 'he has read', the last syllable of the isolated word is short. Before an enclitic, however, it receives the expected two moras: [asomyeeko] 'he has read a little' (??!).
12. There is apparently also a one-mora limit on word-initial syllables that begin with vowels, although the evidence for this is not so clear. One factor which helps to make analysis difficult at this point is the fact that even a single initial vowel is phonetically rather long--so long, in fact, that some people have been led to consider them tentatively to be double.

---

<sup>3</sup>The raised dot in this notation stands for a mora which is not written in the standard orthography.

## 2.1.2 Locating word boundaries

13. In general, word division in the official spelling system of Luganda reflects the phonological unit of 'word boundary' fairly well. In a few cases, however, data on vowel length show that no word boundary exists even though the orthography writes one. The following is a list of these cases:

14. (1) After the subject copula (par. 42), which consists of a concordial element plus [a]: what is spelled [abaana be basomesa] 'the children are the ones who teach' is pronounced [àbáàná/bèèbásómésà].

15. (2) After certain words and before personal possessives: what is written [enva zaffe] 'our relish' is pronounced [ènváázàffé]. (The way in which the dissimilation rule applies in this example provides tonal corroboration for this interpretation of personal possessive phrases.)

16. (3) After the same words and before certain interrogative particles, which are in fact enclitics: what is spelled [ova wa?] 'where are you (coming) from?' is pronounced [òvǎáwǎ]; what is spelled [obukiika ki?] 'which side?' is pronounced [òbùkííkǎà+kí?].

17. (4) After certain words and before the locative enclitics: [mbàbúúzè] 'I have greeted them', [mbàbúúzéé-kô]. (Also, after connectives, as in par. 42).

## 2.2 Pitch

### 2.2.1 Units of pitch

18. Except for verb stems and a few noun stems, each word-component in Luganda has a constant underlying form as far as tone is concerned. In these underlying forms, each mora is either 'marked' or 'unmarked'. The details of locating marked syllables are discussed in par. 22-33.

19. In the tonal economy of Luganda, each vowel or consonant of an utterance is related to its neighbors by means of a 'juncture'. There are five of these junctures. 'Immediate' juncture, which occurs only within words, is usually symbolized simply by writing letters adjacent to one another, but the explicit symbol ( ~ ] will be used where needed. The junctures symbolized [-] and [+] occur usually between words but sometimes within them. The junctures [/] and [#] are found only between words.

20. The locations of the five junctures are predictable entirely in terms of the grammatical constructions involved. Occasionally, a juncture difference is the only difference between two constructions. For details about the junctures, see par. 34-9.

21. After the marked moras have been located and the junctures have been written, the surface tones may be arrived at by application of three 'tone rules': the 'unmarked sequence rule' (USR), the 'marked sequence rule', and the 'dissimilation rule' (DR). See par. 45-7.

## 2.2.2 Locating the units of pitch

### 2.2.2.1 Locating the marked moras in nouns

22. The marked moras in most nouns may be located simply by looking at the dictionary entry. Except in a very short list of nouns, prefixes are unmarked. The stem [lwaliro]<sup>4</sup> 'hospital' always has its first mora marked; the same is true of the stem [buga] as in [ekibuga] 'town', or [embuga] 'place where chief lives'. The stem of [entamu] 'pot' is marked on its next to last mora. The stems of [ekizannyiro] 'playing field' and [abantu] 'people' are never marked. (The foregoing part of this paragraph does not take account of the systematic changes in marking which accompany personal possessives.)

23. A few nouns are marked always on the third mora, so that the mark shifts according to the presence or absence of an initial vowel: [Abàgáándá]<sup>4</sup> 'Baganda', but [Bàgáándà] 'they are Baganda'. These nouns are followed in the glossary by the symbol (3!).

24. The changes in marking of noun stems under the influence of personal possessives are approximately as follows:

(1) Nouns that under other circumstances are unmarked come to be marked beginning with the third mora and continuing to the end of the word. It is important to note here that every noun has at least

---

<sup>4</sup>What is written [lwa] is realized phonetically as [lwáà]; similarly what is written [ganda] is realized phonetically as [gáándà]. A mark on the second mora means that both moras have high tone; Luganda does not have rising tone \*[áá] on either short or long syllables.

three moras, since the so-called monosyllabic stems all have two moras, and the prefix is one mora. It is also necessary to count initial [e] plus a nasal before a consonant as a single mora: [ɛ̃nvùbɔ̃] and [ɛ̃nvùbɔ̃] both have four moras. Examples of marking changes for unmarked nouns with personal possessives are: [ekitabo] 'book' becomes [ekitabõ]; [kitabo] 'book, it is a book' becomes [kitabõ]; [ekizannyiro] 'playing field' becomes [ekizannyirõ]; with a monosyllabic stem, [enva] 'relish' becomes [envã].

25. Nouns that normally have a mark on one or more syllables must be subdivided into those whose last syllable is normally marked, and those whose last syllable is not.

(2) Marked nouns that normally have a mark on the last syllable come to have a mark on the very first of the normally marked moras, and on the very last mora of the word, and not elsewhere: [ekkomerã] 'prison' becomes [ekkomerã]; [ɛ̃nsɪ̃+kɪ̃ʒ] 'what country?' but [ɛ̃nsɪ̃:yò] 'your country'.

26. (3) A marked noun that does not normally have a mark on its last syllable is unaffected by personal possessives: [abaana] 'children', [ekikompe] 'cup', [obugagga] 'wealth', [amapeesa] 'buttons' and [akatiimba] 'net' are illustrations of this.

#### 2.2.2.2 Locating the marked moras in verbs

27. Locating the marked moras in nouns is then fairly simple. Locating the marked moras in verbs is less simple, but no less systematic. The prefixial elements are easy to state. Those that are normally marked are: diphonic subject prefixes; all object prefixes in the infinitive and in near and far past tenses; the tense prefixes [a] (near past), [naa] (near future), [li] (general future), [kya] 'still', [ta] (negative relative). The tense prefix [a] of the far past and the negative [te] require a mark on the syllable that follows them. The prefixial elements that are normally unmarked are: monophonic subject prefixes; object prefixes in most tenses; the tense prefixes [nna] 'not yet', [aaka] 'just'. The prefix [andi] 'might' has not been studied sufficiently to establish its underlying tonal characteristics. The suffixial element [nga], for regular or habitual action, is unmarked.

28. The location of marked moras in stems is much more complicated. First of all, it is necessary to know that all verbs fall into one of two classes, the 'marked' class and the 'unmarked' class. In the glossaries of this course, members of the marked class have the first mora of the stem in the infinitive underlined.

There are six possible stem tone 'patterns':

(1) Pattern FF<sup>5</sup>. The first two moras of the stem of a verb of the 'marked' class are marked; all others are unmarked. Examples from the marked class are [àsítùlá] 'he departs' and [àlyâ] 'he eats'. From the unmarked class are [àgéńdà] 'he goes' and [àvâ] 'he comes from'.

(2) Pattern FM. The first mora (not syllable) of the stem is in its basic state--marked for verbs of the marked class and unmarked for verbs of the unmarked class. All remaining moras of the stem are marked. Examples from the marked class are [àtùsè] 'he has arrived', [àlídè] 'he has eaten'. From the unmarked class are [àgéńzè] 'he has gone' and [àvúddè] 'he has left from'.

(3) Pattern MM. This is like FM, except that verbs of the unmarked class are treated as though they belonged to the marked class. In the marked class are [báátùkà] 'they arrived' and [báályà] 'they ate'. In the unmarked class are [báágèndà] 'they went' and [báávà] 'they left from'.

(4) Pattern FX. The first mora has its basic state. For stems of the marked class, the very last mora is also marked. For verbs of the unmarked class, all of the moras except the first are marked. In this respect, for unmarked verbs, FX is exactly like FM. Examples from the marked class are: [àbályà] 'those who eat', [àbálàbà] 'those who see', [àbáléétâ] 'those who bring', [àbáwúlírízábúlírízâ] 'those who keep listening'. In the unmarked class are [àbásâ] 'those who grind', [àbásómâ] 'those who read'.

A further peculiarity of FX is that a stem of the unmarked class, in the affirmative relative, if it has an object prefix, and if the subject prefix is monophonic, has the tone pattern MM: [àgífumbâ] 'he who cooks it'. NB [ya], in near past, consists of monophonic [y] plus the tense prefix. The combination counts as diphonic for the purposes of FX.

<sup>5</sup>In these two-letter symbols, F stands for 'fundamental', M for 'marked' and X for 'complex'.

32. (5) Pattern MX. This pattern is like FX except that verbs of the unmarked class are treated as though they belonged to the marked class: [tèbáqéíñzế] 'they haven't gone' is of the unmarked class. Compare [tèbátúúsế] 'they haven't arrived'.

(6) Pattern JM. In this pattern, the final syllable is marked. All other components of the word, including roots of the marked class, and diphonic subject prefixes, are unmarked: [àgùlế] 'let him buy'; [bàtàhndíkế] 'let them begin'.

33. Marking of verbal enclitics. The locative enclitics [kò, mò, yò] are all marked. As the term 'enclitic' implies, they are not preceded by word boundary, so that the moras written [·] in our notation are realized as vowels. They are however preceded by junctures: [+] after negative verbs and after infinitives and imperatives, and [-] in all other instances: [òkùkómà+wò] 'to come back', [bákómá-wò] 'they come back', [tèbákòmà+wò] 'they don't come back'. Note the minimal contrast between [+] and [-] in: [mpáá-yò] 'I give' and [mpáá+yò] 'give me'. The stem is monosyllabic [pá], with the extra mora being realized in the absence of word boundary.

### 2.2.3 Locating the junctures

34. The five kinds of juncture are distributed according to the following (incomplete) lists of environments:

(1) Immediate juncture [·] is found between consecutive phonemes of a single orthographic word, unless [+] or [-] is specified by one of the rules given below. As noted above (par. 15), immediate juncture also occurs between a noun and a personal possessive.

35. (2) Hyphen juncture [-] is found either within words or between them. Within words it is found in some stems, many or perhaps all of which are borrowed from other languages: [Á-mérèkà] 'America', [ènní-máàwà] 'lemon' (Port. limão), [Òmùsì-ráàmù] 'Muslim'.

Some Bantu words that could be interpreted as having internal [-] are [mùgò-bấ] 'driver' and [mùsì-kấ] 'heir'. These can also be interpreted as respectively [mùgóbấ] and [mùsíká́].

Hyphen juncture is found after the tense prefix [li] (general future) when the verb stem is of the unmarked class. Hyphen juncture is also found between finite affirmative verbs and the locative enclitics: [kyè kɪsɛ̀ɛ̀rà + àbántú + kyé bátáńdíkirá-mũ...] 'that is the period in which people begin'.

Hyphen juncture is found between words except where some other juncture is specified.

36. Plus juncture, like hyphen juncture, is found either with or without simultaneous word boundary. In absence of word boundary it is found between negative verbs and locative enclitics, and between infinitives or imperatives and locative enclitics: [tɛ̀bákòmə+wô] 'they don't come back', [òkùkómà+wô] 'to come back', [mpáà+yô] 'give me!'.

Plus juncture is also found after the proclitic [nga] 'like, as': what is written [ng'olidde] 'how you've eaten!' is pronounced [ngó+òlídde]. The same particle may be used with nouns: [ngá+sùkààlì] 'like sugar'.

37. The principal circumstances under which plus juncture is found together with word boundary are:

(1) When the second word in a construction has an initial vowel:

a) Between a verb and a noun object:

[báfùmbá + émmerè] 'they are cooking emmere'.

b) Between verb and infinitive:

[báyàgálá + ókúlyâ] 'they want to eat'

c) Between noun and adjective:

[àmàlŵàlíró + ámákúlù] 'large hospitals'

(2) After negative verbs:

[tɛ̀báliná + mɪrímú + mínɡɪ] 'they don't have many jobs';

[tɛ̀báliná + mítí + mínɡɪ] 'they don't have many trees'.

(3) Between a noun and a relative verb: [àbántú + ábásíngá + òbúńɡɪ] 'most people' ('people who excel in number'); [èbɪbúgà + èbísíngá + òbúńɡɪ] 'most towns'; [tebifa + kù bántú + basinga + bungi] 'they don't concern most of the people'.

- (4) In the object relative construction:  
 [èmméré + gyè bályà'] 'the food that they eat'.  
 [èbíjáńjááló + byé báágúzê'] 'the beans that they bought'.
- (5) When a locative phrase with [ku] or [mu] follows a noun:  
 [àbántú + mú kíbúgà] 'people in the town'  
 [èbíbúgà + mù nsí] 'towns in the country'
- (6) In appositive constructions:  
 [mù kÿàló + Másińdì] 'in the village of Masindi';  
 [mù kíbúgà + Kámpálâ] 'in the city of Kampala'.
- (7) Between a noun and the associative [na], if the noun itself is unmarked:  
 [èbíjáńjááló + n'è-bínyòðbwá] 'the beans and the peanuts'  
 but [èbínyòðbwà / n'è-bíjáńjááló] 'the peanuts and the beans'.
- (8) Between a noun and a demonstrative of the [lì] series:  
 [èbíbúgà + bírì] 'those towns'  
 [àbántú + bálì] 'those people'

38. Bar and double cross junctures are found only at word boundaries. The principal circumstances under which bar juncture is found are:

- (1) Between the main verb (or copula, or self-standing noun) of a sentence and anything that directly precedes it.
- (a) What precedes the verb or verb-substitute may be the subject of the sentence:  
 [àbàntù / bályà' + èmméré] 'the people eat emmere'.
- (b) It may be some other word:  
 [òlùvànnyùmà / bályà' + èmméré]  
 'afterward, they eat emmere'.

- (c) It may be a more complex expression:  
 [ngà àyàgàlà / èblijàhjààlò / àbìgúlà]  
 'when he wants beans, he buys them'

[àbàhntù / mù byàlò / bákòlà + èmírímú]  
 'the people in the villages work'

Note that interword [+ ] after [ayagala] and [abantu] in these expressions (as predicted by par. 37 (1a) and 37 (5), above) is replaced by [/]. This is not true for [#]: as in [àbántú + mú byáló # èbyò / bákòlà + èmírímú]  
 'the people in those villages work'

(2) Between a noun and the associative [na] if the noun itself is marked. For an example, see par. 37-(7), above.

(3) Between a noun and a cardinal numeral or the adjective [ngi] 'many', if the adjective lacks an initial vowel, and if any preceding verb is affirmative:

[báliná + èmírímù / mífígi]  
 'they have many jobs'

[tèbáliná + mírímú + mífígi]  
 'they do not have many jobs'

[ènkúbà / hnyíngi] 'much rain'

[àbàhntù / bàsátù] 'three people'

(4) After [buli] 'each':

[bùll / lùnákù] 'each, every day'

39. The principal circumstances under which double cross juncture is found are:

(1) At the end of a phrase with declarative [.] intonation:

[bályà' + ènvá' #] 'they eat relish'  
 [ànáàgúlá + éntámú' #] 'he will buy a pot'  
 [bágééndá wáñdègèyá #] 'they are going to Wandegeya'.

When it occurs together with terminal intonation, it will not ordinarily be written.

(2) Between a noun and a demonstrative of the [.no] series or the [.o] series:

[àbántú # bânó] 'these people'

[àbántú # àbó] 'the aforesaid people'

(3) Between a noun and [.onna'] 'all':

[àbántú # bònâ] 'all people'

(4) Between a noun and [.kka'] 'alone':

[òmúntú # yèkkâ] 'the person alone'

(5) Before [nga] 'when, if, as':

[báányùmyá # ngà bályà] 'they talked as they ate'

or [bábáddé # bályà] 'they were eating'

(6) Before [nti] 'that':

[àgámá # ñti...] 'he says that...'

#### 2.2.4 Tonal behavior of certain particles

40. In the light of the foregoing discussion, it is possible to characterize the tonal behavior of some of the most important particles.

The connective [( )a'-].<sup>6</sup> This particle is written [( )a] followed by word space in the standard orthography. When the noun that follows it has no initial vowel, the connective is unmarked, and is followed by [-] but not by word boundary: what is written [ntamu ya mulenzi] 'it is the boy's pot' is pronounced [ñtàmú' yàà-mùlénzí].

When the noun that follows the connective has an initial vowel, then the vowel of the connective is assimilated to the quality of the initial vowel of the noun. The second mora of the resulting syllable is marked. The [-] stands immediately before the stem: what is written [ekkengele y'omulenzi] 'the boy's bell' is pronounced [èkkèngélé yóó-mùlénzí]. Compare [èntàmú' yóó-múkází] 'the woman's pot'.

41. The associative has two forms. If the noun that follows is has no initial vowel, then the associative is [na-]: [nà-mùlénzí] 'and the boy'; [nà-ñbwâ] 'and the dog'.

<sup>6</sup>Here, ( ) stands for a required concordial prefix.

When the noun that follows the associative has an initial vowel, then the vowel of the associative is assimilated to the quality of the initial vowel of the noun. The second mora of the resulting syllable is marked, exactly as for the connective. The [-] again stands immediately before the stem: what is written [emmeeza n'entebe] 'the table and the chairs' is pronounced [èmméézá / néń-tébé].

42. The subject copula [( )eʷ], since it takes the place of the main verb, is preceded by [/] (see par. 38(1)). The subject prefix of a relative verb that follows it is marked if it is diphonic, but unmarked if it is monophonic: what is written [y'atusomesa] 'is the one who teaches us' is pronounced [yààtùsómèsà], and the monophonic subject prefix [a] is unmarked; in [bèèbásómā] 'are the ones who study', the diphonic subject prefix [bā] is marked.

43. The object copula [( )e], since it takes the place of the main verb, is also preceded by [/]. It is followed by word boundary. The subject prefix of the relative verb that follows it is always unmarked, regardless of whether it is monophonic or diphonic: what is written [y'asomesa] 'is the one whom he teaches' is pronounced [yààsómésà]; compare, with diphonic subject prefix [ba], [gyè bāfúmbà] 'is what they are cooking'.

44. The object relative, unlike the copulas, does not take the place of the main verb of the sentence. Accordingly, it is preceded not by [/], but by [+]. It is followed by word boundary, and the subject prefix of the relative verb that follows it is marked, whether it is monophonic or diphonic: [ənsímbí + zé ńjágálà] 'the money that I want; [əmmérè + gyè bāfúmbà] 'the food that they are cooking'; [àmátóóké + gé bāfúmbà] 'the bananas that they are cooking'.

### 2.2.5 Writing the tones

45. Once the marked moras, the word boundaries and the junctures are known, tones may be written by following three 'tone rules'. These rules are:

#### (1) The 'unmarked sequence rule' (USR).

In order for USR to operate, there must be a series of two or more unmarked moras in different syllables, uninterrupted by word boundary or by [- + / #], and these syllables must be at the end of a word, and the juncture that follows must be [- + #]. Or the first of the two or more

syllables may be a marked syllable that has already been lowered by the dissimilation rule (par. 46). After the operation of the rule, the first of these moras has low tone, and the rest have high tone: [àbáńtú], [èkítábó], [kítábó], [àmálwáńlíró].

The unmarked sequence rule, once set into operation as described in the preceding paragraph, extends across [- +] and up to [#], as long as the sequence of unmarked moras remains unbroken: [àyágálá + ókúlímá + ámatóóké] 'he wants to cultivate bananas'; [àyágálá + ókúlímá + múwógò] 'he wants to cultivate cassava'; [àyágálá + ókúlyá + múwógò] 'he want to eat cassava'; [ámátóóké # àgó # gòhñá] 'all those bananas'.

#### 46. (2) The 'dissimilation rule' (DR).

In order for DR to operate, there must be two or more marked moras with no intervening unmarked mora. DR has two slightly different forms.

(a) The first form of DR operates between words (i.e. in the presence of word boundary). If two marked moras are separated by [+ / #] and word boundary, then the second is noticeably lower in pitch than the first. The second still has high, and not low tone, however: [túbá' # tógèndá...] [- - - - -]; [báńlíná bálúgú' / múńgí] [- - - - -] 'they have many yams'; [tèbáńlíná + bálùgú' + múńgí] [- - - - -] 'they don't have many yams'.

(b) If two or more consecutive moras occur within a word, then the first has high tone and all the rest have low tone, except that before [#], the last of three or more consecutive marked moras is high: [Wándègèyá #] (a place); [bátàńdísé' #] 'they have begun'; [bátàńdísé' + òkùkólà] 'they have begun to work'; [èbbáńgá#] 'period of time'; [bbáńgà + ògwáńvù] 'a long time'.

The surface vagaries of the personal possessives (par. 24-26) are seen to be completely regular in the light of DR if no word boundary is written between noun and possessive.

#### 47. (3) The 'marked sequence rule' (MSR).

The marked sequence rule operates when two marked moras are separated from one another either by one or more unmarked moras, or by [-]. The result of the rule is that both of the marked moras, plus all of the intervening moras, have high tone. MSR operates after DR. Examples are [òmúséríkálè] 'policeman'; [Á-mérékà] 'America'; [àmàkómérá] 'prisons';

[àbámû'] 'one' (Class 2 concord); [bálímyê'] 'they have cultivated' (cf. [àlímýê'] 'he...'); [túgèhndá mú lúgúúdó] 'we are going into the street'.

#### 2.2.6 Terminal intonation contours

48. At the end of each pause group, the tones are subject to certain modifications, which we shall call 'intonation contours'. There are at least four different intonation contours, symbolized by [, . ? /].

(1) 'Period', or 'full stop' intonation [.] is found at the end of statements, and also at the end of cited forms. It is with this intonation that the falling variant [∨] of the drop tone is found with final marked syllables that are preceded by unmarked moras (par.4).

(2) 'Comma' intonation [,] is found at the end of (at least some) pause groups that are not at the end of a sentence. It is characterized by an upglide of the pitch of the last syllable or two.

(3) 'Yes-no question' intonation [?] is found at the end of yes-no questions. If the last word has a high tone, then this intonation is realized as rise in pitch followed by fall in pitch, beginning with the last marked syllable. If the last marked mora happens to be in the final syllable, then this rise-fall is very rapid, but it is all there. If the final word has no marked moras, then the final syllable is extremely low in pitch.

(4) 'Other-question' intonation [/] is found at the end of questions that cannot be answered by yes or no. In these questions, a final marked syllable which with [.] intonation would have [ˆ] is pronounced with high level pitch, phonetically identical with [ˈ]: [ðkólá-kí] [— — —] 'what are you doing?'

Little attention has been paid in this Synopsis to intonational matters. Perhaps the most important thing to remember from the above remarks on the subject is the contrast between the pitches [∨] before [.], [ˆ] before [,], [∧] before [?] and [ˈ] before [/] as realizations of final marked syllables.

### 3.0 Examples of the application of the rules

In the following pages, a skeleton paradigm is given for the seven principal tenses. This will facilitate comparison with the work of other writers, at the same time extending the coverage by including monosyllabic stems, stems with CVVCV, and object prefixes.

The paradigms are organized according to the following pattern:

aff. indic. Cl. 1	neg. indic. Cl. 1
aff. indic. Cl. 2	neg. indic. Cl. 2
<hr/>	
aff. rel. Cl. 1	neg. rel. Cl. 1
aff. rel. Cl. 2	neg. rel. Cl. 2

Each form without object prefix is followed by one with the object prefix [gu], the two words being separated by a comma. Starred forms are predictions that need to be checked.

Tones shown are those before [+], except that a final marked syllable preceded by an unmarked syllable is written with [˘]. This means that our data will show final [˘˘] where other writers showed [˘˘] because they used citation forms before [#]. See par. 46 (b).

Comments by an instructor who had used these lessons:

If I met a foreigner, I would perhaps ask him his name and where he comes from. If he responded in a language which is unintelligible to me, I would let him know that I did not understand him. He might perhaps talk to me in another language which I might understand a little. I would let him know that I was not good at that language either, but that we should keep talking, using simple constructions. We might refer to our respective countries and cities and mention geographical directions and locations. We might even want to talk about the various types of greetings in that language. While we're talking, I might notice his beautiful watch and clean clothes. Our conversation then might shift to time, clothes and school.

If, after a while, I found my friend to be pleasant, and if he still had time, I might ask him to teach me some of that language. We could start off with the tenses, relatives, imperatives, passive and active voice and work down into the meat of the language, carefully watching the tender areas of prefixes, infixes and suffixes and noting how they affect meaning and concord.

My friend and I have actually been following the pattern of this book. To get the best results out of this book, one should not hurry through it. Instructors tend to get bored faster than the students during drilling time, and as a result, they cover more ground at a time than they should. Stay longer. Drill the exercise once or twice more. Be patient with the students and do not waste your time and theirs, trying to answer questions and explaining things. Act, stay alive and demand attention. Do not let the students murder the tones or pull you off the track. Many Baganda can comfortably carry on a conversation with minimal lip movement. The instructor should exaggerate the tones and the lip and tongue movements.

However, we can only advise the instructor and the student to do so much; the real decision is theirs. There is plenty of room for flexibility in this book. If both the instructor and the student make a good decision, they are in for excitement--the excitement of being able to communicate well in a common language which is really the beginning of sharing with each other and knowing and understanding each other.

LESSON 1

1. Say each of these aloud and demonstrate its meaning without using English.

nze

ggwe

ani?

When the students can understand these three words, and pronounce them well,

2. Point to yourself and give your own name.
3. Point to the students and give their names if you know them. If you don't know their names, try saying 'John? Peter? Edward?' or 'Mary? Susan? Alice?' until they give their own real names.
4. Point to yourself and say three or four times:

Erinnya lyange / nze # \_\_\_\_\_. (Use your own name.)

5. Have each student say:

Erinnya lyange / nze # \_\_\_\_.

Go around the class in this way three or four times. Be very strict about pronunciation. European students are likely to miss the double [nn], to say \*[enze] instead of [nze], and to make their voices go up or down in the wrong places.

6. Ask one of the students:

Erinnya lyo / ggw'ani?

He will not understand the question at first. In fact, he may not even realize that it is a question. Repeat it two or three times, and then make him say the question aloud to you. When he does so, reply immediately with [Erinnya lyange / nze # \_\_\_\_] Then ask him the question again, and have him reply to it, using his own name.

(This technique can be used again and again:  
Ask a student a question that he cannot understand. Have him repeat the question aloud, and answer him in a way that he can understand. In this way, he will become able to understand and use the question.)

- #. Continue asking the students their names.
8. Have the students ask you your name.
9. Have the students ask each other their names.

To the student: The phrase [Ggw'aniʔ] is a contraction of [Ggwe # aniʔ]. This accounts for its pitch pattern: [ . \ - ].

### Summary

Erinnya\_lyo / ggw'aniʔ  
Erinnya\_lyange / nze # \_\_\_\_.

In addition to the letters which spell the Luganda words and sentences, you will find a number of other symbols: diacritics [ ' ˘ ˘ ], underlining, junctures [ - + / # ], and extra vowel length [ . ]. These symbols are explained and practiced in the Pretraining Program, and are discussed also in the Synopsis at the beginning of this book. For the time being, however, don't worry about them. Concentrate on sounding as much like the instructor as you can. Pay special attention to how his voice rises and falls. Notice also that some consonants like [nny] last about twice as long as others. These are written double. Some vowels also last longer than others. For more information on pronunciation see Ashton, Chapter 1; Chesswas, Appendix 1.

Certain features of the glossary need explaining. An abbreviation such as LI-MA in ( ) after a noun stands for the concordial class of the noun. The symbols [.] in [e.ri.nnya] stand for boundaries between various parts into which the word may be analyzed. These [.] have nothing to do with pronunciation. The symbol [.] as in [.lyo] means that the component [lyo] cannot stand by itself, but is pronounced as a part of the preceding word.

Glossary:

nze	I
ggwe	you (sg.)
e.ri.nnya (LI-MA)	name
aniʔ	who?
.(ly)o	your (sg.)
.(ly)ange	my

If the class begins to get tired of what it is doing, take one or two minutes to teach them to recite one of the following groups of words. Do not try to teach the meanings of these words at this time.

- A. ebuvanjuba; ebugwanjuba; amambuka; amaserengeta.
- B. Olwokusoka; Olwokubiri; Olwokusatu; Olwokuna ;  
Olwokutaano; Olwomukaaga; Olwassabbiiti.
- C. emu ; bbiri; ssatu; nnya; ttaano; mukaaga;  
musanvu; munaana; mwenda; kkumi.

LESSON 2

1. Point to yourself and say [omuntu]. Point to each student and say [omuntu]. Have the students repeat it after you. Be very strict with their pronunciation. European students are likely to make the [o] at the beginning of the word too short. They may also make their voices go down on [ntu], when they should keep them up.
2. Put one student off by himself. Stand near the rest of the class, point to the student, and say [omuntu # ono]. Have the students say it after you. Again, be strict with their pronunciation.
3. For pronunciation practice, have the students repeat after you [ly'o-muntu # ono]. (Some of them may notice that the tone is different from the tone of [omuntu # ono].)
4. Point to one of the students and say:

Erinnya ly'o-muntu # ono / ye \_\_\_\_.

Have the students repeat it until they can all say it easily and correctly.

5. Ask the question:

Erinnya ly'o-muntu # ono / y'ani?

Have the students answer it. If they don't understand it at first, have one of them repeat the question aloud to you, and you answer it.

6. Have the students ask you the question about their fellow students. Answer them accurately and enthusiastically.
7. Have the students question and answer each other.
8. Speak to one of the students. Say:

Erinnya lyange / nze # \_\_\_\_.

Erinnya lyo / ggwe # \_\_\_\_.

Erinnya ly'o-muntu # ono / ye \_\_\_\_.

Have all the students do the same thing.

9. Speak to another student. Ask:

Erinnya lyange / nze # ani?

Erinnya lyo / ggw'ani?

Erinnya ly'o-muntu # ono / y'ani?

Have him answer you. Then have all the students do the same.

10. Teach the students to answer [Erinnya ly'o-muntu # ono / y'ani?] by saying simply [Erinnya lye / ye \_\_\_\_.]

Summary:

Erinnya	ly'o-muntu	#	ono	/	y'ani?
Erinnya	{ ly'o-muntu # ono }	/	ye ____.		
	lye				

The juncture symbols were introduced in the Pretraining Program. The juncture [ / ] is used between the subject of the sentence and the subject copula [ye'], which takes the place of the verb. See Synopsis, par. 38. The Unmarked Sequence Rule (USR, Synopsis par. 45) does not operate before [ / ].

For more on the subject copula see Ashton, index under '-E particle as copula'; Chesswas, par. 33; Synopsis par. 42.

Concerning the series of pronouns that includes [nze] 'I, me', see Ashton, p. 101-3; Chesswas, par. 2.

Glossary:

o.no	this (person)
o.mu.ntu (MU-BA)	person
.(ly)e	his, her

LESSON 3

1. Have the students repeat after you [okuva]. They will wonder what it means, but don't go on to Step 2 until their pronunciation is excellent. European students will probably make the [o] too short, and cut off the [va] too soon.

2. Point to yourself and say:

Nze / nva' mu Uganda.

Say this several times, but don't have the students repeat it after you.

3. Sit down with the students, and pretend that you are one of them. Change your voice and say:

Nze / nva' mu (A-méreka).

(If the students are not Americans, you will of course use the name of their country.)

Have the students repeat after you:

Nze / nva' mu A-mereka.

4. Ask one student:

Ggwe / ova'waʔ

Have him answer you. Repeat with each student.

5. Have the students ask this question of you and of each other.

6. Point to individual students. Ask:

Omuntu # ono / ava'waʔ

Students may reply simply:

Ava' \_\_\_\_\_.

7. Do the same with:

Nva'waʔ

## 8. SUBSTITUTION-CORRELATION DRILL

(This is a mechanical exercise. Its purpose is to help the students get used to using [nva, ova, ava] in the right way.)

Say: [Nze / nva'wa? ] and have a student repeat it after you. Then say [ggwe]. The same student should now say [Ggwe/ ova'wa? ]. Then say [omuntu # ono]. The student should say [Omuntu # ono / ava'wa? ]. Repeat the process until the class begins to tire of it.

9. Reverse the drill of Step 8. Say [Ava'wa? ]. The student says [Omuntu # ono / ava'wa? ]. Say [Nva'wa? ]. The student says [Nze/nva'wa? ], and so on.

### Summary:

(Ggwe) / ova'wa?  
(Nze) / nva' mu \_\_\_\_\_.  
Omuntu # ono / ava'wa?  
Ye / ava' mu \_\_\_\_\_.

The subject prefixes, such as [n] in [nva' ], see Ashton, index under 'subject prefix'; Chesswas, par. 5. The subject prefixes [n], [o], [a], [e] consist of one sound apiece, and are usually unmarked tonally (see Synopsis, par. 5.27), and all other subject prefixes are usually marked.

The vowel of the stem [va' ] 'go or come from' is long before [wa? ] 'where?', but short elsewhere. This is because [wa? ] is pronounced as though it were part of the word that precedes it. The extra length written [. ] is lost before a word boundary. See Synopsis, par. 11.

The word [A-mereka] is normally written without a hyphen. For the meaning of the hyphen in this word, see Synopsis, par. 35.

In the glossary, [. ] in [.va' ] means that [va' ] is a word component which must have one or more prefixes before it. (.vudde) is the 'modified', or 'perfective' stem. You may ignore perfective stems for the time being.

Glossary:

<u>ye</u>	he, she
.va' (.vudde)	come or go from
<u>wa</u> ʔ	where?
mu	in

NOTE: The personal prefixes [n-] 'I', [o-] 'you (sg.)' and [a-] 'he, she' stand for the subject of the verb.

---

If the class begins to get tired of what it is doing, take one or two minutes to teach them to recite one of the following groups of words. Do not try to teach the meanings of these words at this time.

- A. ebuvanjuba; ebugwanjuba; amambuka; amaserengeta.
- B. Olwokusooka; Olwokubiri; Olwokusatu; Olwokuna';  
Olwokutaano; Olwomukaaga; Olwoassabbiiti.
- C. emu'; bbiri; ssatu; nnya'; ttaano; mukaaga;  
musanvu; munaana'; mwenda'; kkumi.

LESSON 4

0. Have each student bring one or two pictures of people to class. Each student knows the names of the people in his own pictures, but not the names of the people in other student's pictures. Also, bring to class a few newspaper pictures of well-known people.
1. Teach the students to pronounce [Simanyi.]
2. Take one of the pictures brought in by one of the students. Show it to another student and ask:

Erinnya ly'o-muntu # ono / y'ani?

Have him reply [Simanyi.]

Repeat this with each student. At this time, the students do not need to understand how this word is put together.

3. Ask each student the names of the people in his pictures.
4. Have the students ask and answer one another about the names of the people in the pictures.
5. Ask questions about where individual persons in the pictures are from. Have the students answer.
6. Have the students ask and answer one another about where the people in the pictures are from.
7. Use the newspaper pictures as in steps 3-6.

For example: (using a picture that Student B brought):

Teacher (asks A): Erinnya ly'omuntu ono y'ani?

A : Simanyi. Erinnya lye y'ani?

Teacher (to A): Simanyi. (to B) Erinnya ly'omuntu ono y'ani?

B : Erinnya lye ye \_\_\_\_\_ .

Teacher (to B): Omuntu ono ava wa?

B:: Ava mu \_\_\_\_\_.

Summary:

This lesson provides a review of what was in Lessons 1-3, and also introduces the useful expression:

Simanyi. 'I don't know.'
--------------------------

The prefix [si] is a negative subject prefix, for first person singular. Now is not the time, however, to explore the negative tenses.

---

If the class begins to get tired of what it is doing, take one or two minutes to teach them to recite one of the following groups of words. Do not try to teach the meanings of these words at this time.

- A. ebuvanjuba; ebugwanjuba; amambuka; amaserengeta.
- B. Olwokusooka; Olwokubiri; Olwokusatu; Olwokuna;  
Olwokutaano; Olwomukaaga; Olwoassabbiiti.
- C. emu'; bbiri; ssatu; nnya'; ttaano; mukaaga;  
musanvu; munaana'; mwenda'; kkumi.

LESSON 5

1. Teach the students to pronounce:

Yee.

Nedda.

2. Ask one student if his name is \_\_\_\_\_. Use his right name.  
Have him reply:

Yee.

Repeat the process with all students.

3. Ask one student if his name is \_\_\_\_\_. Use the wrong name.  
Have him reply:

Nedda.

Repeat this with each student.

4. Proceed as in Steps 2 and 3. Sometimes use the right name, and sometimes the wrong name. Students must choose between [Yee.] and [Nedda.].

5. Teach the students to pronounce:

ssi.

6. Get the students to ask you whether your name is \_\_\_\_\_. As soon as someone asks the wrong name, reply:

Nedda, erinnya lyange / ssi + nze # \_\_\_\_\_.

Teach the students to pronounce this sentence.

7. Ask the students about their names. They should reply either:

Yee, erinnya lyange / nze # \_\_\_\_\_.

or: Nedda, erinnya lyange / ssi + nze \_\_\_\_\_.

Erinnya lyange / nze # \_\_\_\_\_.

8. Ask:

Erinnya lyange / nze # \_\_\_\_\_?

or: Erinnya ly'o-muntu # ono / ye \_\_\_\_\_?

Use both right and wrong names, so that the students will have to use both affirmative and negative answers.

9. Have the students question you and each other in the same ways.

Summary:

Erinnya\_lyo / ggwe \_\_\_\_\_?

{ Nedda, erinnya\_lyange / ssi + nze \_\_\_\_\_.

{ Yee, erinnya\_lyange / nze \_\_\_\_\_.

Erinnya ly'o-muntu # ono / ye \_\_\_\_\_?

{ Nedda, erinnya\_lye / ssi + ye \_\_\_\_\_.

{ Yee, erinnya\_lye / ye \_\_\_\_\_.

The trickiest part of this lesson is getting the yes-no questions to sound right. This was taken up in the Pretraining Program (Section G), and is also mentioned in the Synopsis, par. 48.

Glossary:

yee	yes
nedda	no
ssi +	(is or are) not

If the class begins to get tired of what it is doing, take one or two minutes to teach them to recite one of the following groups of words. Do not try to teach the meanings of these words at this time.

- A. ebuvanjuba; ebugwanjuba; amambuka; amaserrengeta.
- B. Olwokusooka; Olwokubiri; Olwokusatu; Olwokuna;  
Olwokutaano; Olwomukaaga; Olwassabbiiti.
- C. emu; bbiri; ssatu; nnya; ttaano; mukaaga;  
musanvu; munaaana; mwenda; kkumi.

LESSON 6

1. Teach the students to pronounce:

Wangi.

2. Get one of the students to call your name. When he does so, reply [Wangi.].
3. Call the names of the students. Each will reply with [Wangi.]
4. The students should call and reply to each other.
5. Go back to [Wangi.], and have the students repeat it after you.
6. Have one of the students ask you a question. Reply [Wangi.] and look as though you didn't understand. Make the same student ask the same question again. When he does so, answer it immediately.
7. Ask a familiar question, but very rapidly. Have a student reply [Wangi.]. Then repeat the same question slowly and clearly.
8. Ask a familiar question in unfamiliar words.

For example: [Omukazi ono wa mu nsi ki?]. When the student says [Wangi.], repeat the question in its familiar form: [Omuntu # ono / ava'wa?]

Summary:

This lesson teaches the single word:

Wangi.
--------

both as the response to a call, and as a request to have something repeated.

There is some difference of opinion about when to use [wangi]. Your instructor may want to suggest other expressions for one or both of the uses of this word.

LESSON 7

1. Teach the students to pronounce:

Ntegedde.

2. Say just [N-] and have them reply with the whole word [Ntegedde]. Be sure that their voices go up and down in the right places.

3. Teach the students to pronounce:

Sitegedde.

Notice that the melody of [Sitegedde.] is different from that of [Ntegedde.]

4. Say just [Si-] and have the students reply with the whole word [Sitegedde]. Say just [N-] and have them reply [Ntegedde]. Proceed like this, making sure that they can pronounce both words with the correct melodies.
5. Say something to a student that you are sure he understands. Immediately ask twice [Otegedde?]. Have him reply [Yee, ntegededde.] Repeat this with all students.
6. Say something to a student that he cannot possibly understand. Immediately ask twice [Otegedde?], and have him reply [Nedda, sitegededde.] Repeat this with all students.

Summary:

This lesson teaches the student to use the very practical expressions:

<u>Ntegedde</u> .	I have understood.
<u>Sitegedde</u> .	I have not understood.

and to respond to the question:

<u>Otegedde?</u>	Have you understood?
------------------	----------------------

The two words introduced in this lesson are examples of the affirmative and negative perfective tense. This is not the place to try to produce perfective tense forms other than these two. Notice, however, that they are different from one another in tone.

A more literal translation of these two words would be 'I have understood' and 'I have not understood'.

Glossary:

.tegeera (.tegedde) understand

If the class begins to get tired of what it is doing, take one or two minutes to teach them to recite one of the following groups of words. Do not try to teach the meanings of these words at this time.

- A. ebuvanjuba; ebugwanjuba; amambuka; amaserengeta.
- B. Olwokusooka; Olwokubiri; Olwokusatu; Olwokuna;  
Olwokutaano; Olwomukaaga; Olwoassabbiiti.
- C. emu; bbiri; ssatu; nnya; ttaano; mukaaga;  
musanvu; munaana; mwenda; kkumi.

LESSON 8

1. Teach the students to pronounce:

Ooo! Bwe kiri?

2. If you have blackboard, draw four very rough pictures, and put the following names under them:

3. Have the students ask where the four men are from. Reply:

Waiswa / ava mu Busoga.

Kajura / ava mu Bunyoro.

Ocheng / ava mu Acholi.

Mukasa / ava mu Buganda.

After you make each statement, have the students reply [Ooo! Bwe kiri?], and you say [Yee, bwe kiri.] (The purpose of this is to have the student show that he knows you have made a statement, and not asked a question.)

4. Now, ask these four questions:

Waiswa / ava mu Busoga?

Kajura / ava mu Bunyoro?

Ocheng / ava mu Acholi?

Mukasa / ava mu Buganda?

Students should reply:

Yee, ava mu \_\_\_\_\_.

(The purpose of this is to have the students show that they know you have asked a question.)

5. Combine Steps 3 and 4. The student must recognize whether you are asking a question, or making a statement. If he thinks it is a question, he will reply [Yee.], but if he thinks it is a statement, he will reply [Ooo! Bwe kiri?], and you will say [Yee, bwe kiri.]

6. Teach the students to make the difference between statements and questions, using these four sentences.
7. Extend this kind of practice to include statements and questions about the names of the students and where they are from.

Ooo! Bwe kiri? Oh, is that so?

Here again, as in Lesson 5, the point to watch is the difference in intonation between statements and yes-no questions. Review Section of the Pretraining Program.

---

If the class begins to get tired of what it is doing, take one or two minutes to teach them to recite one of the following groups of words. Do not try to teach the meanings of these words at this time.

- A. ebuvanjuba; ebugwanjuba; amambuka; amaserengeta.
- B. Olwokusooka; Olwokubiri; Olwokusatu; Olwokuna;  
Olwokutaano; Olwomukaaga; Olwoassabbiiti.
- C. emu; bbiri; ssatu; nnya; ttaano; mukaaga;  
musanvu; munaana; mwenda; kkumi.

LESSON 9

1. Spend a few minutes on revision of [Nva \_\_\_\_\_.]
2. Say several times: [Siva']. Then let the students repeat it after you.
3. Choose the name of a country that none of the students is from. Say:  
  
Nva mu Uganda; siva' + mu Kkongo.  
  
Have the students say it after you until they can say it right.
4. Ask: [Ova mu Kkongo?] Students should reply:  
  
[Nedda, siva' + mu Kkongo.].
5. Say several times: [Tova']. Then let the students repeat it after you.
6. Have a student say [Nva mu Kkongo.] As soon as he does so, say [Nedda, tova' + mu Kkongo; ova mu \_\_\_\_\_.]
7. Ask: [Nva mu Kkongo?]. Students should reply:  
  
[Nedda, tova' + mu Kkongo; ova mu Uganda.].
8. Say several times [Tava']. Then let the students say it after you.
9. Point to a student. Say to the rest of the students [\_\_\_\_\_ava mu Kkongo?] Have them repeat the question after you. Then you reply:  
  
[Nedda, \_\_\_\_\_ tava' + mu Kkongo; ava mu \_\_\_\_\_.]
10. Ask various questions that include [siva'], [tova'] or [tava']. Have the students reply either affirmatively or negatively.
11. Have the students ask questions of you and of each other.
12. Try to bring in the words [nze, ggwe, omuntu # ono] that were used in earlier lessons.

Summary:

This lesson introduces three negative present tense forms of [-va']:

siva'	I don't come from
tova'	you (sg.) don't come from
tava'	he/she doesn't come from

The negative tenses are described in Ashton p. 128 and elsewhere; Chesswas, par. 85-6; the tonal pattern is found in the Synopsis, par. 31, and in the paradigms that are included at the end of the Synopsis. Remember that a form like siva' has a short last vowel whenever it is followed by a word boundary.

---

If the class begins to get tired of what it is doing, take one or two minutes to teach them to recite one of the following groups of words. Do not try to teach the meanings of these words at this time.

- A. ebuvanjuba; ebugwanjuba; amambuka; amaserengeta.  
B. Olwokusooka; Olwokubiri; Olwokusatu; Olwokuna;  
Olwokutaano; Olwomukaaga; Olwassabbiiti.  
C. emu'; bbiri; ssatu; nnya; ttaano; mukaaga;  
musanvu; munaana'; mwenda'; kkumi.

LESSON 10

1. Say several times [ekibuga]. Then have the students repeat it after you.
2. Do the same thing with [ensi'].]
3. Say [Kampala / kibuga.], [New York / kibuga.]. Have the students repeat these after you.
4. Have the students ask you [Uganda / kibuga?]. Reply:  
[Nedda, Uganda / ssi + kibuga; nsi'.]
5. Ask [ \_\_\_\_\_ kibuga?]. Students reply:  
[Nedda, \_\_\_\_\_ ssi + kibuga; nsi'.]  
Do this with the names of several cities.
6. Ask [ \_\_\_\_\_ nsi' ?]. Students reply either:  
[Yee, \_\_\_\_\_ nsi'.] or [Nedda, ssi + nsi'; kibuga.].  
Do this with the names of several countries.
7. Use a simple map of Uganda. You may want to draw one on the blackboard if you have one. Point to the various cities and districts. As you point to each one, say [Bunyoro / nsi'.], [Soroti / kibuga.], etc. Have the students repeat these sentences after you.
8. Ask questions about the map: [Teso / kibuga?], [Mbarara / kibuga?], [Kampala / nsi'?]. etc. Have the students reply either affirmatively or negatively.
9. Have the students ask questions of you and of each other concerning the map of Uganda.
10. Use questions with [oba]: [Ankole / nsi', oba/ kibuga?], etc.  
To the student: The place name [Teso] is pronounced [Tteeso], and [Mbarara] by ordinary Luganda spelling rules would be [Mbalala].

This lesson introduces nouns without initial vowels, in the sense of ' \_\_\_\_\_ is a \_\_\_\_\_'. These nouns take the place of the main verb in the sentence. See Ashton, p. 37, and Section B in the Pretraining Program.

Glossary:

e.n.si' (N)	country, district, territory
e.ki.buga (KI-BI)	city, town
oba	or

If the class begins to get tired of what it is doing, take one or two minutes to teach them to recite one of the following groups of words. Do not try to teach the meanings of these words at this time.

- A. ebuvanjuba; ebugwanjuba; amambuka; amaserengeta.
- B. Olwokusooka; Olwokubiri; Olwokusatu; Olwkuna';  
Olwkutaano; Olwomukaaga; Olwassabbiiti.
- C. emu'; bbiri; ssatu; nnya'; ttaano; mukaaga;  
musanvu; munaana'; mwenda'; kkumi.

Optional vocabulary:

In teaching these lessons, it is important to keep the new vocabulary and the new points of grammar in balance with one another. If the grammar comes too fast and there is only a little vocabulary, the student may feel that he is learning to say everything about nothing. If the vocabulary comes too fast and the grammar is not brought in systematically, the student will feel that he can say nothing about everything.

In the 'lessons' of this course, the emphasis is very much on the series of grammatical points that are introduced. In order to keep the lessons interesting, most teachers will want to introduce some extra vocabulary beyond what is in the 'lessons' themselves. In that case, we suggest that the teacher choose one or more 'situations', and present vocabulary that relates to those situations. Choose only enough situations to keep your class interested. Too much vocabulary at once may confuse them. At the same time, we strongly urge the teacher to stay within the grammatical points that have already been introduced in the 'lessons'.

SCHOOL: Names of actors:

Ani oyo?

Who is that?

Using pictures, or assigning students to play imaginary roles, teach the vocabulary for other kinds of people that may be found at school.

Use these expressions in answering the question [Ani oyo?].

Musawo w'amannyo.	He's a dentist.

LESSON 11

1. Give the students practice in pronouncing:

mu maserengeta

mu mambuka

mu buvanjuba

mu bugwanjuba

2. Demonstrate the meanings by pointing to a map. Then have the students give the correct phrases as you point. Be sure their voices go up and down at the right times.
3. Have a student go to the map and point as he says the four phrases aloud. Let all students do this.
4. Give the students practice in pronouncing:

mu maserengeta ga Uganda

mu mambuka ga Uganda

mu buvanjuba bwa Uganda

mu bugwanjuba bwa Uganda

5. SUBSTITUTION-CORRELATION DRILL

(You give one of the directions ([mu mambuka]). The student replies [mu mambuka ga Uganda]. In this way, he gets used to using [ga] after [maserengeta] and [mambuka], and [bwa] after [buvanjuba] and [bugwanjuba].)

6. Let the students look at a simple map of Uganda. Point to the map and teach them to say:

Gulu / kiri mu mambuka ga Uganda.

Fort Portal / kiri mu bugwanjuba bwa Uganda.

Mbale / kiri mu buvanjuba bwa Uganda.

Masaka / kiri mu maserengeta ga Uganda.

Do the same with the towns Tororo, Jinja, Entebbe, Kampala, Masindi, Soroti, Lira, Kabale, and any others that you wish to add.

7. Teach the students to ask the question [Mbale kiri mu bukiika+  
ki obwa Uganda?]. This is a long question, so teach it in the following stages:

- a. obukiika
- b. bukiika'+ki
- c. mu bukiika'+ki
- d. mu bukiika'+ ki + obwa Uganda
- e. Kiri mu bukiika'+ki + obwa Uganda
- f. Mbale / kiri mu bukiika'+ki + obwa Uganda

- 8. Practice asking and answering questions like the one in Step 7.
- 9. When a student tells you where a particular city is, pretend you didn't understand him. Say [Mu bukiika'+ki], and have him repeat the direction.

Summary:

(Mbarara) / kiri mu bukiika'+ki + obwa Uganda?  
 'What part ('direction') of Uganda is (Mbarara) in?'  
 Kiri mu (maserengeta) (g)a Uganda.  
 'It is in the (south) of Uganda.'

This lesson illustrates concordial agreement: [ga] after [maserengeta], but [bwa] after [buvanjuba]. The connective element [a] in these two words is more or less possessive in meaning. More precisely, this element is [.a']; that is, it is followed by [-], but not by word boundary, and is basically long. See Synopsis, par. 40 for the tonal details. For other matters relating to the connective, see Ashton, index under '-A of relationship'; Chesswas, par. 25 etc. and under 'possessive' in the folding chart at the end of the book.

Glossary:

a.mambuka	(MA)	north
a.ma.serengeta	(MA)	south
e.bu.va.njuba	(BU)	east
e.bu.gwa.njuba	(BU)	west
o.bu.kiika'	(BU)	side, direction
.a.		(linking element) of

Sample of free conversation:

A: Erinnya lyo ggw'ani? Ggwe  
Kamya?

What's your name? Are you  
Kamya?

B: Nedda ssi nze Kamya, nze  
Mukasa.

No, I am not Kamya, I am  
Mukasa.

A: Ova wa?

Where do you come from?

B: Nva Kkongo.

I come from the Congo.

A: Oli musomesa, muyizi, musawo  
oba musirikale?

Are you a teacher, a student,  
a doctor or a policeman?

B: Ndi musuubuzi.

I am a merchant.

A: Ooo, bwe kiri?

Is that so?

B: Yee, bwe kiri.

Yes, it is so.

LESSON 12

1. Teach the students to pronounce:

Bug <u>anda</u>	Tteeso (Teso)
Bun <u>yoro</u>	Acholi
Bus <u>oga</u>	Láńńó (Lango)
Bug <u>isu</u>	Ank <u>ole</u>
Kige <u>zi</u>	Ttooro (Toro)

2. Have a student ask you [Bunyoro / kibuga?]  
Reply: [Nedda, Bunyoro / ssi + kibuga; nsi'.]
3. Give the names of the districts of Uganda, such as Kigezi.  
Students should reply [Kigezi / nsi'.]
4. Give the names of cities and districts. In each case, the student must decide whether to say: [\_\_\_\_\_ nsi'.] or [\_\_\_\_\_ kibuga.]
5. Ask [\_\_\_\_\_ kibuga, oba / nsi'?).
6. Teach the students to say:

Kigezi / eri mu maserengeta ga Uganda.

Bugisu / eri mu buwanjuba bwa Uganda.

etc.

7. Give names of cities and districts. Students reply:  
[\_\_\_\_\_ eri mu \_\_\_\_\_] or [\_\_\_\_\_ kiri mu \_\_\_\_\_],  
depending on whether you have named a district or a city.
8. Students take turns asking you and one another about the locations of towns and districts in Uganda.
9. Ask questions about the locations of towns. This time, the student's answer must be in two parts.  
For example: Q. Masindi / kiri ludda+wa?  
A. Masindi / kiri mu Bunyoro.  
Bunyoro / eri mu buwanjuba bwa Uganda.

Summary:

Mbarara / kibuga, oba / nsi'?'  
 'Is Mbarara a town, or a district?'  
 Kibuga.  
 'It is a town.'  
 Kiri-wa'/?  
 'Where is it?'  
 Kiri mu Ankole.  
 'It's in Ankole.'  
 Ankole / eri mu bukiika'+ki + obwa Uganda'/?  
 'What part ('direction') of Uganda is Ankole in?'  
 Eri mu bugwanjuba.  
 'It's in the west.'

Two more of the concord classes are introduced here. Their subject prefixes are [ki] and [e]. Concerning concord classes, see Ashton, p. 23-4; On subject prefixes, see Ashton, p. 32 and corresponding parts of the chapters on other classes; Chesswas, par. 17 and corresponding parts of chapters on other classes; also the folding chart at the end of Chesswas.

 musanvu; munaaana'; mwenda'; kkumi.

5. Ask questions like [Tororo / kiri mu maserengeta ga Uganda?]  
Students should answer affirmatively or negatively, whichever is correct.
6. Students ask these questions of you and of each other.

NB Some speakers will prefer to omit [naye] in sentences of this kind.

Summary:

Masaka / kiri mu Busoga?  
 'Is Masaka in Busoga?'  
 Nedda, teki-ri + mu Busoga, naye / kiri mu Buganda.  
 'No, it isn't in Busoga, (but) it's in Buganda.'  
 Buganda / eri mu Kkongo?  
 'Is Buganda in the Congo?'  
 Nedda, te-ri+mu Kkongo, naye / eri mu Uganda.  
 'No, it isn't in the Congo, (but) it's in Uganda.'

This lesson illustrates use of subject prefixes for inanimate noun classes, affirmative and negative.

Glossary:

naye / 'but'

Optional Vocabulary: LOCATIONS

Here, in the same situations that you chose after Lessons 10 and 12, you may introduce expressions that stand for locations. The key question is [\_\_\_\_\_ ludda wa?] 'Where is the \_\_\_\_\_?'

SCHOOL: Locations.

Introduce answers to [Omusomesa ali ludda wa?]. 'Where is the teacher?'

Ali mu kisenge kye.	He's in his room.
Ali mu kibiina.	He's in class.
Ali mu ofiisi.	He's in the office.
Ali mu lukiiko.	He's at the meeting.

Ask the students [Nze ndi ludda wa?] 'where am I?' and [Ggwe oli ludda wa?] 'where are you?' Have them move from one location to another during this drill. Finally, have them question and answer each other.

Introduce answers to [Ekkalaamu eri ludda wa?] 'where is the pencil?'

Eri wano.	It's here.

A: Mmm. or: Eee.

B: Wasu<sup>z</sup>e' otya+nno?

A: Mmm.
3. Have the students practice greeting you and each other in this way.
4. Indicate by gesture that you are talking to two of the students, or to all of them. Have one of them act as spokesman for the group. Teach [Mwasu<sup>z</sup>e mutyanno?] and [Twasu<sup>z</sup>e bulungi.]

To the student: The literal meanings of the words in this set of greetings are:

wasu <sup>z</sup> e'	you passed the night (near past tense)
otya?	you do how?
nno	(no clear meaning, optional in this context)
nasu <sup>z</sup> e'	I passed the night (near past tense)
bulungi	well

This set of greetings is appropriate for use in the morning. Concerning the effect of [ ? ] on tones, see Synopsis, par. 48(4).

LESSON 15

A: Mmm.

2. Go through the greetings again, adding [ssebo] or [nnyabo] where they are appropriate.
3. Greet the class as a whole, using [Musiibye·mutya+nno?] and [Tusiibye·bulungi.]
4. If possible, group the students by sex. Say [Musiibye·bulungi + bassebo?] or [Musiibye·bulungi + bannyabo?], whichever is appropriate.
5. Have the students greet you and one another as in Steps 2, 3 and 4.

To the student: The literal meanings of the words are:

<u>osiibye</u> ·	you have passed the day (perfective tense)
<u>nsiibye</u> ·	I have passed the day (perfective tense)

Glossary:

.siiba (.siibye·)	to pass the day
ssebo	(pl. <u>bassebo</u> ) terms of respect used in speaking to a man
nnyabo	(pl. <u>bannyabo</u> ) term of respect used in speaking to a woman

LESSON 16

1. Continue the greeting sequence:

A: Agaffa'-yo?

B: Èkyàlì nnúngì.    or: Èkyàlì.

A: Mmm.    or: Eee.

B: Agaffa'-yo?

A: Ekyali nnungi.    or: Ekyali.

B: Mmm.

A: Mmm.

2. Have the students go back to Lessons 14 and 15, and add [Agaffaayo?] etc. to those greetings.

3. Continue with the following sequence, one line at a time.

A: Weebale + emirimu.

B: Awo.

A: Mmm.

B: Naawe / weebale + emirimu.

A: Awo.

B: Mmm.

A: Mmm.

4. Have the students practice combining all of the greetings and polite phrases from Lessons 14, 15 and 16.

To the student:

Again, as is often the case with greetings, the meanings of the individual words bear some explaining. The word [agaffa'-yo] in this context amounts to 'What's new?', but literally it is 'the (news) which is occurring there'. [Ekyali] consists of subject prefix [e-] 'it', tense prefix [-kya-] 'still', and stem [-li] 'is'; [nnungi] 'good' has the same stem as [bulungi], but agrees concordially with [e-].

In the continuation of the greeting, [weebale] amounts to 'thank you (for)', but literally means 'you count yourself'. [Emirimu] normally means 'work(s)'. [Weebale + emirimu] thus means something like 'thanks for what you have done.' This last is merely part of the greeting formula, and may be used even if the person you are talking to has never done anything for you individually.

[Naawe]

and you

## LESSON 17

1. Ask a student [Ova'wa<sup>7</sup>], and have him reply [Nva' mu A-mereka.], as in Lesson 3 .
2. Ask another student [Nva' wa<sup>7</sup>], and have him reply [Ova mu Buganda.]
3. Say [Nva' mu Buganda; ndi Muganda.].
4. Sit down with the students and pretend to be one of them. Say [Nva' mu A-mereka; ndi Mwa-mereka.]. Have the students repeat this.
5. Say [Oli Muganda?]. Get a student to ask you this question, and you reply [Yee, ndi Muganda.].
6. Say to each student [Ova mu A-mereka; oli Mwa-mereka.] Ask [Oli Mwa-mereka?] and have them reply [Yee, ndi Mwa-mereka.].
7. Ask [Nze / ndi Muganda?]. Have the students reply [Yee, oli Muganda.].
8. Demonstrate to the students the meanings of these sentences, and teach them to use them:

nze	Nze / nva' mu (Bug <u>anda</u> ).	Ndi (Mug <u>anda</u> ).
ggwe	Ggwe / ova' mu (Bug <u>anda</u> ).	Oli (Mug <u>anda</u> ).
omuntu # ono	Omuntu # ono / ava' mu (Bug <u>anda</u> .)	(Mug <u>anda</u> ).

In place of the words in (     ), use [A-mereka, Mwa-mereka; Bungereza, Mungereza] or whatever is appropriate for your students.

9. Give a sentence from Col. 2 of Step 8. The students should give the corresponding sentence from Col. 3. Give a word from Col. 1. The students should give the sentences from Columns 2 and 3.

10. Ask [Nze / ndi Mungereza?]. Teach the following:

Ndi ( <u>Mungereza</u> )?	Nedda, to-li + ( <u>Mungereza</u> ).
Oli ( <u>Mungereza</u> )?	Nedda, si-ri + ( <u>Mungereza</u> ).
Omuntu # ono / ( <u>Mungereza</u> )?	Nedda, ssi + ( <u>Mungereza</u> ).

11. Ask a series of questions chosen from among these three kinds:

Ova mu (Buganda)?

Oli (Mwa-mereka), oba / oli (Muganda)?

Ova'wa?

12. Have the students ask these questions of you and of one another.

### Summary:

This lesson introduces equational sentences, for first, second and third person personal subjects, affirmative and negative.

### Glossary:

O.mu.a- <u>mereka</u>	(MU-BA)	American person
O.mu.g <u>anda</u>	(MU-BA)	Muganda

LESSON 18

1. Teach the students to say [mmwe] and [ffe]. They will wonder what these words mean.
2. Use gestures to act out and teach the following sentences:

Mmwē / <u>m</u> uli (Baa- <u>m</u> ereka)?	Yee, ffe / <u>t</u> uli + (Baa- <u>m</u> ereka).
Mmwē / <u>m</u> uli (Ba <u>g</u> anda)?	Nedda, ffe / <u>t</u> etu- <u>l</u> i + (Ba <u>g</u> anda)
Ffe / <u>t</u> uli (Banyoro)?	Nedda, <u>t</u> emu- <u>l</u> i+(Banyoro).
Abantu # bano / (Baa- <u>m</u> ereka)?	{ Yee, (Baa- <u>m</u> ereka). Nedda, <u>s</u> si + (Baa- <u>m</u> ereka).

3. Group yourself and the students into groups of two. (If you don't have at least 5 students, use empty chairs to stand for people.) Teach the use of [mmwe, ffe, bo]:

ffe	Ffe / <u>t</u> uli Ba_____.	Tetu- <u>l</u> i + Ba_____.
mmwe	Mmwē / <u>m</u> uli Ba_____.	Temu- <u>l</u> i + Ba_____.
b <u>o</u>	B <u>o</u> / Ba_____.	Ssi + Ba_____.

4. Give a sentence from Column 2 of Step 3. Students give the corresponding sentence from Column 3.
5. Give a word from Column 1 of Step 3. Students give the sentences of Columns 2 and 3.

Summary:

This lesson introduces the plural personal pronouns, and the subject prefixes that go with them.

Glossary:

ffe	we
mmwe	you (pl.)
b <u>o</u>	they

To the student:      The second syllable of [ffe] is [fe],  
and it has high tone in citation form.  
The same is true for [mwe], which is  
the second syllable of [mmwe].

LESSON 19

1. Teach the students to say [mbeera, obeera, abeera]. They will wonder about the meaning of these words.
2. Go through this conversation with each student:

T: Ova' mu kibuga+ki?

S: Nva' mu (Denver).

T: Ova' mu (Denver), naye / kaakati / obeera mu  
(place where they are being taught).

Otegedde?

S: { Yee, ntegedde.  
Nedda, sitegedde.

(If, after you have done this with each student, they still do not understand, give them the meaning by writing it on the board and then immediately erasing it.)

3. Say (Obeera mu \_\_\_\_\_. ' Mutegedde?]

Have them reply [Yee, tutegedde.]

4. Say ['Abantu b'omu kitundu ekyo balunzi.' Mutegedde?]

Have them reply [Nedda, tetutegedde.]

(If students try to ask the meaning of this sentence, ignore them.)

5. Practice sentences like:

T: Nva' mu (Kampala)?

S: Yee, ova' mu (Kampala).

T: Mbeera mu (Kampala) + kaakati?

S: Nedda, tobeera + mu (Kampala); obeera mu \_\_\_\_.

Optional Vocabulary: DESTINATIONS

Here, the key question are [Ogenda wa?] 'where are you going?' and [Ova'wa?] 'where are you coming from?'  
Introduce answers to these questions that will fit the situations that you have chosen. Use pictures or other devices so that the students can demonstrate the meaning of their answers as they give them.

LESSON 20

Oral Test

1. Talk with each student. Start with greetings, and go on to ask him about the names of people, where they are from, their nationalities, and where they live now. Give points for correctness and fluency.
2. Divide the students into pairs. Let them prepare a conversation in Luganda. Then have each group present its conversation before the whole class. Give points for length, fluency, correctness, interest, and accent.

In these conversations, be sure that each student uses:

negative as well as affirmative forms,  
third person as well as first and second person,  
plural as well as singular.

Topics should include people's names, where are they from, and their nationalities. Each conversation should begin with greetings.

LESSON 21

1. Teach the students to say the following sentences. They will wonder about their meanings.

Mbeera ne \_\_\_\_\_.  
Mbeera ne \_\_\_\_\_.  
Mbeera kumpi + ne \_\_\_\_\_.  
Mbeera + wala ne \_\_\_\_\_.  
Mbeera # nzekka'.

{ Fill these blanks with  
names of members of  
the class.

2. Try to explain the meanings of these sentences without using English, by actions or pictures or both. If the students still don't understand, write the meanings on the board and erase them immediately.
3. Ask individual students [Obeerawa?]. They should reply with one or more of the sentences in Step 1.
4. Have the students ask you and one another the same question as in Step 3.
5. Ask a question from Column 1. Help the students to reply with the sentence from Column 2, BUT THEIR BOOKS MUST REMAIN CLOSED AT ALL TIMES!

_____ a <u>beera</u> mu Boston?	Nedda, <u>ta</u> beera + mu Boston.
Ggwe / o <u>beera</u> mu Boston?	Nedda, <u>si</u> beera + mu Boston.
Nze / m <u>beera</u> mu Boston?	Nedda, <u>to</u> beera + mu Boston.
Ffe / t <u>u</u> beera mu Boston?	Nedda, te <u>mu</u> beera + mu Boston.
Mmwwe / m <u>u</u> beera mu Boston?	Nedda, te <u>tu</u> beera + mu Boston.
__ ne __/ba <u>beera</u> mu Boston?	Nedda, teba <u>beera</u> + mu Boston.

6. Use the following table in the same way as in Step 5.

_____ / <u>a</u> be <u>e</u> ra # yek <u>k</u> a?	{ Yee, <u>a</u> be <u>e</u> ra # yek <u>k</u> a. Ned <u>d</u> a, <u>t</u> a <u>b</u> e <u>e</u> ra # yek <u>k</u> a.
Ggwe / o <u>b</u> e <u>e</u> ra # wek <u>k</u> a?	{ Yee, m <u>b</u> e <u>e</u> ra # nze <u>k</u> k <u>a</u> . Ned <u>d</u> a, <u>s</u> i <u>b</u> e <u>e</u> ra # nze <u>k</u> k <u>a</u> .
Nze / m <u>b</u> e <u>e</u> ra # nze <u>k</u> k <u>a</u> ?	{ Yee, o <u>b</u> e <u>e</u> ra # wek <u>k</u> a. Ned <u>d</u> a, <u>t</u> o <u>b</u> e <u>e</u> ra # wek <u>k</u> a.
A ne B / <u>b</u> a <u>b</u> e <u>e</u> ra # bok <u>k</u> a?	{ Yee, <u>b</u> a <u>b</u> e <u>e</u> ra # bok <u>k</u> a Ned <u>d</u> a, <u>t</u> e <u>b</u> a <u>b</u> e <u>e</u> ra # bok <u>k</u> a.
Mmwe / m <u>u</u> b <u>e</u> era # mmwek <u>k</u> a?	{ Yee, <u>t</u> u <u>b</u> e <u>e</u> ra # ffek <u>k</u> a. Ned <u>d</u> a, <u>t</u> e <u>t</u> u <u>b</u> e <u>e</u> ra # ffek <u>k</u> a.
Ffe / <u>t</u> u <u>b</u> e <u>e</u> ra # ffek <u>k</u> a?	{ Yee, m <u>u</u> b <u>e</u> era # mmwek <u>k</u> a. Ned <u>d</u> a, <u>t</u> e <u>m</u> u <u>b</u> e <u>e</u> ra # mmwek <u>k</u> a.

7. Carry on conversations such as the following:

T: \_\_\_\_\_, obeera mu kibuga ki?

S: Mbeera mu \_\_\_\_\_.

T: Obeera wekka?

S: Nedda, sibeera nzekka.

T: Oo, tobeera wekka?

Obeera n'ani?

S: Mbeera ne \_\_\_\_\_.

T: Ggwe ne \_\_\_\_\_, mubeera kumpi n'ani?

S: Tubeera kumpi ne \_\_\_\_\_.

T: Mubeera kumpi ne \_\_\_\_\_?

S: Nedda, tubeera wala naye.

This lesson is quite simple except for the fact that the word for 'alone' requires the relative tone pattern on the verb that precedes it. Concerning relative constructions, see Ashton, 136 and 457; Chesswas, par. 22 and corresponding parts of the chapters on other classes. The tone pattern involved here is FX (See Synopsis, par. 31 and the paradigms that follow the Synopsis). It is unfortunate that the first use of a 'relative' verb form in this part of the course is the very atypical one in which the main verb has relative form. For the usual use of the relative, see the Pretraining Program, Section M.

Glossary:

# .kka'	only
wala	far
kumpi (na)	near
# naye	with him, her

LESSON 22

1. Familiarization with the sound of the dialog.

Let the students listen to the entire dialog on the tape once or twice. Or read it aloud to them once or twice. Students' books should be closed at all times.

- |                                    |                          |
|------------------------------------|--------------------------|
| B: Maama, erinnya_lyo / ggw' #ani? | Madam, what's your name? |
| A: Erinnya_lyange / nze # Mary.    | My name is Mary.         |
| B: Mary?                           | Mary?                    |
| A: Mmm.                            | Mmm.                     |
| B: Ova' -wa?                       | Where do you come from?  |
| A: Nva' mu A-mereka.               | I come from America.     |
| B: Ova' mu A-mereka?               | You come from America?   |
| A: Mmm.                            | Mmm.                     |

The word [maama] is used in respectful address to women. Here and elsewhere, however, some speakers will prefer to use [nnyabo] in place of [maama].

2. Pronunciation buildups.

Have the students repeat the following after you one line at a time. Be very careful of their pronunciation. If necessary, repeat each line two or three times with each student.

ani?  
 ggwe  
 ggw' #ani?

### 3. Translation.

Tell the students what each line of the dialog means. Give them the Luganda one line at a time, and have them give you the English. Then give them the English meanings, and have them give you the Luganda. Do not spend more than 10 per cent of the time on this step!

4. Role playing:

Take the part of the first speaker in the dialog. Turn to a student and say the first line. He should reply with the second line. Continue in this way until you reach a good stopping place.

Choose two students and have them act out the dialog between themselves. The first time they should follow the dialog exactly as it is in the book. Later, they should adapt it by using their own names, and the places that they are really from.

5. Grammatical development.

A. Possessive pronouns.

Have the students read these possessive phrases aloud after you.

<u>1.</u>	<u>2.</u>	<u>3.</u>
er <u>in</u> nya	er <u>in</u> nya <u>lyo</u>	er <u>in</u> nya <u>lyange</u>
ekibu <u>ga</u>	ekibu <u>ga</u> <u>kyo</u>	ekibu <u>ga</u> <u>kyange</u>
ensi'	ensi <u>y</u> o	ensi' <u>yange</u>

Give a word from Column 1. Have the students give the corresponding phrase from Column 2.

Give a word from Column 1, and have the students give the phrase from Column 3.

Give a phrase from Column 3, and have the students give the phrase from Column 2.

Give a phrase from Column 2, and the students give the phrase from Column 3.

B. Tonal note to the student on [nze] plus a personal name.

Remember that the notation [̀̀gwé # àní?] implies the pitches [· \ - ], with the [e] and the [a] merging into one long [a].

LESSON 23

1. Teach the students to say [Ngolokoka.] They will wonder what it means.
2. Act out the meaning of [Ngolokoka.]. Have the students act it out with you, and say the word as they do so.
3. In the same way, teach the words and actions one at a time:

Nnyambala.

Ndya' + ekyenkyā'.

Njenda mu kibiina'.

Njiga + Oluganda'.

Nva' mu kibiina'.

Nzira + eka'.

Make sure that the students have mastered each sentence before going on to the next. This may require some patience, both from you and from the students.

4. Have a student ask you:

Okola-ki?

Perform one of the actions, and say the word at the same time. For example, pretend to be putting on your clothes, and say [Nnyambala.]

5. Teach the students to say [oluvannyuma]. They will wonder what it means.
6. Say [Ngolokoka. Oluvannyuma / nnyambala. Oluvannyuma / ndya' + ekyenkyā'.]
7. Tell a student [Ogolokoka . Oluvannyuma / okola-ki?]. He should answer [Oluvannyuma / nnyambala.]. Continue asking him [Oluvannyuma / okola-ki?] until he has given all the sentences from Step 3.
8. Use the name of a member of the class. Teach the students to say:

\_\_\_\_\_ / agolokoka.

Oluvannyuma / ayambala.

Oluvannyuma / alyā' + ekyenkyā'.

Oluvannyuma / agenda mu kibiina'.  
Oluvannyuma / ayiga + Oluganda.  
Oluvannyuma / ava' mu kibiina'.  
Oluvannyuma / adda + eka'.

9. Use the question [Oluvannyuma / akola\_ki'] to get the students to recite the series of sentences in Step 8.
10. Go through the following conversation with a student:
- T: Ogolokoka. Oluvannyuma / oyambala?  
S: Yee, oluvannyuma / nnyambala.
- T: Oluvannyuma / olya' + ekyenkya'?  
S: Yee, oluvannyuma / ndya' + ekyenkya'. etc.
- (Be sure to ask your questions in such a way that all of the answers are affirmative.)
11. Go through the following conversation:
- T: Ngolokoka. Oluvannyuma / nnyambala?  
S: Yee, oluvannyuma / oyambala.
- T: Oluvannyuma / ndya' + ekyenkya'.  
S: Yee, olya' + ekyenkya' ?  
etc.

Summary:

This lesson presents a chain of actions described in the present tense. This tense may be used to describe either a customary action or an action going on at the time of speaking. The present tense is discussed in Ashton, p. 123; Chesswas, par. 6. The affirmative indicative of the present tense has tone pattern FF (Synopsis, par. 28, and paradigms).

Glossary:

.k <u>o</u> la (.koze')	do, make
.ambala (.ambadde)	dress, put on clothing
.golokoka (.golokose')	wake up

e.k <u>a</u> '	home
o.lu.va.nnyuma	afterwards, after

The expression [lw' o-kugólokóká] consists of the connective [lwa] plus the form [okugolokoka]. The connective [lwa] in turn consists of the concordial prefix [lw], agreeing with [oluvannyuma], and [a] (See note on Lesson 11). The form [okugolokoka] is an infinitive, consisting of the initial vowel [o], the infinitive prefix [ku], and the stem [golokoka]. Concerning the hyphen with lack of word boundary, see Synopsis, par. 40.

LESSON 24

1. Teach in the manner of Lesson 23:

Ndya' + ekyemisana' .  
 Nzira mu kibiina' .  
 Njiga + Oluganda.  
 Nva' mu kibiina' .  
 Nzira + eka' .  
 Nzannya.  
 Mpummula.  
 Nnaaba.  
 Ndya' + ekyekiro' .  
 Nnyumya ne mikwano gyange.  
 Neebaka.

2. Say [Olya' + ekyemisana' . Oluvannyuma / okola-ki' ], and go on through all the sentences in Step 1.
3. Say [Ndya' + ekyemisana' . Oluvannyuma / nkola-ki' ], and go again through all the sentences in Step 1.
4. Say [Mulya' + ekyemisana' . Oluvannyuma / mukola-ki' ]  
 Students reply [Oluvannyuma / tudda + mu kibiina' .] etc.
5. In the same way, ask [ \_\_\_\_\_ alya' + ekyemisana' . Oluvannyuma / akola-ki' ] and [ \_\_\_\_\_ ne \_\_\_\_\_ balya' + ekyemisana' . Oluvannyuma / bakola-ki' ].
6. Ask questions about all the activities that are in Lessons 23 and 24. Questions may be in singular or plural, first, second or third person.
7. Teach the students to pronounce the infinitives of all the verbs in Lessons 23 and 24.
8. Ask [Oluvannyuma lw'o-kugolokoka / okola-ki' ] and have a student reply [Nnyambala.]. Ask [Oluvannyuma lw'o-kwambala / okola-ki' ], and so on through the entire action chain.
9. Proceed as in Step 8, except that this time the student's answers are of the form [Oluvannyuma lw'o-kugolokoka / nnyambala.].

Summary:

This lesson introduces some more actions in the chain that was begun in Lesson 23, and uses the infinitive form alongside the present tense.

LESSON 25

1. Familiarization with the sound of the dialog.

Let the students listen to the entire dialog on the tape once or twice. Or read it aloud to them once or twice. Students' books should be closed at all times.

2. Pronunciation buildups

Have the students repeat the following after you one line at a time. Be very careful of their pronunciation. If necessary, repeat each line two or three times with each student.

When will you return?

<u>Lwokubiri</u>	Tuesday
ku <u>Lwokubiri</u>	on Tuesday
ngenda	I am going

A: Ngenda kukoma+wo + ku Lwokubiri. I am going to return on Tuesday.

Glossary:

ba.kadde (MU-BA)	parents
e.yo (demonst.)	there
.laba (.labye.)	see, visit
ddi/	when
o.lw.o.ku.biri	Tuesday
mu.nna (MU-BA)	member of

NB One would not normally contrast the name of a city and the name of a kingdom, as was done here between [Munnahoima] and [Muganda]. But if a Muganda hears that a person is a Munnahoima (i.e. a Hoima citizen), it is clear to him that that person is a Munyoro.

3. Translation

Tell the students what each line of the dialog means. Give them the Luganda one line at a time, and have them give you the English. Then give them the English meanings, and have them give you the Luganda. Do not spend more than 10 per cent of the time on this step!

4. Role playing:

Take the part of the first speaker in the dialog. Turn to a student and say the first line. He should reply with the second line. Continue in this way until you reach a good stopping place.

Choose two students and have them act out the dialog between themselves. The first time they should follow the dialog exactly as it is in the book. Later, they should adapt it by using their own names, and the places that they are really from.

5. Grammatical development.

- A. Give the students a short sentence. Have one student expand it by adding [nnyabo] or [ssebo] at the beginning. Have a second student expand it still further by adding [kaakati]. For example:

T:: Ogenda-waaʔ

S<sub>1</sub>: Nnyabo, ogenda-waaʔ

S<sub>2</sub>: Kaakati, nnyabo, ogenda-waaʔ

Some other short sentences that can be expanded in this way are:

Erinnyalyo / ggw'aniʔ

Ova'waʔ

Otegedde?

Obeera-waaʔ

Oli Muganda?

- B: This is another expansion drill. Give the students a short sentence. The first expands it by adding [eyo], and the second expands it still further by adding [nnyabo] or [ssebo] at the end. For example:

T : Ngenda Masakaa.

S<sub>1</sub>: Ngenda # eyo / Masakaa.

S<sub>2</sub>: Ngenda # eyo / Masakaa + ssebo.

Some additional short sentences for use in this way are:

Ngenda Kyaddondo.

Tugenda Hoima.

Mbeera Kampala.

mikwano	mikwano_gyo	Mikwano_gyo / babeera-waʔ
bakadde	bakadde_bo	Bakadde_bo / babeera-waʔ

NB [Mukwano] 'friend' takes MU-BA concords except in possessives, where it takes MU-MI concords. Some speakers may however prefer [gibeera] here in place of [babeera].

LESSON 26

1. Teach the students to pronounce [essaawa]. Let them wonder what it means.
2. Draw a simple picture something like this:

3. Point to the first dot and say [essaawa / emu']. Have the students point and repeat. Go on one hour at a time all the way through [essaawa / kkumi / na bbiri].
4. Give the hours in random order. Have the students point to the appropriate dot in the picture.
5. Point to dots, and have the students name the hours.
6. Teach the students to say [essaawa / mmeka']. Point to a dot in the picture and ask one of the students [Essaawa / mmeka']. If he does not understand you, he should repeat the question so that you can answer it. Go on asking [Essaawa / mmeka'] Essaawa / mmeka # kaakati']
7. Go on in this way until the students can name the hours quickly, with good pronunciation, in any order.

Glossary:

.mekəʔ	how many?
e.s.saawa (N)	hour, watch, clock
e.mu_	one
bbiri	two
ssatu	three
nnya_	four
ttaano	five
mukaaga	six
musanvu	seven
munaana_	eight
mwenda_	nine
kkumi	ten
kkumi / n'emu_	eleven
kkumi / na bbiri	twelve

LESSON 27

1. Perform one of the actions in Lessons 23-24. For example, pretend you are studying Luganda. Have a student ask you [Oyambala?]. Reply [Nedda, sambala; njiga Luganda.] Ask a student [Oyambala?]. He should reply [Nedda, sambala; njiga Luganda.].
2. In the same way, teach the first person singular negative of all the expressions in Lessons 23 and 24.
3. Ask [Tugolokoka + essaawa / musanvu?]. Students should answer [Nedda, tetugolokoka + ssaawa/musanvu.] In this way, practice first person plural negatives.
4. Mechanical Drill. (Use the name of a member of the class):

_____ agolokoka.	Tagolokoka.
_____ ayambala.	Tayambala.
_____ alya' + ekyenkya'.	Talya' + kyankya'.
_____ agenda mu kibiina'.	Tagenda + mu kibiina'.
_____ ayiga + Oluganda.	Tayiga + Luganda.
_____ ava' mu kibiina'.	Tava' + mu kibiina'.
_____ adda + eka'.	Tadda + ka'.
_____ alya' + ekyemisana.	Talya' + kyamisana'.
_____ azannya.	Tazannya.
_____ awummula.	Tawummula.
_____ anaaba.	Tanaaba.
_____ alya' + ekyekiro'.	Talya' + kyakiro'.
_____ yeebaka.	Teyeebaka.

First, the student should learn to pronounce all the sentences in this table, paying special attention to the tones.

Next, the teacher (or one student) should give a sentence from Column 1. A student should give the corresponding sentence from Column 2, with correct tones.

5. All the sentences in the chart of Step 4 are in the third person singular. Change them to 1 pl. and go through the same procedure.
6. In the same way, change all the verbs to 3 pl., and to 2 sg. Continue to be strict about the tones.

To the student:

The negative of the present tense is not new, having occurred already in Lesson 9. This is the first time, however, that it has occurred with verb stems of such different sizes and shapes. The stem tone of [lya·] in [tálya·] is low while the stem tone of [távâ·] is high falling. The first low tone in [tágólókòkà] is on the fourth syllable, while in [táyám̀balà] it is on the third. This can be quite bewildering. The alternatives are to give up entirely on trying to master verb stem tones, or to learn about the underlying regularities as they are described in the Synopsis.

Optional Vocabulary: ACTIONS

Again, the teacher is invited to bring in vocabulary in enough situations so that the class remains interested, and feels that it is making good progress.

The basic question in this set of vocabulary supplements is [Akola ki?] 'what is he/she doing' or 'what does he/she do?' You may want to introduce it in a conversational setting such as the following:

- |                                     |                                |
|-------------------------------------|--------------------------------|
| T: Omusomesa akola ki?              | What does a teacher do?        |
| S: Simanyi. Akola ki?               | I don't know. What does he do? |
| T Omusomesa asomesa.                | A teacher teaches.             |
| S: (Repeats):<br>Omusomesa asomesa. | A teacher teaches.             |

SCHOOL: Activities

In the same way, introduce the following:

Asoma.	He is reading / studying.
Awandiika.	He writes.

## LESSON 28

1. Familiarization with the sound of the dialog.

Let the students listen to the entire dialog on the tape once or twice. Or read it aloud to them once or twice. Students' books should be closed at all times.

2. Pronunciation buildups.

Have the students repeat the following after you one line at a time. Be very careful of their pronunciation. If necessary, repeat each line two or three times with each student.

| A: Mmm.  | Mmm.  |

To the student:

The substitution-correlation drills under Grammatical Development illustrate concord with demonstratives of the [.no] series, and require the student to produce appropriate concordial forms of the adjectives whose stems are [zungu] 'European' and [lungi] 'good'. For details on the demonstrative, see Ashton, p. 40 and corresponding parts of chapters on other classes; Chesswas, par. 30 and corresponding parts of other chapters. Certain consonant changes are discussed in Ashton, Chapter 2.

In the sentences of these drills, the adjective is taking the place of the main verb, and so has no initial vowel. See Ashton, index under 'Predication without a verb: adjectives'; Chesswas, par. 16.

Glossary:

3. Translation.

Tell the students what each line of the dialog means. Give them the Luganda one line at a time, and have them give you the English. Then give them the English meanings, and have them give you the Luganda. Do not spend more than 10 per cent of the time on this step!

4. Role playing:

Take the part of the first speaker in the dialog. Turn to a student and say the first line. He should reply with the second line. Continue in this way until you reach a good stopping place.

Choose two students and have them act out the dialog between themselves. The first time they should follow the dialog exactly as it is in the book. Later, they should adapt it by using their own names, and the places that they are really from.

5. Grammatical development.

LESSON 29

1. Point to the clock. Go through conversations like the following:

T (pointing to clock): Essaawa / mmeka # kaakati?

S: Essaawa / munaana'.

T: Tukola-ki # essaawa / omunaana'?

S: Essaawa / omunaana' / tudda + mu kibiina'.

Continue this kind of conversation until each student has been asked about 4 or 5 hours.

2. Have the students question and answer each other in this way.

3. Continue to point at the clock. Go through conversations like the following:

T (pointing to clock): Essaawa / mmeka # kaakati?

S: Essaawa munaana'.

T: Twebaka / essaawa / munaana'?

S: Nedda, tetwebaka + ssaawa / munaana'.

T: Twebaka / essaawa / mmeka?

S: Twebaka / essaawa / ttaano'.

To the student:

This lesson is about the perfective tense. Isolated examples of this tense have appeared in earlier lessons: [ntegedde] 'I have understood', [osiibye] 'you have spent the day'. The most obvious problem with this tense is that it uses a different form of the stem. The perfective stem is shown in ( ) in the glossaries. For details on the non-tonal part of this stem, see Ashton, p. 123, 150-2; Chesswas par. 39-42. The key to the tones is the FM pattern (Synopsis, par. 29 and relevant part of the verb paradigm).

LESSON 30

LESSON 31

1. Familiarization with the sound of the dialog

Let the students listen to the entire dialog on the tape once or twice. Or read it aloud to them once or twice. Students' books should be closed at all times.

B:	Mmm.		Mmm.

To the student:

The word [ewammwe] is built on the possessive stem [.ammwe] 'your (pl.)'. The concord [w] has to do with location. Since the possessive does not follow a noun, it is pronounced as a separate word, and can have the initial vowel [e]. The whole word means something like 'at your (place)'. Compare French 'chez vous'.

The word [awo] 'there' is a demonstrative of the [o] series. It is in the same locative class as [ewammwe]. The word [wano] 'here' is the demonstrative of the [no] series for this same locative class.

Ordinal numeral constructions are formed by using the connective (see Lesson 11). The construction that corresponds to 'first' is literally 'of beginning'. It does not contain the stem for 'one'. In 'second' through 'fifth' an extra [ku] stands between the connective and the numeral stem. See Ashton p. 52,386; Chesswas, par. 191-5.

3. Translation

Tell the students what each line of the dialog means. Give them the Luganda one line at a time, and have them give you the English. Then give them the English meanings, and have them give you the Luganda. Do not spend more than 10 per cent of the time on this step!

4. Role playing:

Take the part of the first speaker in the dialog. Turn to a student and say the first line. He should reply with the second line. Continue in this way until you reach a good stopping place.

Choose two students and have them act out the dialog between themselves. The first time they should follow the dialog exactly as it is in the book. Later, they should adapt it by using their own names, and the places that they are really from.

5. Grammatical development.

LESSON 32

1. Pronunciation practice:

2. Teach the question [Kiki # kino?]
3. Ask a student [Kiki # kino?] If he doesn't understand, he should repeat the question to you. You can then answer it: [Ssaati.] etc. Immediately ask the student the question, and have him give you the answer. In this way, teach the meanings of all the nouns in Step 1.
4. Let the students ask you [Kiki # kino?] Allow them to get new nouns that are not in the above list.
5. Teach the sentences [Mpa + (ennoni).] Use it to ask students to hand things to you, and have them use it.

## LESSON 33

1. Take your shoe off and put it on. Do this several times. Each time as you are putting it on, say [Nnyambala + engatto.]. Let the students practice saying it with you.
2. Finally, leave your shoe on, stand up, and say [Nnyambadde + engatto.]. Have a student say [Oyambadde + engatto?]. Reply to him [Yee, nnyambadde + engatto.].
3. Have each student point to his own feet and say [Nnyambadde + engatto.].
4. Take your own shoe off again. As you are putting it back on, have a student ask you [Okola-ki?]. Reply [Nnyambala + engatto.]. Then have one student at a time remove a shoe. As he is putting it back on, ask him [Okola-ki?], and he should reply [Nnyambala + engatto.].
5. Take your shoe off, put it on, and stand up. Have a student ask you [Okoze-ki?], and you reply [Nnyambadde + engatto.]. In the same way, have individual students remove their shoes and put them on again, while reciting [Nnyambala + engatto.]. After they have done so, ask each one [Okoze-ki?], and they should reply [Nnyambadde + engatto.].
6. Have individual students pantomime the actions that were taught in Lessons 23, 24. As they do so, ask [Akola ki?], and have the students answer you. When the student who is pantomiming the action has finished, ask [Akoze-ki?]. Students will probably have to repeat the question back to you the first time, so that you can reply [Alidde + ekyenkya.], [Agenze + mu kibiina.], etc. Continue until the students can reply without prompting to the question [Akoze-ki?].
7. The short sentences in this drill are arranged in sets of four:
  - A. third person singular present    C. third person singular perfective
  - B. third person plural present      D. third person plural perfective

Go through the entire exercise in each of the following ways:

Summary:

This lesson introduces the perfective tense, which makes use of the modified form of the verb stem. It is very important to learn this form of the stem, in addition to the unmodified form that is used in the present tense. For that reason, this lesson contains a large amount of drill in switching between modified and unmodified stems.

LESSON 34

1. Familiarization with the sound of the dialog.

Let the students listen to the entire dialog on the tape once or twice. Or read it aloud to them once or twice. Students' books should be closed at all times.

2. Pronunciation buildups.

Have the students repeat the following after you one line at a time. Be very careful of their pronunciation. If necessary, repeat each line two or three times with each student.

A: Osiibye' otya+nno + ssebo'

A:	Mmm!	Mmm.

3. Translation: (Will be needed for only a few of the lines).

4. Role playing:

Should concentrate on only one section of the dialog at a time. Insist that the students do each section smoothly and correctly, but do not require them to combine the sections.

5. Personal subject prefixes with the two verbs used in greetings.

The verbs in Column B are in the perfective tense, while those in Column C are in the near past tense. Practice the exercise by repeating the sentences aloud after the teacher. Then go through the exercise in each of the following ways:

	<u>Cue</u>	<u>Response</u>
1	A	B
2	B	A
3	A	C
4	B	C
5	C	B

Books should remain closed.

<u>A</u>	<u>B</u>	<u>C</u>
ggwe	Osii <u>bye</u> ' otya+nnoʔ	Wasu <u>ze</u> ' otyannoʔ
mmwe	Musi <u>bye</u> ' mutya+nnoʔ	Mwasu <u>ze</u> ' mutyannoʔ
omusomesa	Asi <u>bye</u> ' atya+nnoʔ	Yasu <u>ze</u> ' atyannoʔ
abaana	Basi <u>bye</u> ' batya+nnoʔ	Baasu <u>ze</u> ' batyannoʔ
nze	Nsi <u>bye</u> ' bulungi.	Nasu <u>ze</u> ' bulungi.
ffe	Tusi <u>bye</u> ' bulungi.	Twasu <u>ze</u> ' bulungi.

6. This looks like a series of conversations. It is only a drill, however, because the responses are all fixed, with no chance for the student to vary his answers according to what is in fact true. Notice that each present tense conversation is matched by an equivalent conversation in the perfective tense. Practice first by repeating aloud after the teacher. Books should remain closed most of the time.

## LESSON 35

1. Have the students use the question [Kiki # kino?] in order to learn the following nouns:

ekkala <u>a</u> mu	ens <u>a</u> wo
ekita <u>b</u> o	ekifa <u>a</u> nanyi
essa <u>a</u> wa	ebbalu <u>u</u> wa y'ekk <u>u</u> bo
ensim <u>b</u> i	empeta

In answer to the question [Kiki # kino?], these words will of course be used without initial vowel.

2. Point to your own watch. Say [Nnina + essaawa.], and immediately ask a student who has a watch [Olina + essaawa?]. He should reply [Yee, nnina + essaawa.]. Do the same with all the objects listed in Step 1.
3. Remove your own watch, put it aside, and say [Sirina + ssaawa.] Or use the name of some other object that you do not have, such as [Sirina nsimbi.] Have a student ask you [Olina + (essaawa)?], and reply [Nedda, sirina + ssaawa.]
4. DRILL: Affirmative vs. negative, 'have'.

essa <u>a</u> wa	Olina + essa <u>a</u> wa?	Sirina + ssa <u>a</u> wa.

6. Ask the students [Olin (essaawa)?], using the names of as many objects as they know. They should answer affirmatively or negatively, whichever is true.
7. Practice with the question [(John) alin + (essaawa)?]. Answers should again be either affirmative or negative, whichever is true.

Summary:

This lesson introduces the negative present forms of 'have'. Take all opportunities, outside of class as well as in, to ask people in Luganda whether they have this or that.

To the student:

This word that is translated 'have' is derived from a phrase meaning 'be with'. It is pronounced as a single word in modern Luganda, however.

LESSON 36

1. Give the students practice in pronouncing the following sentences:

Ku (mmeeza) # eno / kuliko + (ensimbi).

Mu kibiina # kino / mulimu + (entebe) / (ttaano).

2. Using gestures, teach the students the meanings of the above sentences. Make some additional true statements by substituting other words for the words in ( ). Have the students repeat these statements after you. Ask [Mutegedde?] to be sure that they understand each sentence that they repeat.

3. Ask questions of these kinds:

Mu kibiina # kino / mulimu + (essaawa)?

Mu kibiina # kino / mulimu + (essaawa) / mmeka?

Ku mmeeza # eno / kuliko (ebitabo)?

Ku mmeeza # eno / kuliko (ebitabo / bi)meka?

4. DRILL: Affirmative vs. negative 'there is'

	'There is one chair inside.'	'There aren't many chairs inside.'
ente <u>be</u>	Mu <u>limu</u> + ente <u>be</u> / emu'.	Temu- <u>li</u> + nte <u>be</u> / nny <u>ingi</u> .
ekifa <u>ananyi</u>	Mu <u>limu</u> + ekifa <u>ananyi</u> / kimu'.	Temu- <u>li</u> + bifa <u>ananyi</u> / bingi.
ebba <u>luuwa</u>	Mu <u>limu</u> + ebba <u>luuwa</u> / emu'.	Temu- <u>li</u> + bba <u>luuwa</u> / nny <u>ingi</u> .
abantu	Mu <u>limu</u> + omuntu / omu'.	Temu- <u>li</u> + bantu / bangi.
omulimu	Mu <u>limu</u> + omulimu / gumu'.	Temu- <u>li</u> + mirimu / mingi.

5. Continue with questions like the ones in Step 3, but add questions like:

Olina + ensimbi?  
 Olina + ekkalaamu / mmeka?  
 Tulina + essaawa?  
 (John) / alina + ekitabo?

The students' answers should be factually true, as well as grammatically correct.

Summary:

'Have' with locative subject prefixes is commonly translated 'there is / are'. Take every opportunity, both in class and outside, to comment on the presence or absence of various articles.

To the student:

In [mulimu], the first [mu] is a subject prefix of one of the 'locative' classes. These classes, as their name indicates, have to do with locations, rather than with things. The [mu] class has to do with location inside of something. Similarly, the [ku] in [kuliko] is the subject prefix for a locative class which in Luganda stands for specific location, often on something. See Ashton, p. 249-50; Chesswas, chapter XIV.

The final enclitics [mu] and [ko] of course represent the same classes as their respective subject prefixes. They are found only in the affirmative.

Glossary:

	.li <u>na</u> (.badde na)	have
Compare:	.li ne	be with

### 3. Translation:

Tell the students what each line of the dialog means. Give them the Luganda one line at a time, and have them give you the English. Then give them the English meanings, and have them give you the Luganda. Do not spend more than 10 per cent of the time on this step!

4. Role playing:

Take the part of the first speaker in the dialog. Turn to a student and say the first line. He should reply with the second line. Continue in this way until you reach a good stopping place.

Choose two students and have them act out the dialog between themselves. The first time they should follow the dialog exactly as it is in the book. Later, they should adapt it by using their own names, and the places that they are really from.

5. DRILL: Tone shifts with [n'-] 'and, with'.

LESSON 42

This lesson also is based on three versions of a recorded monolog.

1. Listen to all three versions straight through just to see how much you can pick up.
2. Learn the following short sentences so that you can give them easily and correctly in response to the English equivalents.

2. Ask a student: [Leero wagolokose essaawa mmeka ez'enkyā?]. He will either reply [Leero nagolokose essaawa....] or, he will repeat the question. In either case, the sentence [Leero nagolokose essaawa....] will be used by you or by him. Repeat this procedure for all the sentences in Step 1.

3. Ask a student: [Leero wagolokose essaawa mmeka?], or have a student ask you the question.

Repeat the process with all the verbs that were used in Step 1.

4. DRILL: Present vs. near past tenses.

6. Have each student tell (in the near past tense) as many things as he can that he did earlier today. Ask him at what time he did some of them.

7. Carry on conversations like the following. Substitute other verbs and other times in place of the words in (        ).

T: O(yambala) kaakati?

S: Nedda, na(yambadde) essaawa / (emu).

T: O(yiga + Oluganda) kaakati?

S: Nedda. Si(yiga Luganda) kaakati;  
na(yize Oluganda) essaawa (nnya).

To the student:

For detailed non-tonal information on the near past tense, see Ashton, p. 112; Chesswas, par. 62-4. The tones of the affirmative, both indicative and relative, are based on pattern FX(Synopsis, par. 31 and relevant part of verb paradigms).

How to use lessons written in the 'microwave' format.

Lesson 44 and the lessons that follow it are in the 'microwave' format. Each 'microwave' lesson contains one 'cycle'. A 'cycle' begins with the introduction of new material, and ends when that material has been used for communication. 'Communication' should be real, not just simulated.

Each cycle contains at least an 'M phase' and a 'C phase'. 'M' stands for mimicry of pronunciation, manipulation of grammatical elements, learning the meanings of the words and sentences, and a certain degree of memorizing. 'C' stands for connected conversation, and of course for communication. Suggested procedures for use in presenting the M and C phases are given below.

Ways of conducting the M phase in each cycle.

1. Mimicry of the teacher's pronunciation.
  - a. Say aloud each of the complete sentences. Have the students repeat them after you. Try to talk at a slow normal rate of speed.
  - b. When you hear a wrong pronunciation, correct it by giving the right pronunciation again. For example, if a student says [lero] in Lesson 44, simply say [leero], and have him say it again after you. Or say 'Ssi [kankya], wazira [kyankya]' and have him repeat the correct pronunciation.

When all the students can pronounce all the words and sentences well, teach them the meanings:

2. Meanings of the sentences.
  - a. Have the students repeat a whole sentence after you. Then give the English, and have them give the Luganda.  
For example: T: Saalidde kyankya.  
S: Saalidde kyankya.  
T: I didn't eat breakfast.  
S: Saalidde kyankya.
  - b. Give sentences at random in either English or Luganda. Have the students translate into the other language. Do this only long enough so that you are sure the students know the meanings of the Luganda sentences. It should not be necessary to spend more than 3 minutes on this.

When the students know the meanings, go on to manipulation of the grammatical structures of the sentences:

3. Give the students a key word. The students reply with the corresponding complete sentence.

For example: T: Saalidde kyankya.  
S: Saalidde kyankya.  
T: okuteekateeka  
S: Saateeseteese kyakuyiga.  
T: okufuna  
S: Saafunye bbaluuwa.

When the students are able to perform well all of the activities outlined above, they are ready for the C phase. Experience has shown that instructors working with classes of 5-10 students can complete the average M phase in 10-20 minutes.

#### Ways of conducting the C phase of each cycle.

The C phase consists of one or more short conversations. For each conversation:

- a. Take the part of the first speaker in the conversation, and have students take turns as the second speaker.
- b. Let students take both parts in the conversation.

It is important in the C phase to talk about people, places, and things what are of interest to the students. Substitute other words for the ones that are in ( ).

For example, C-1 in Lesson 44 is:

A: Leero wa(lidde ekyenkya)?  
B: Yee, na(lidde ekyenkya).

This stands of course for the conversation:

A: Leero walidde ekyenkya?  
B: Yee, nalidde ekyenkya.

but it also stands for the conversations:

A: Leero wafunye ebbaluuwa?  
B: Yee, nafunye ebbaluuwa.  
A: Leero wagolokose mu matulutulu?  
B: Yee, nagolokose mu matulutulu.

It does not, however, stand for:

A: Leero walidde ki?  
B: Nalidde...

or for:                   A: Jjo walya ekyenkya?  
                          B: Yee...

In many cycles, the teacher or the students may feel it worthwhile to introduce extra vocabulary. They are encouraged to do so, being sure that:

- a. the new words are of special relevance to the interests of the students, and
- b. the new words fit into the C phase at one of the points enclosed in (    ).

As soon as the students are able to converse easily, correctly, and informatively using the material in the C phase, the cycle has ended. Go on to the next cycle, or review an earlier cycle. Experience has shown that the average amount of time spent on each of the first 50 cycles is about one hour. This includes the first presentation of the cycle, and one or two reviews of it on later days. The first time through a new cycle therefore takes no more than 20-30 minutes. Cycles with many extra drills will of course take longer.

As much as possible, have the students act as well as talk: pointing to a map, standing up to talk, and other simple activities add meaning to the words. Activities also help to keep the students from getting tired and restless.

Because of the extreme shortness of the 'cycles', the principal component of this course has been given the name 'microwave.'

The 'microwave' part of the course is supplemented at regular intervals by a second component. The second component is based on a series of short connected texts, which have two important properties: (1) the information which they contain, like most of the information in the cycles themselves, is factually accurate, and (2) they are based on a set of spontaneous monologs and dialogs recorded with no special restrictions on grammar or vocabulary.

The materials in the textual component of this course differ among themselves, so that separate instructions are given for each group. In general, however, they require the student to take responsibility for responding to each text in more than one way, so that he focuses his attention on it from two or more points of view.

The textual component is suited for presentation either in a language laboratory or in a conventional classroom. Either way, it provides the student with a change of pace.

### Summary:

This lesson gives considerable practice with near past forms, affirmative and negative. No amount of practice will cause these forms to stick with the student, however, unless he also uses the forms on his own initiative, in real life.

### To the student:

The tones of the negative near past tense forms are all based on pattern FM (Synopsis par. 29).

The goal is to have the dialog practically memorized, and then to modify and adapt it for your own purposes. Note that tone is now indicated only by underlining the marked moras and writing the junctures in the full sentences only.

To the student:

The interrogative element [kiʔ] is an 'enclitic'. That means that it is pronounced as a part of the word that precedes it. It may follow nouns or verbs. When it follows a noun, as in this lesson, the noun loses its initial vowel. Between the noun and the enclitic there is a [+] juncture (Synopsis, par. 36), but no word boundary (Synopsis, par. 5, 11-17). The interrogative particles are followed by [ʔ] phrase terminal intonation (Synopsis, par. 48(4)), which means that its tone is high level, and not high falling.

To the student:

For information about the (far) past tense, see Ashton, p. 122; Chesswas, par. 63. Tonally, all forms without object prefix--affirmative and negative, indicative and relative--have the stem pattern MM (Synopsis, par. 30); all forms with object prefix have the stem pattern FM (Synopsis, par. 29). The mora that follows the subject prefix must have a mark. This mora may be the tense sign [a] itself, or it may be the first mora of the stem. In this tense, all object prefixes are marked.

Draw on elements in this dialog in order to practice asking about people's birthdates and marital status.

To the student:

In the expression [ku baganda bange], the particle [ku] has a 'partitive' meaning, something like English 'some of'. See Ashton, p. 420; Chesswas, par. 148.

The verb [baafumbirwa] 'who are married' is an example of a far past relative form, with stem tone pattern MM.

Although we will not practice it, a new tense is exemplified in [sinnaba'] 'I have not yet been'. The tense sign is [nna].

To the student:

In the expression [gye tuli], the word [gye] is an object copula. Tonally, it requires the subject prefix of the verb that follows it to be unmarked (Synopsis, par. 43). Ashton calls it the 'emphasized object' construction (p. 242), or 'a way of helping to form the complement of place to verb LI' (p. 57,240).

This dialog contains the 'presentative' form [kaako] 'is there (near you)'. Other series of presentatives exist, with the approximate meanings 'is here' and 'is over there'. Each presentative has the same concordial class represented twice. See Ashton, p. 41ff under 'demonstratives used predicatively'; Chesswas uses the English phrase 'here it is' to refer to these forms. See par. 35 and corresponding parts of the chapters on other noun classes.

To the student:

What are called 'object infixes' by some writers are called 'object prefixes' by others. For details, see Ashton, p. 25, 225; Chesswas, par. 18-21 and corresponding parts of chapters on other concordial classes. As pointed out in the Synopsis, object infixes are marked only in the infinitive and in the near past and far past tenses. Elsewhere, they are unmarked.

To the student:

The form [okubabuuza'+ko] consists of the infinitive [okubuuza'] with the object infix [ba], and the enclitic [ko]. As pointed out in the note for Lesson 56, an object infix used with the infinitive is marked. The infinitive also requires a [+] juncture before enclitics. The extra mora at the end of [okubuuza'] is characteristic of causative stems. For details about causatives, see Ashton, p. 150ff, which shows how the extra mora results from an original \*[y], and pp. 340-8; Chesswas, par. 174-7.

To the student:

The form [muyingire] 'enter (pl.)!' is subjunctive, used here as a kind of command. For more information about subjunctives, see Ashton, pp. 29-30, 220-6 and other references listed in the index; Chesswas, par. 110-11. Tonally, the subjunctive has the unique pattern --M, according to which nothing is marked except the last syllable: even diphonic subject prefixes such as [mu] are unmarked. Unlike the final [e] of many modified stems (i.e. [fulumye']) the final [e] of the subjunctive does not carry an extra mora.

To the student:

For further information about the near future tense, see Ashton, p. 124; Chesswas, par. 65-7. Note particularly that the vowel of the tense prefix changes to [o] after the subject prefix [o] and [e] after the subject prefix [e]. Tonally, the stem pattern for affirmative indicative is FF (Synopsis, par. 28); for affirmative relative and for all negatives, the pattern is FM (Synopsis, par. 29).

Although the near future tense with prefix [naa] is frequently used, it is paralleled by a two-word ('periphrastic') tense construction which consists of some form of [.jja] 'come' followed by the infinitive of the main verb. For this reason, the

drills involving the [naa] tense are given also with this periphrastic future. For more information about the periphrastic future, see Ashton, p. 318; Chesswas, par. 186.

To form the negative of the near future we change the final [-a] of the verb stem into [-e] and then double the vowel of the negative pronoun prefix.

ggwe	Onoogenda eka?	Siigende ka.
nze	Nnaagenda eka?	Toogende ka.

To the student:

The negative counterpart of the near future tense is not formed simply by prefixing [te]. Instead, an entirely different form is used, which looks like a negative subjunctive. See Ashton, p. 128; Chesswas, par. 90. Tonally, the stem has the pattern FM (Synopsis, par. 29). The negative of the periphrastic future (see Lesson 63) is of course made by using the negative of the appropriate form of the auxiliary verb [.jja] 'come'.

## M-2

okusitula	Mulisitula ddi + okugenda mu Uganda?	When will you set off to go to Uganda?
okugenda	Muli-genda mutya?	How will you go?

The infix [-li-] indicates an action taking place after twenty-four hours or at some unspecified time in the future.

### To the student:

The general future is characterized by the tense prefix [li]. See Ashton, p. 124; Chesswas, par. 68-9. Tonally, this tense is peculiar in that a [-] juncture without word boundary follows [li] if the stem is of the unmarked class. This applies to the affirmative indicative and to all negative forms, which have the stem tone pattern FF. Whether [-] is found also in affirmative relative forms of unmarked verbs is impossible to determine positively, since the stem tone pattern there is FX. (For the meaning of [-], see Synopsis, par. 45-47.)

There is a 'periphrastic' future (see Lesson 63) construction which corresponds to the [li] tense; its auxiliary verb is [.genda]. See Ashton, p. 318.

### To the student:

The 'narrative tense' is not really a tense in Luganda. Rather, it is a construction which consists of [ne] plus a relative form of the present tense. This relative form has no initial vowel. The subject prefix of the relative verb is marked, even if it is monophonic. (See Synopsis, par. 44, for another construction in which all subject prefixes are marked.) For non-tonal information concerning this narrative tense, see Ashton, p. 227-8; Chesswas, par. 71-2.

To the student:

The locative prefix [wa] figures prominently in this dialog. See Ashton, chapters 19,20; Chesswas, par. 137-44. The locative classes, like the other classes, may require that the subject prefix of a verb agree with them.

Concerning the object relative construction, see Ashton, p. 146; Chesswas, par. 24 and corresponding parts of chapters on other concordial classes. For tonal information, see the Synopsis, par. 44.

On comparisons of inequality, see Ashton, p. 396.

See Ashton, p. 37, 138ff under 'subject relative'; Chesswas, par. 33 and corresponding parts of chapters on other concordial classes. Nouns which follow the copulas always drop their initial vowels.

The object copula ('emphatic pronoun with object'), unlike the subject copula, is pronounced as a separate word. See Ashton, p. 143ff; Synopsis, par. 14, 43.

Both the subject copula and the object copula are to be distinguished from the object relative. For the tonal aspect of these distinctions, see Synopsis, par. 14, 42-4.

LESSON 94

Listen to the first version of this text and answer the following:

The first sentence ends with the word [kizinga].  
This word apparently means:

port          small town          island

[c]

The first sentence contains two relative verb forms. What are they?

?                      ?                      ?

[olujja 'which  
comes' olufuluma  
'which goes out']

The particle [bw'] occurs before two verbs in the second sentence. It apparently means:

when                  how                  because

[a]

The verb [-tambula] apparently means:

go on          turn around          be careful

[a]

Write down the first version by dictation from the tape. Do not write the tones. Check your work by referring to the following:

Okuva Entebbe okwata oluguudo olujja e Kampala.  
 Okuva Entebbe waliwo oluguudo lumu lwokka  
 olufuluma ebweru w'ekibuga Entebbe, kubanga  
 Entebbe kizinga. Bw'okwata oluguudo, ojja

 Kwe kugamba okuva e Kampala okutuuka Entebbe  
 ze mayiro ng'amakumi abiri mu bbiri oba abiri  
 mu ssatu.

NB This text is written from the point of view of a person  
 who is in Kampala at the time of writing.

Before listening to the third version of this text, try  
 to supply the concordial elements in the first three  
 sentences:

Entebbe \_\_ri mu maserengeta \_\_a Buganda. \_\_e  
 kitebe \_\_\_\_kulu e 'omufuzi \_\_\_\_kulu \_\_\_\_a  
 Uganda. \_\_rimu \_\_\_\_saawe \_\_\_\_'ennyonyi \_\_a  
 Uganda.

List all of the relative verb forms in the third version,  
 and check your answers with the following:

[olujja, olufuluma, eriri]

The phrase [ebeera + omufuzi + omukulu] means  
'where the head of state lives.'

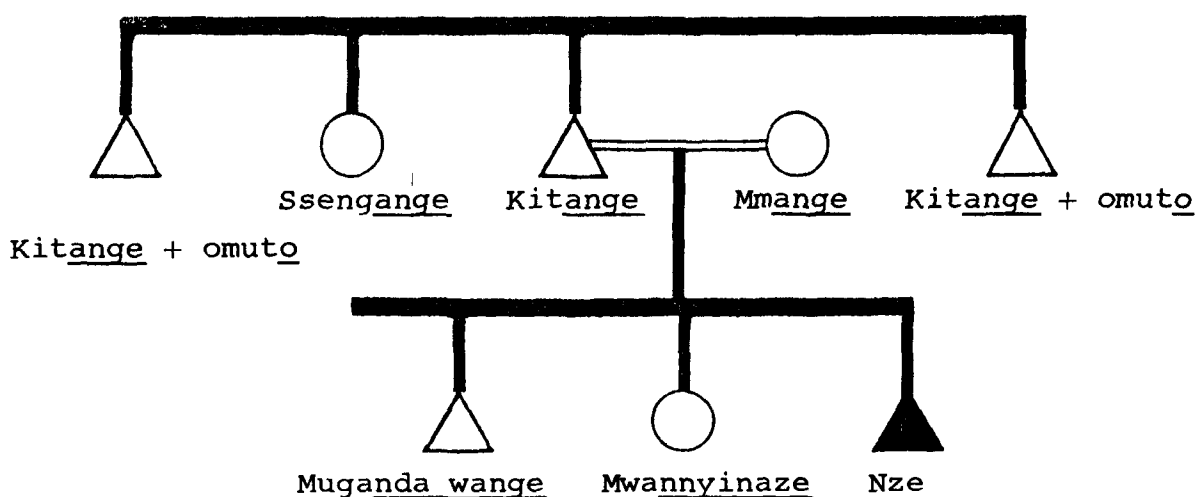

Copy the second version by dictation from the tape. Mark tones only on the numerals. Check your work by referring to the following:

Entebbe kye kibuga ekikulu mu Uganda, ebeera  
omufuzi omukulu owa Uganda. Kiri kumpi  
n'ennyanja Victoria; okuvaayo okutuuka e  
Kampala ze mayiro / amakumi / abiri / mu

## GLOSSARY

Words in this glossary are alphabetized beginning with the first letter of the root. Prefixes are left out of account. In this way, words that are related to one another usually are found next to each other. In order to make the listing easier to follow, the words have been spaced so that the first letters of the roots form a straight vertical column on the page.

The symbol [.] has been used to separate certain elements of the word from each other. It has no phonetic value. At the beginning of an entry, it indicates that the form in question must be preceded by some kind of prefix.

The symbol [·] stands after a final vowel which is doubled when it is followed by a personal possessive or other enclitic.

Underlining indicates tonally 'marked' parts of a word. Rules for converting the marks into tones are given in the Synopsis, par. 45-7.

The symbol (3!) means that the noun in question is marked on the third mora. The location of the mark thus shifts according to the presence or absence of an initial vowel.

The presence of ( ) around a word means that there was no opportunity to check it for tone.

In some foreign words, the junctural symbol [-] has been placed between a short marked syllable and a following syllable which is marked on its first mora.

In a very few words, it has been necessary to indicate tones directly by ['] for high and [`] for low.
