Fold up

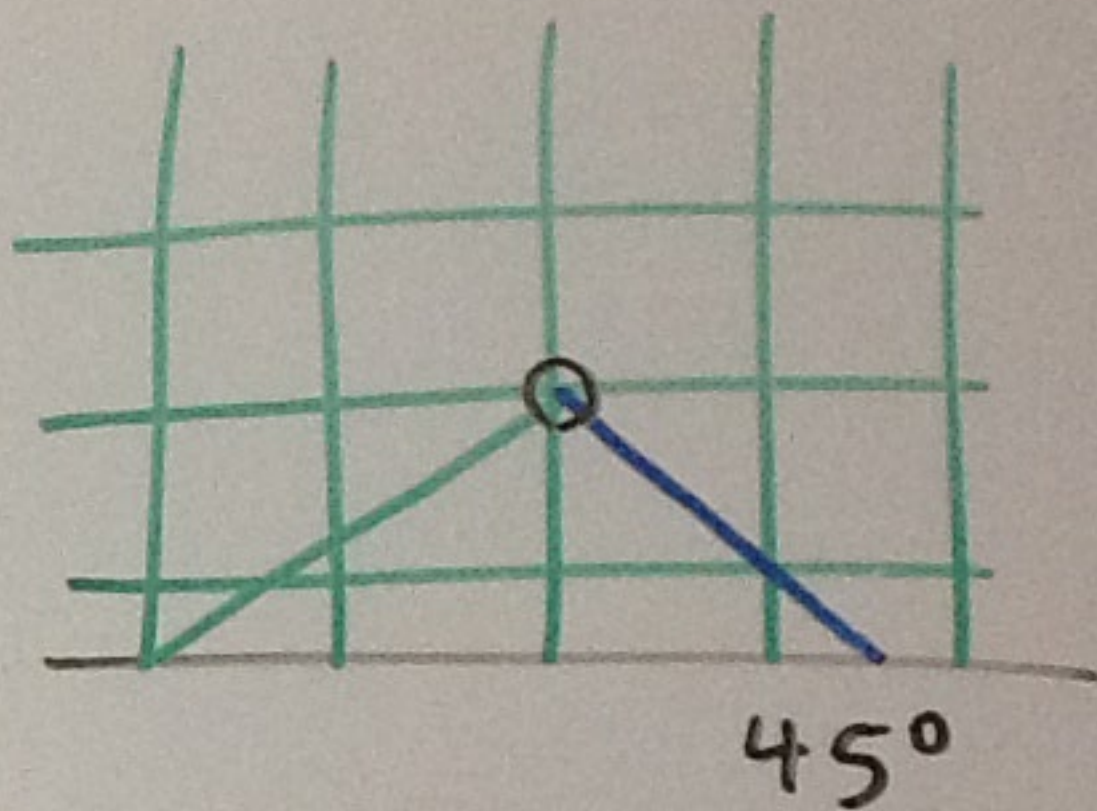

MVC

Crease. Note
landmarks.

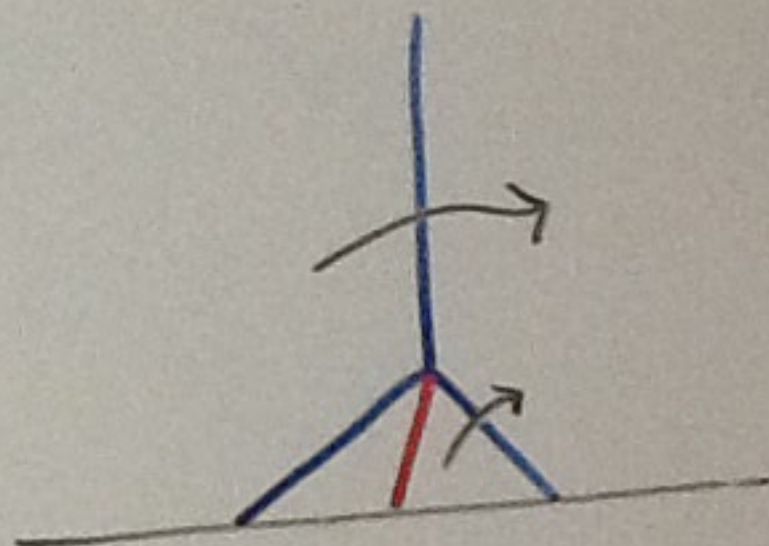

MVC

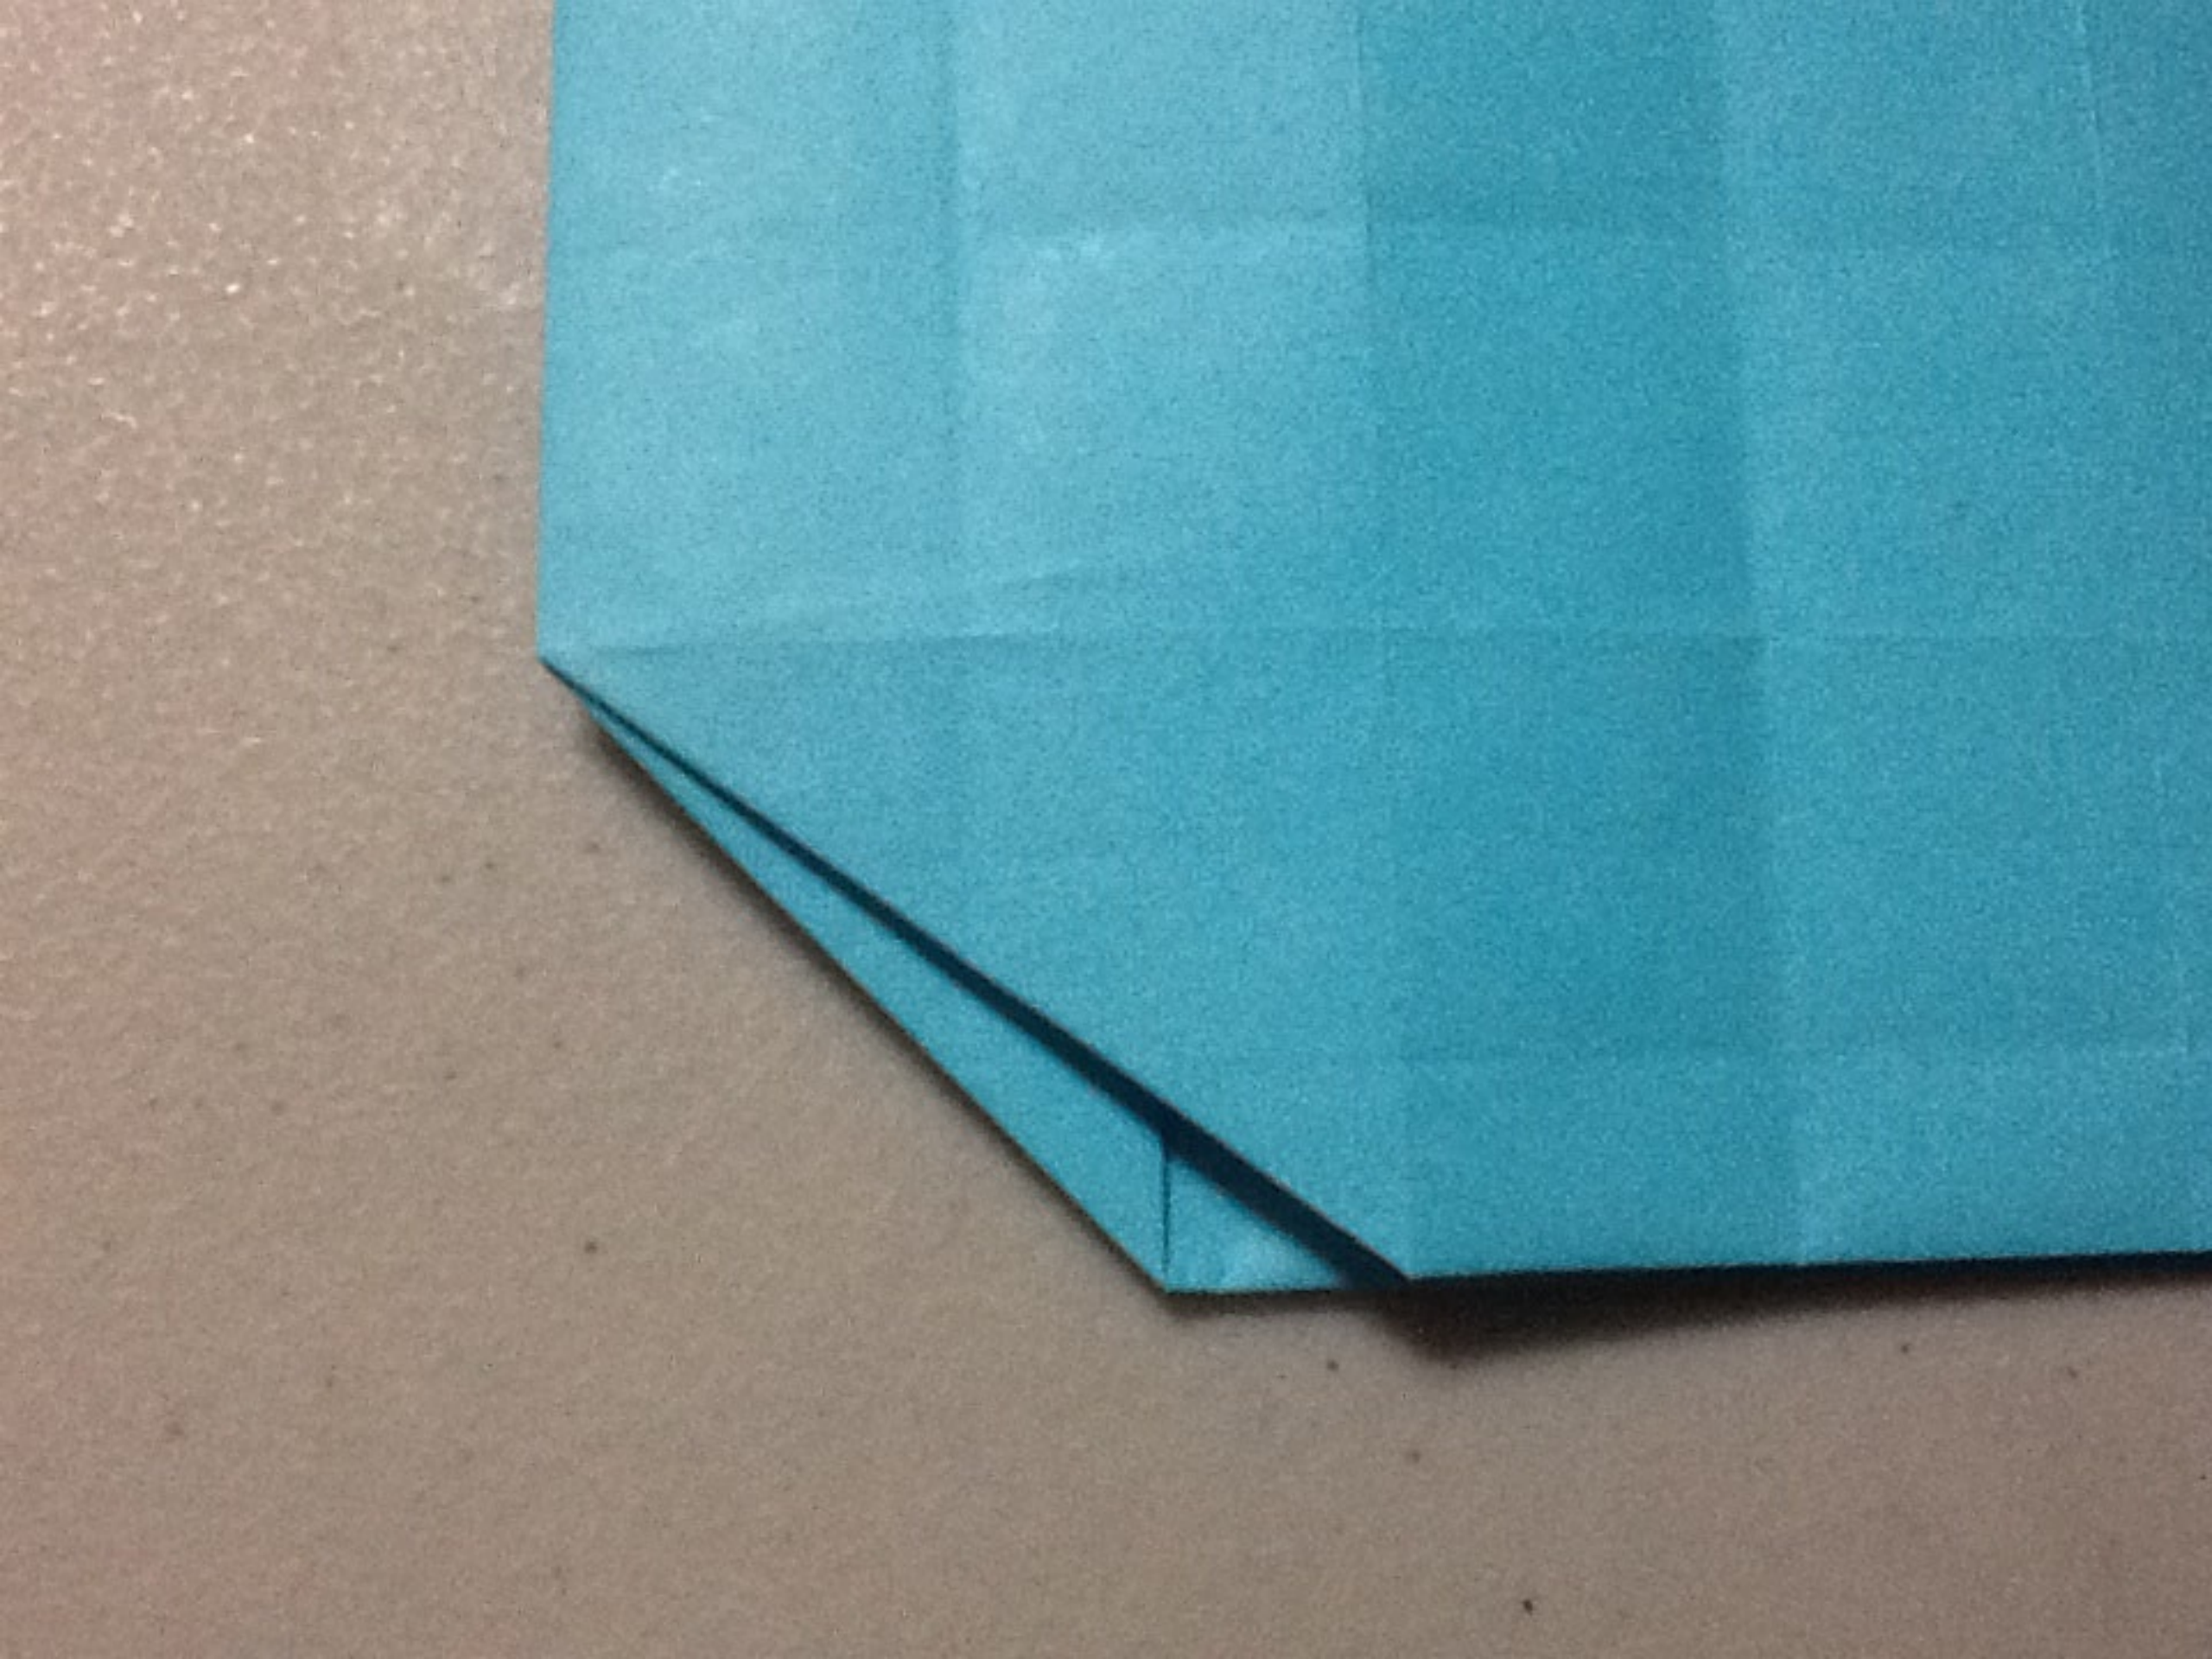

Crease

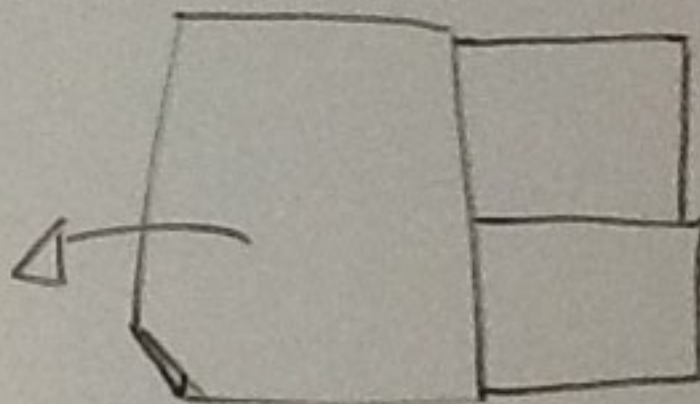

MVC

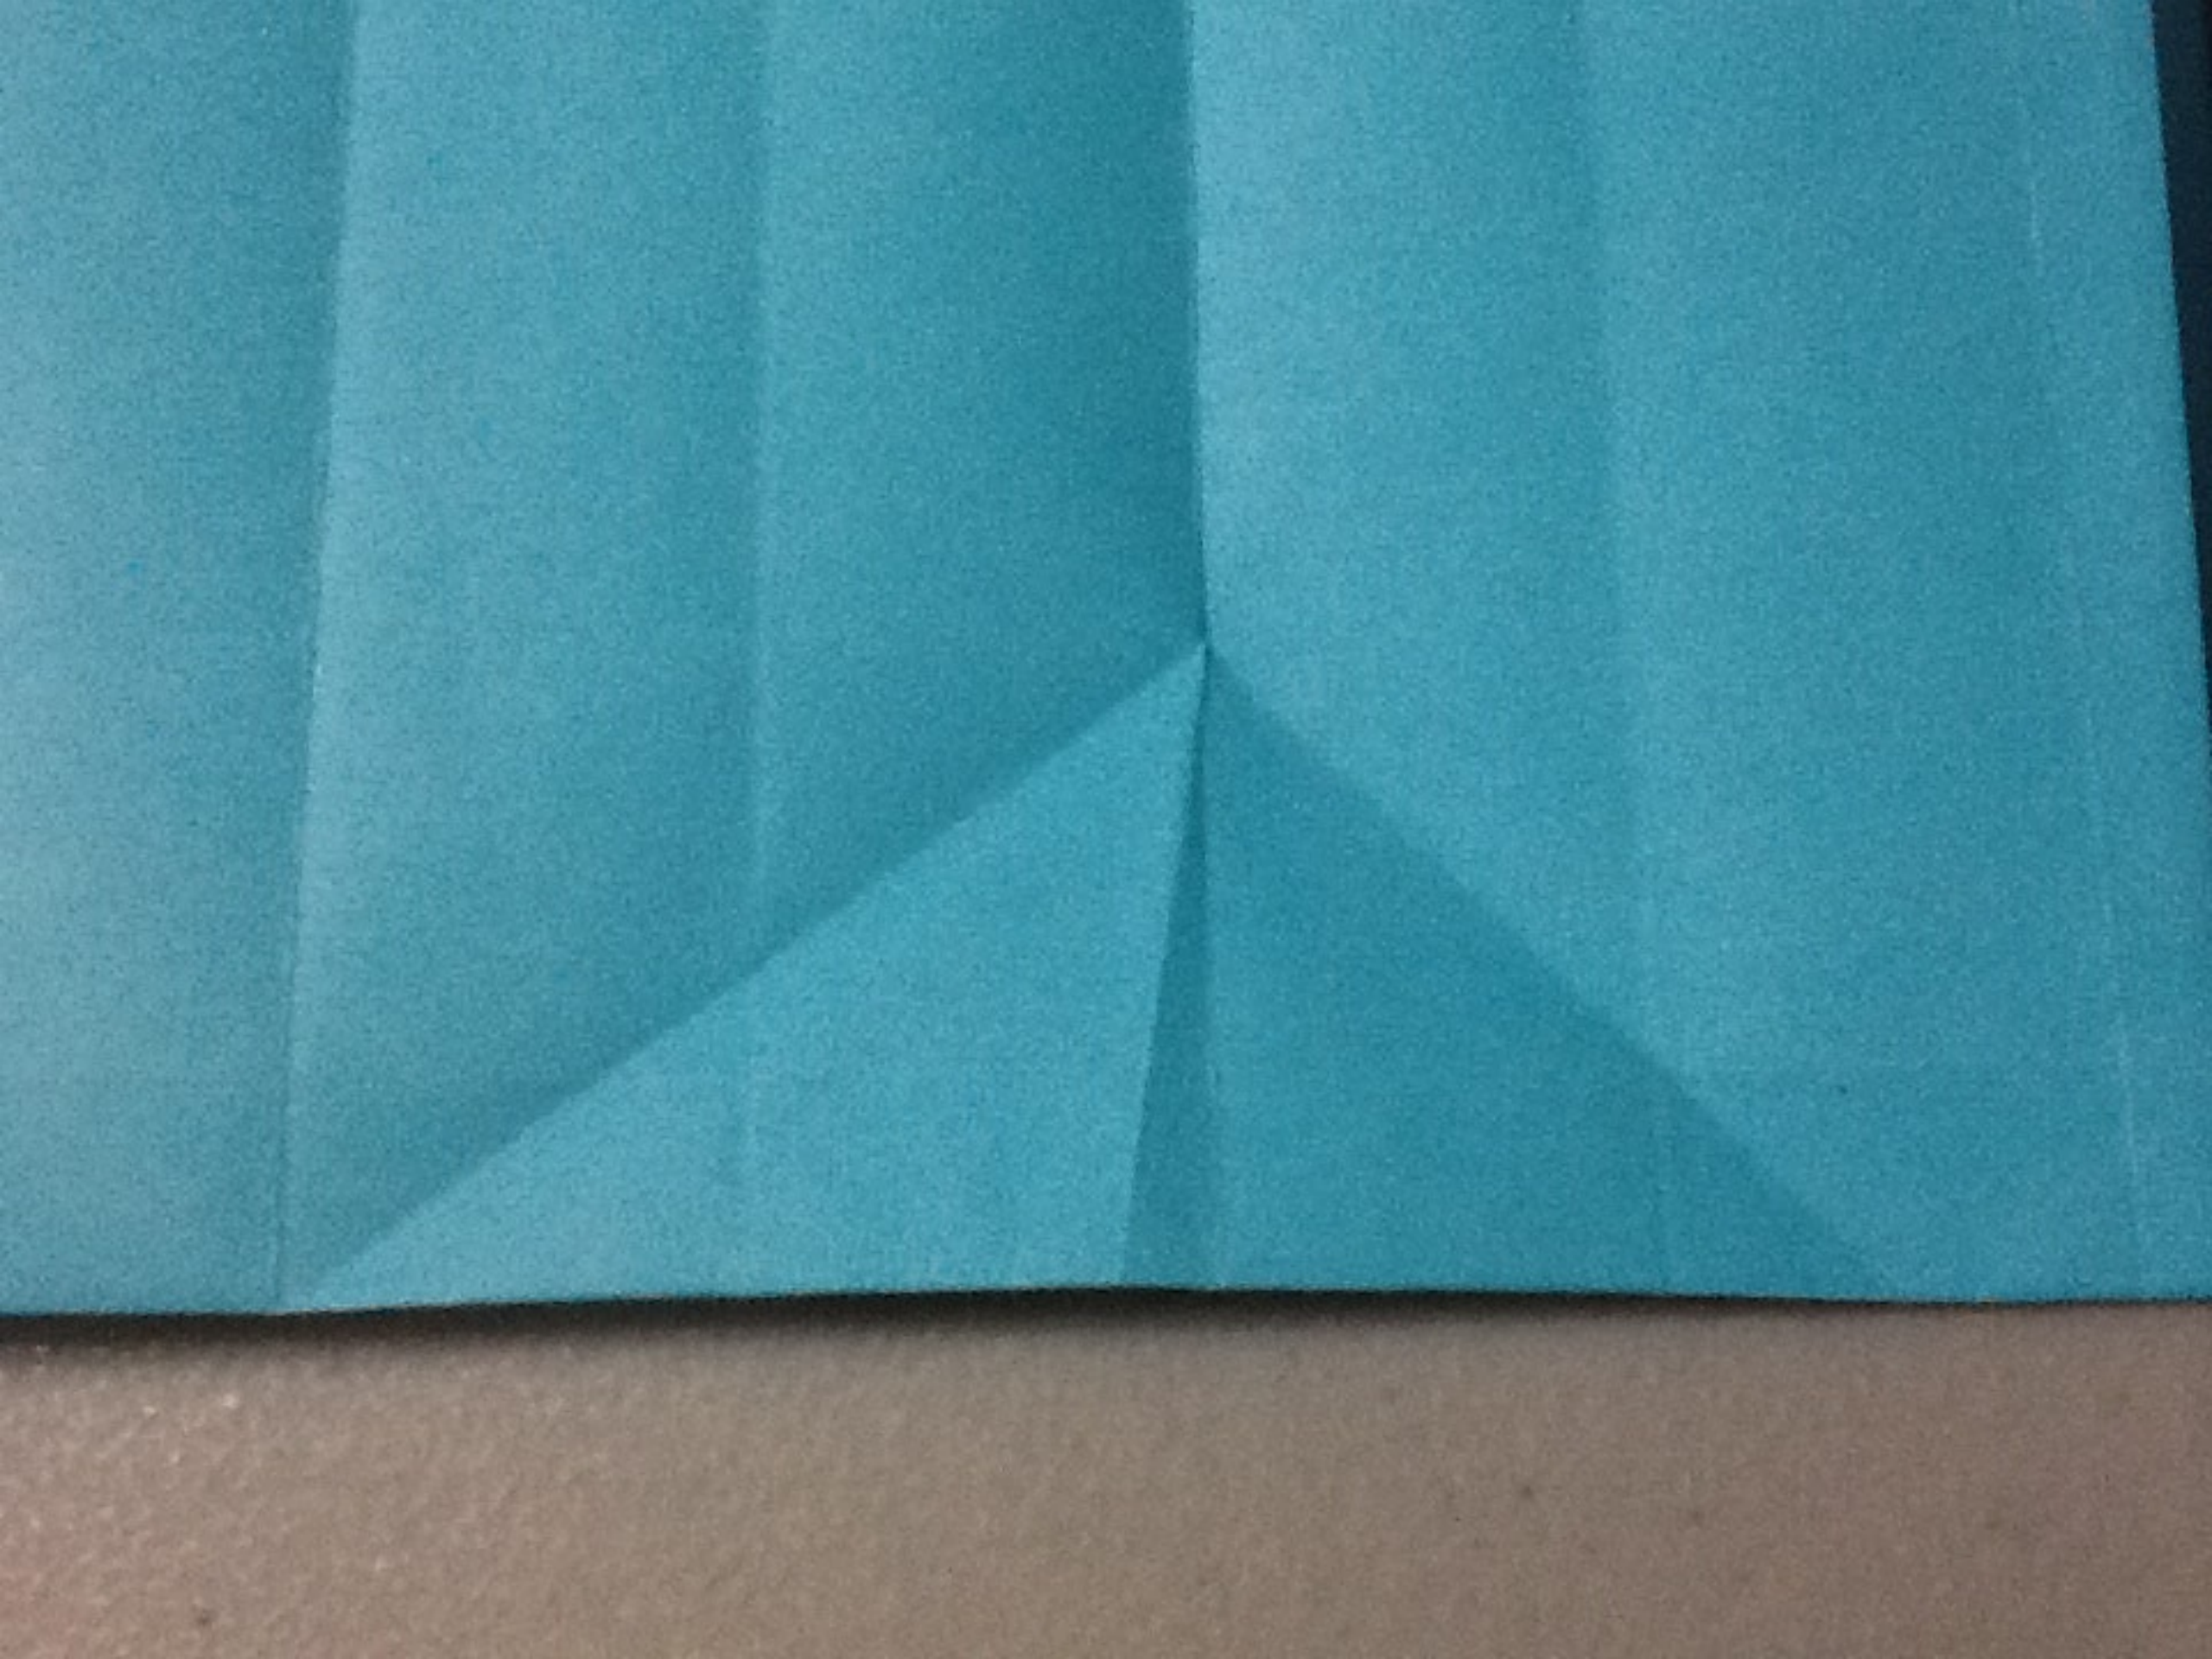

Fold over and
reverse on existing
creases, making the new
mountain fold.

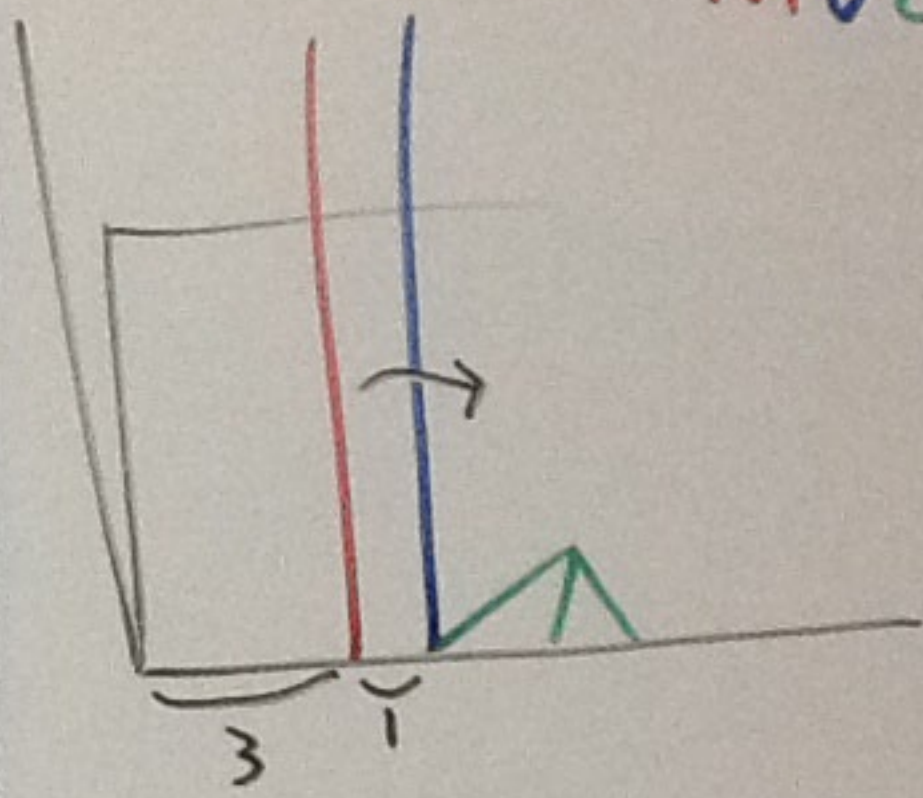

MVC

Unfold

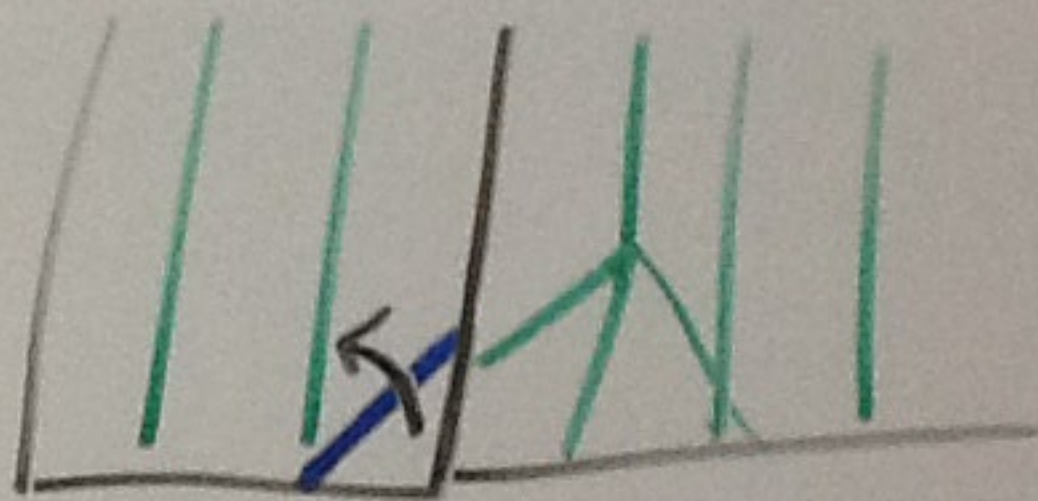

MVC

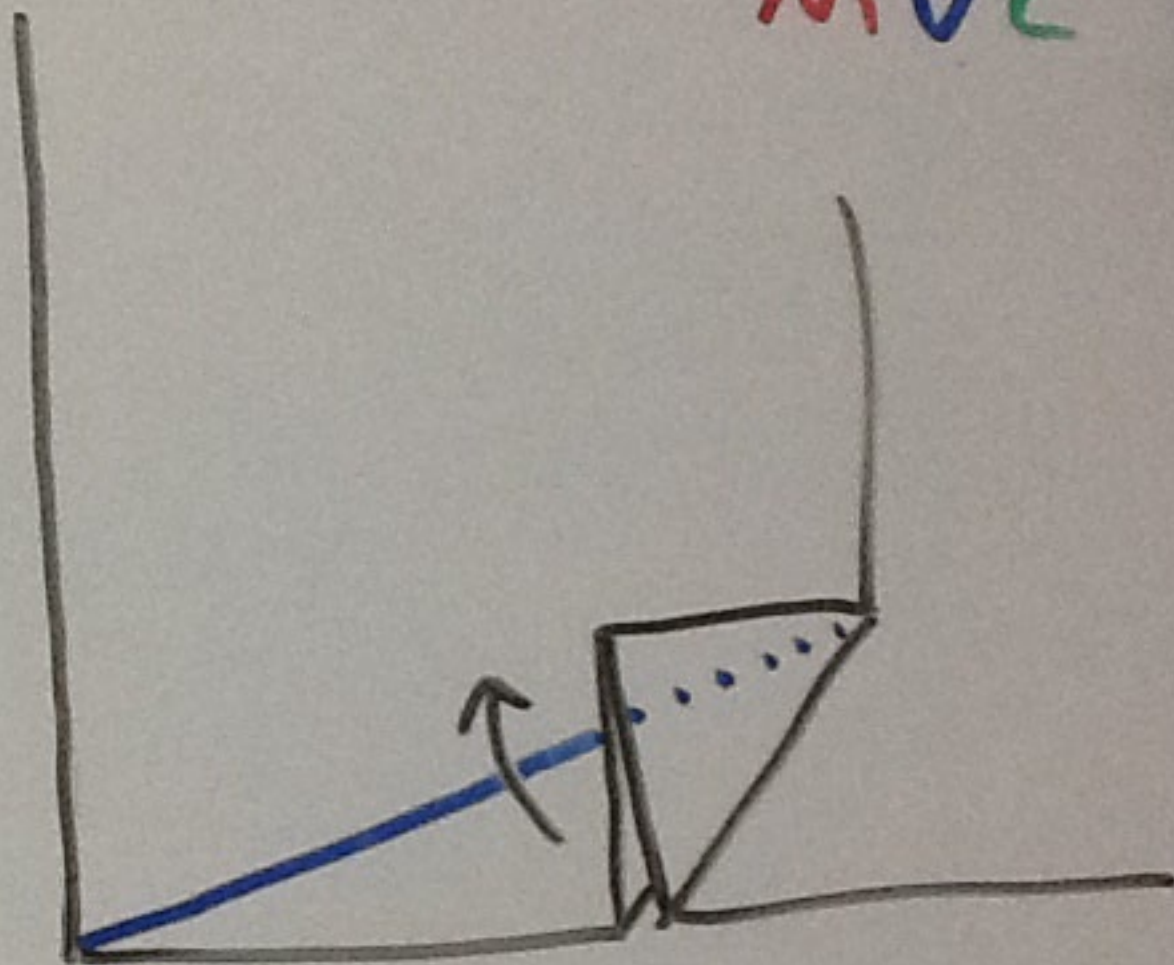

Pleat

MVC

Fold up 45°

MVC

Slide up

MVC

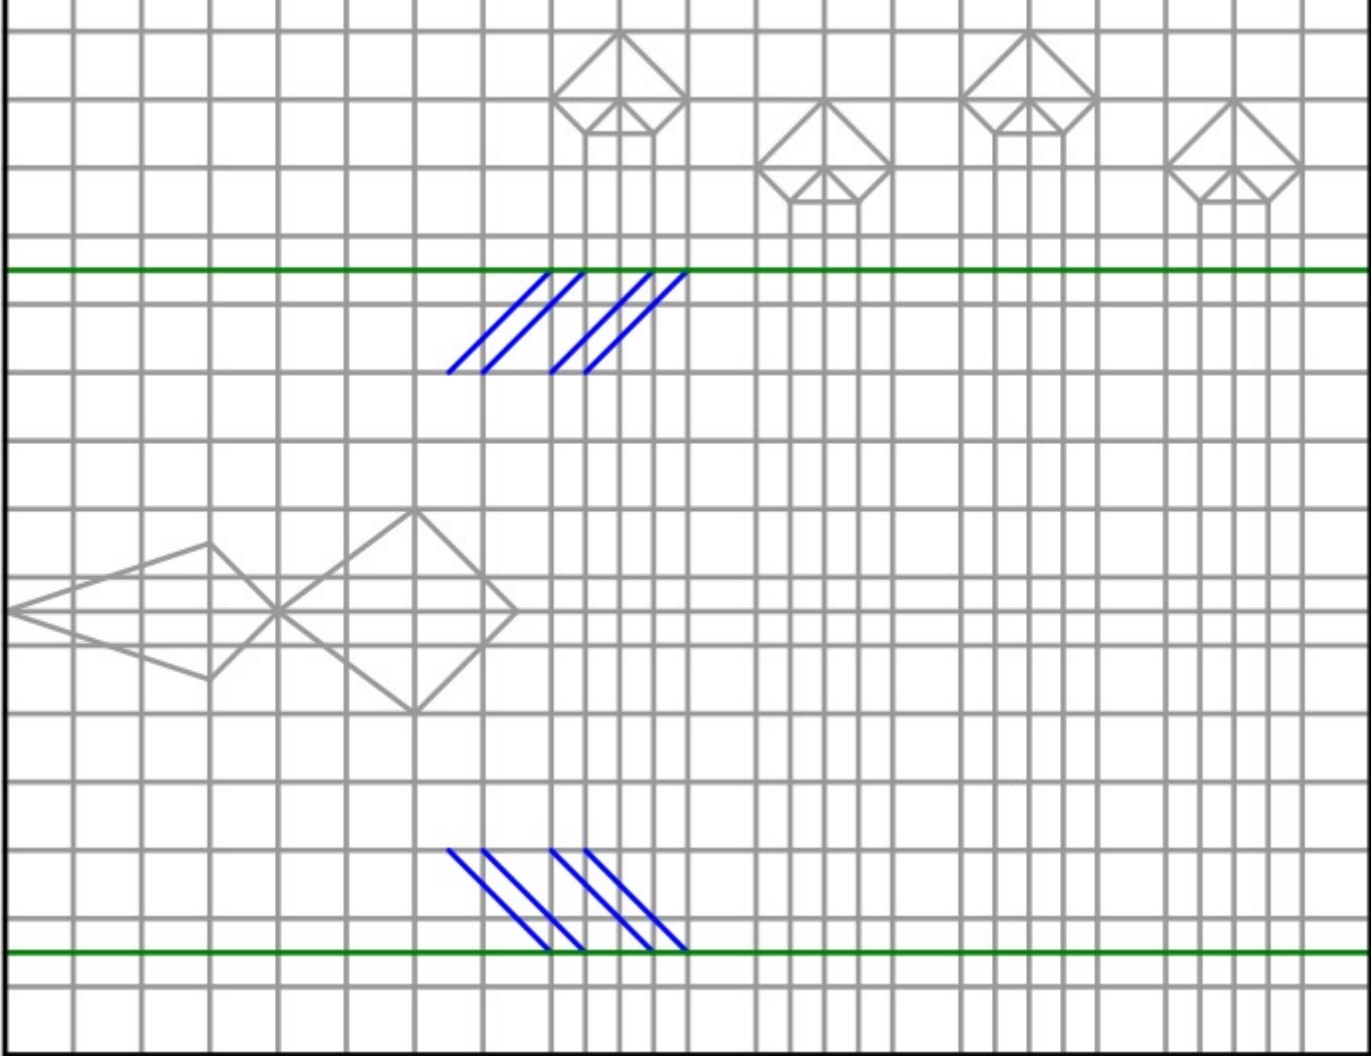

Unfold
everything

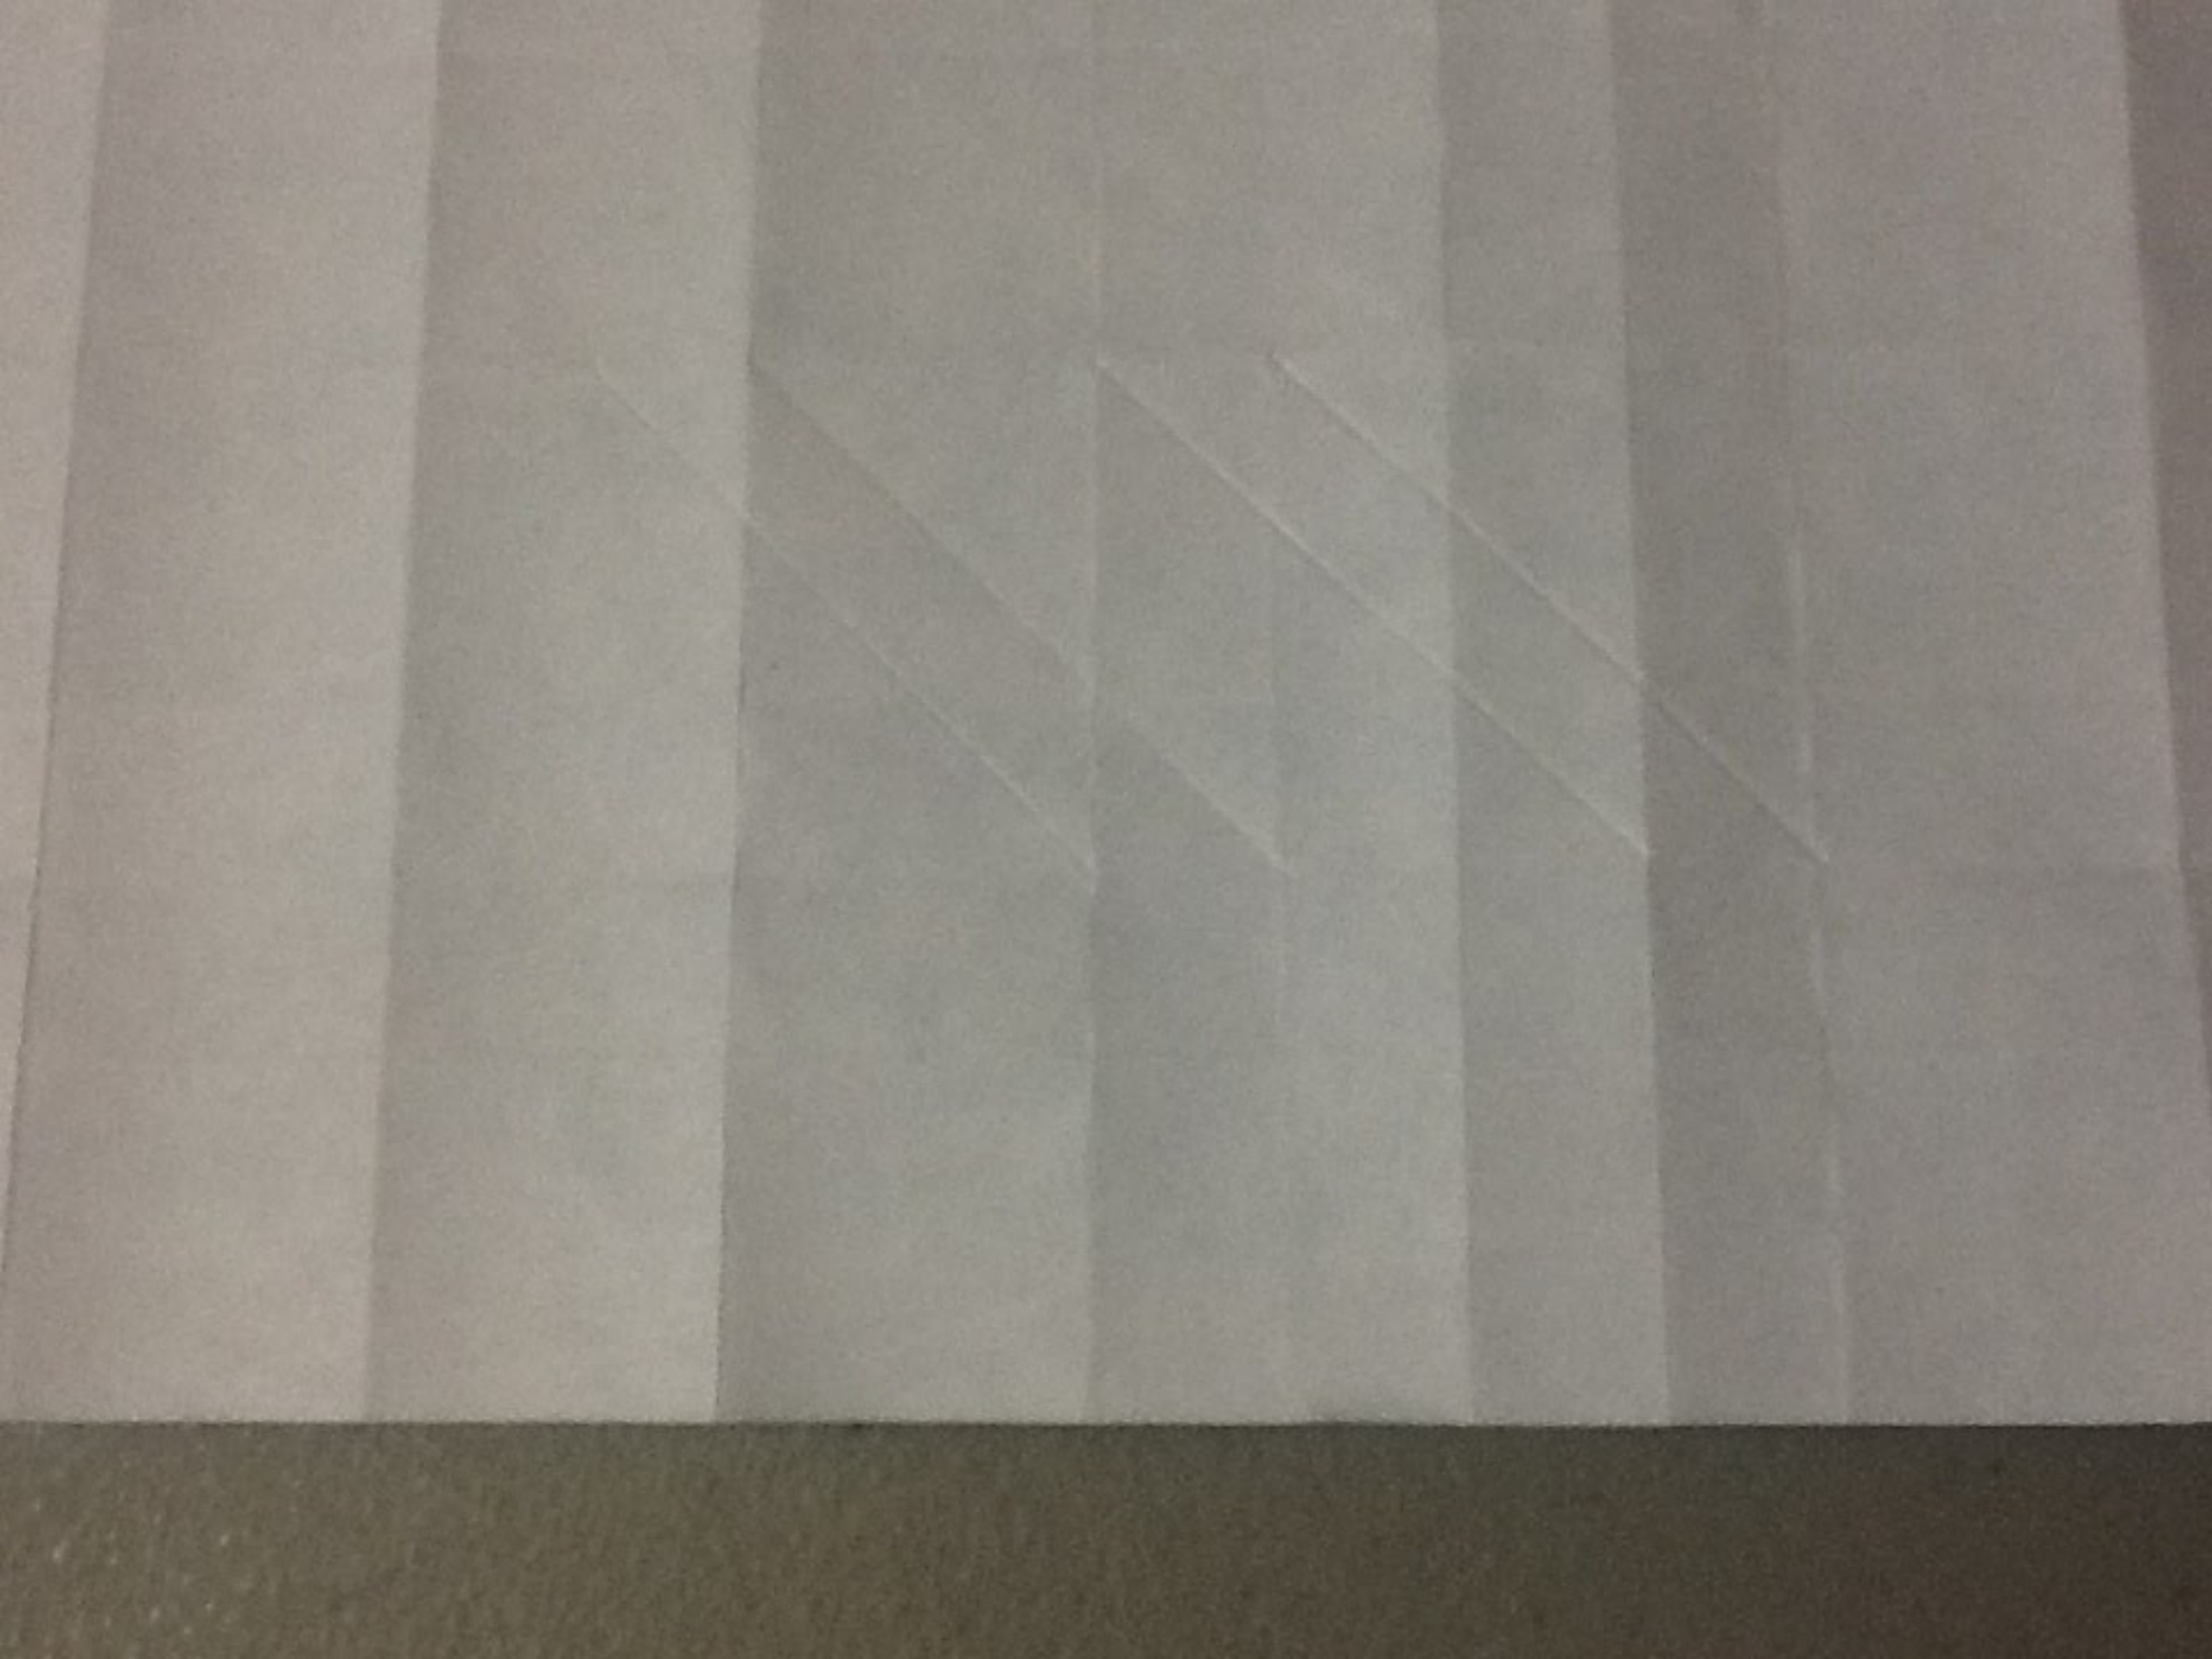

MVC

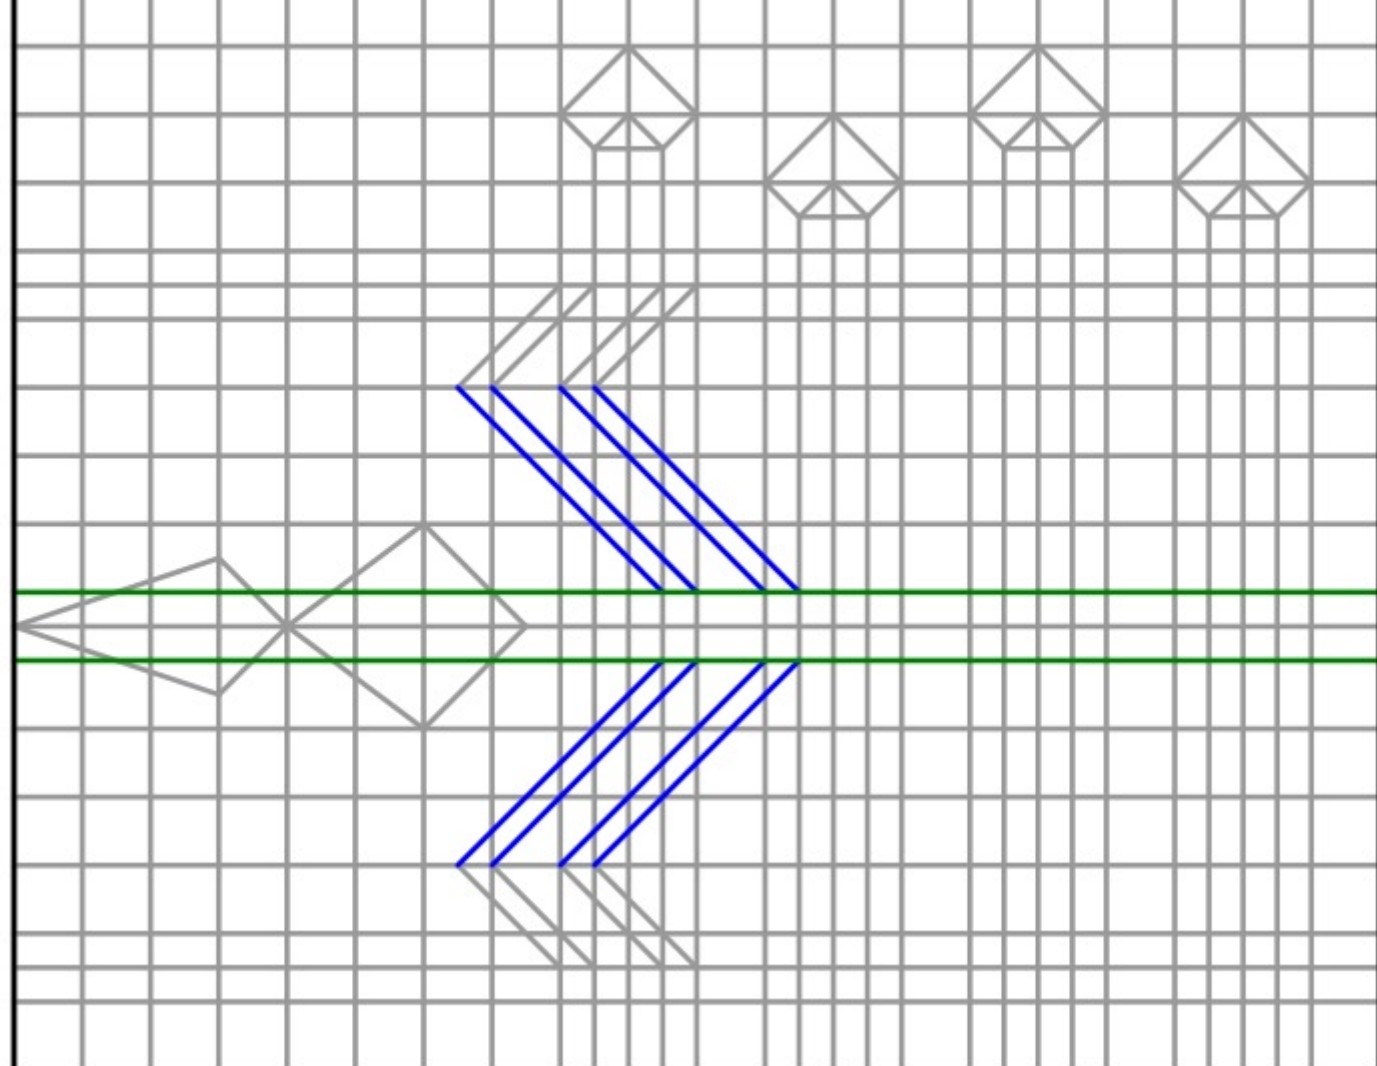

(w)

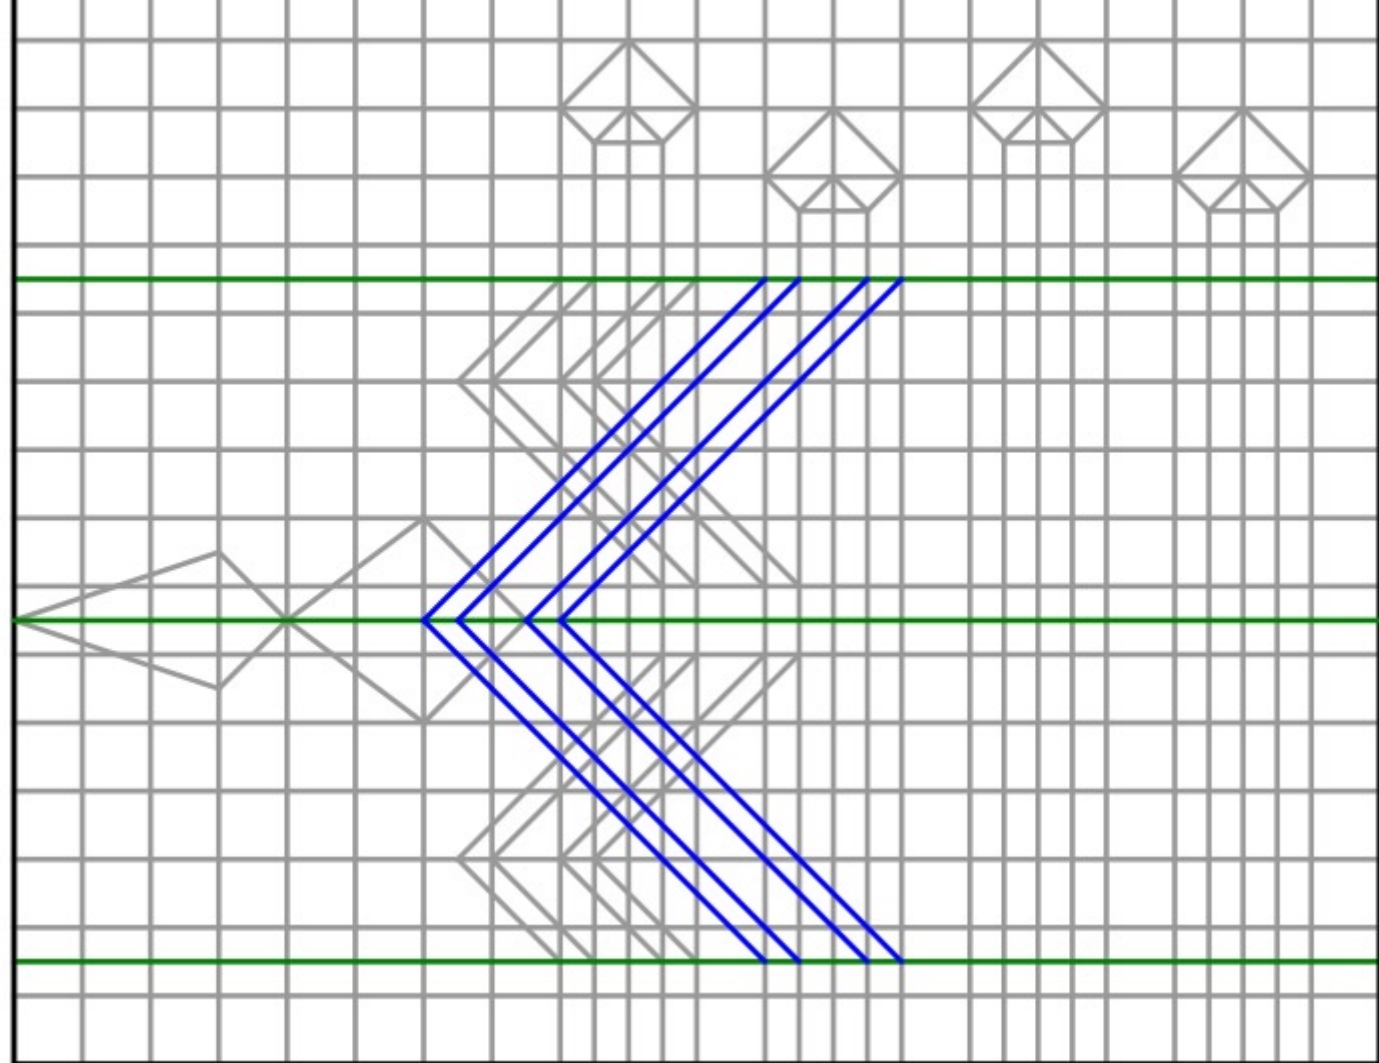

Fold or score
the following precreases.

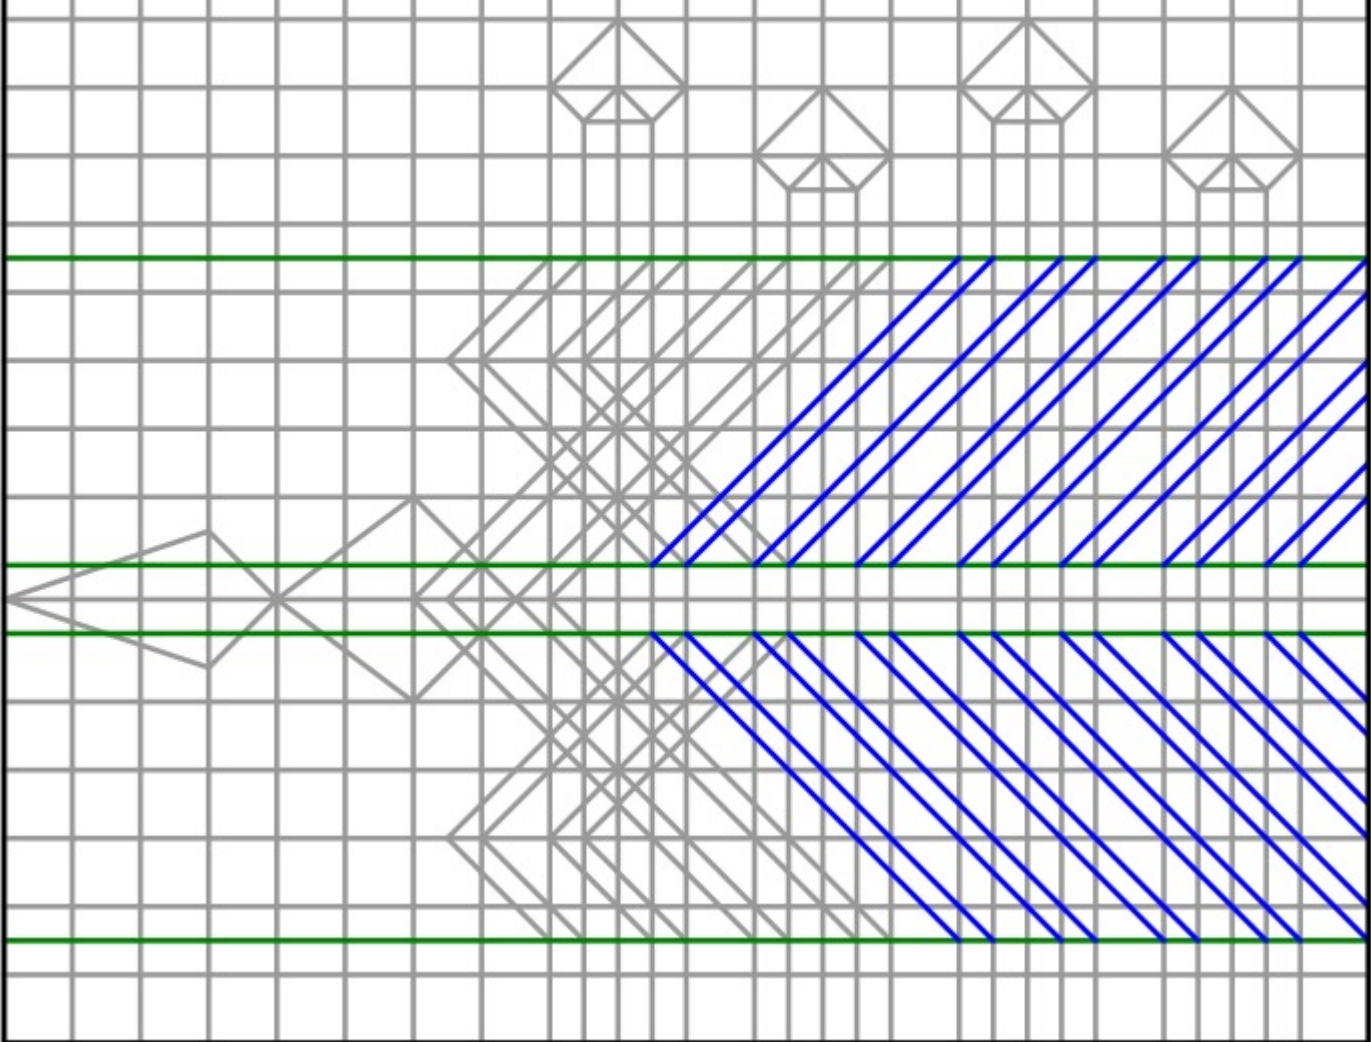

Be careful to note
landmarks.

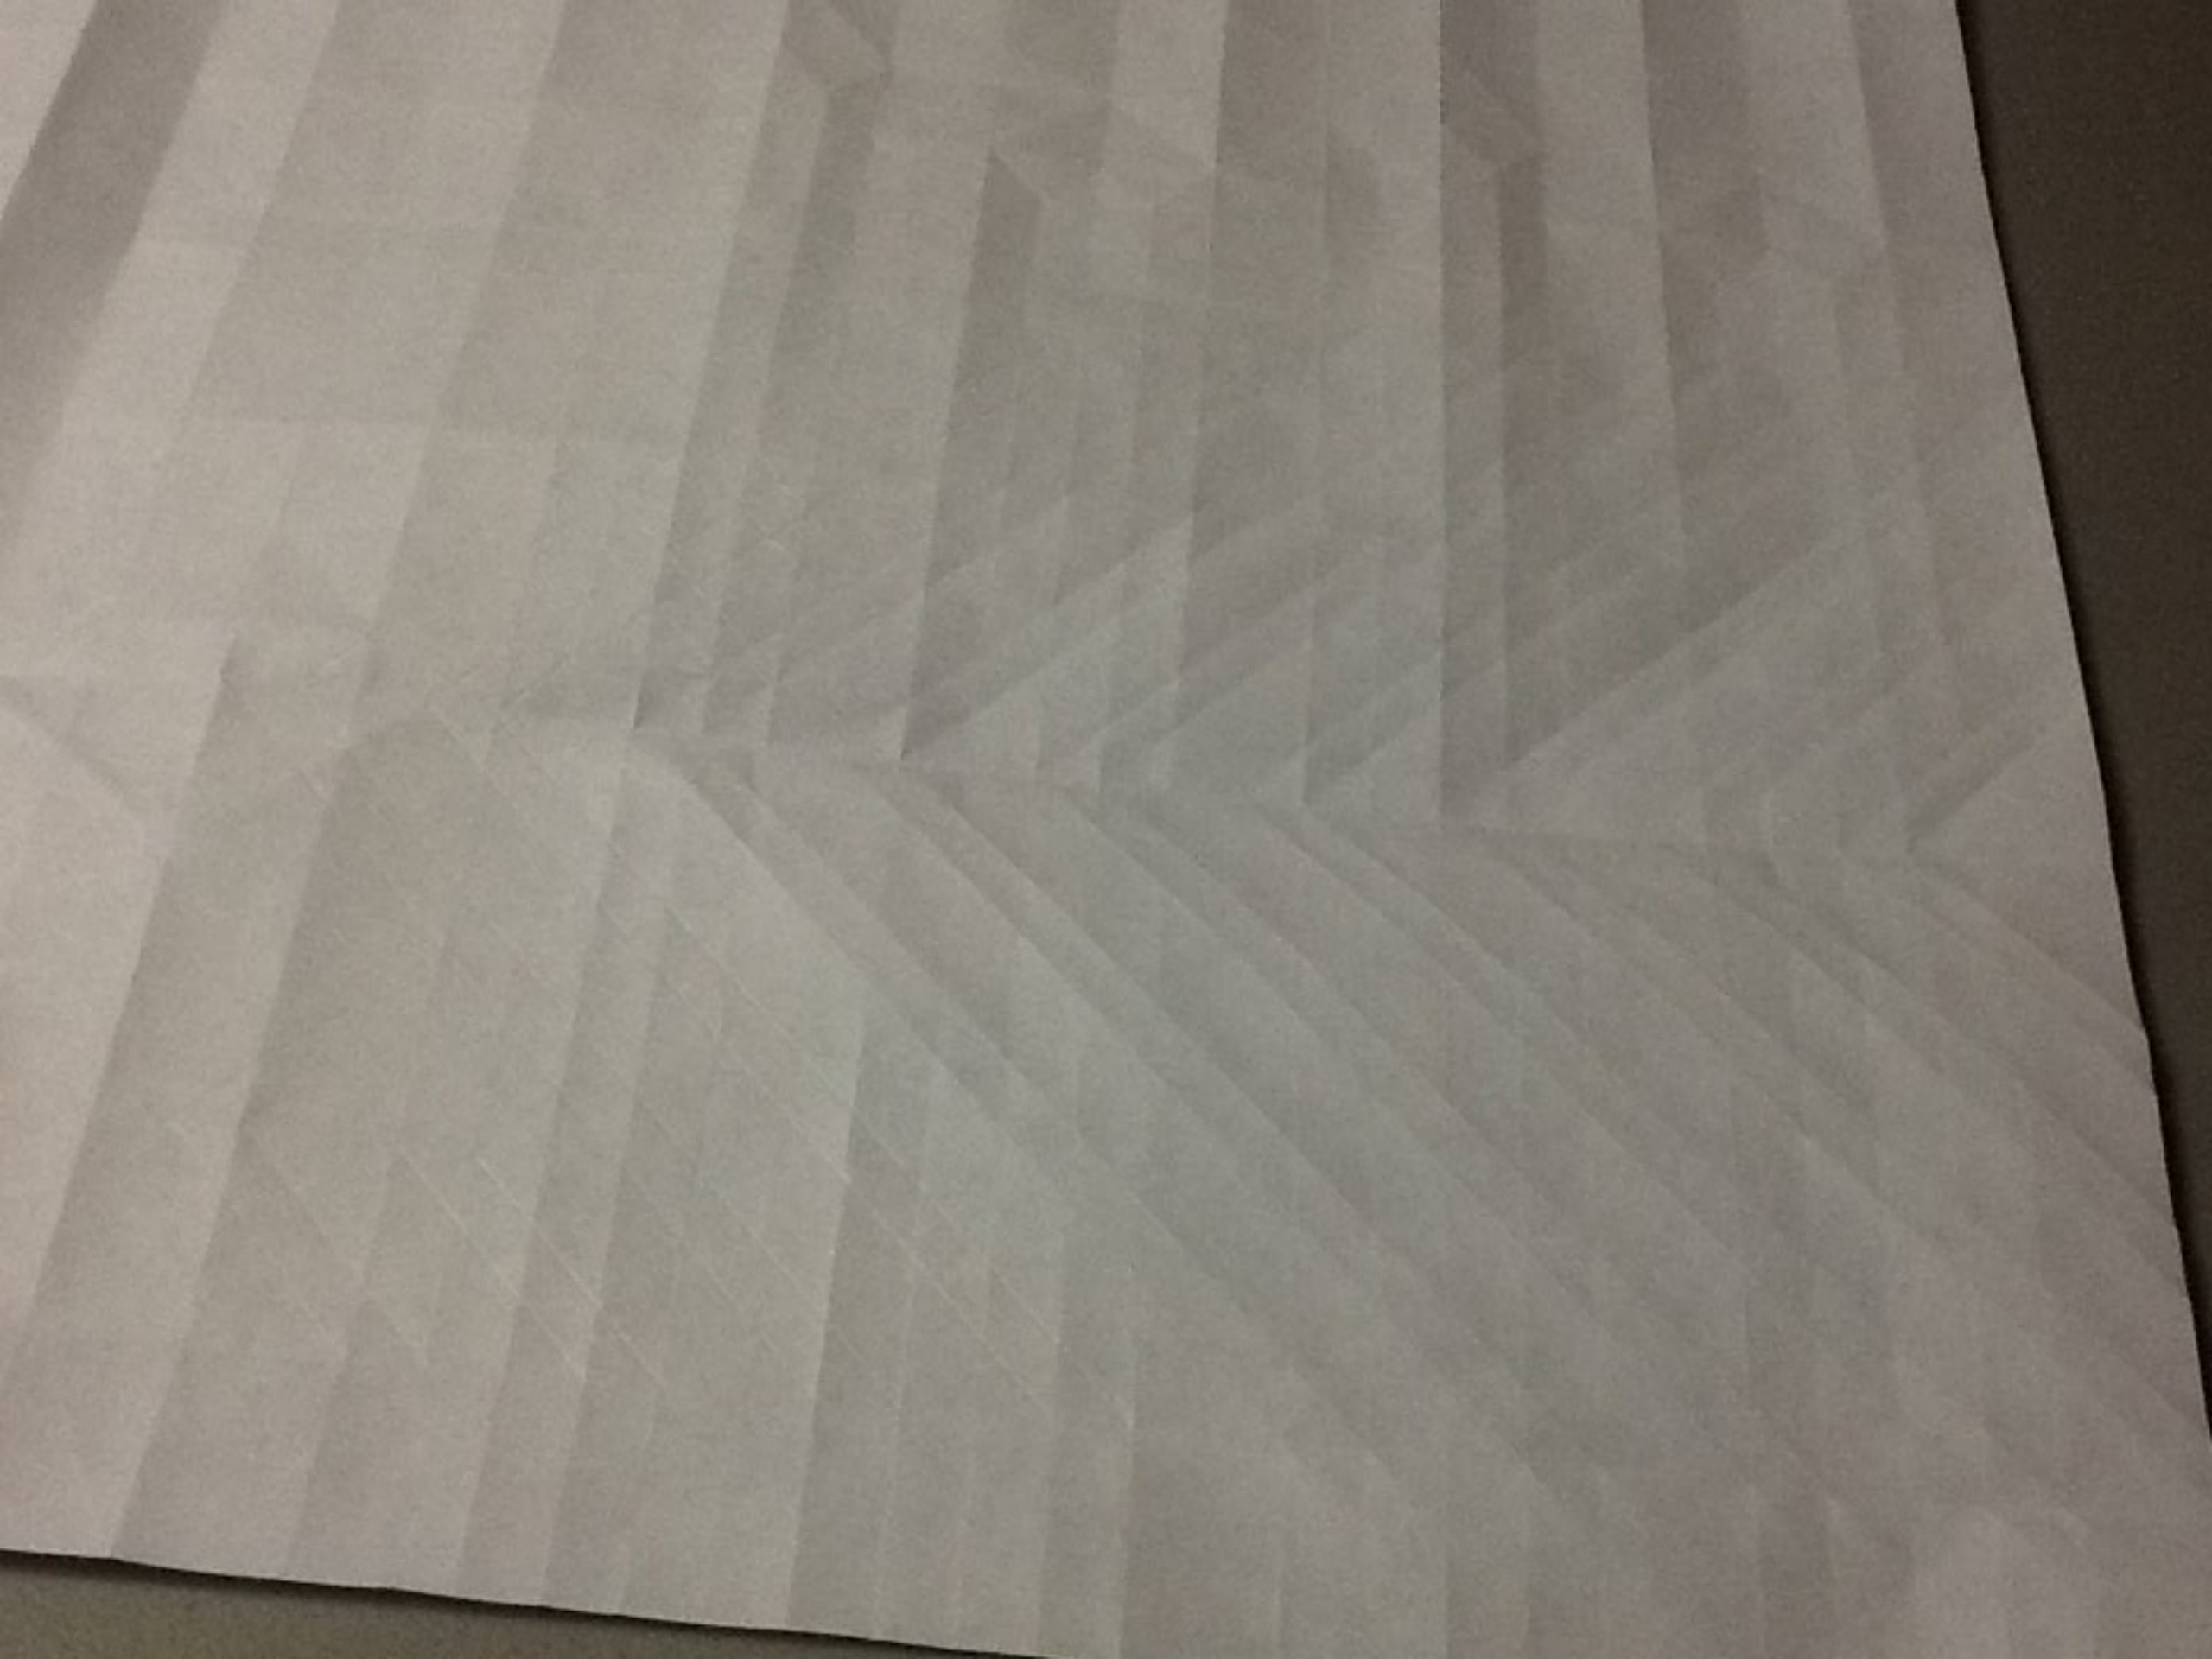

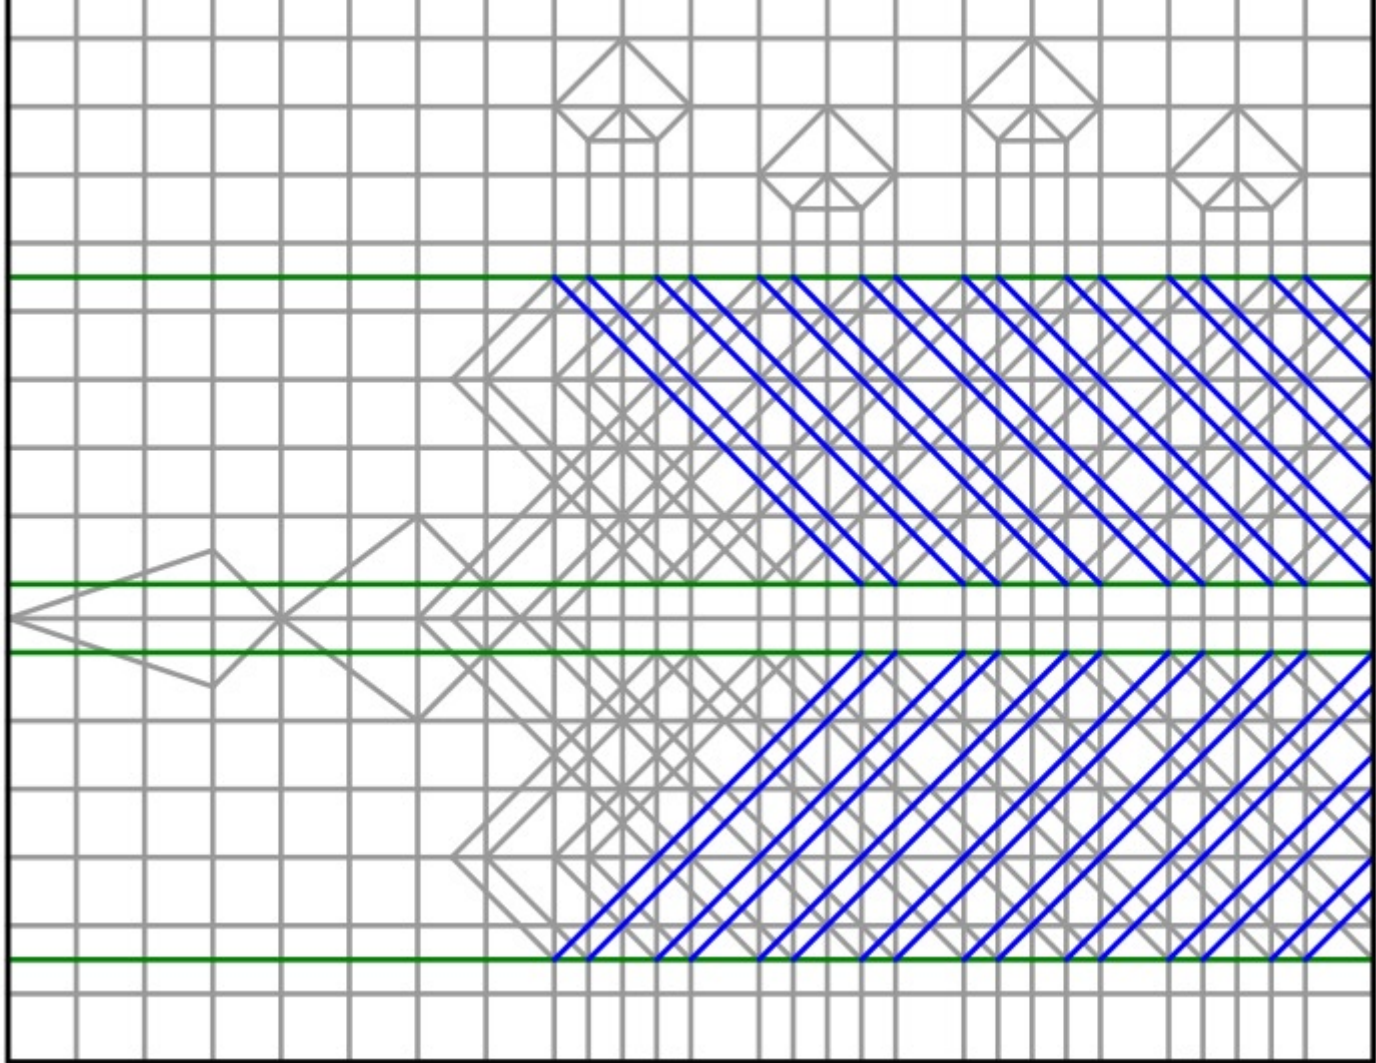

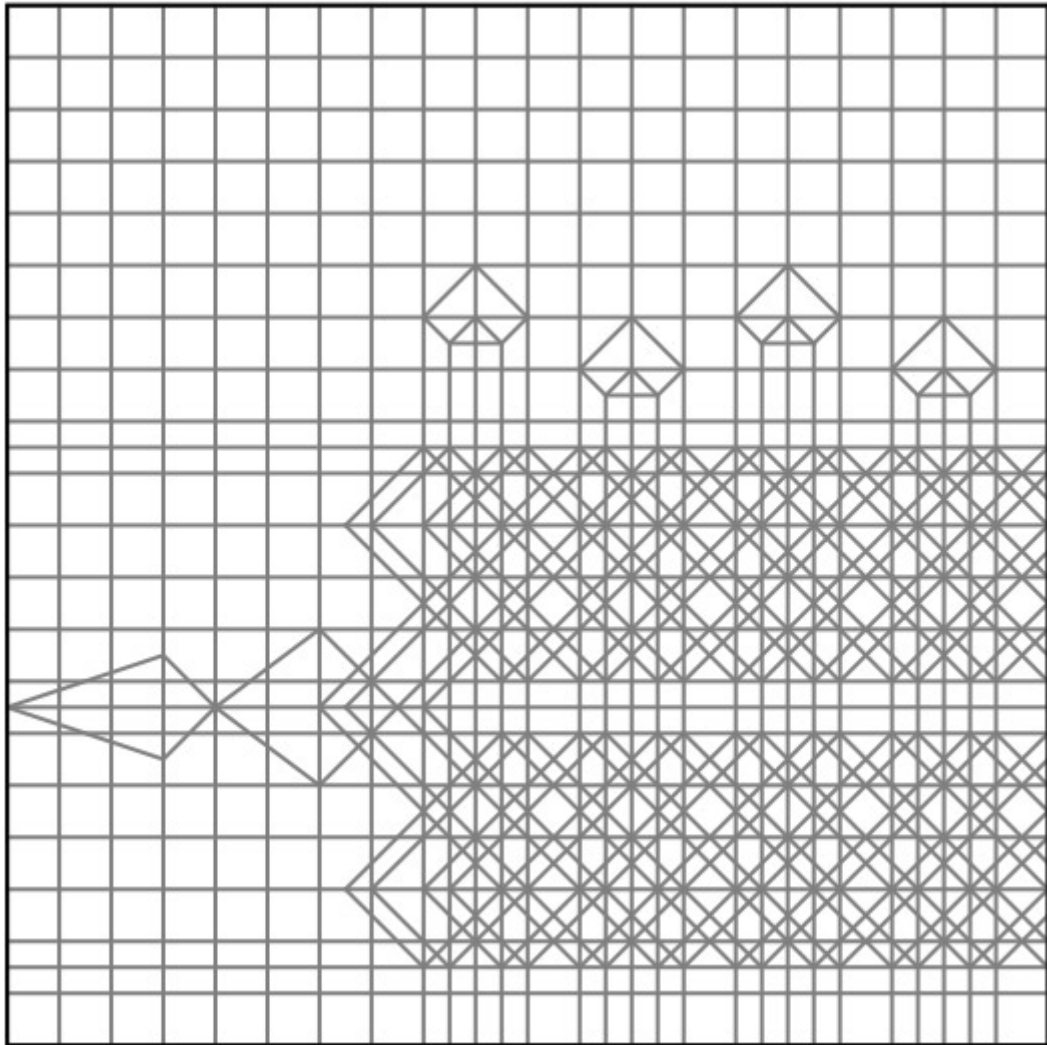

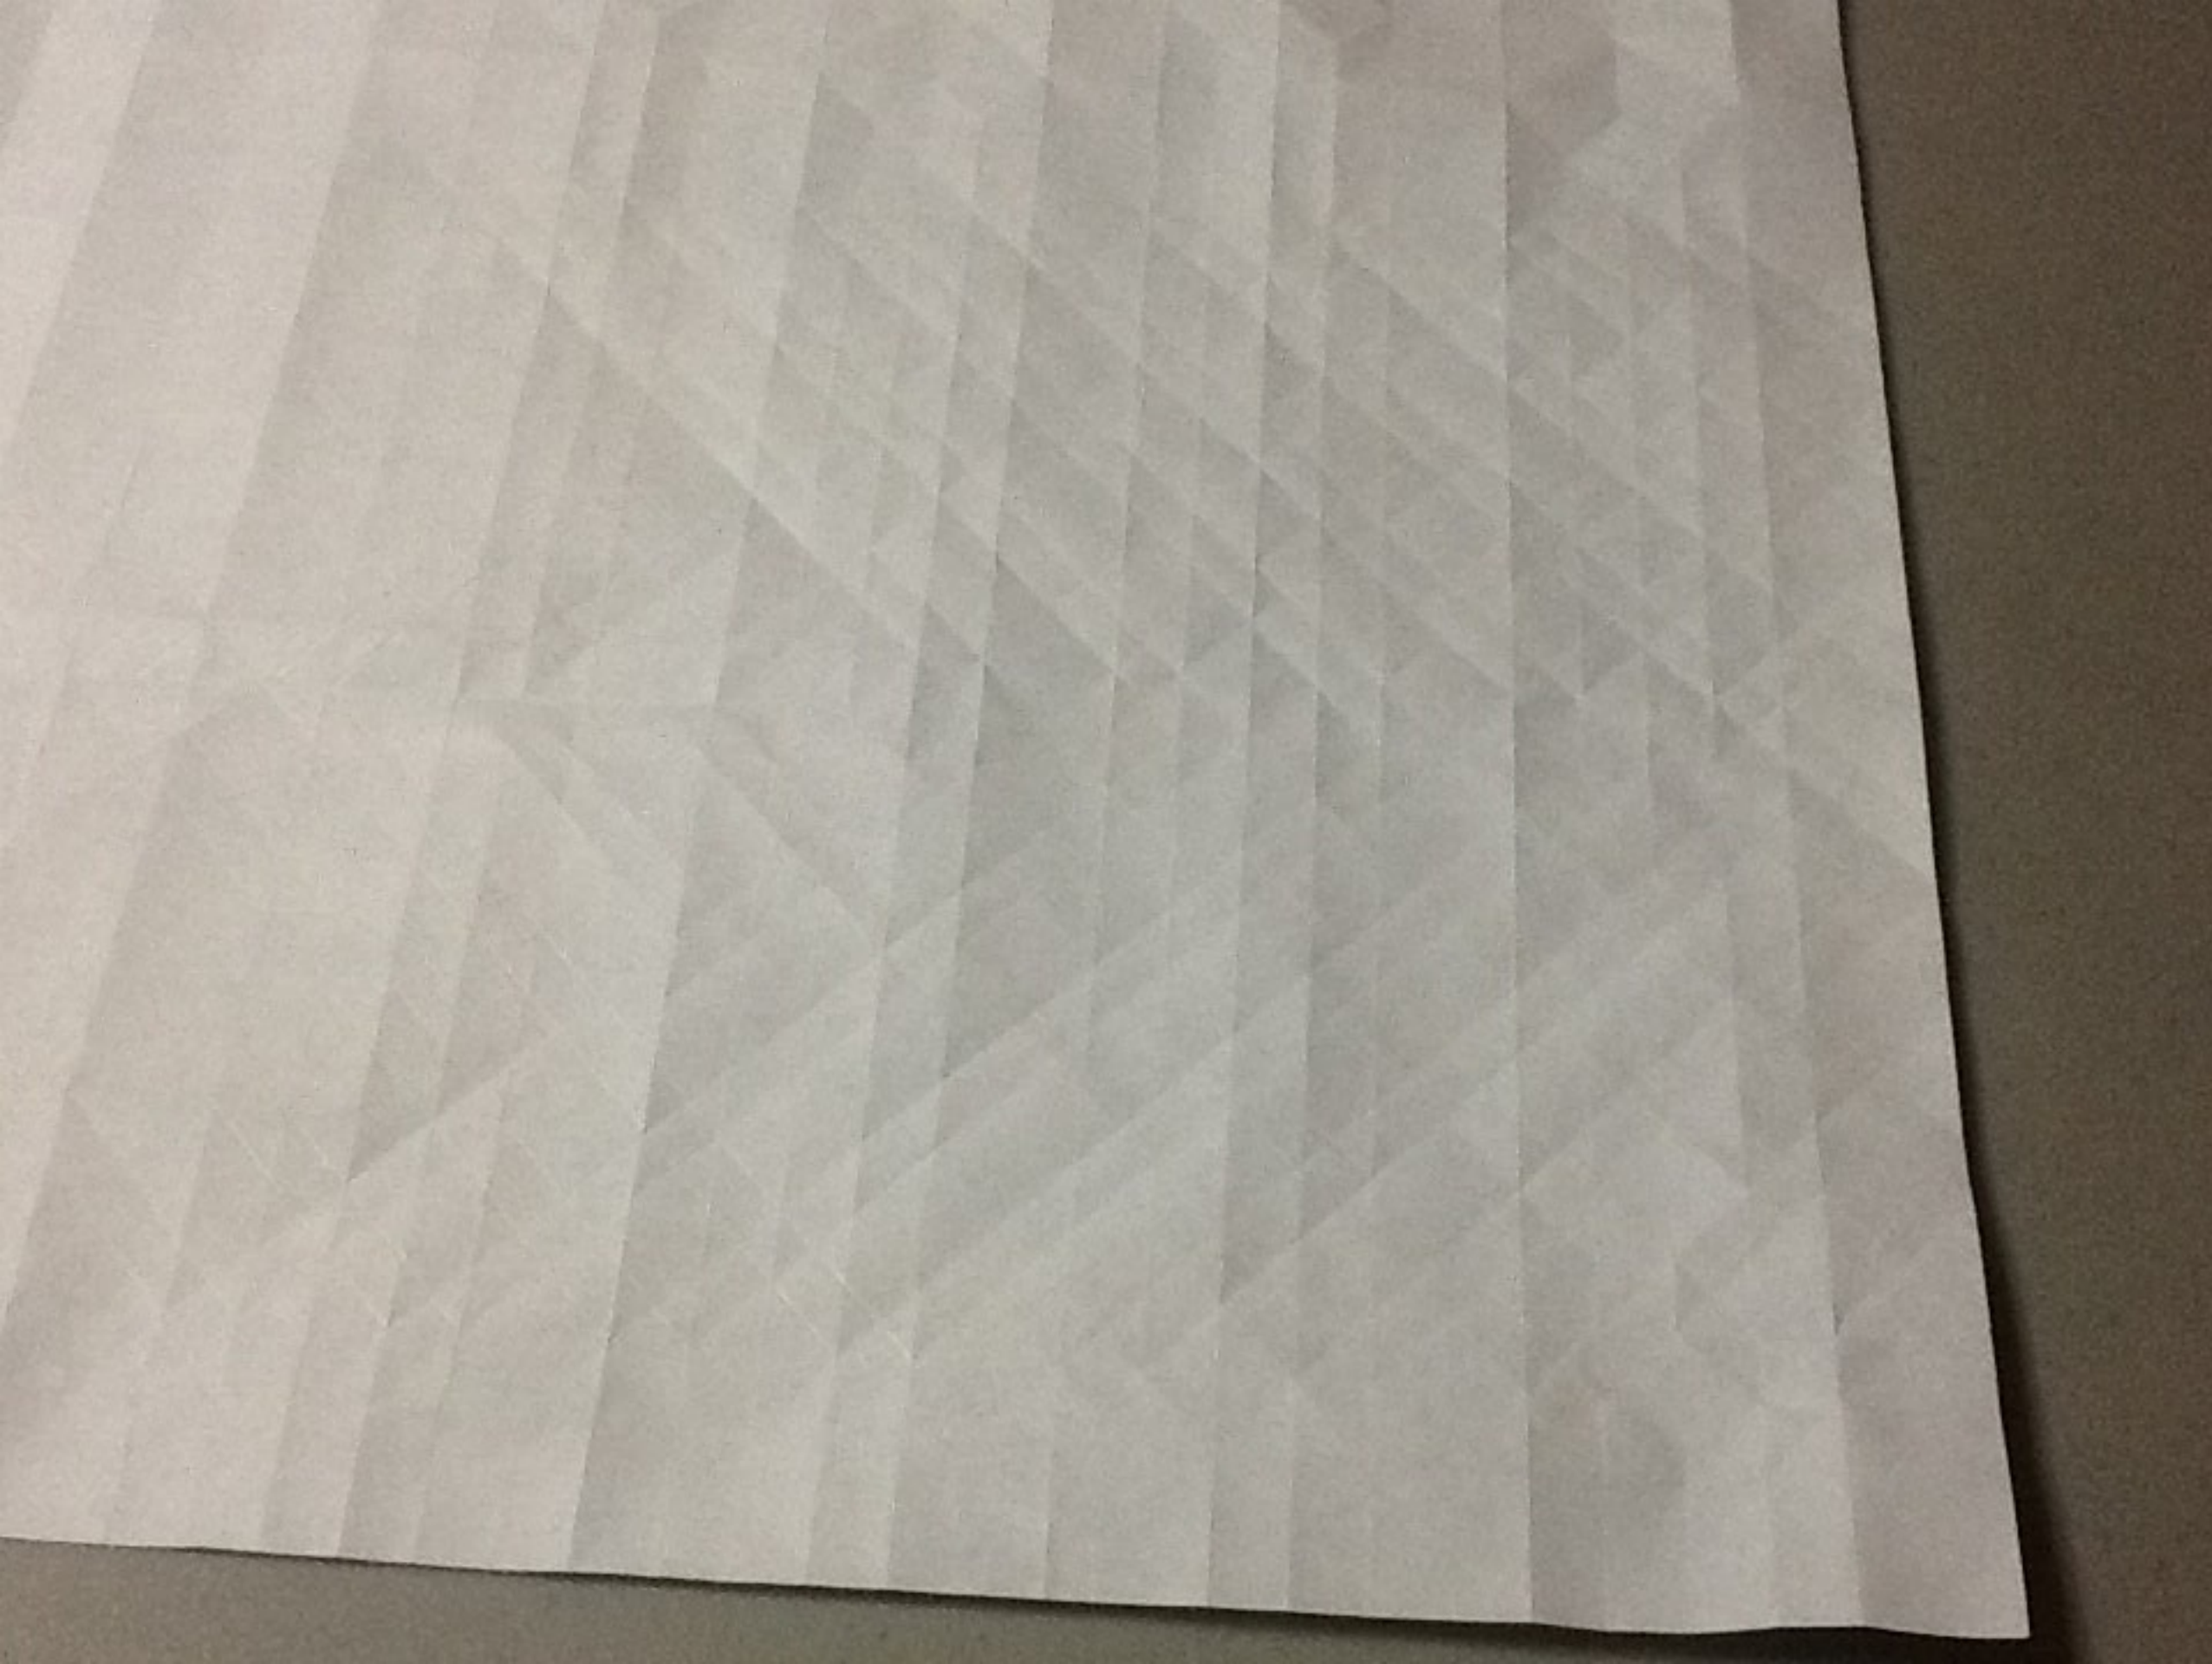

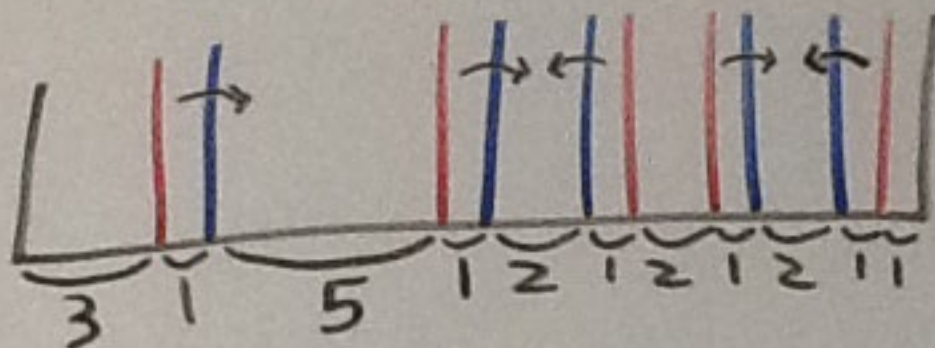

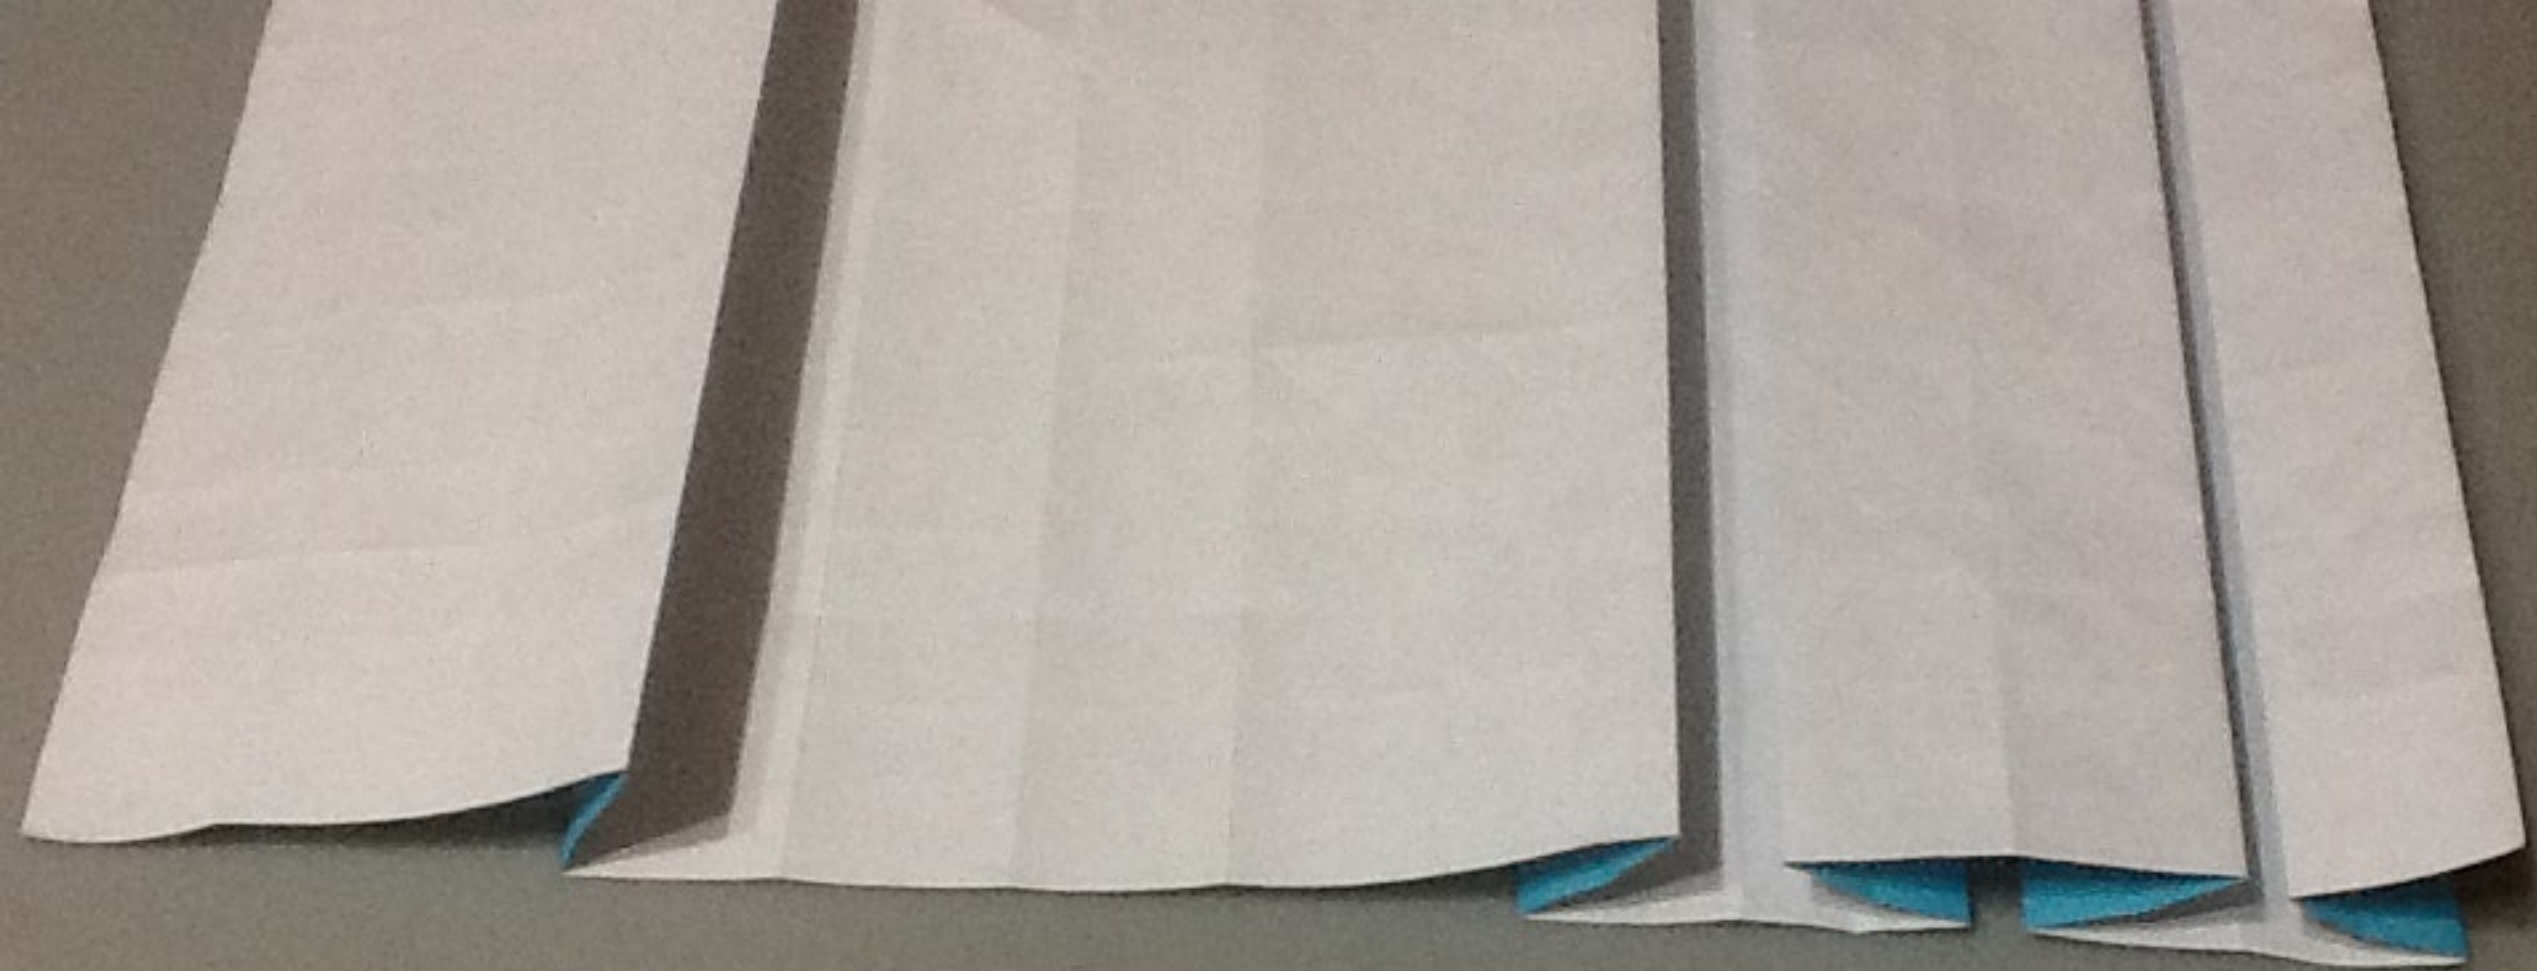

MVC

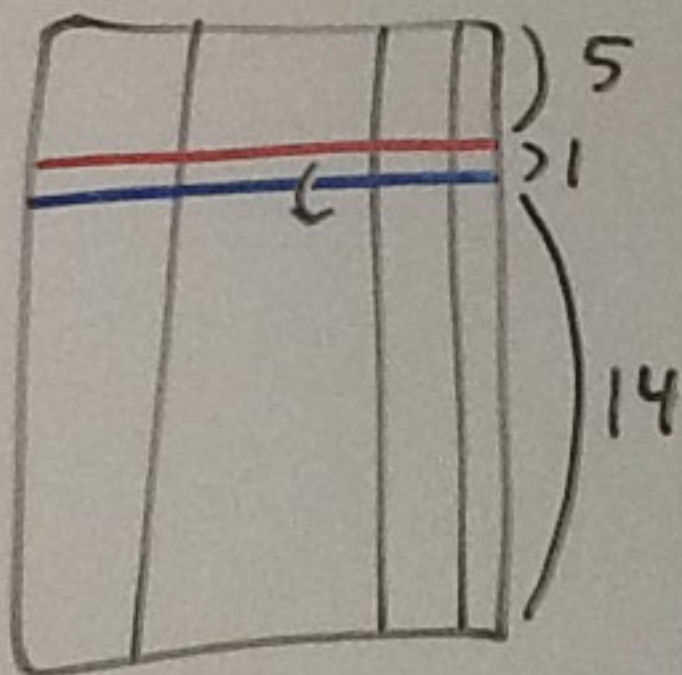

(w)

Pleat as shown

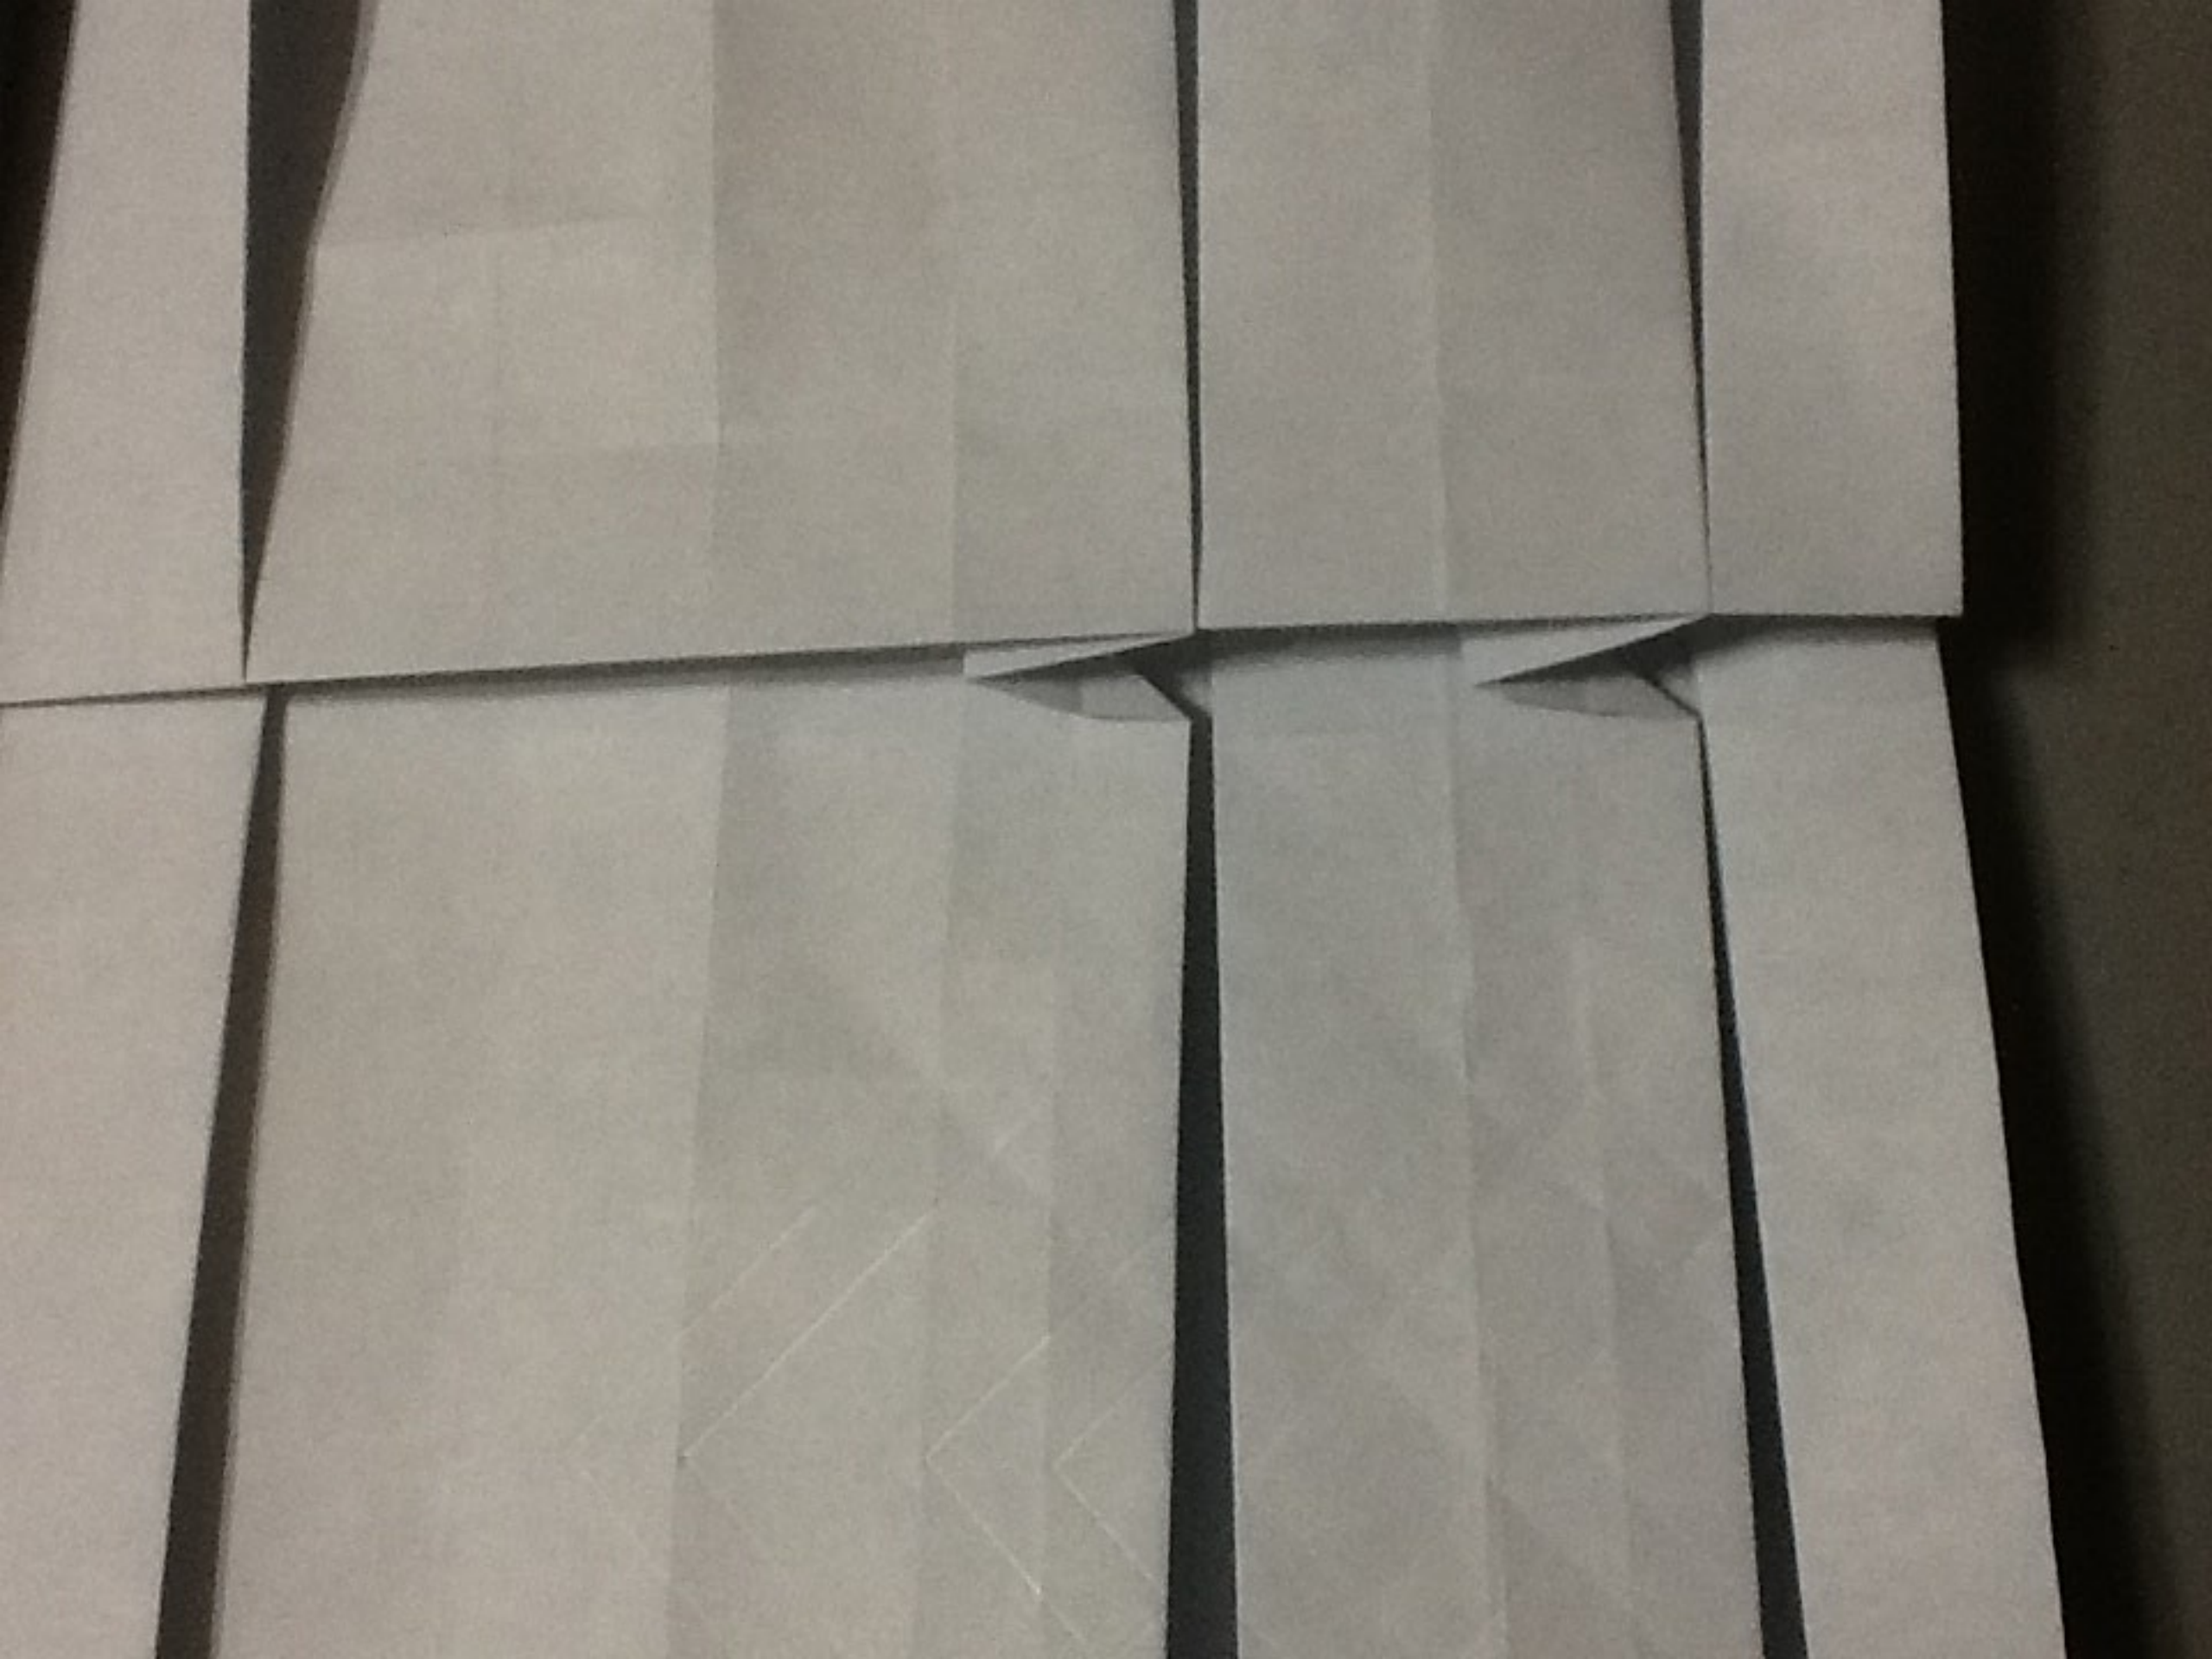

MVC

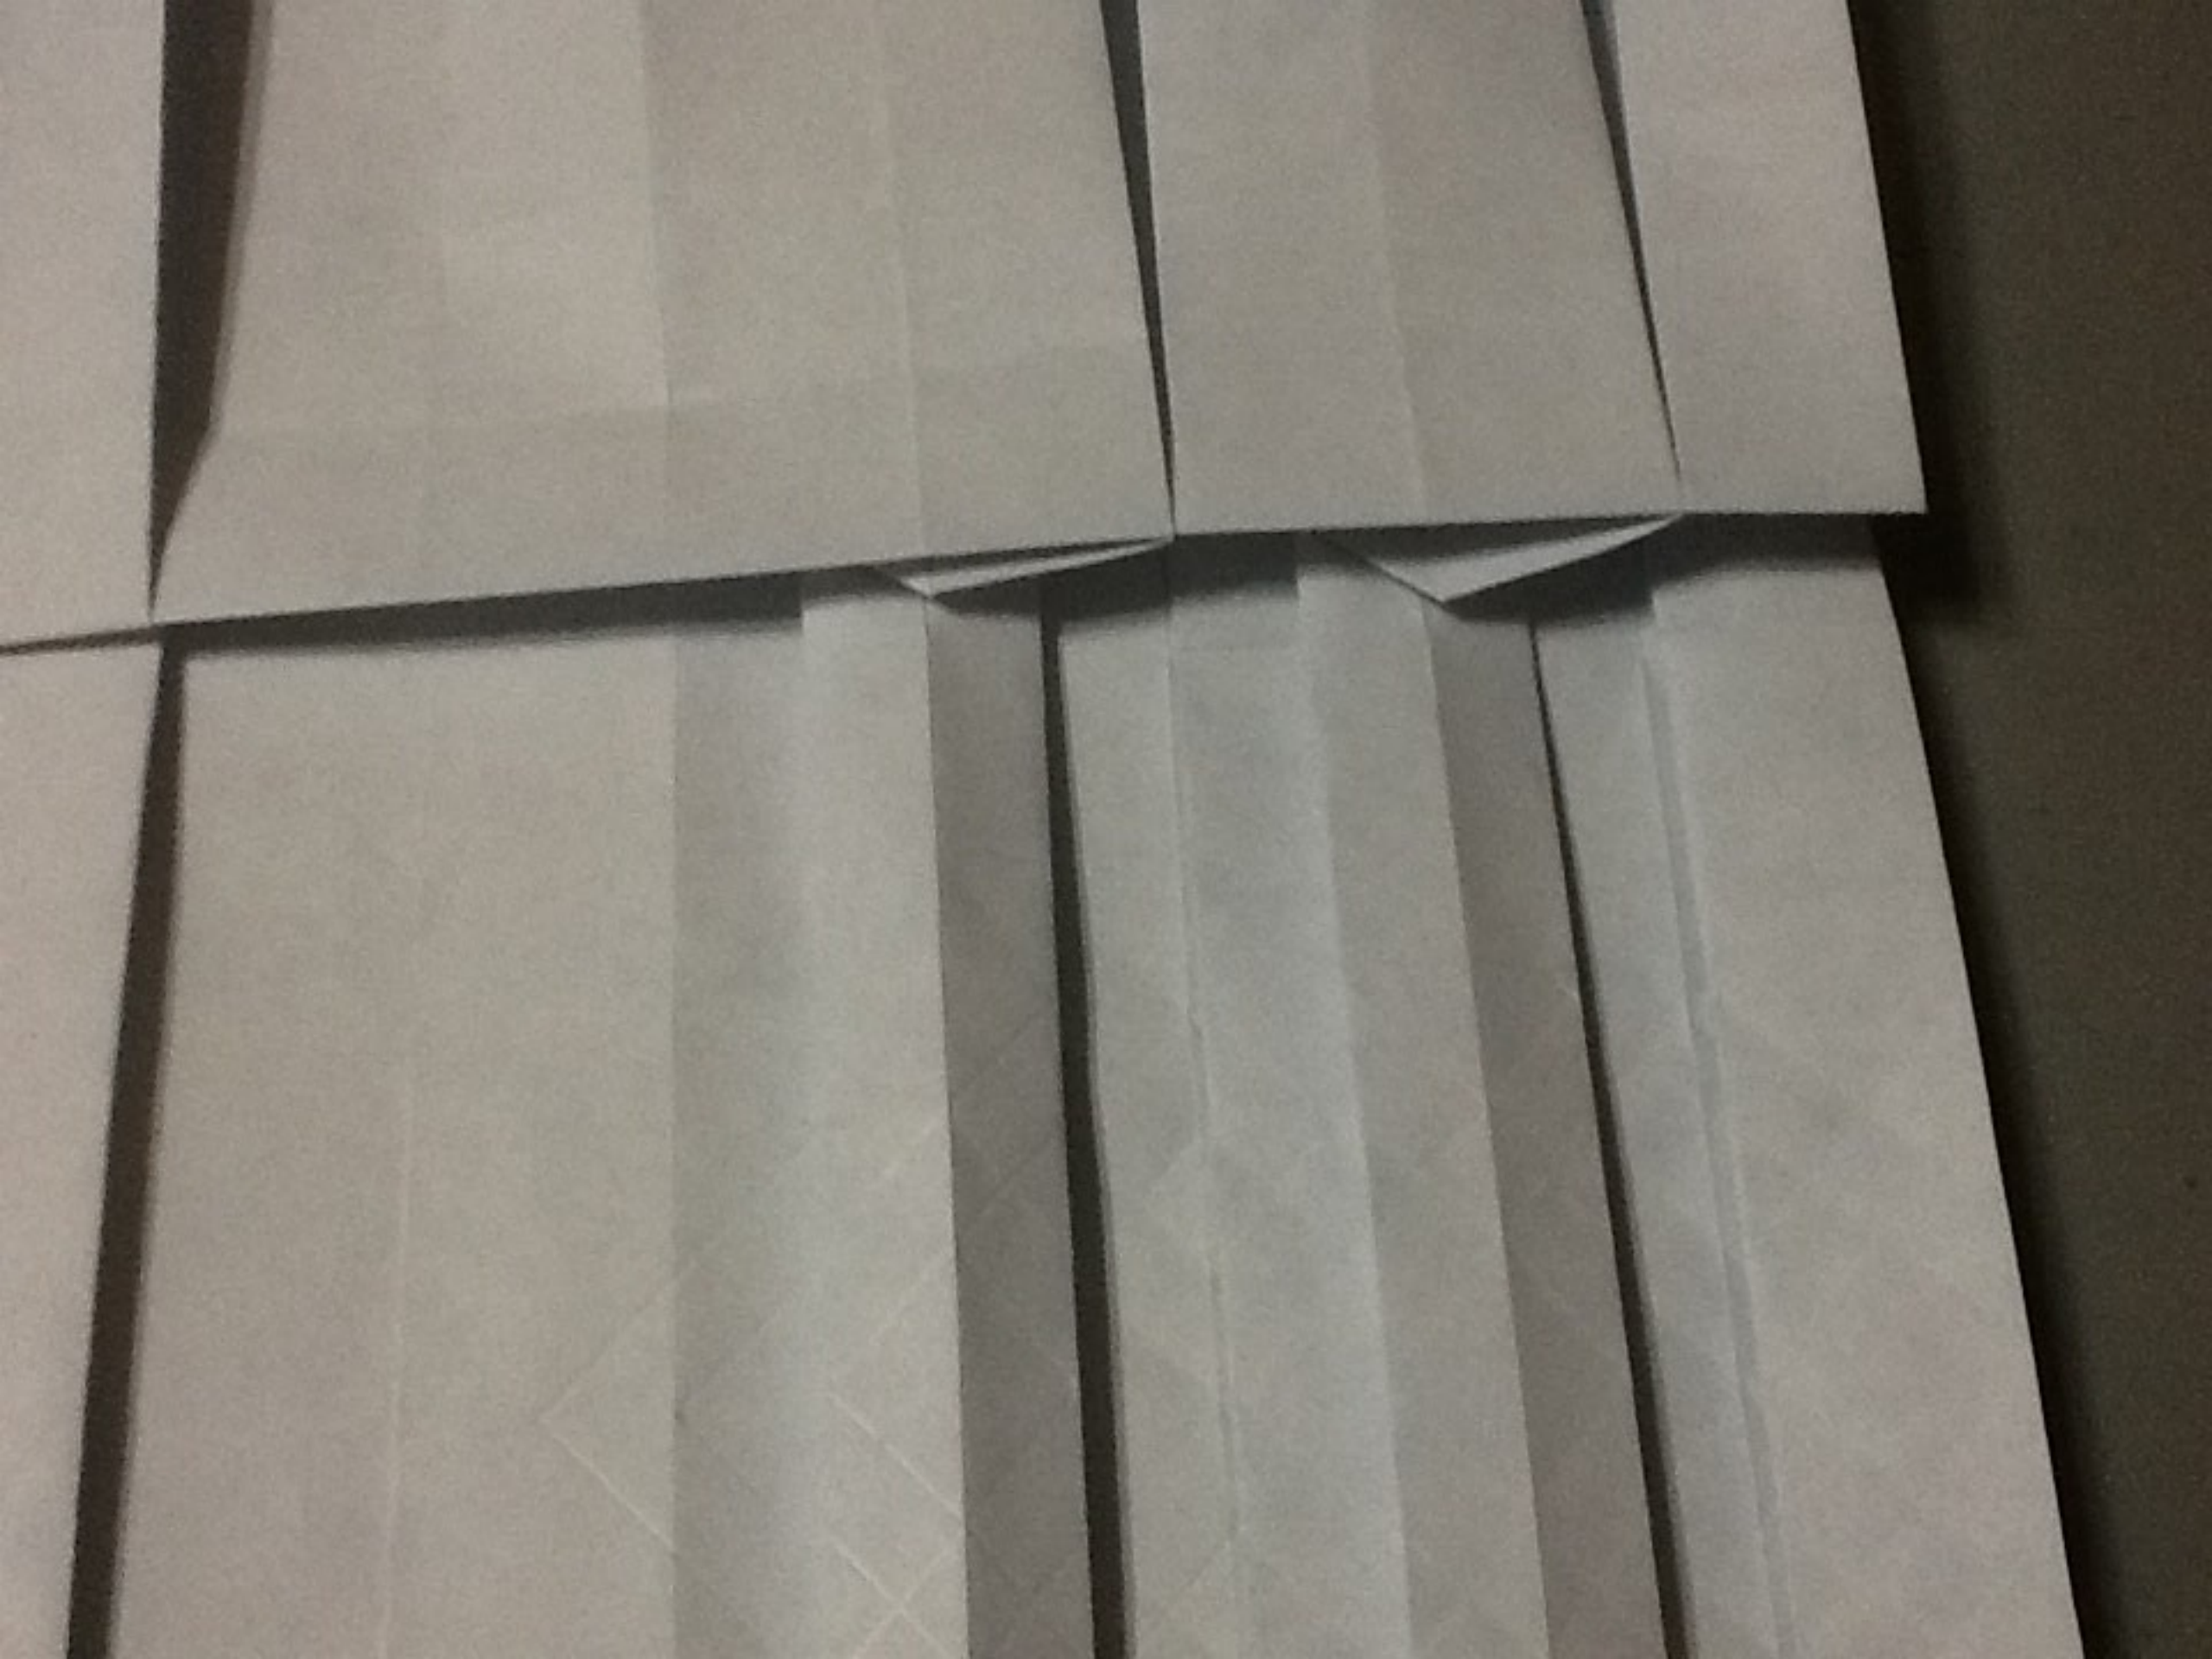

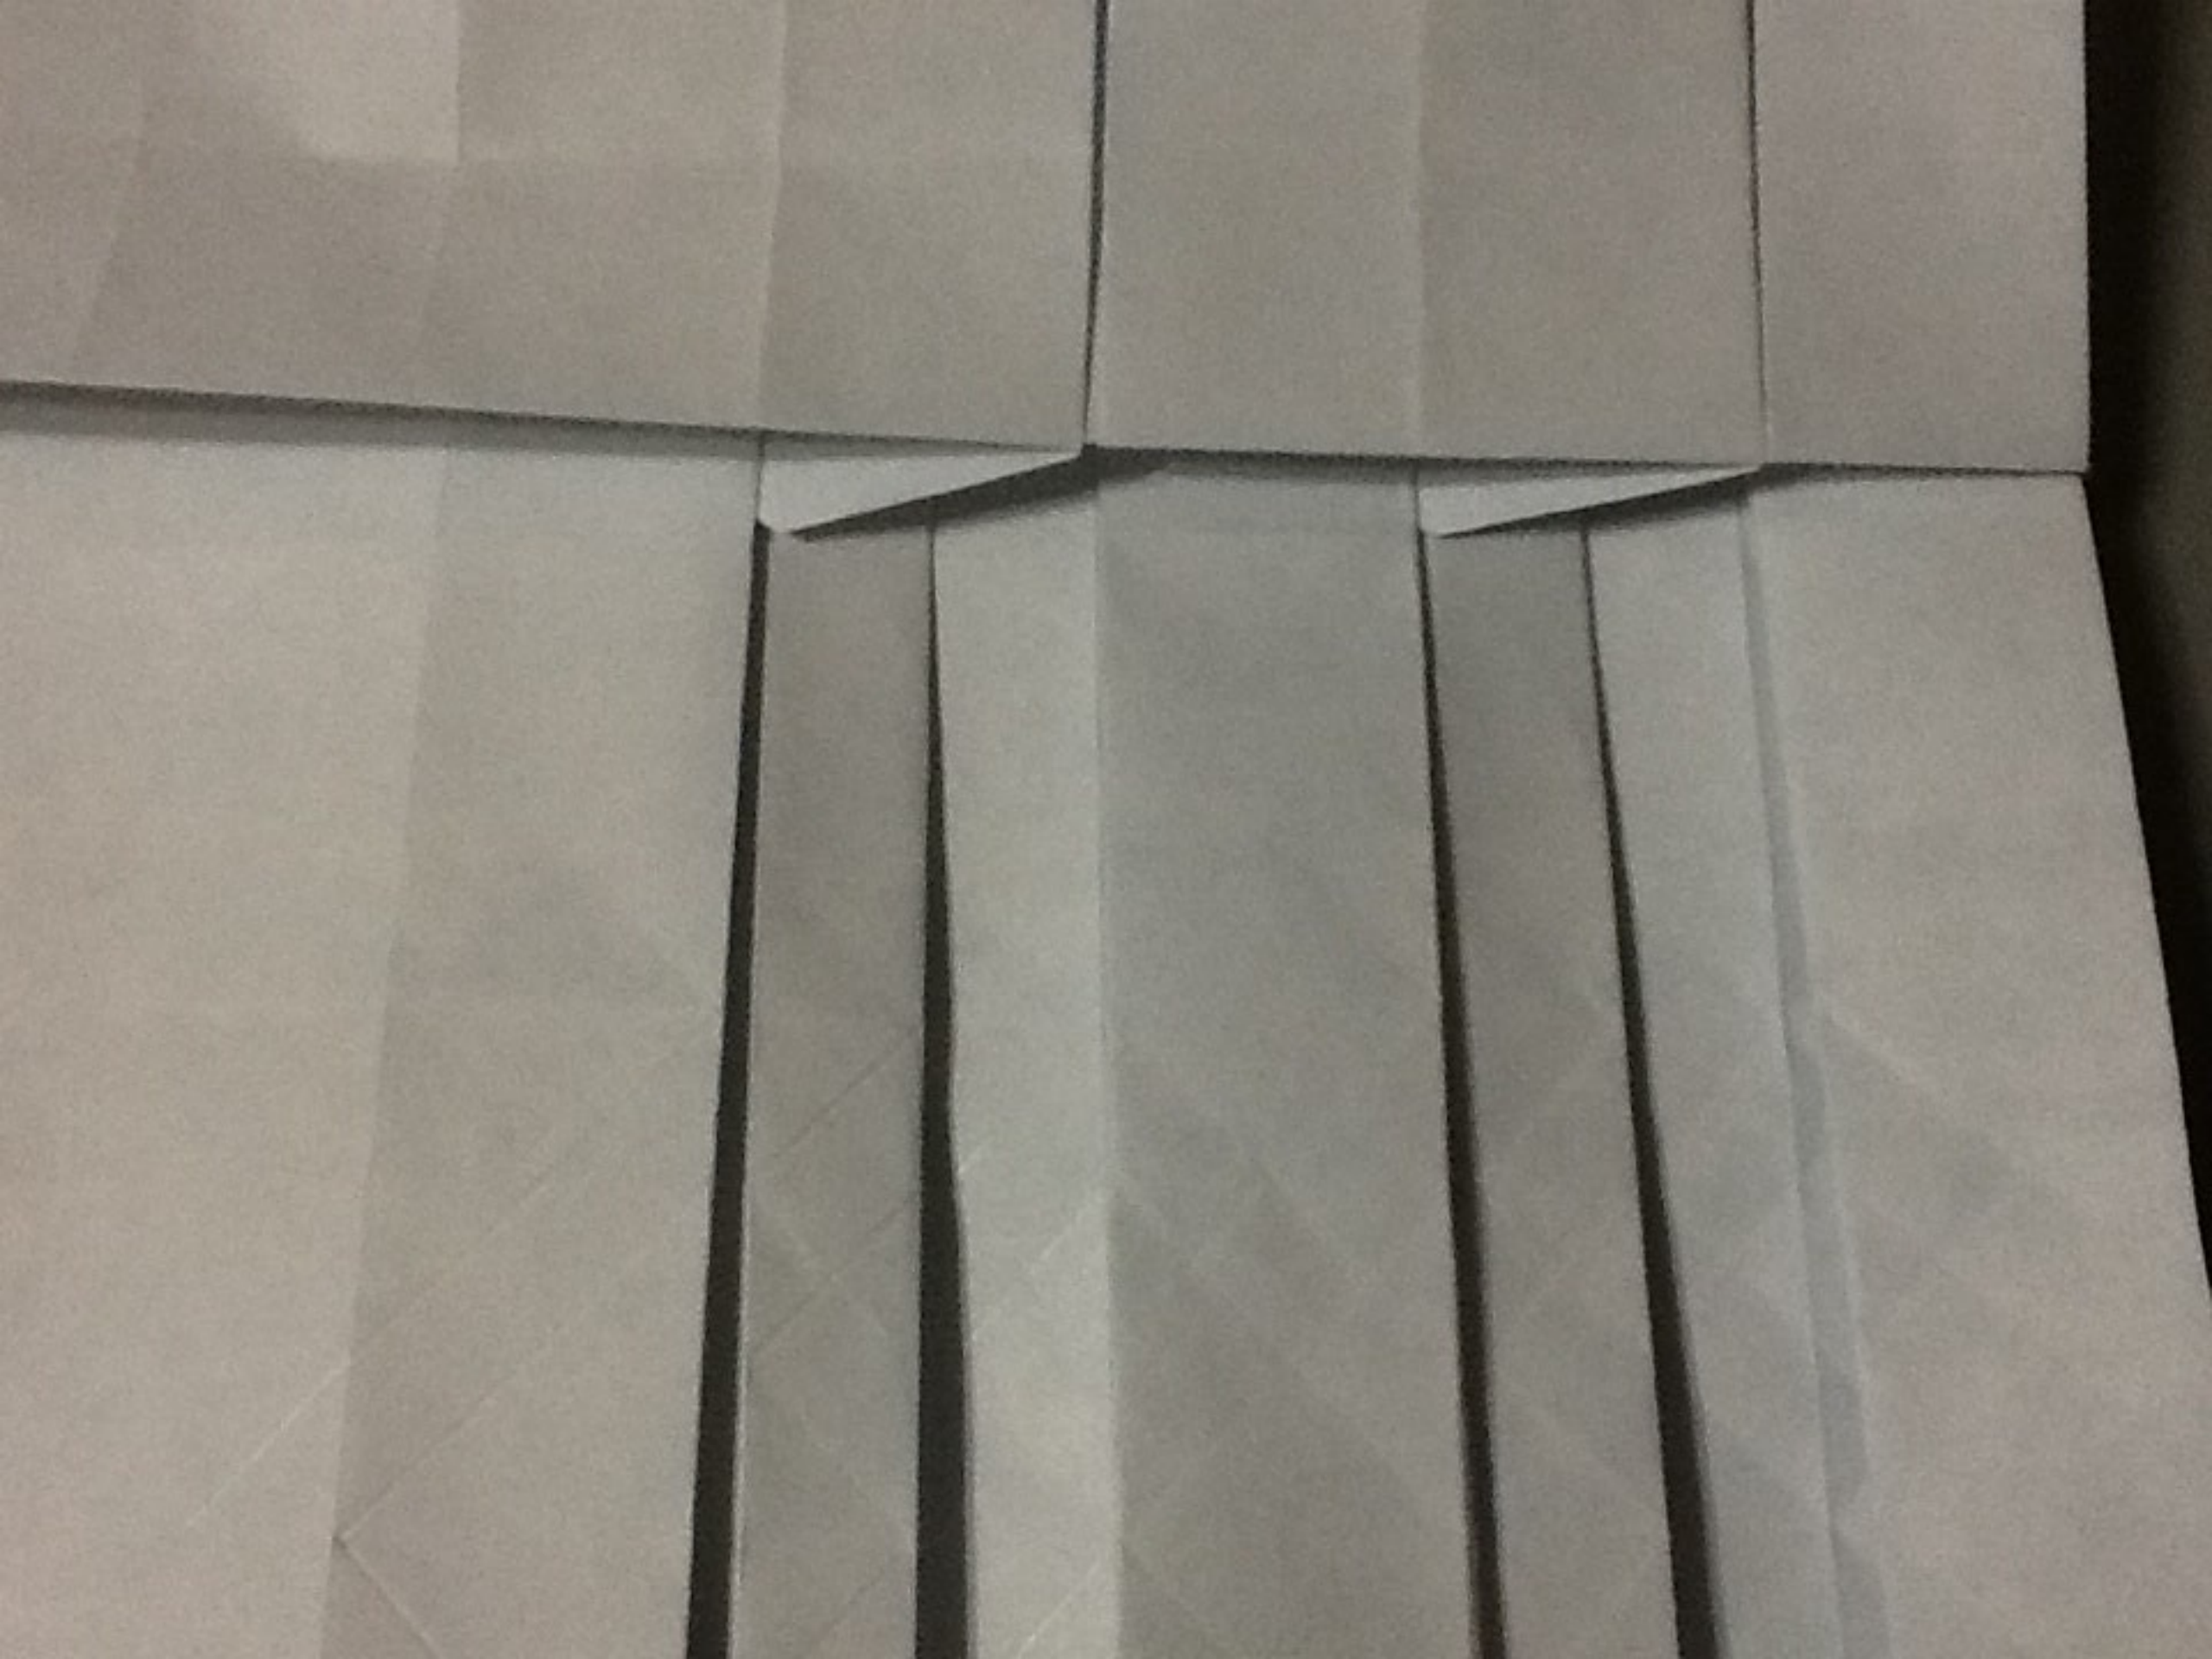

Pleat

Complete the
two "tall"
transition units

- Reverse
- Squash
- Layer wrap

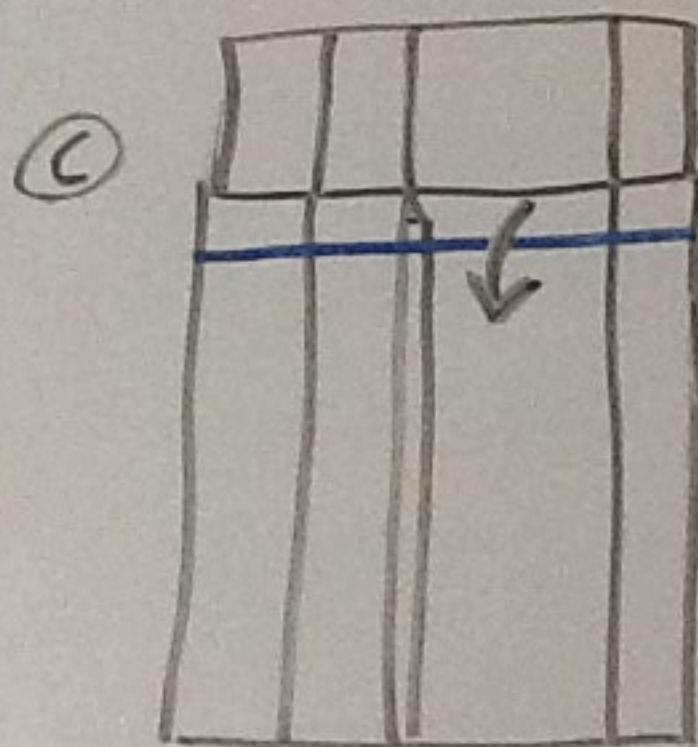

MVC

Fold pleat down
one unit

MVC

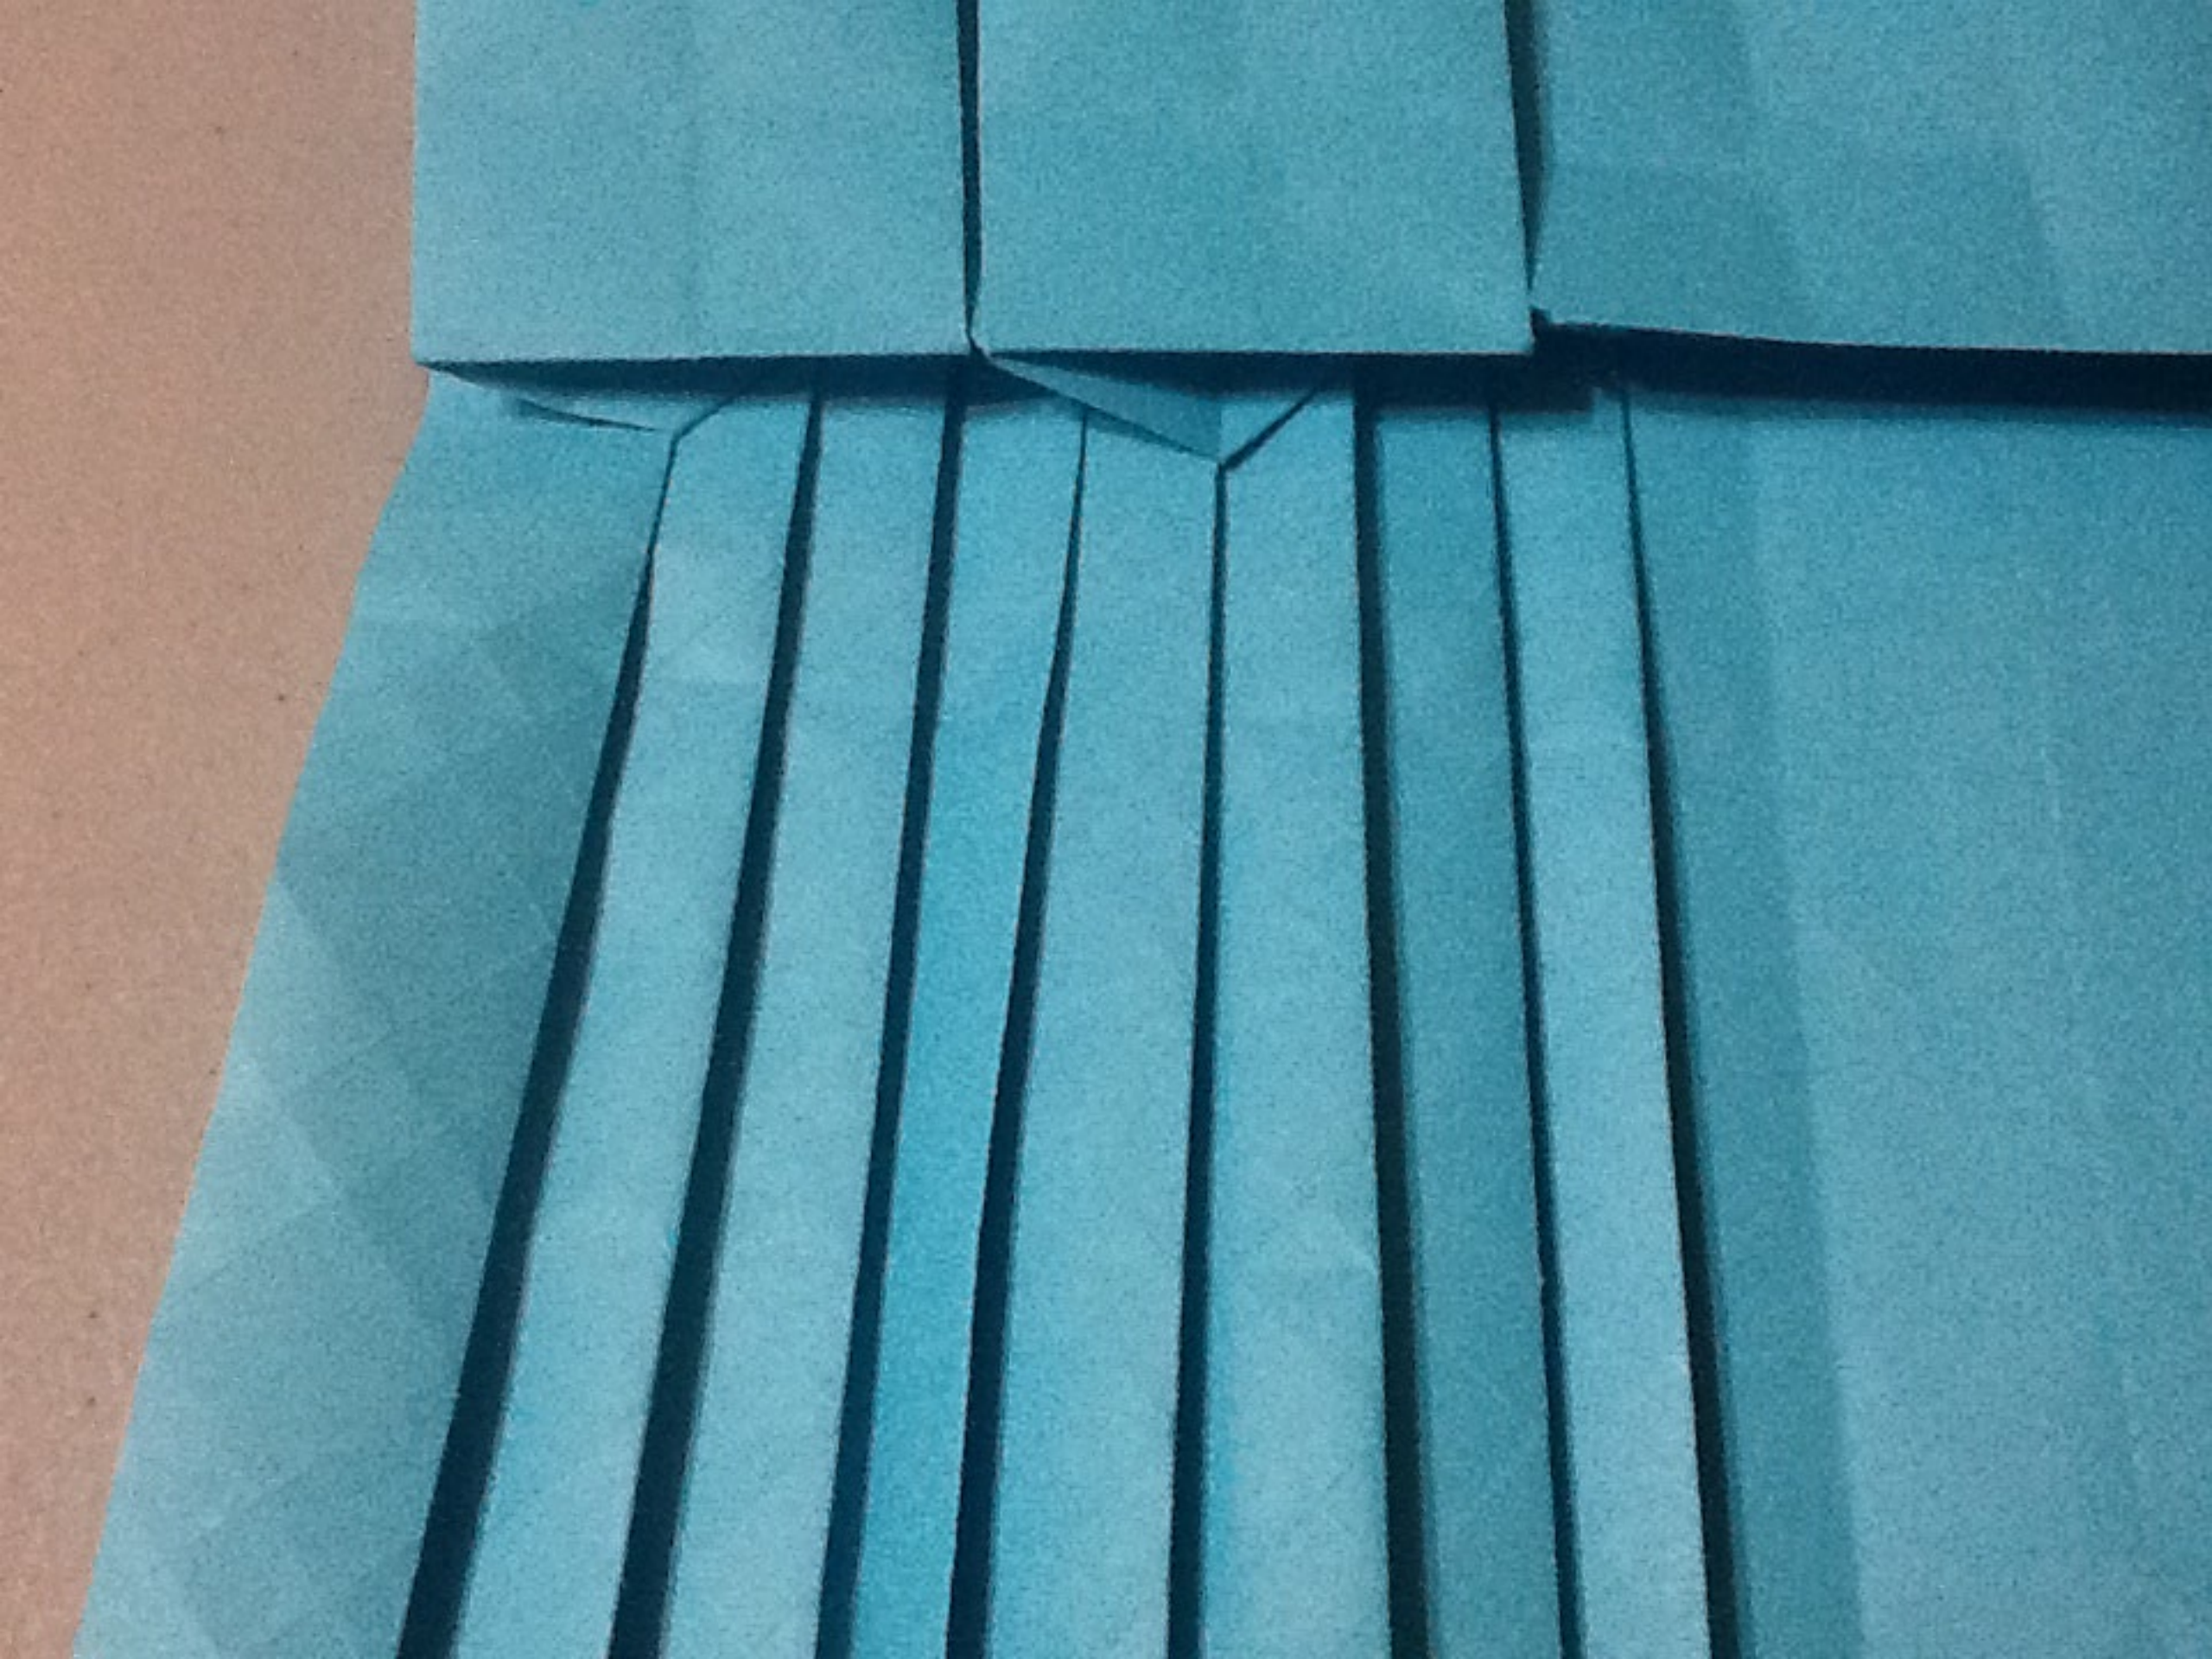

①

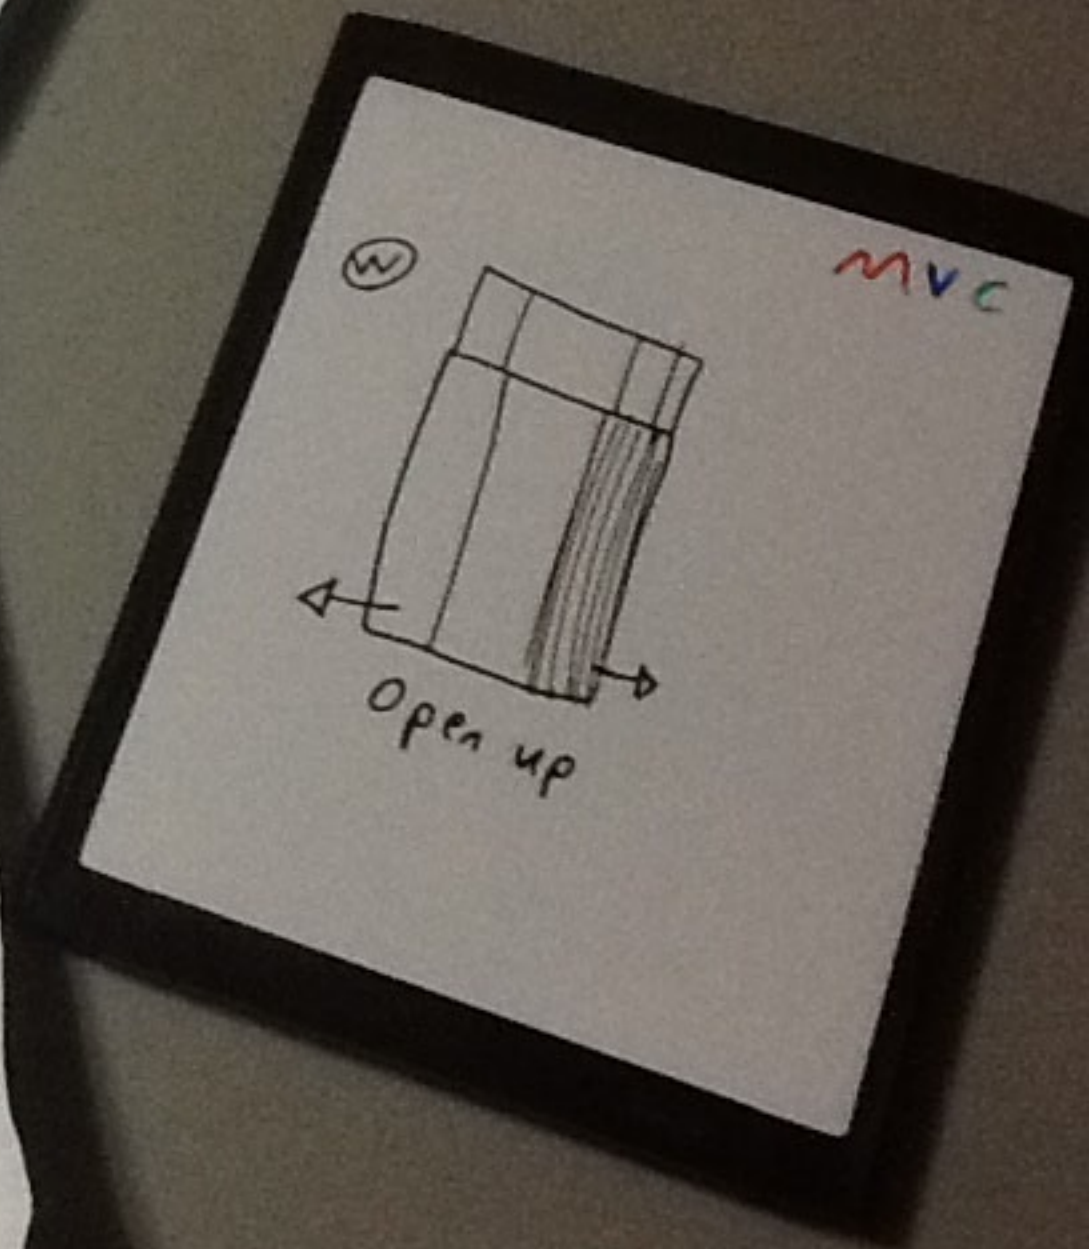

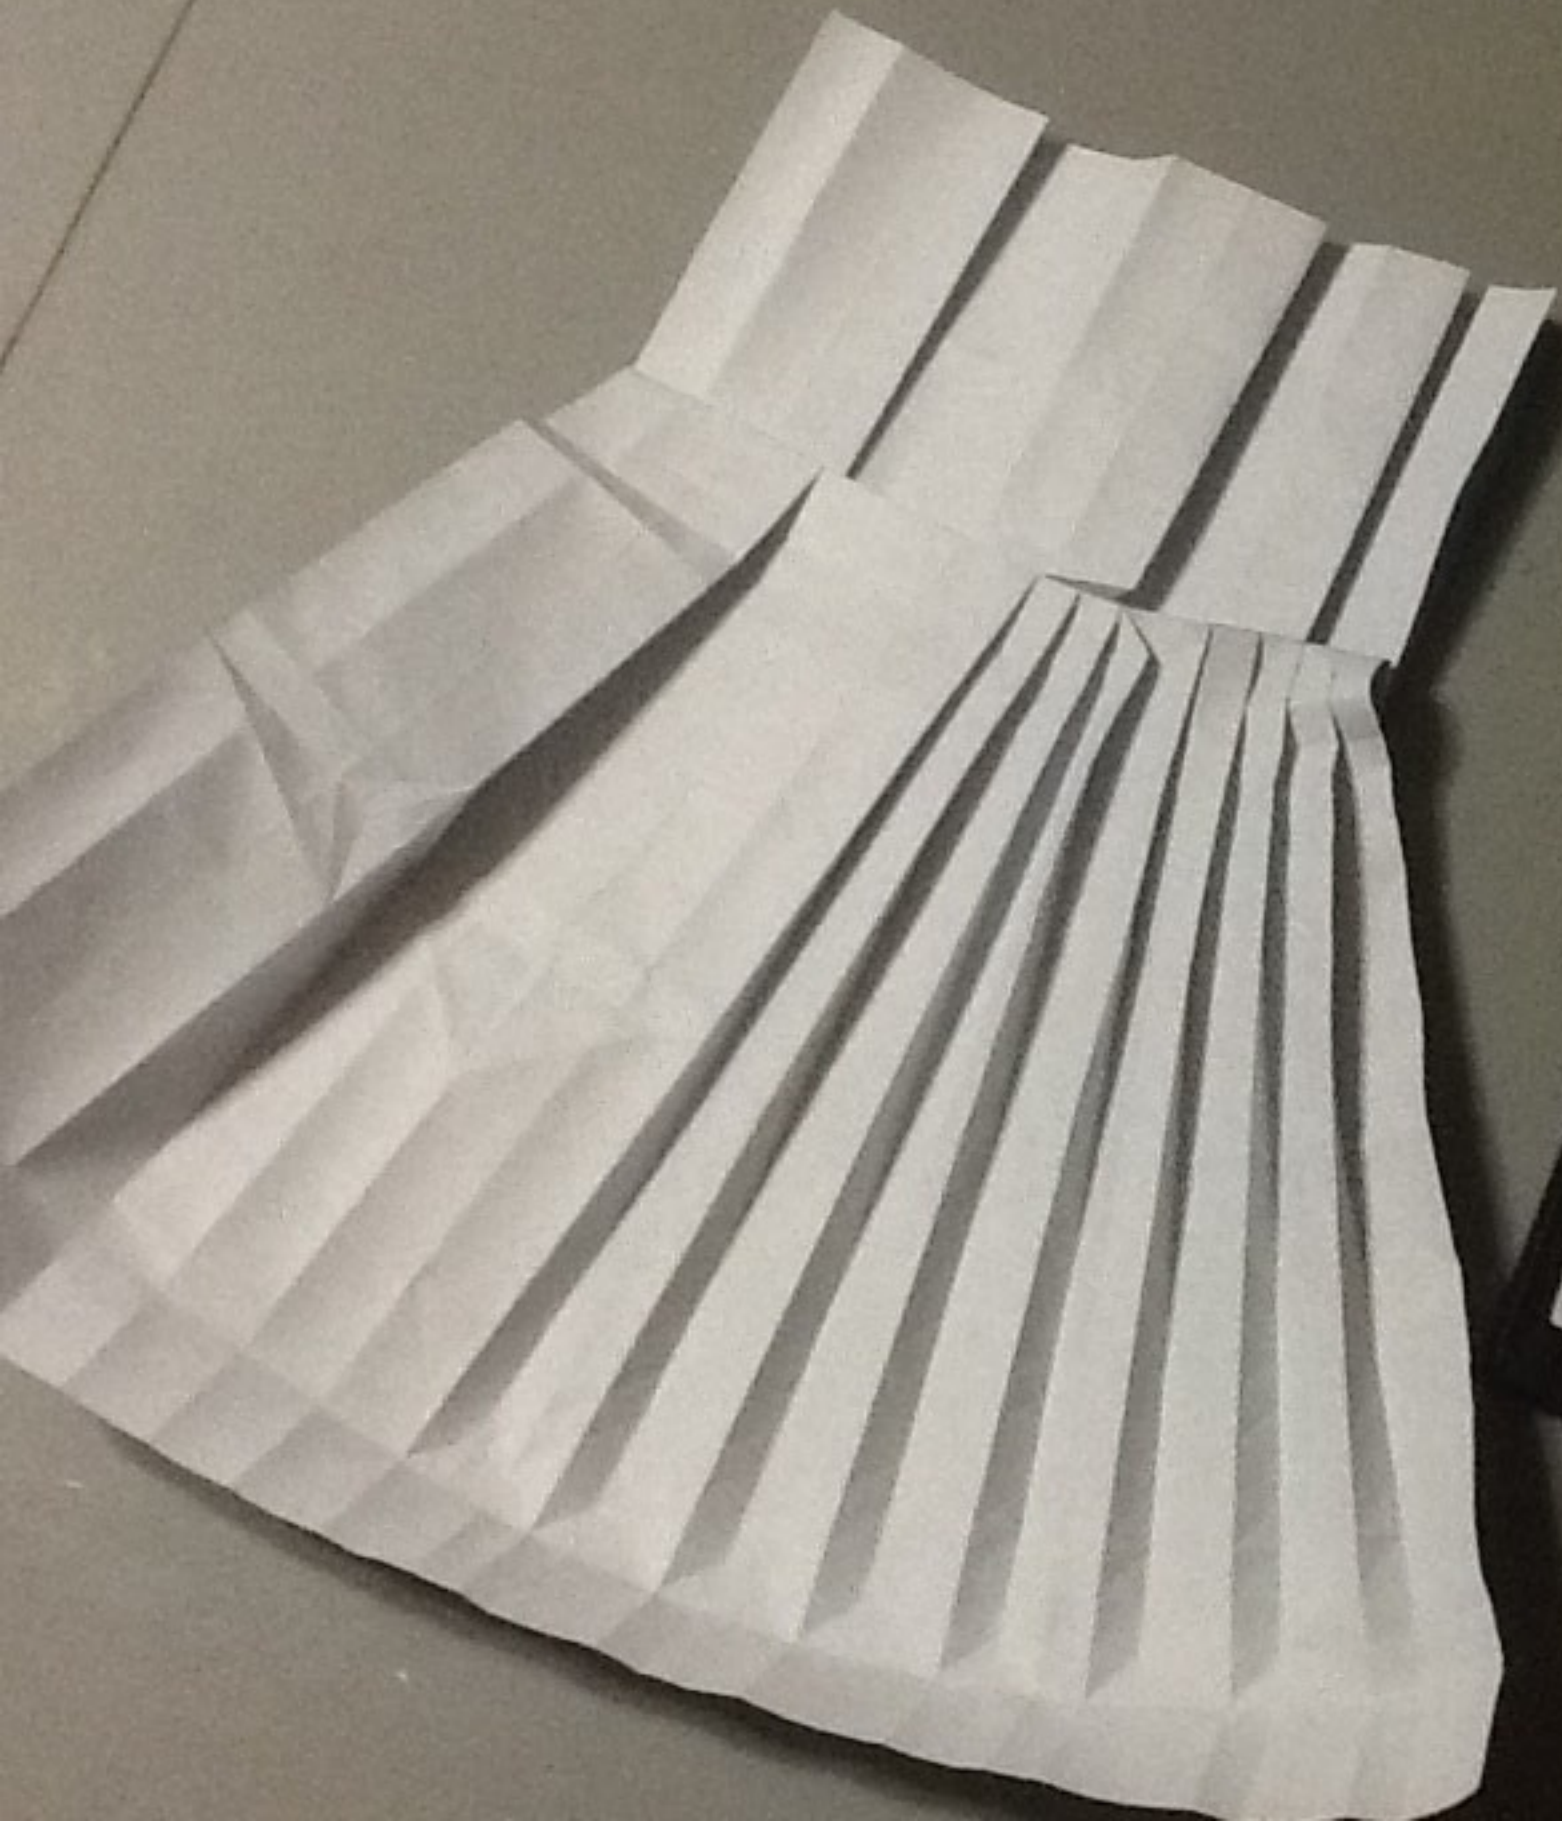

Complete the
two "short"
transition units

- Swivel
- Squash
- Layer wrap

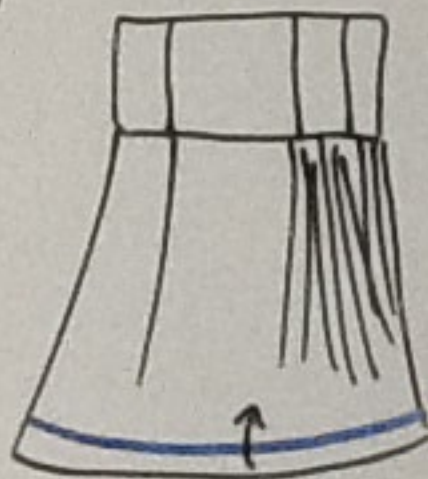

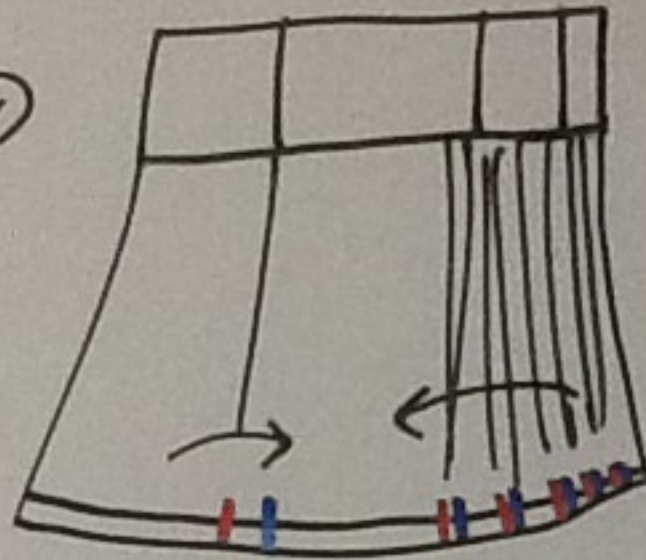

②

Fold up one unit

MVC

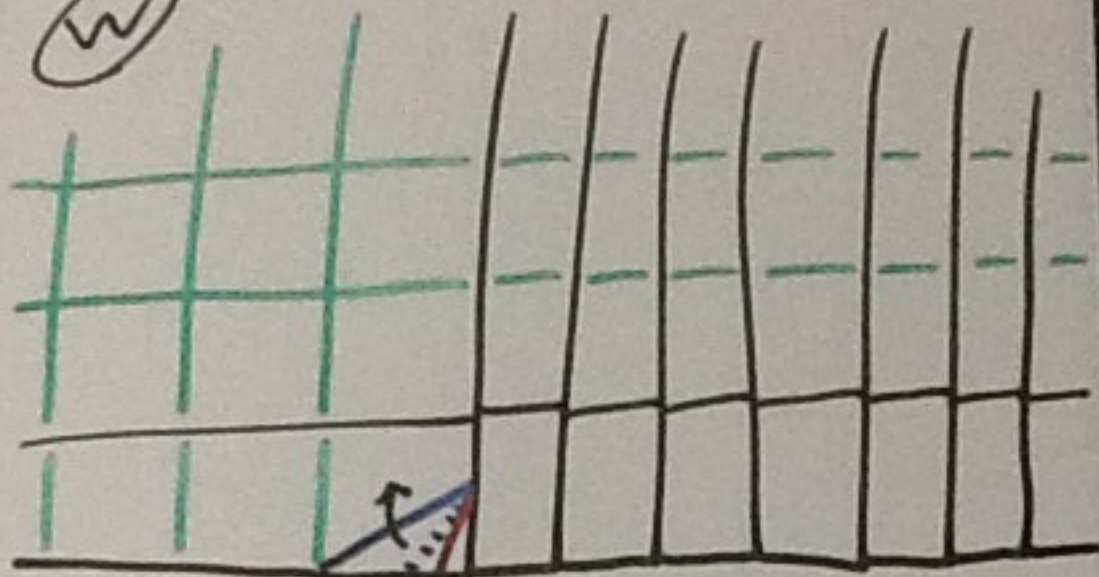

(w)

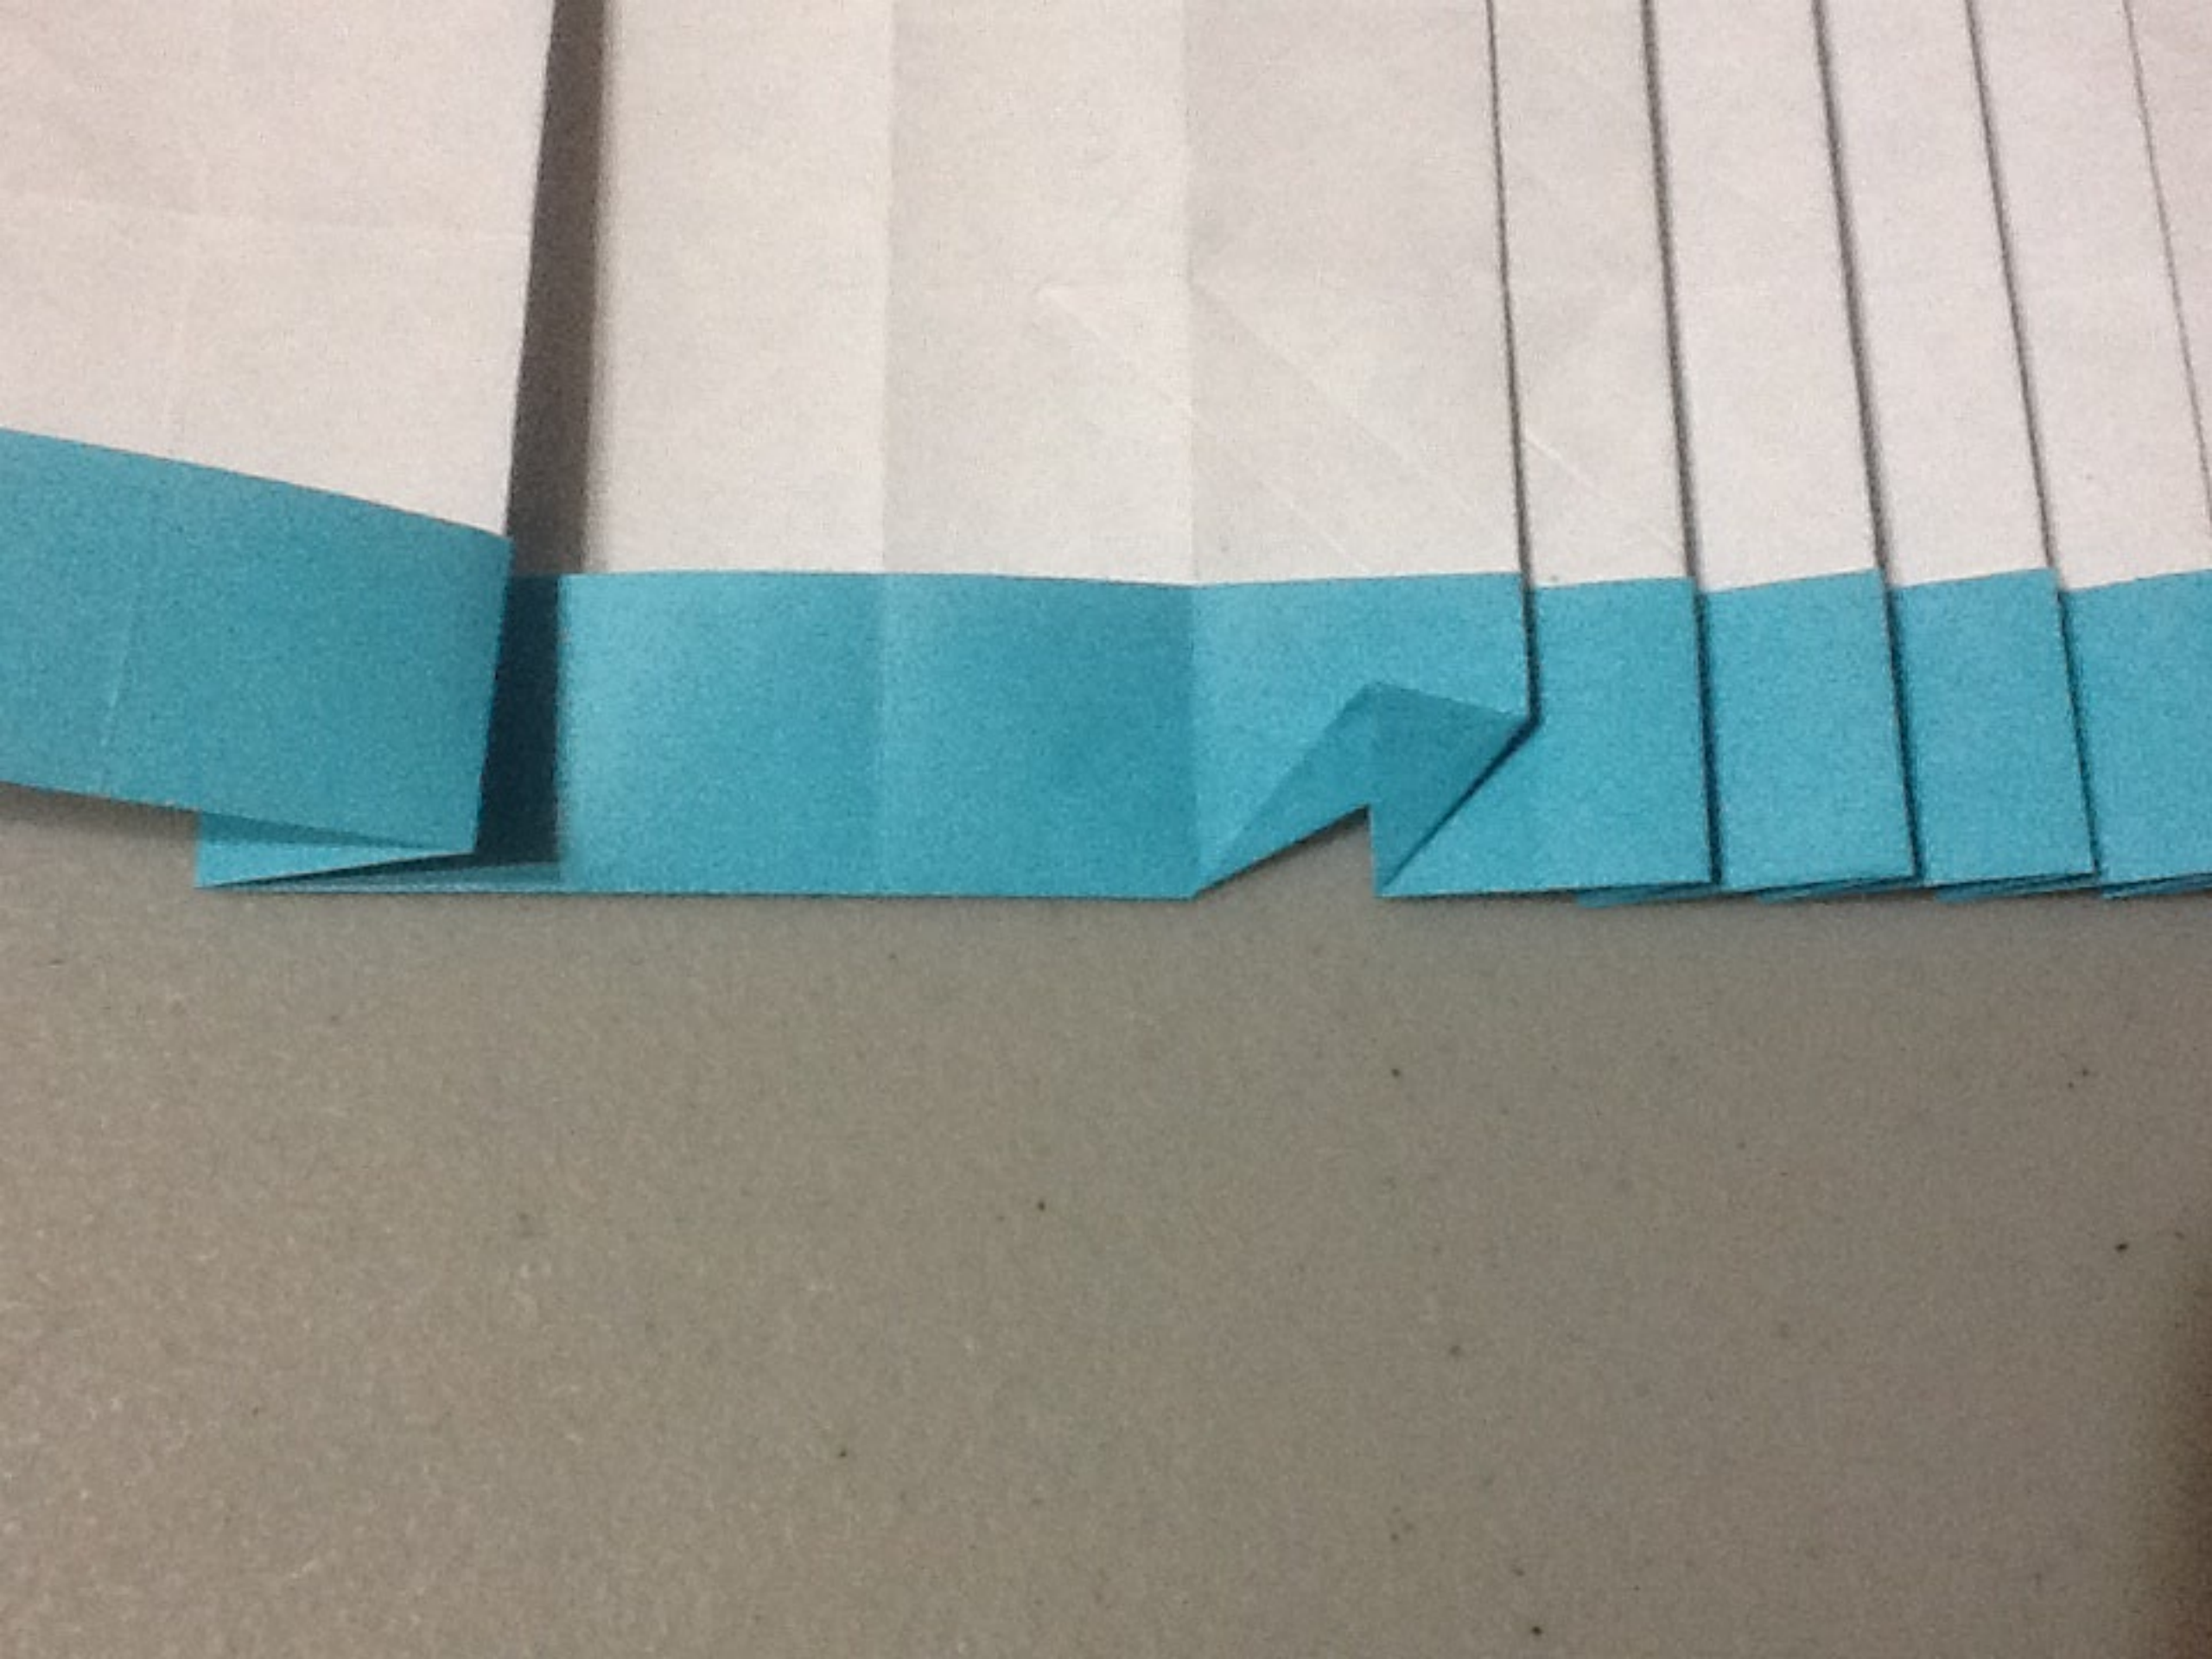

Close up

MVC

(W)

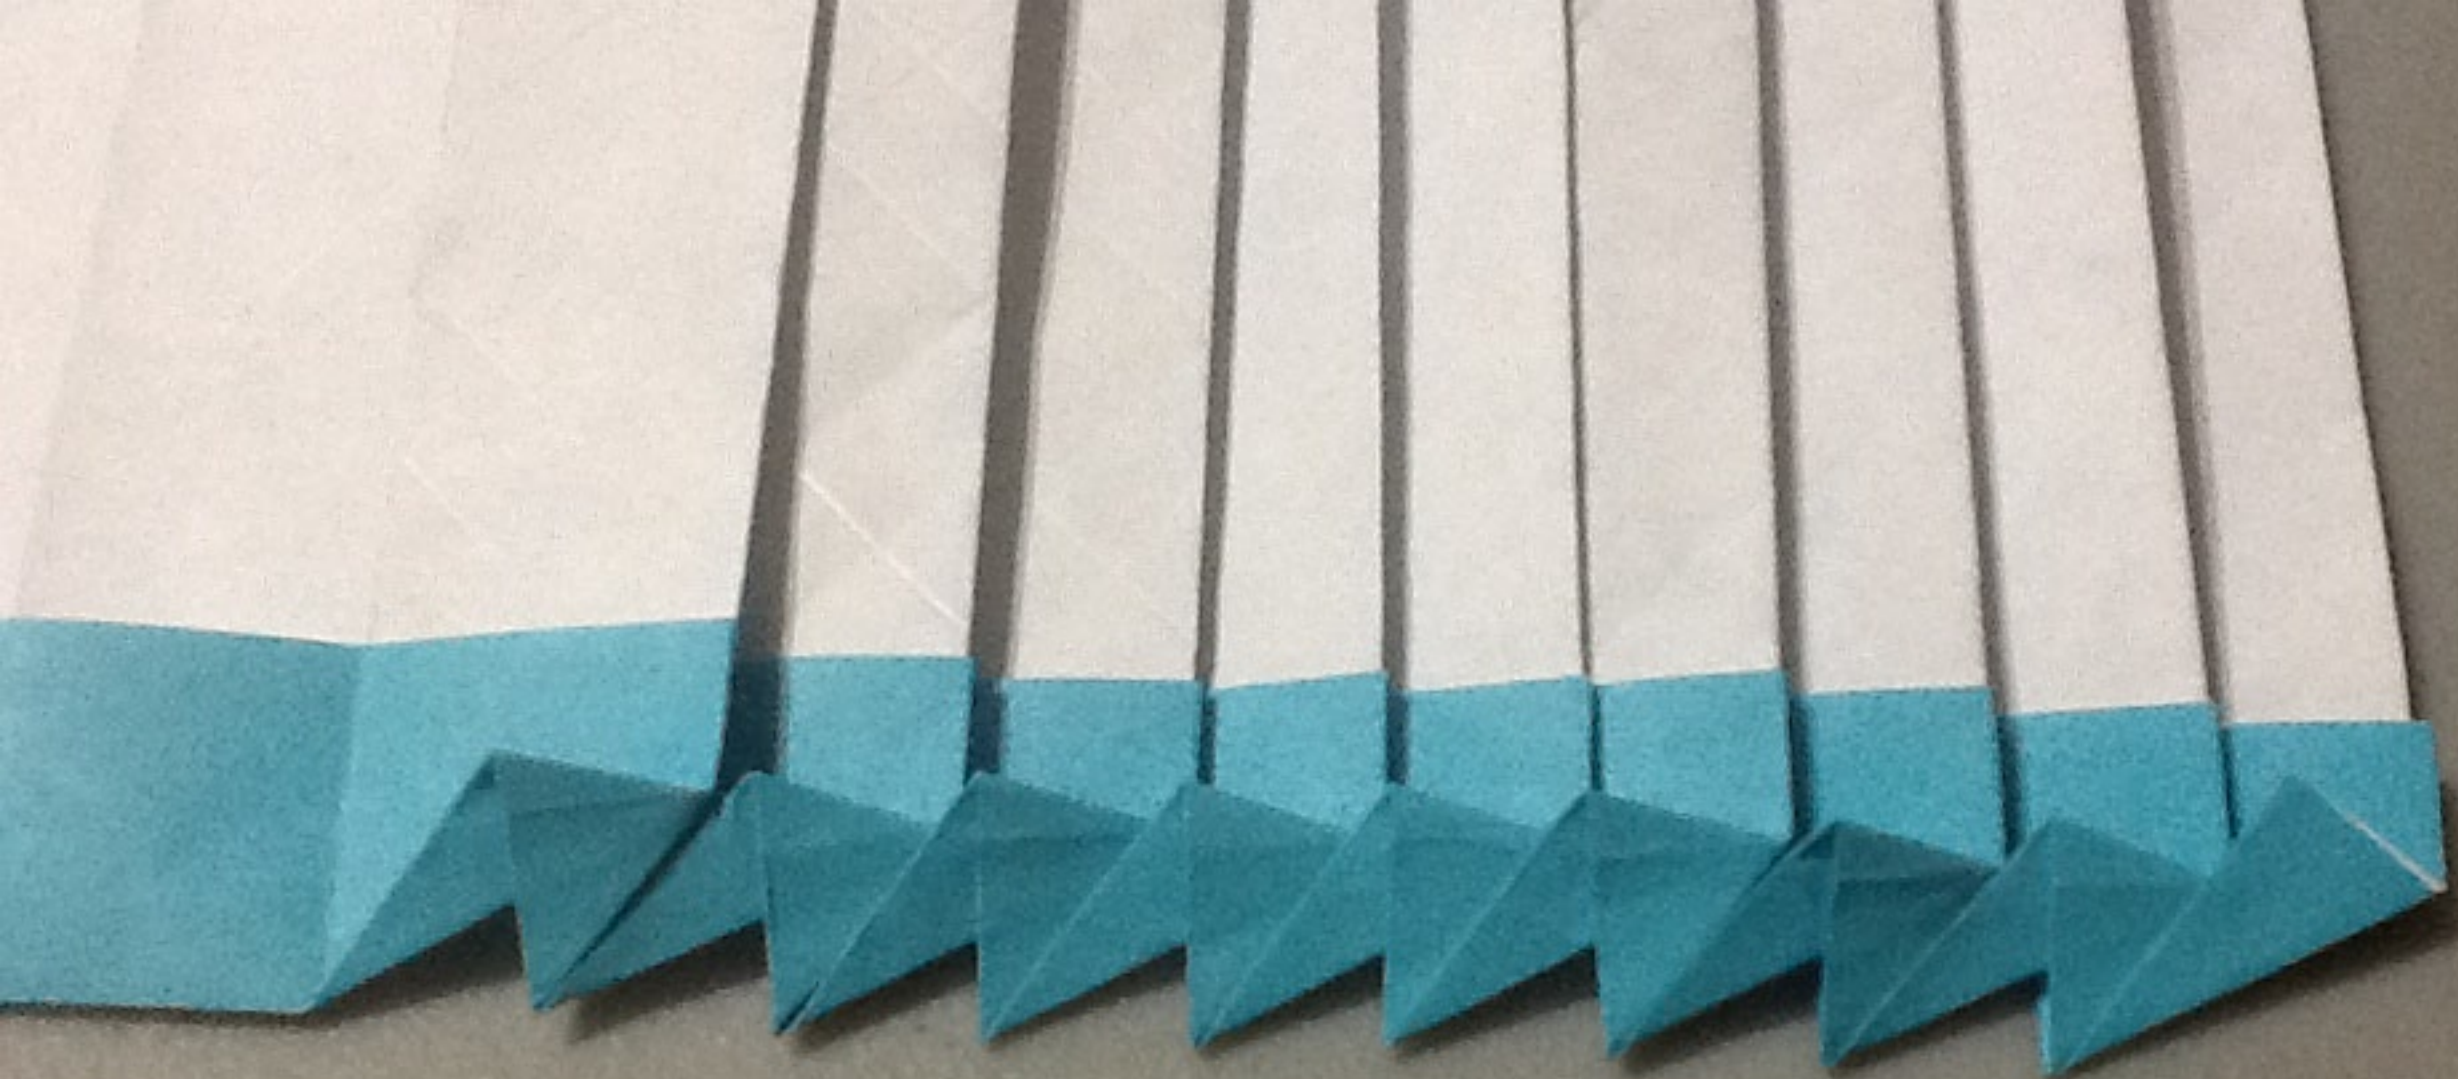

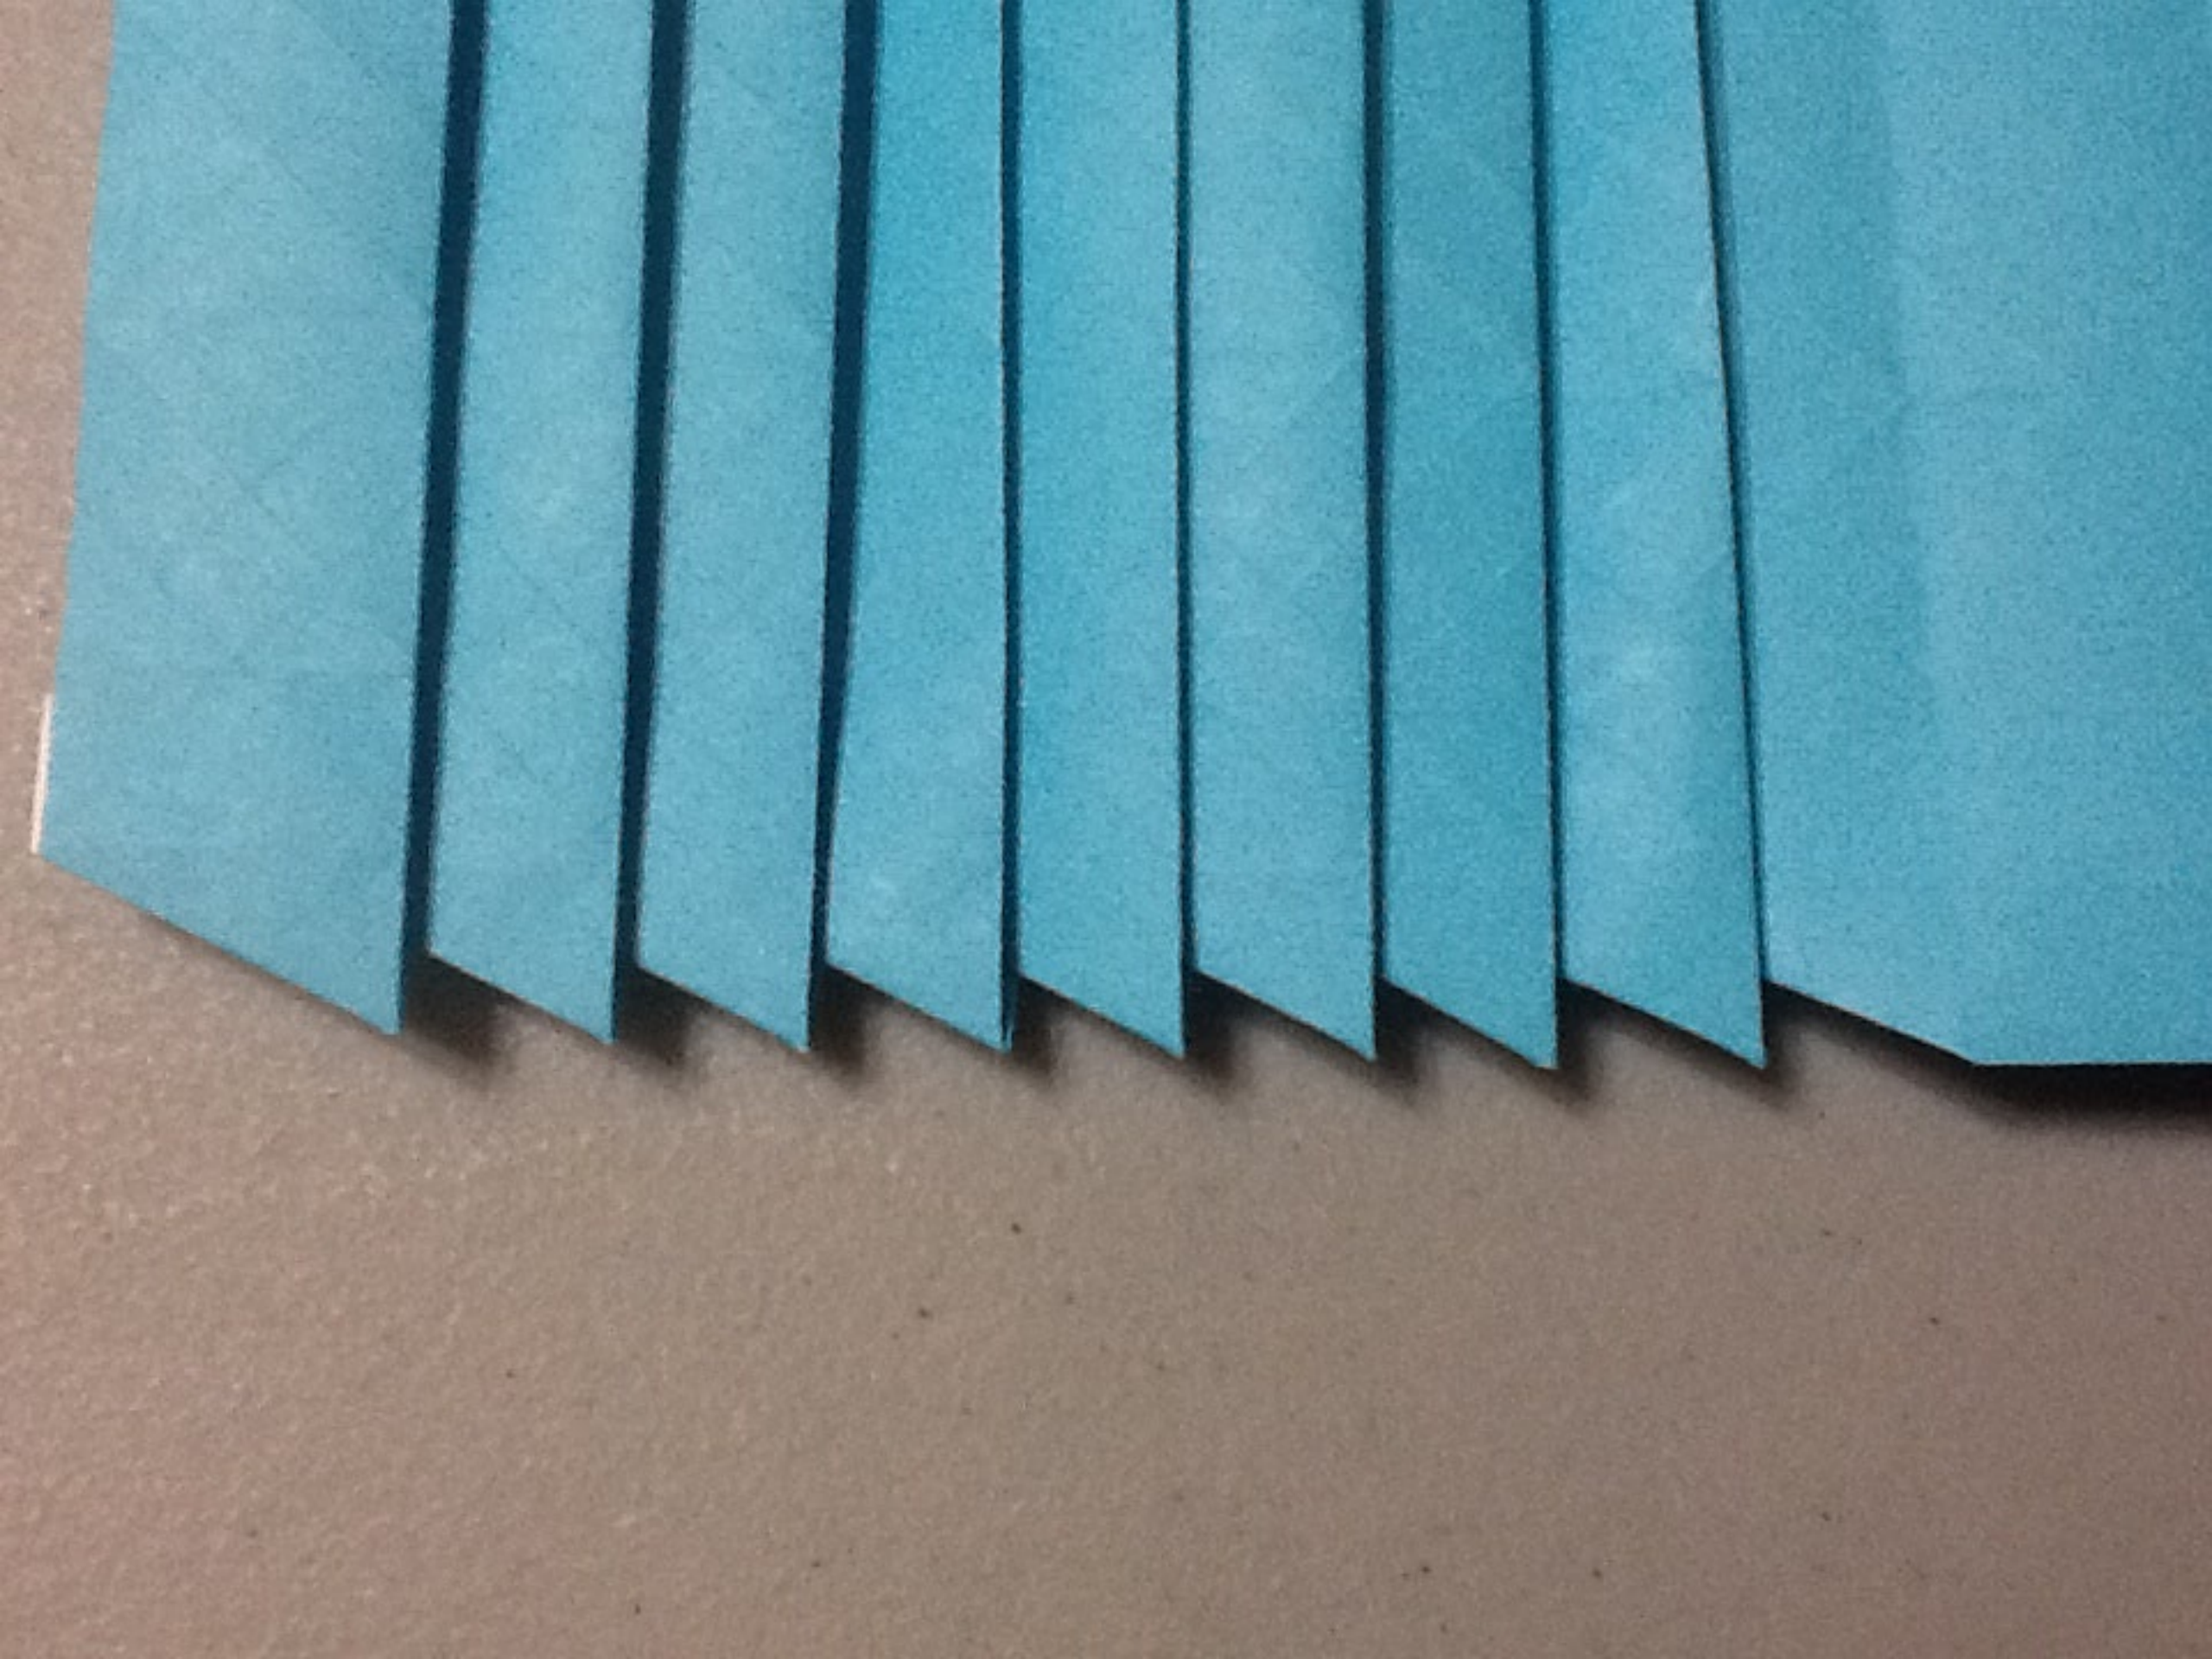

Swivel the First
small pleat

MVC

Repeat swivel
on all small pleats

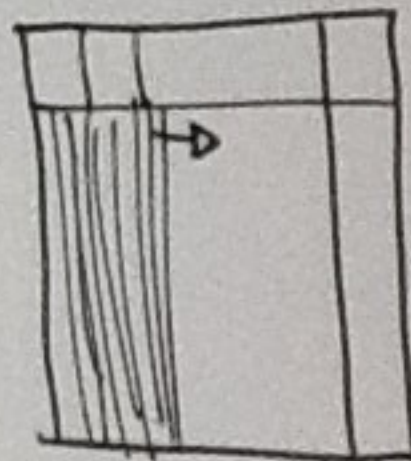

Undo the
swivels and the
long horizontal
fold

MVC

④

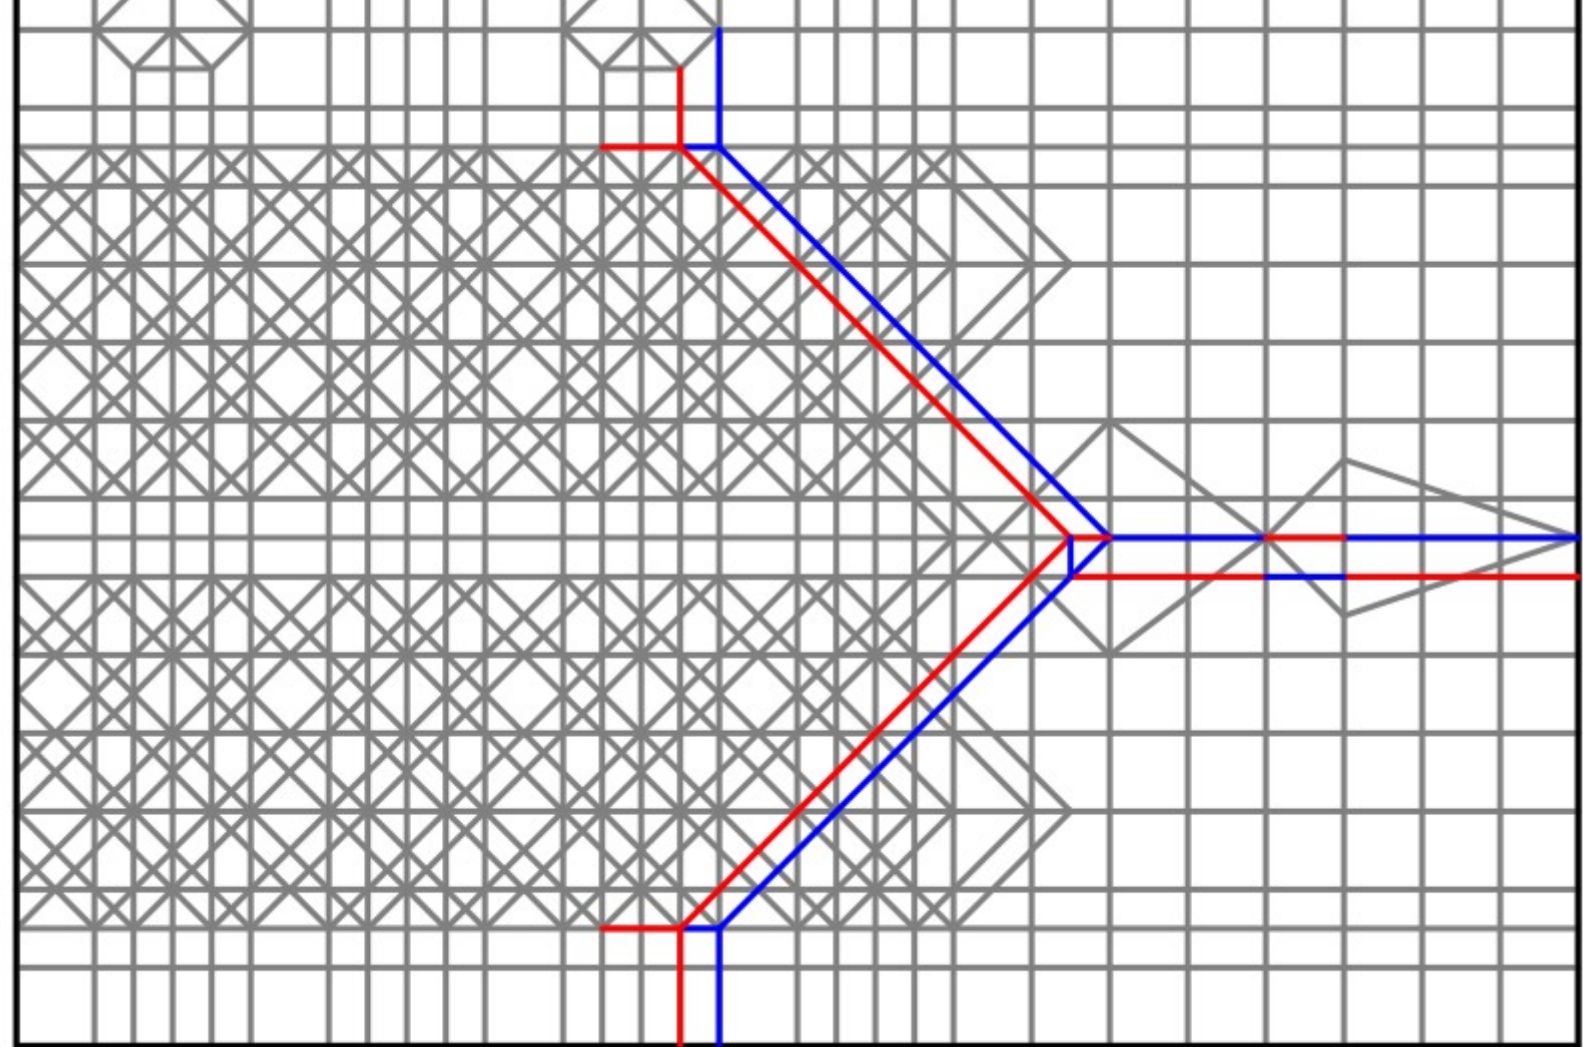

Loosen up four
pleats near the
transitions

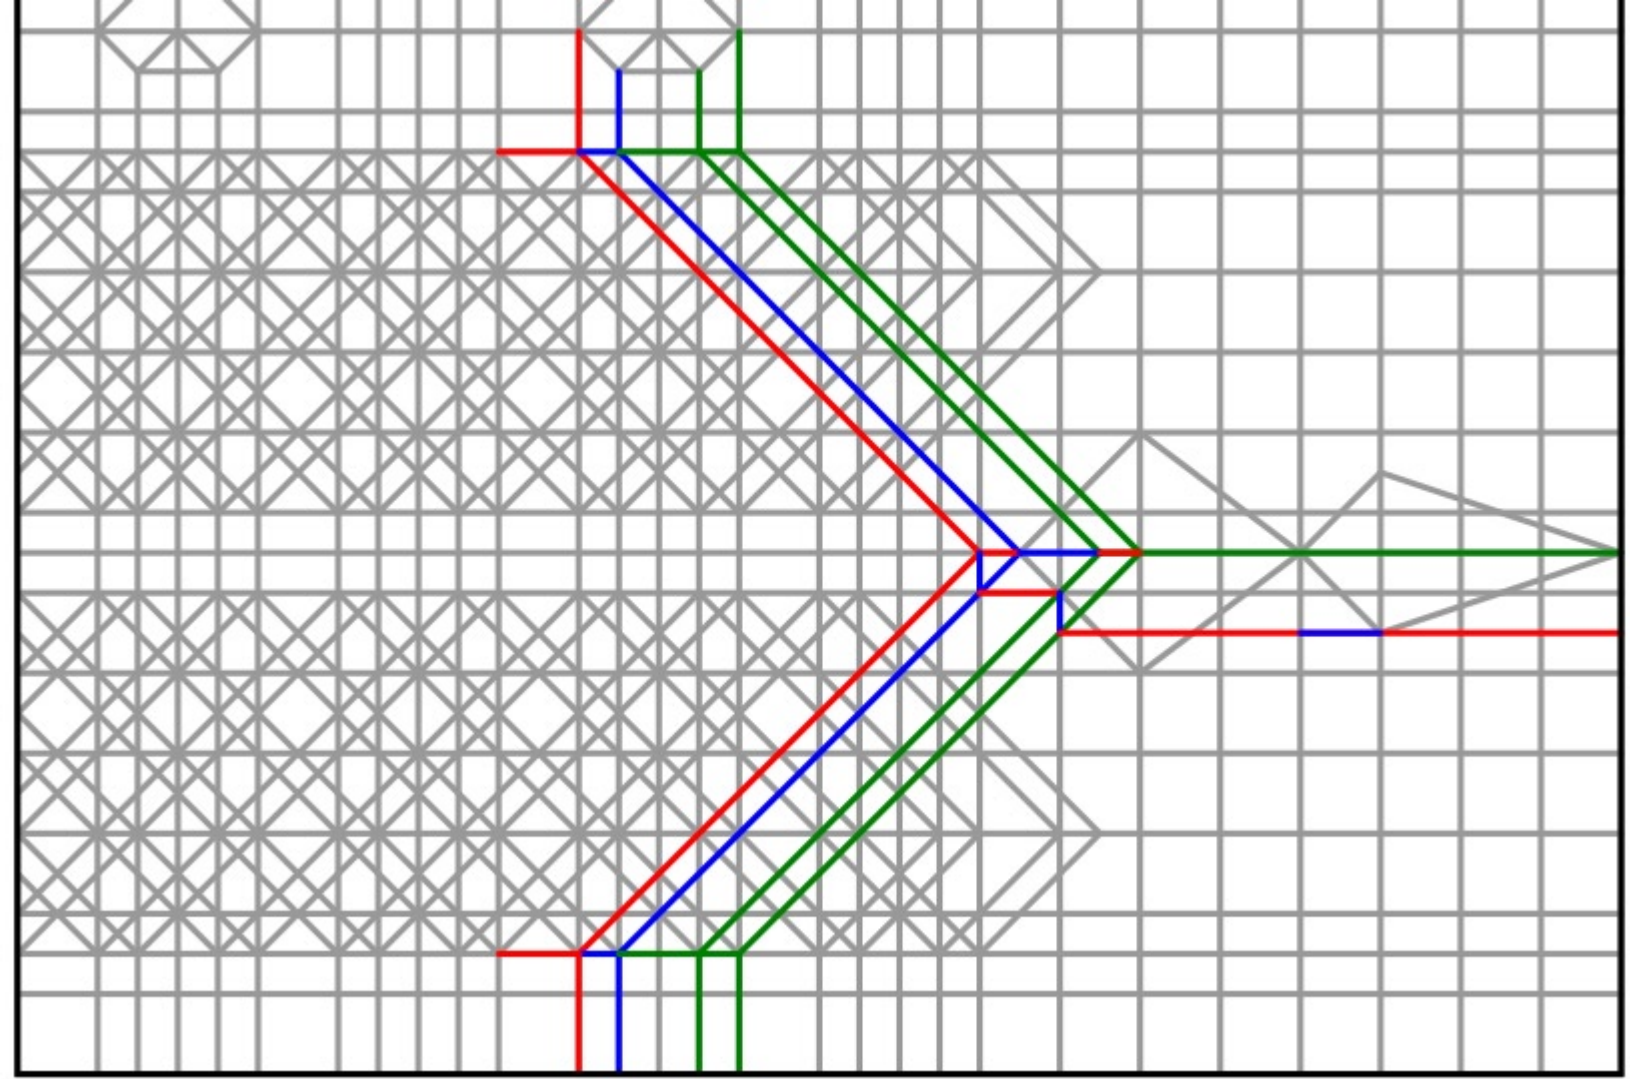

③

Collapse the
Scale precreases
in this order-

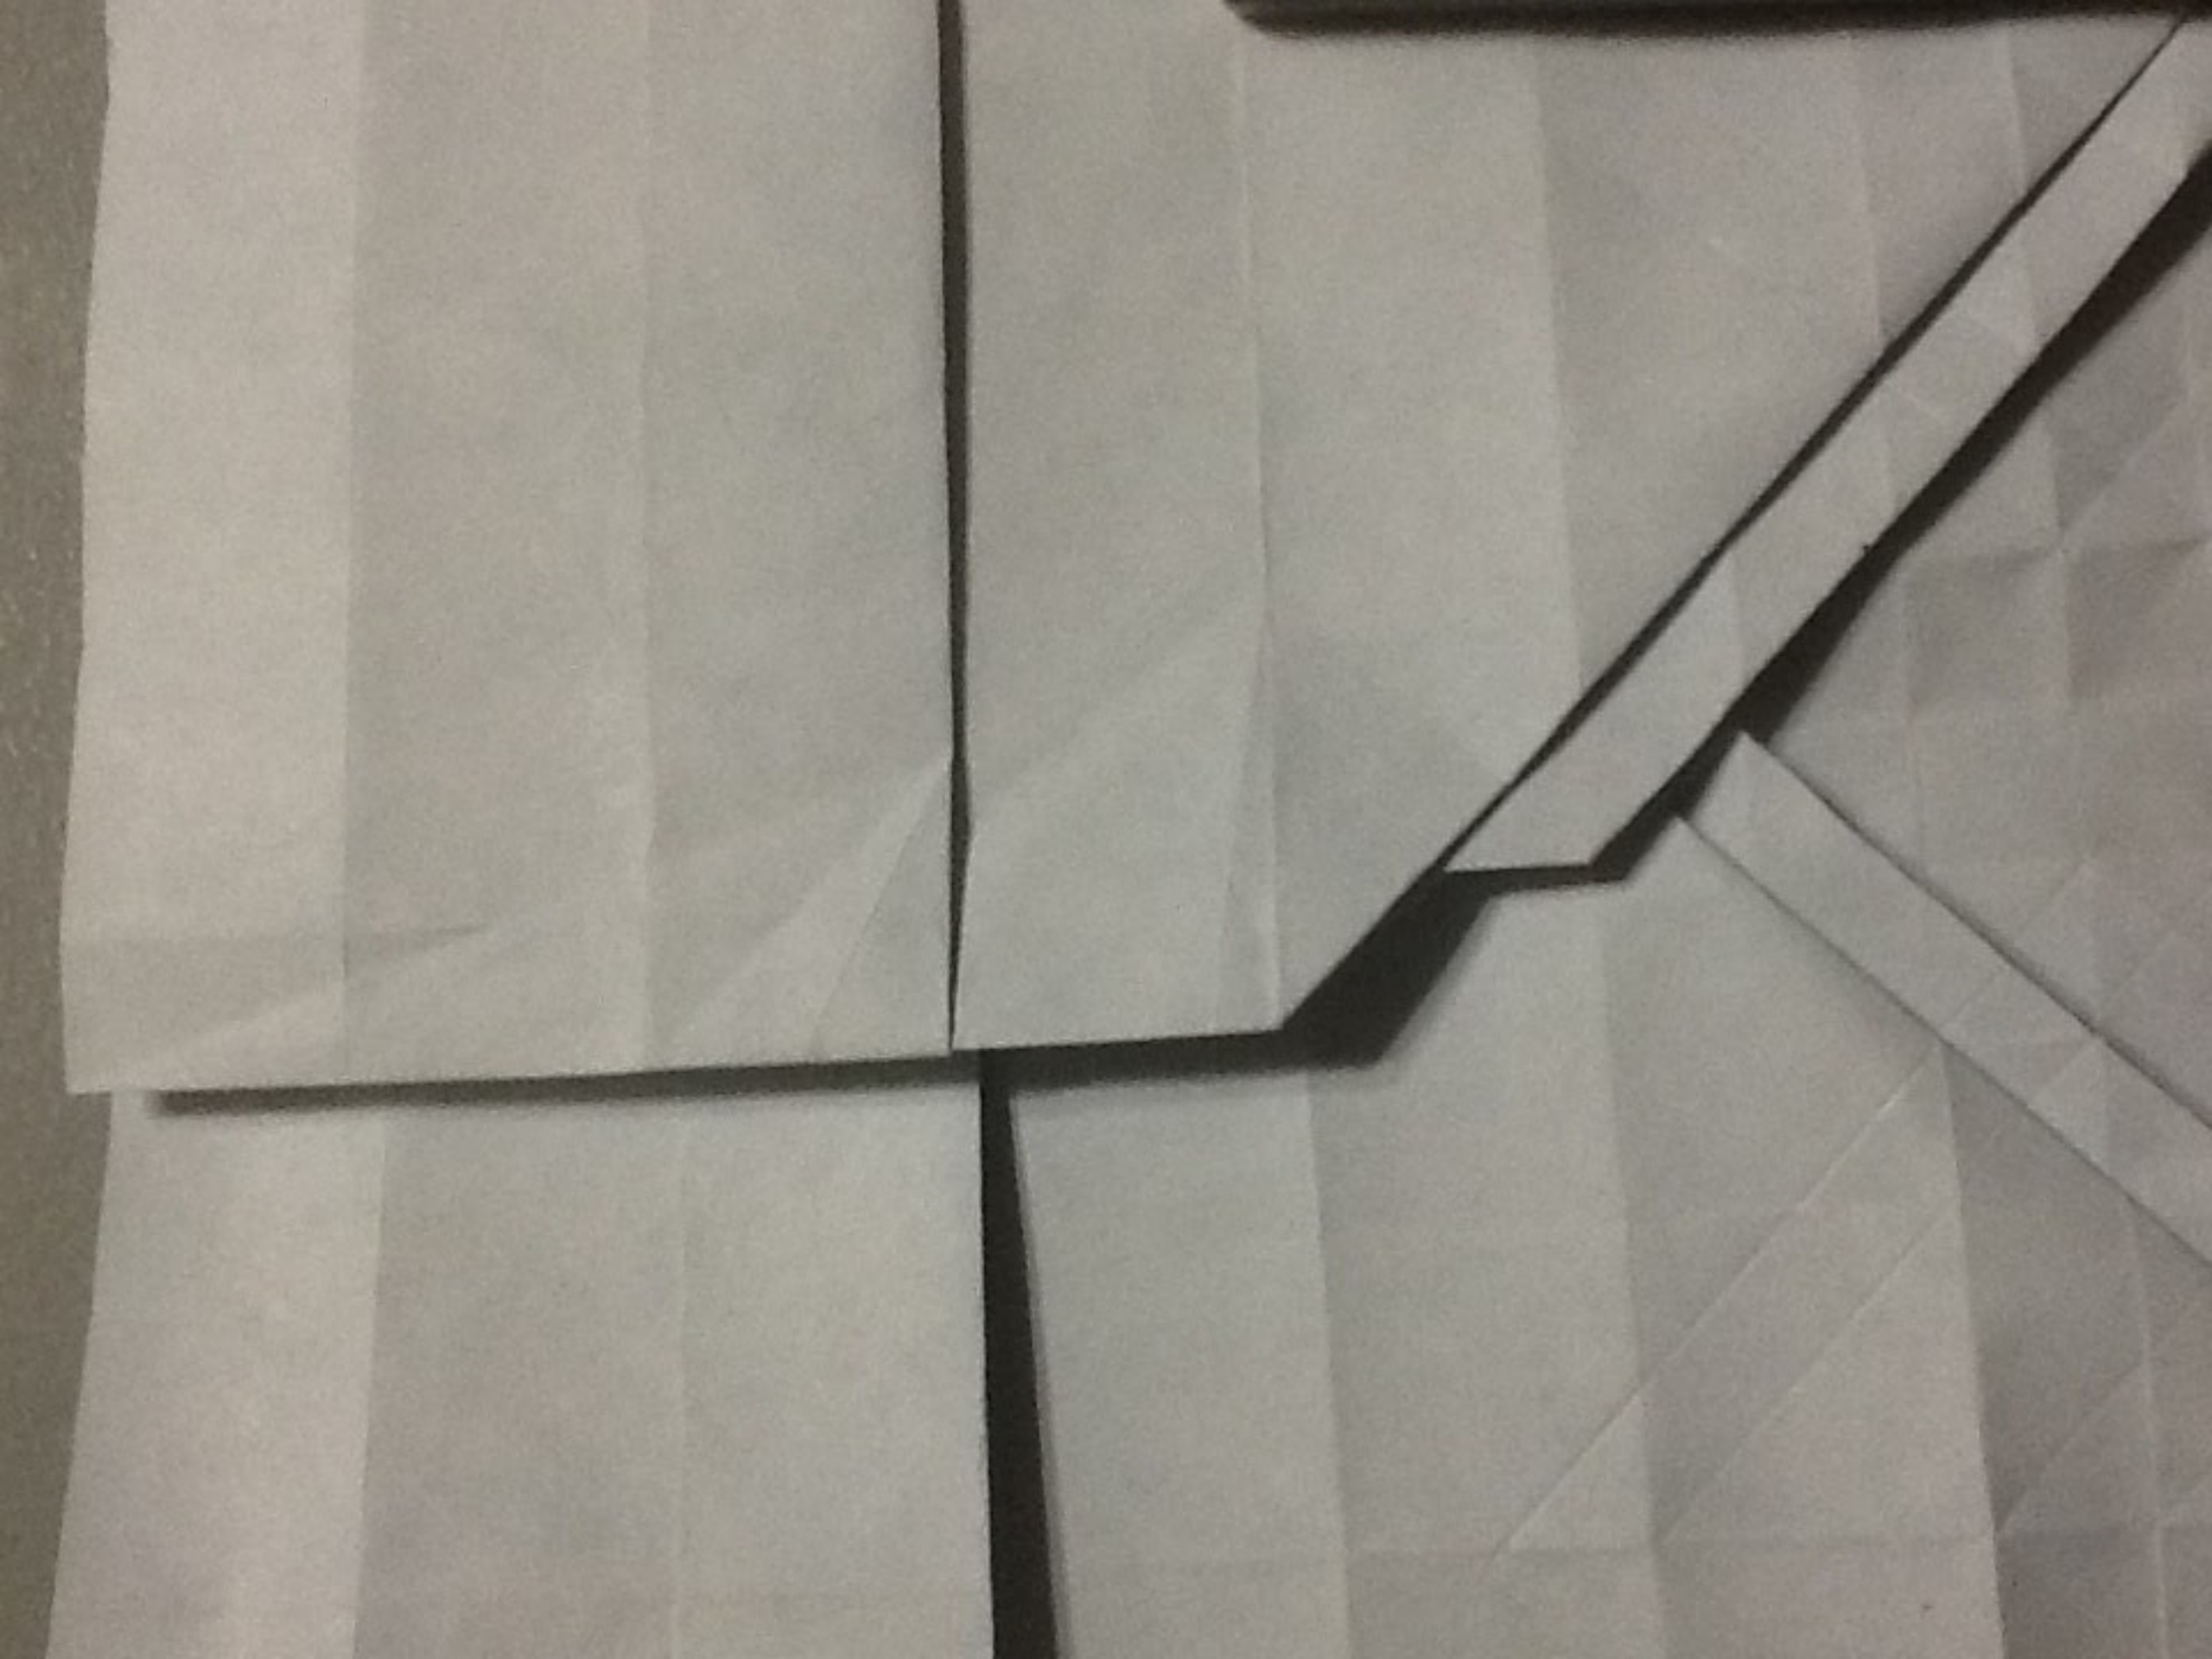

- 2 long pairs
- 4 mixed pairs
- Standard scales

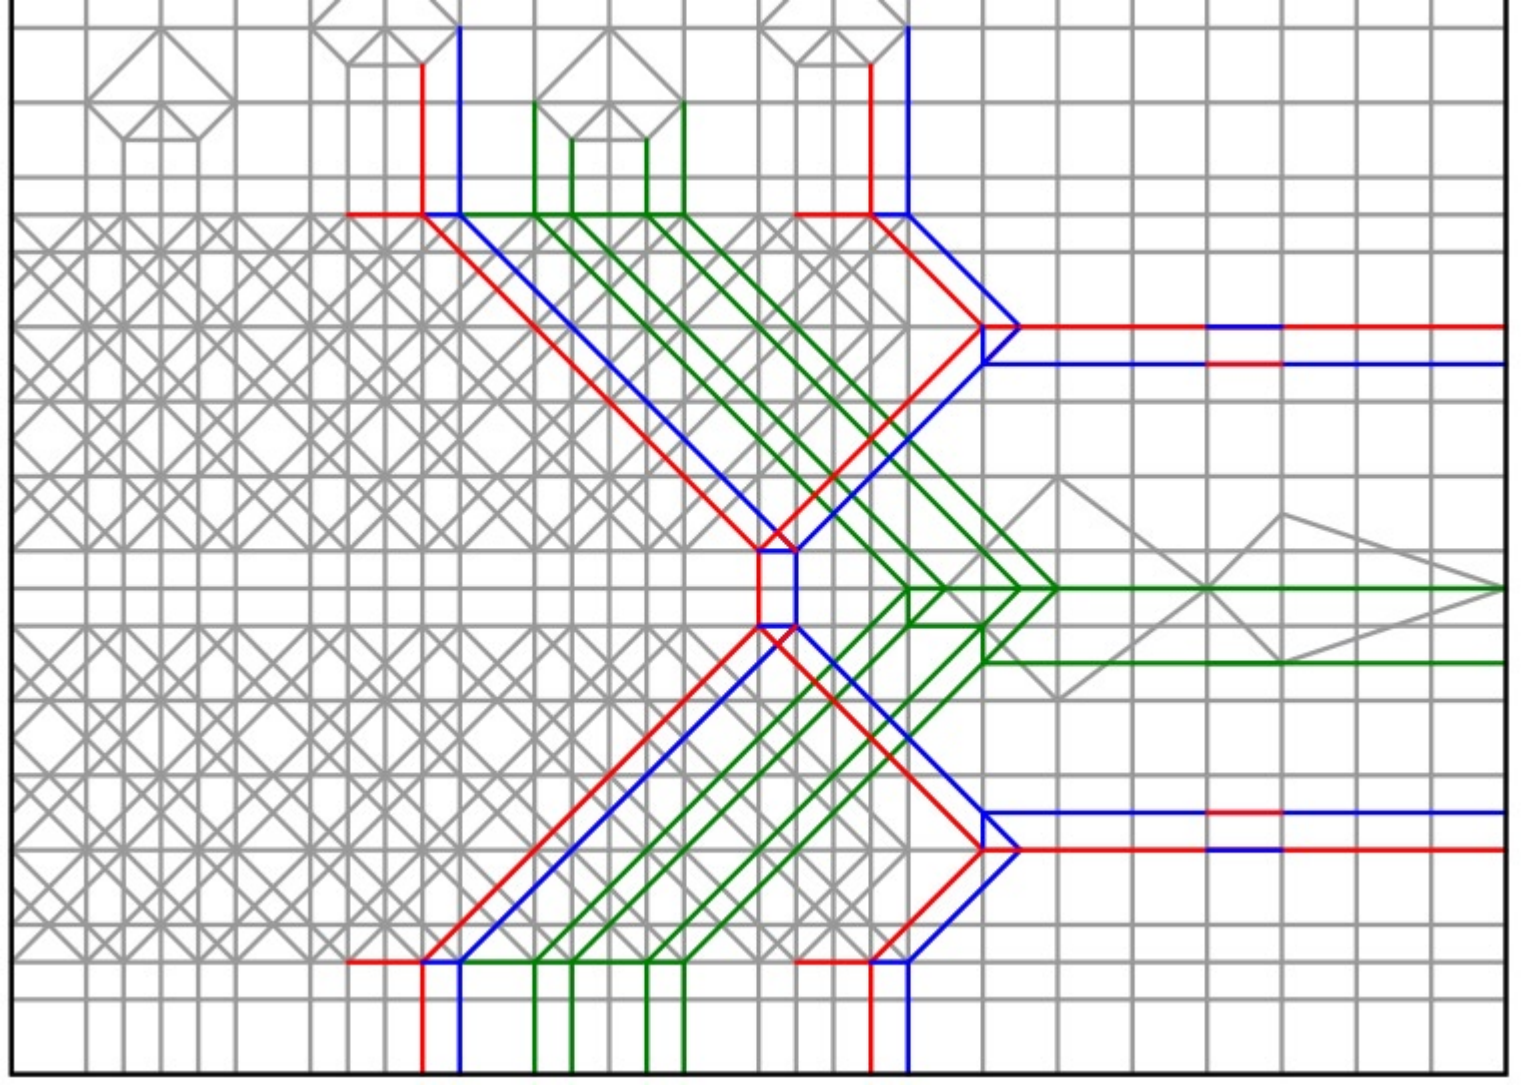

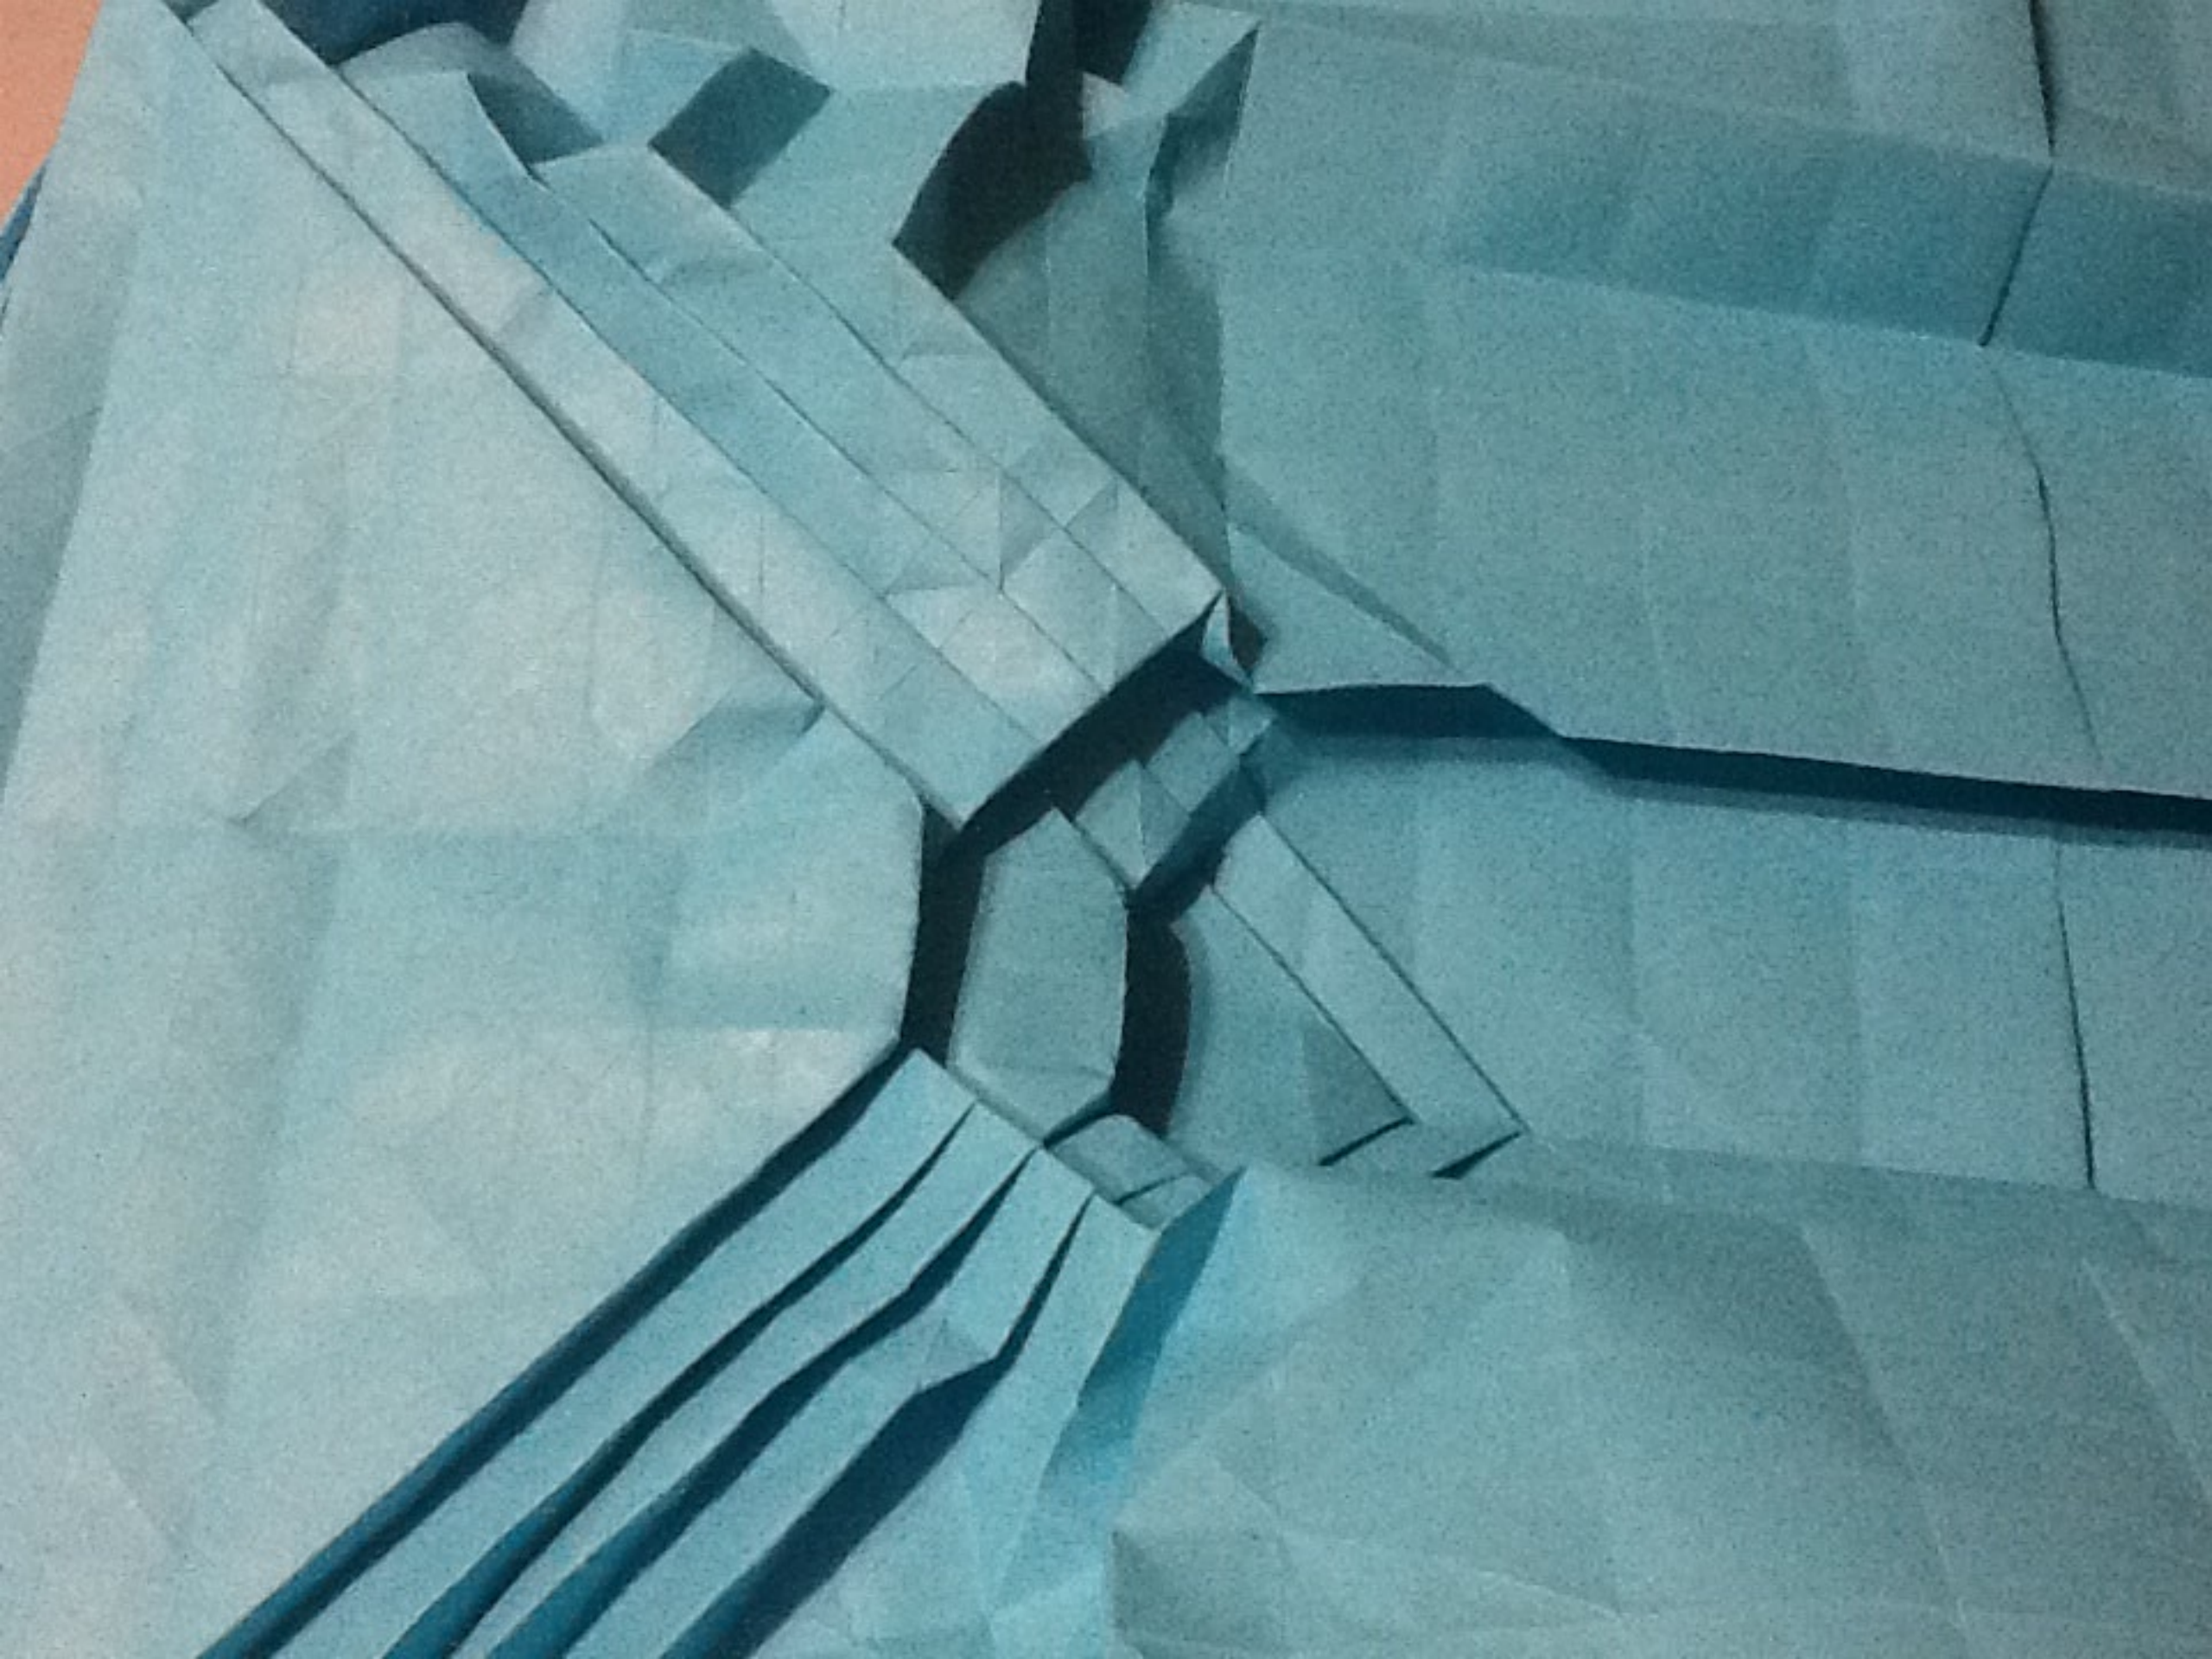

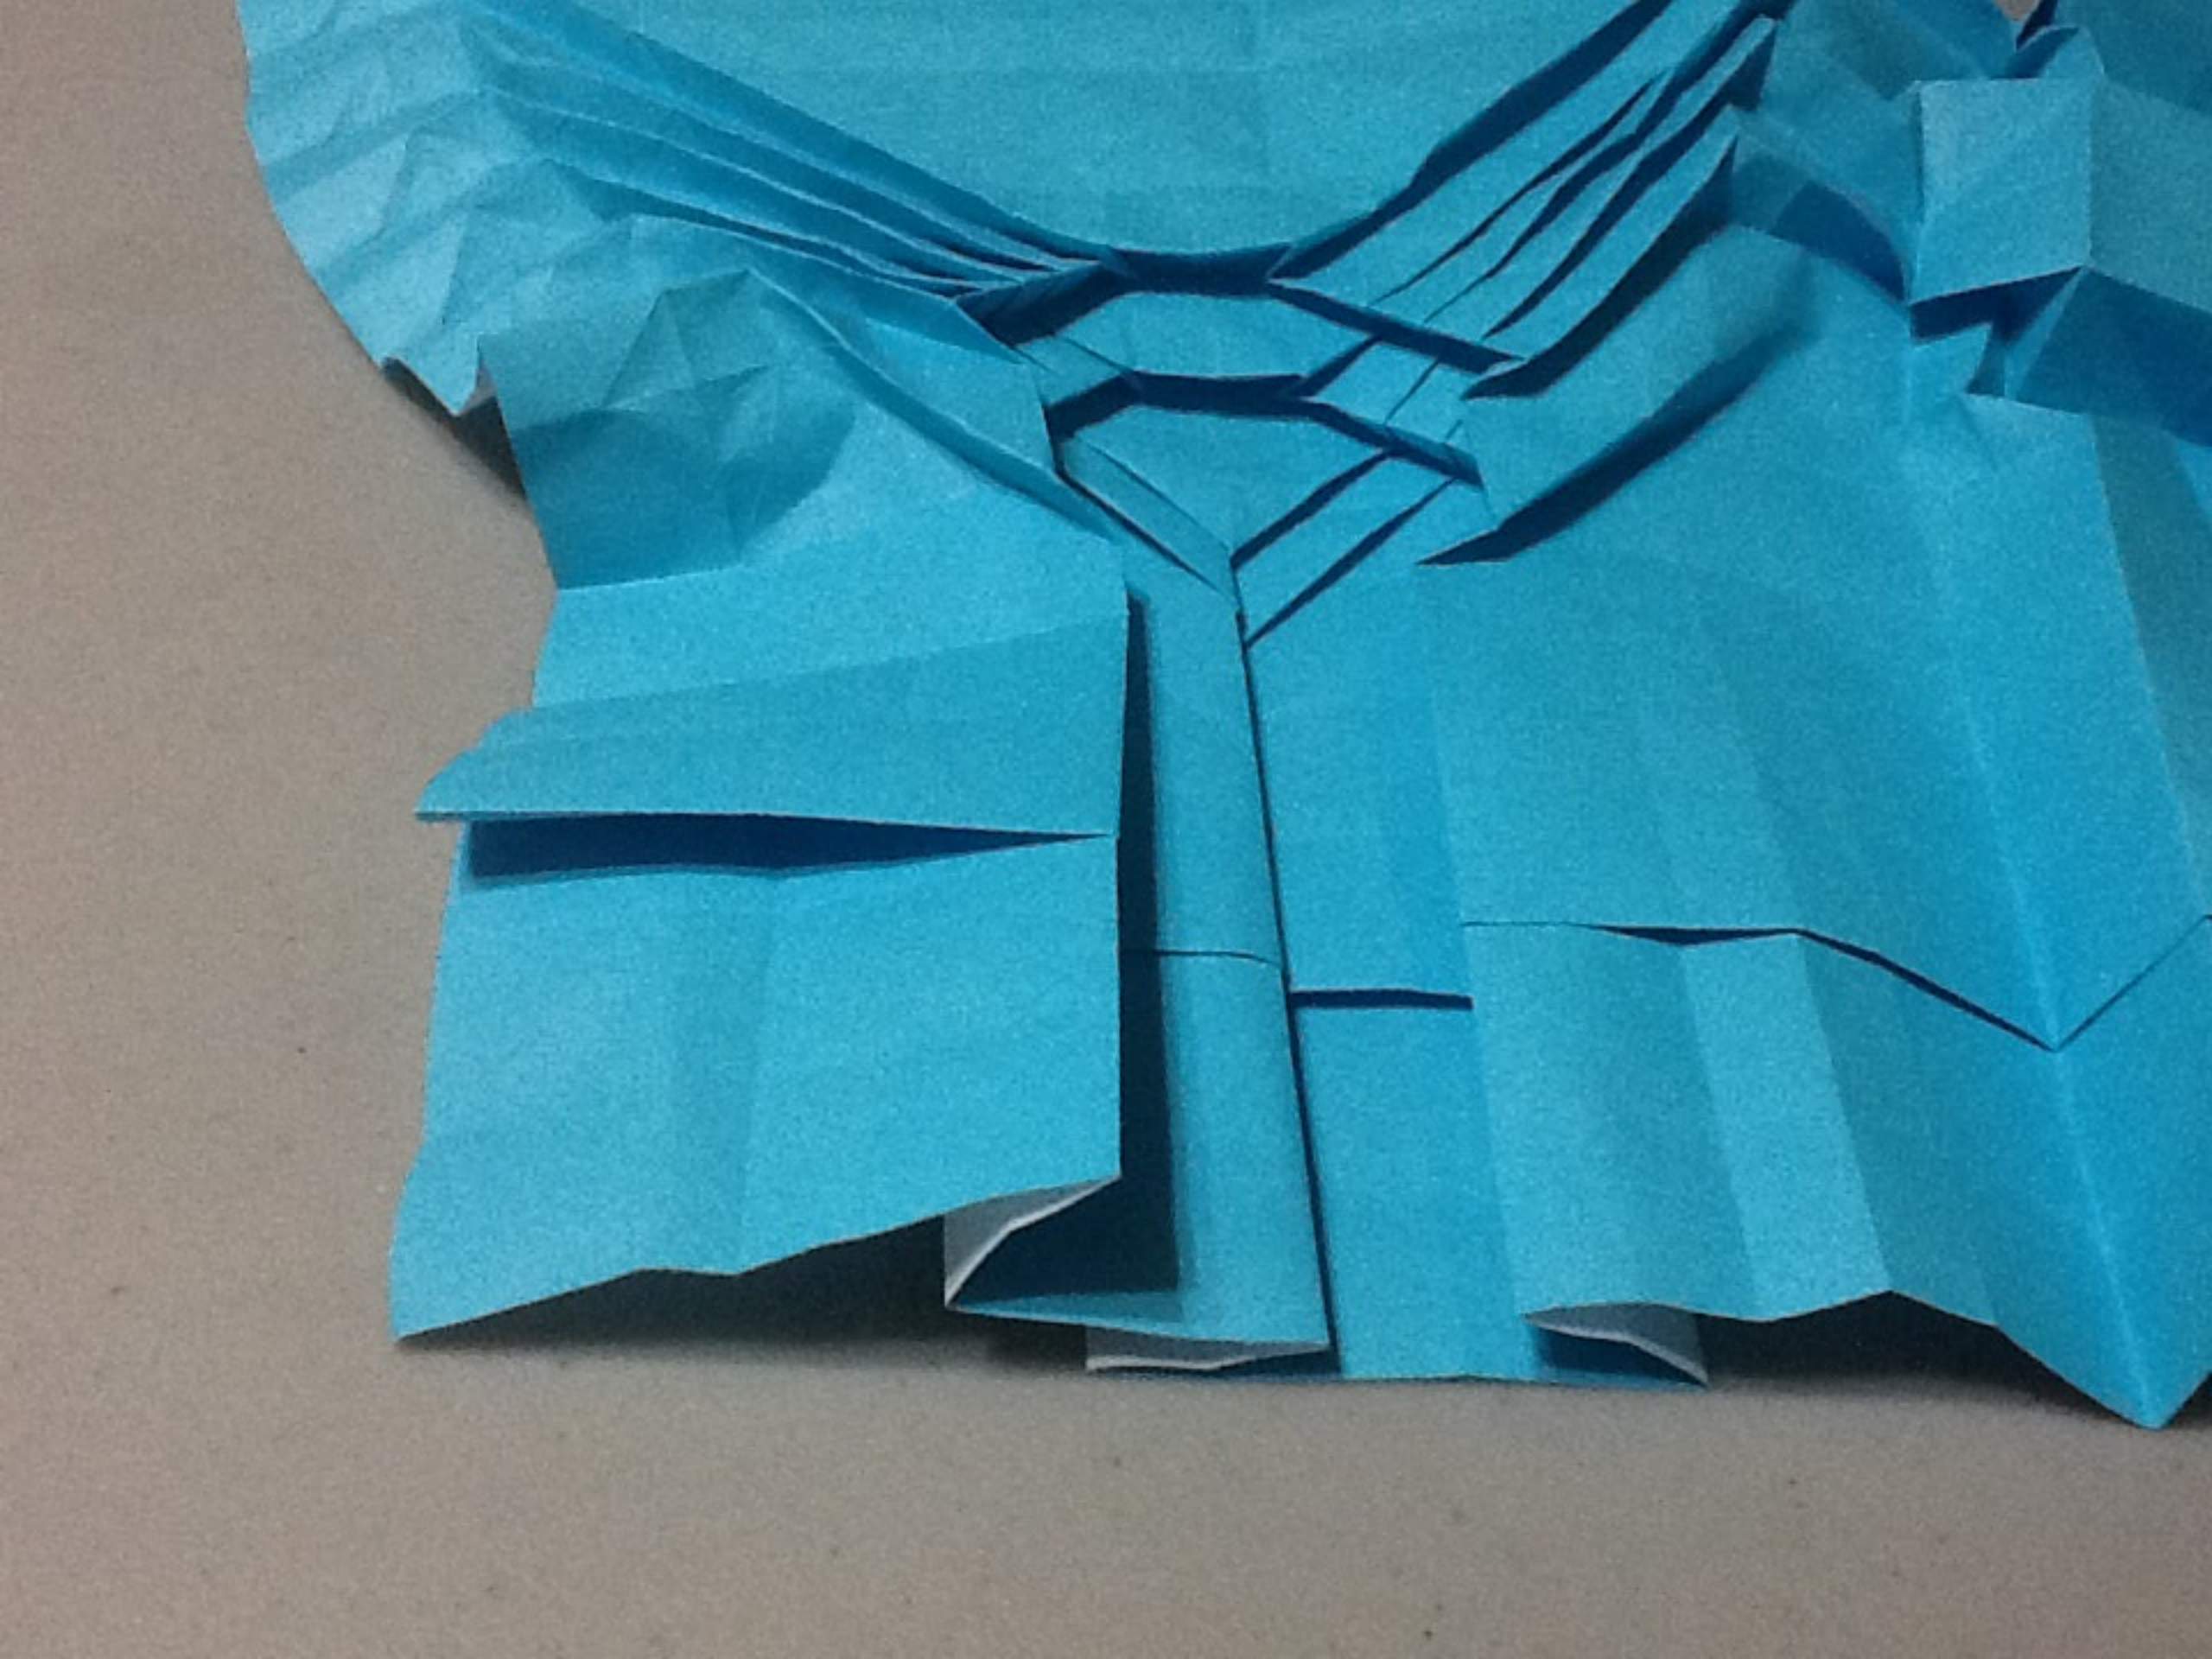

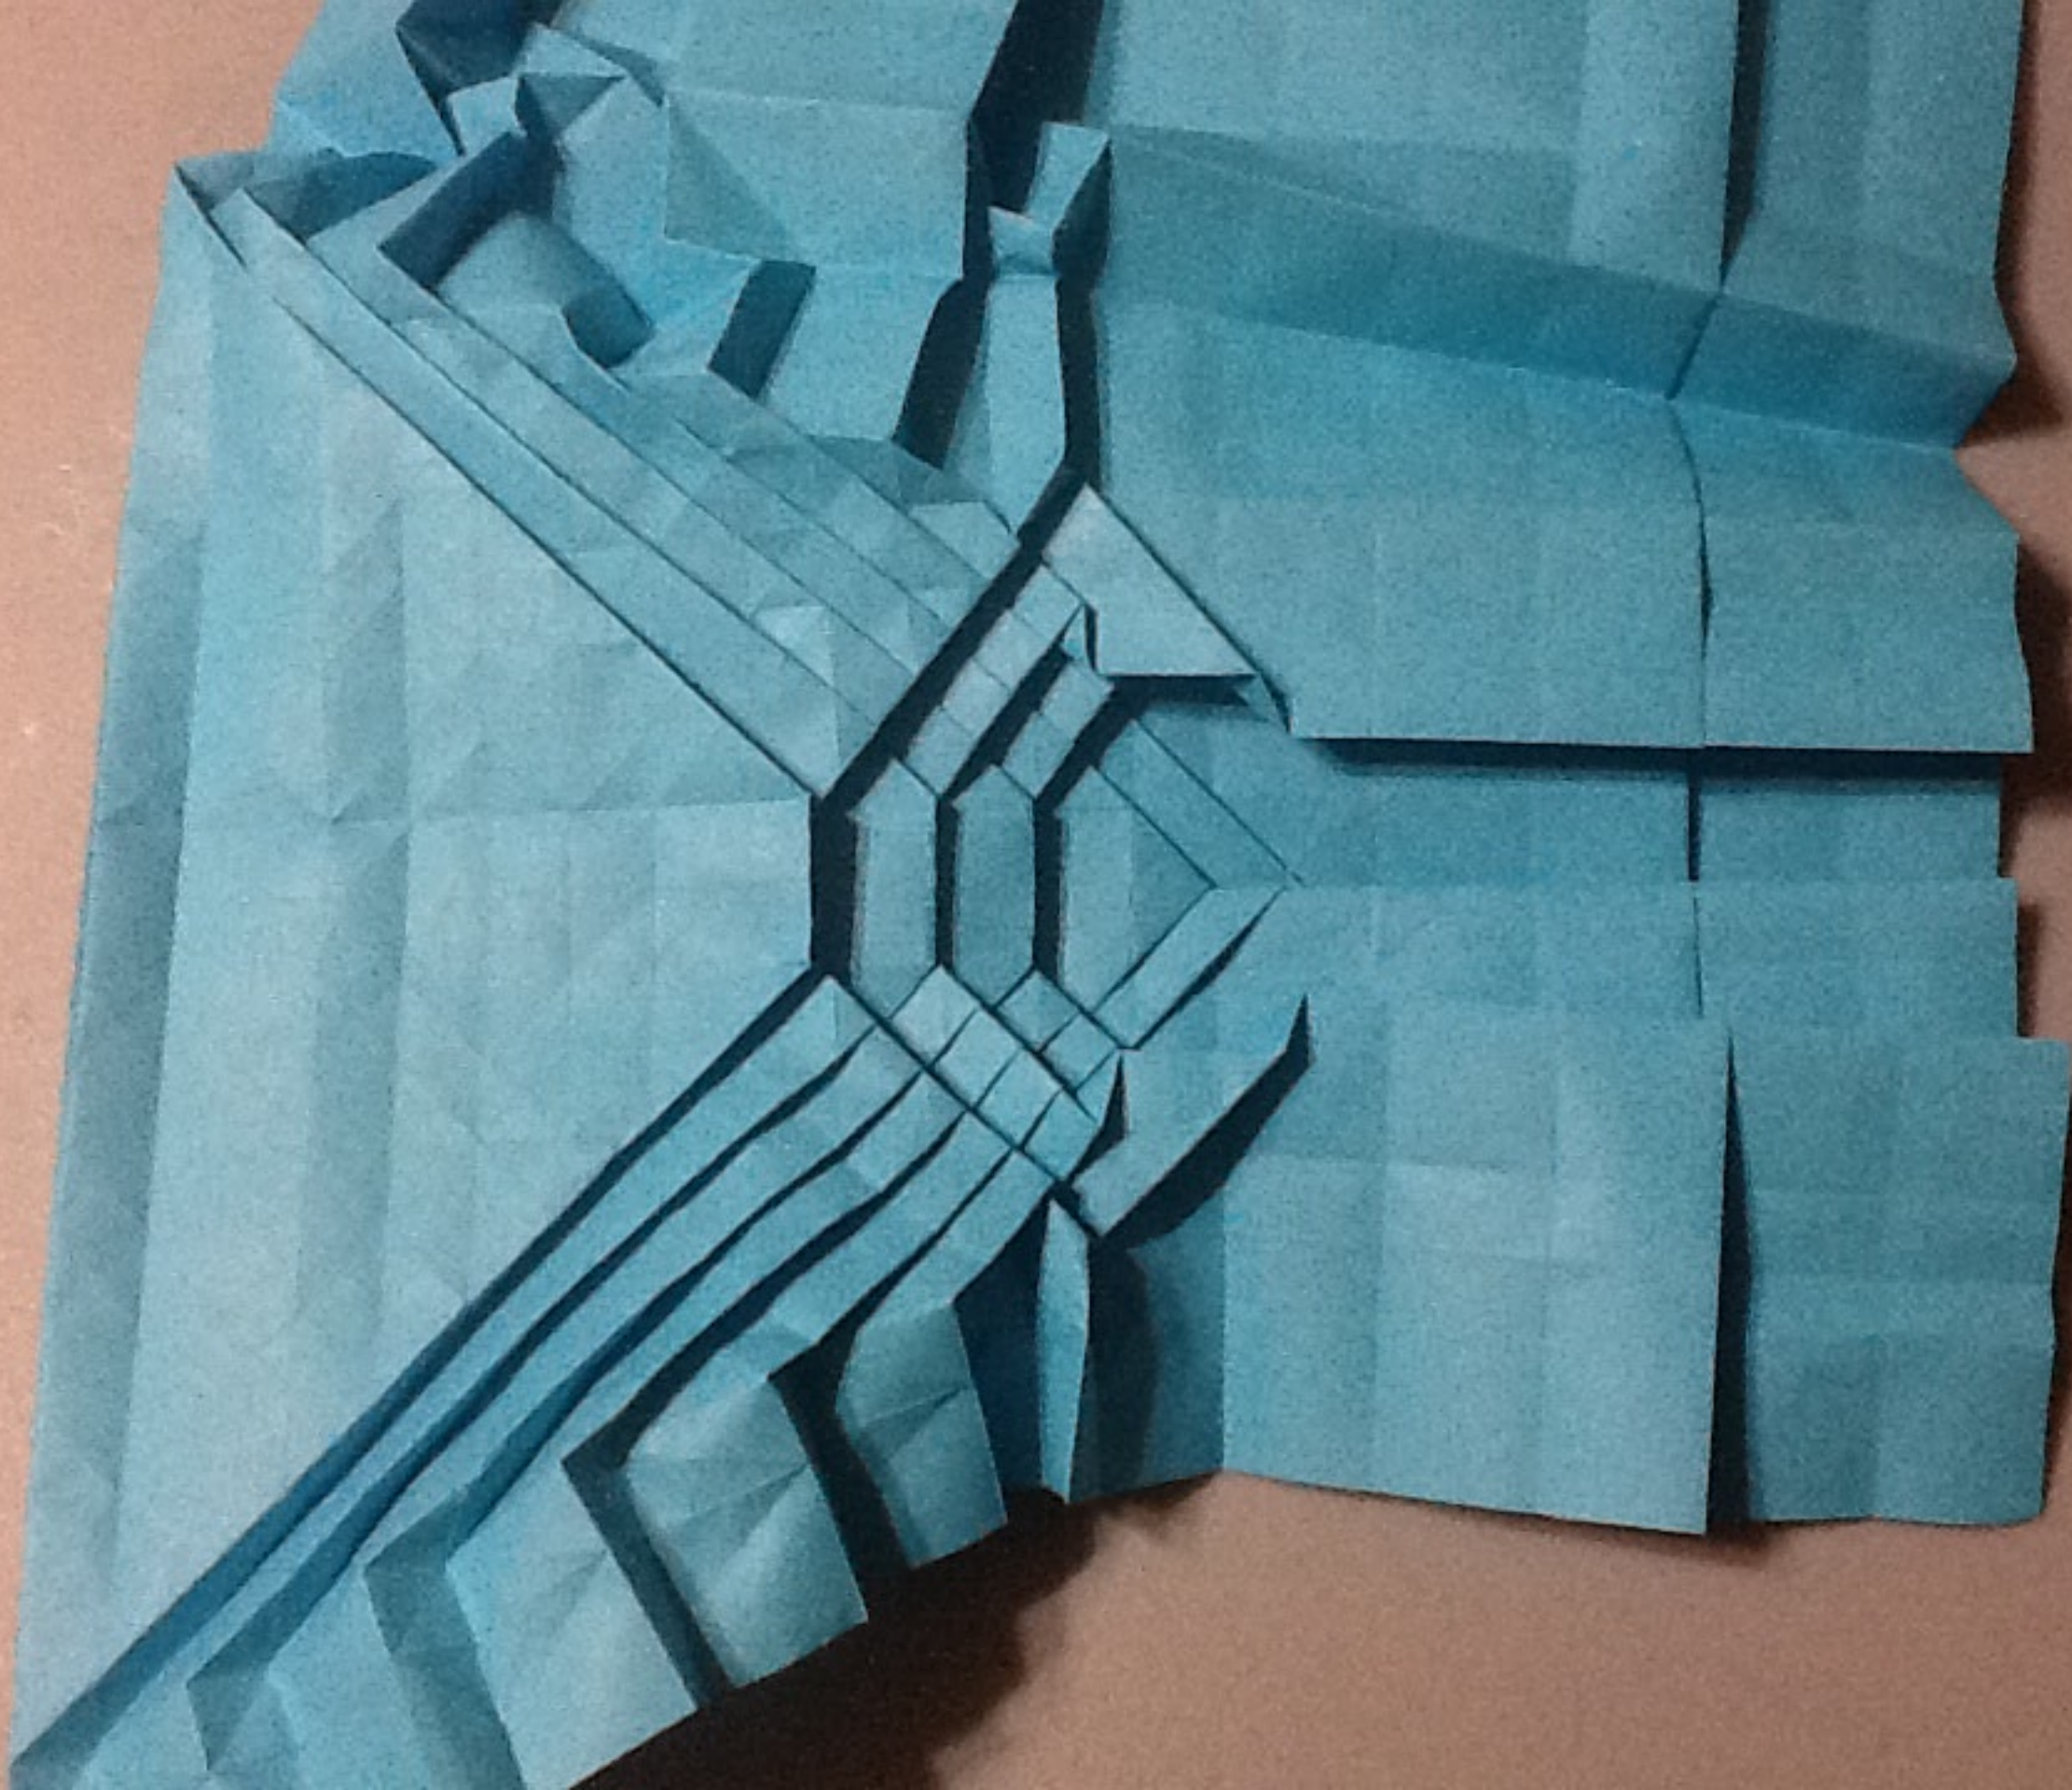

Follow the
photos for the
remaining scale
pleats -

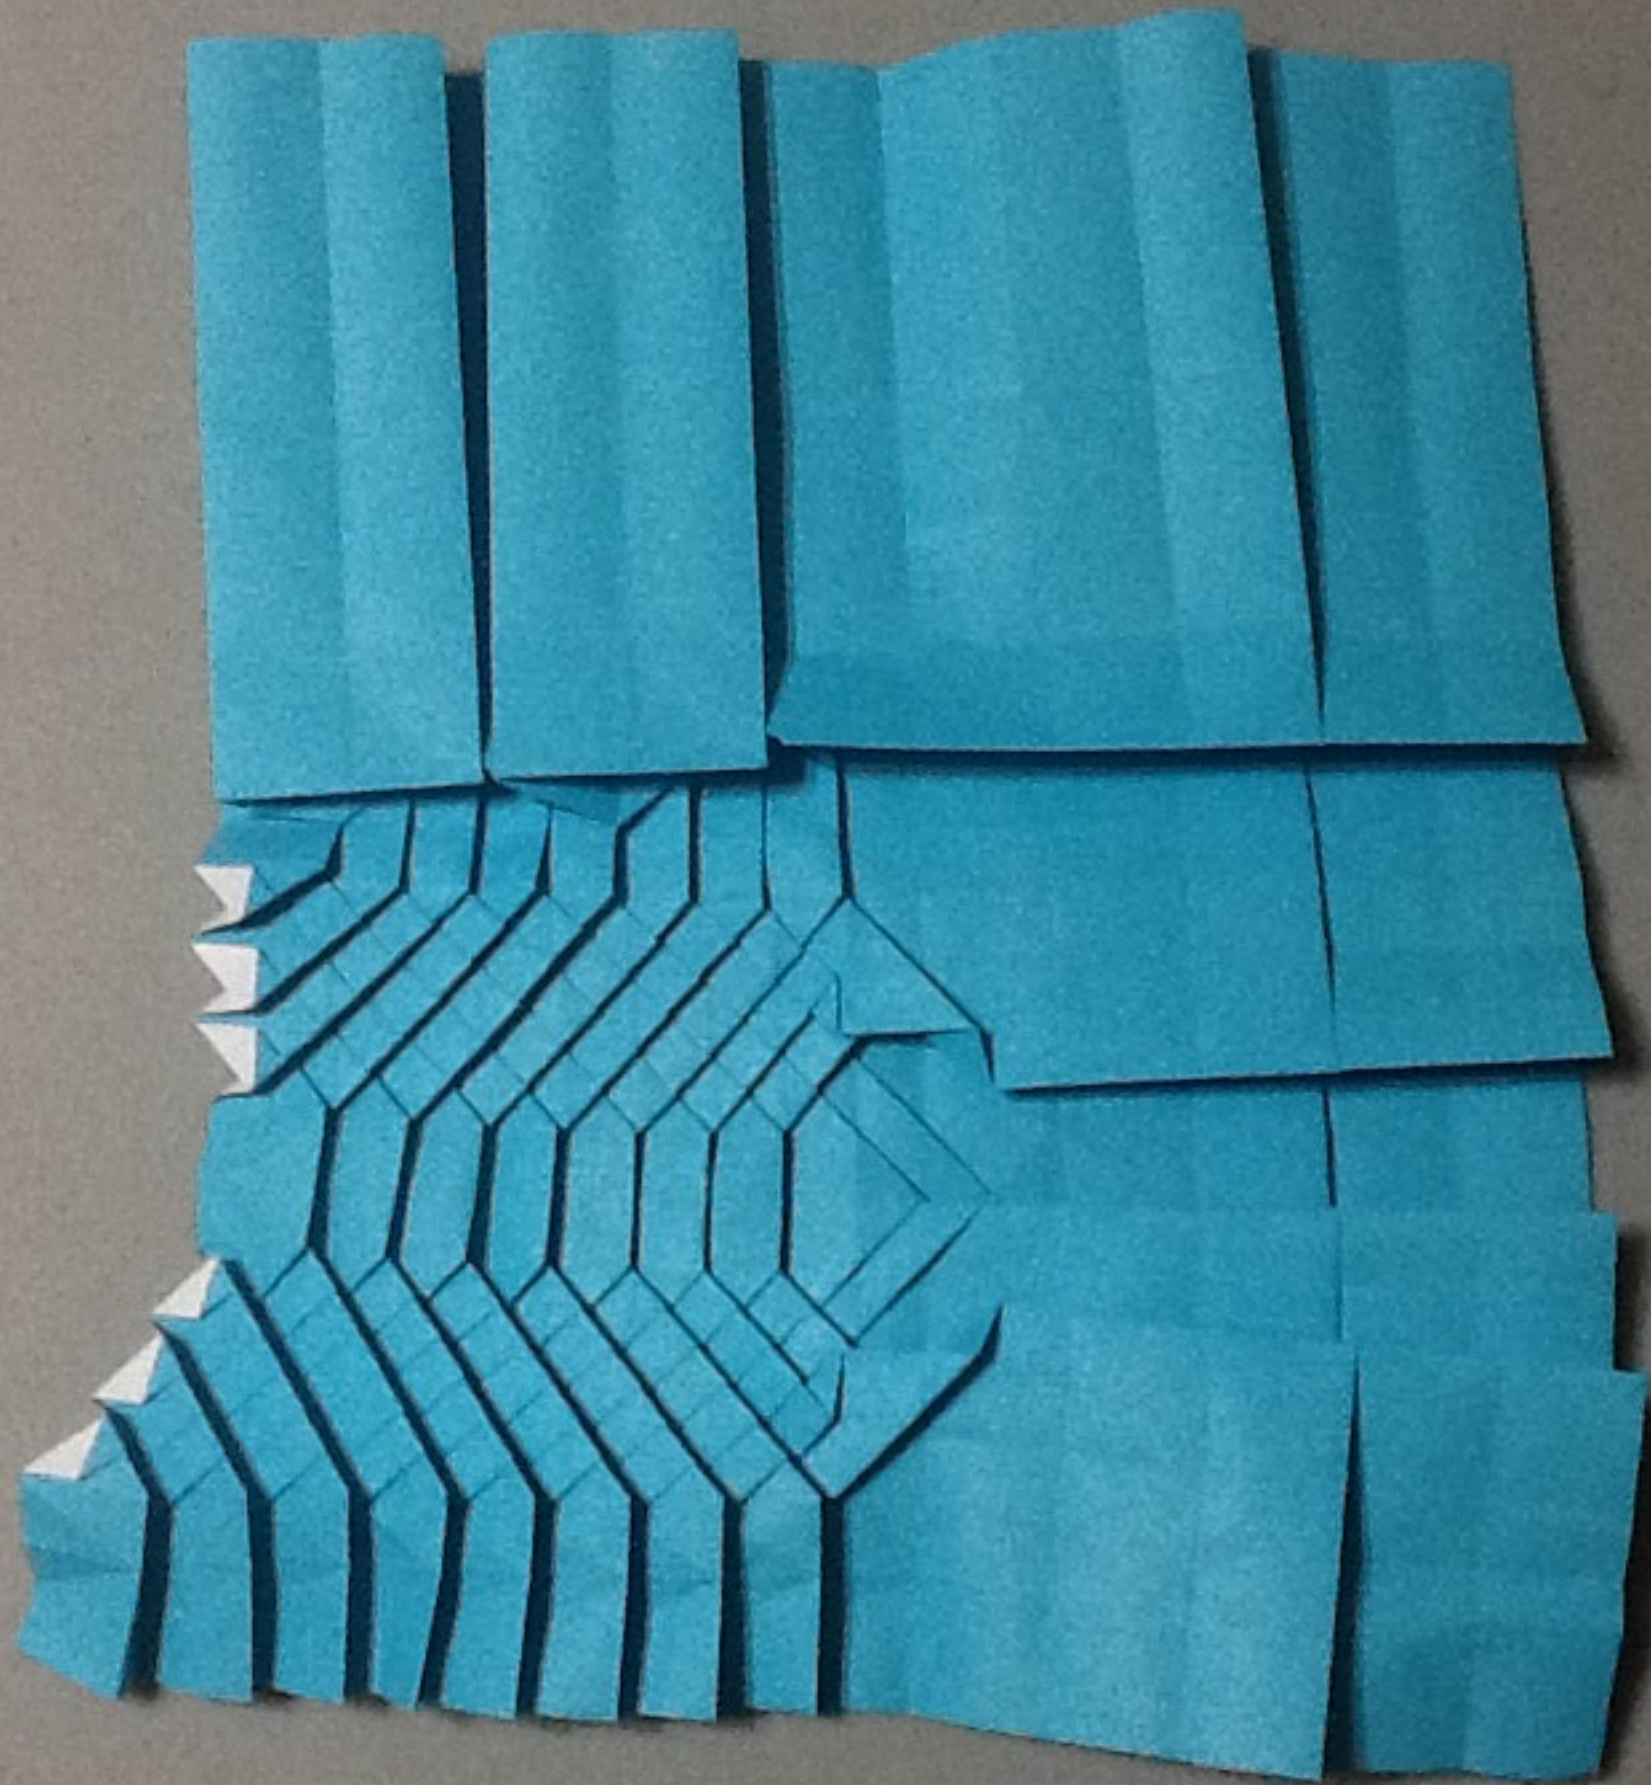

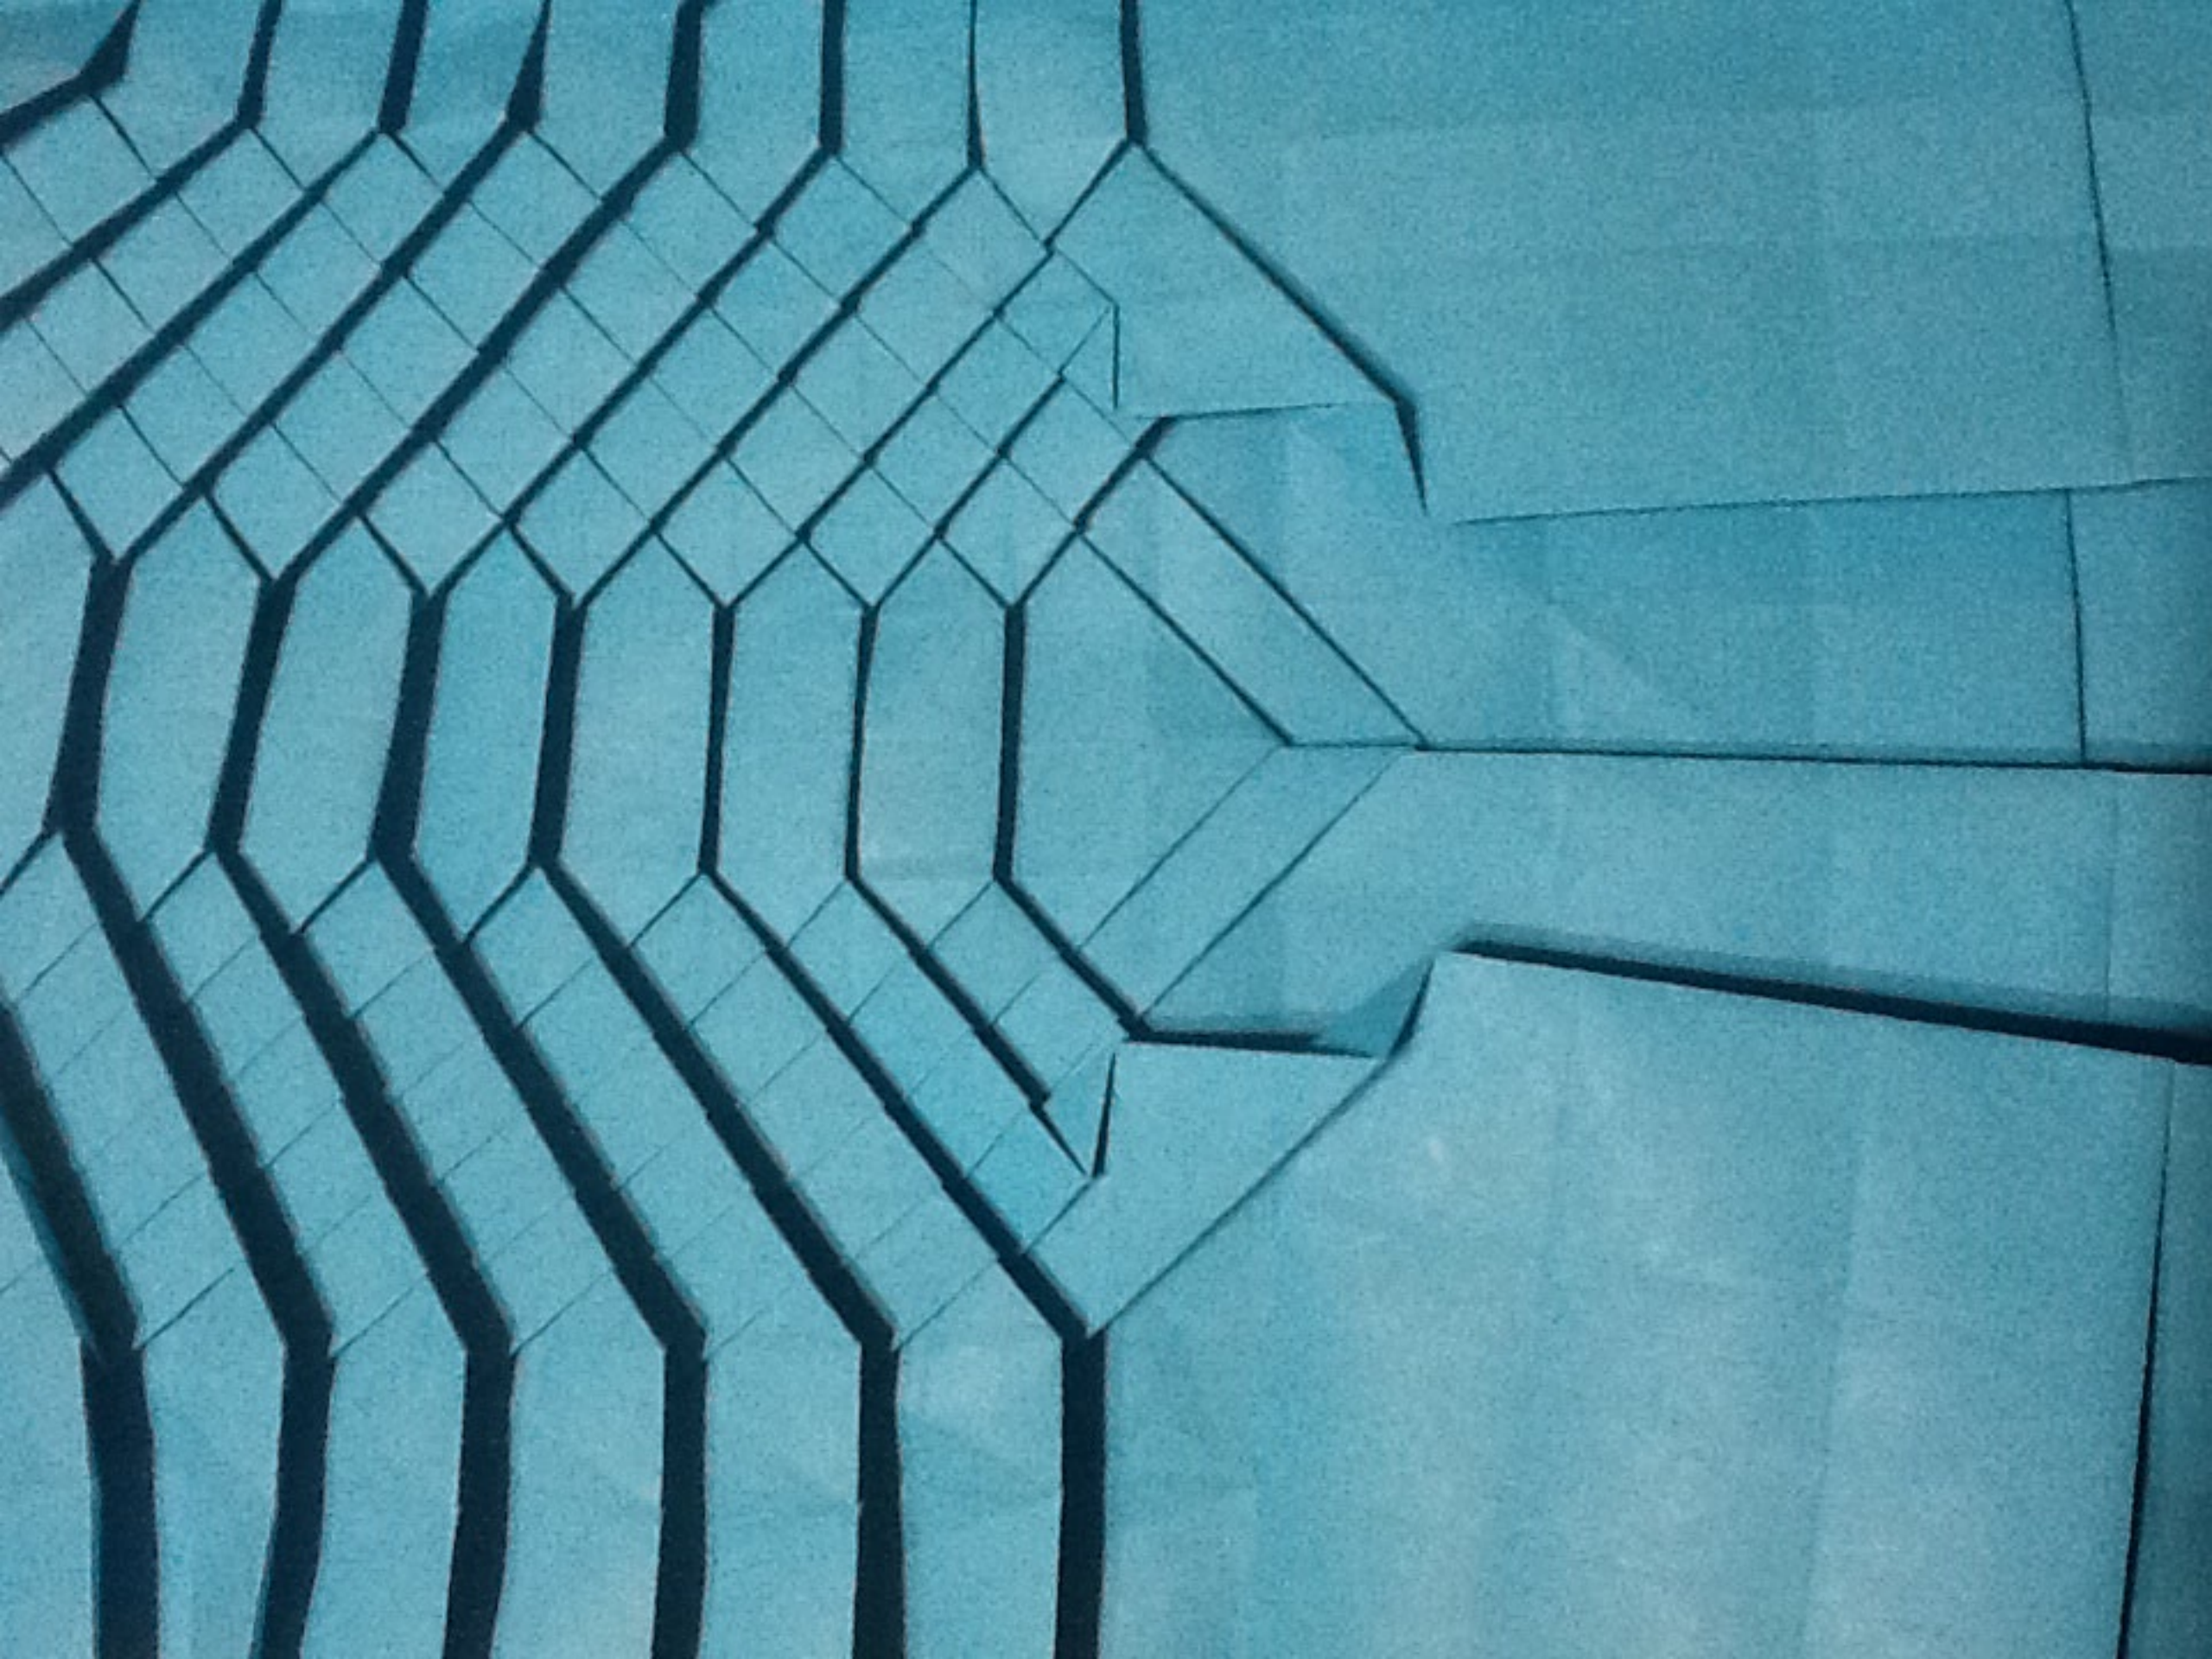

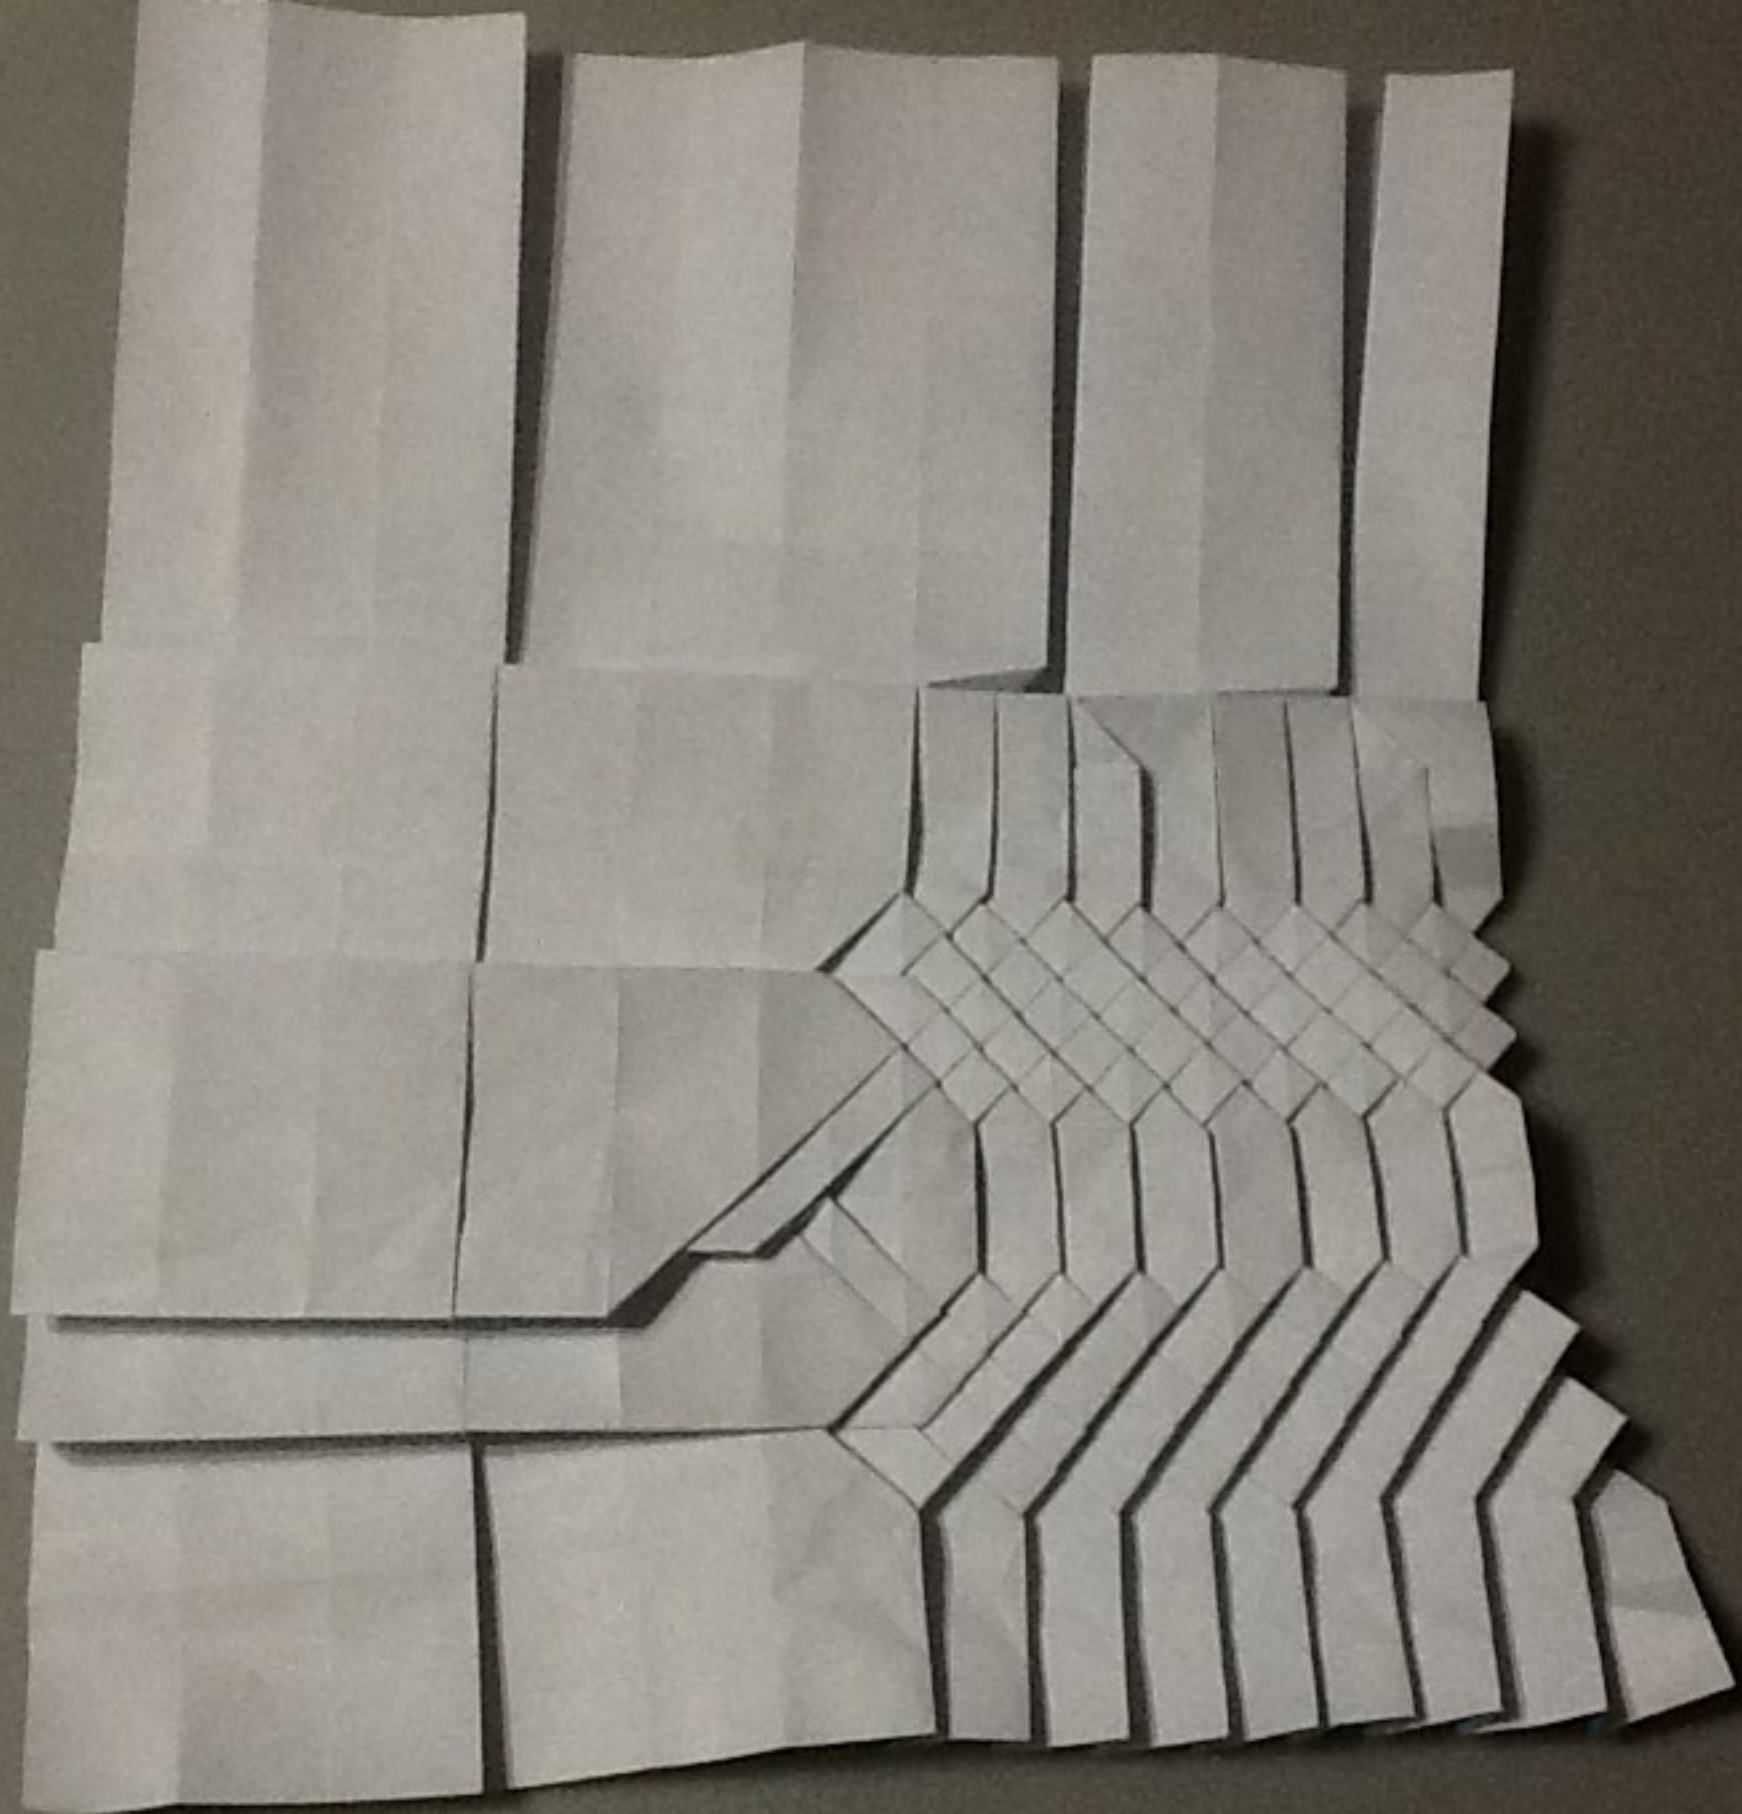

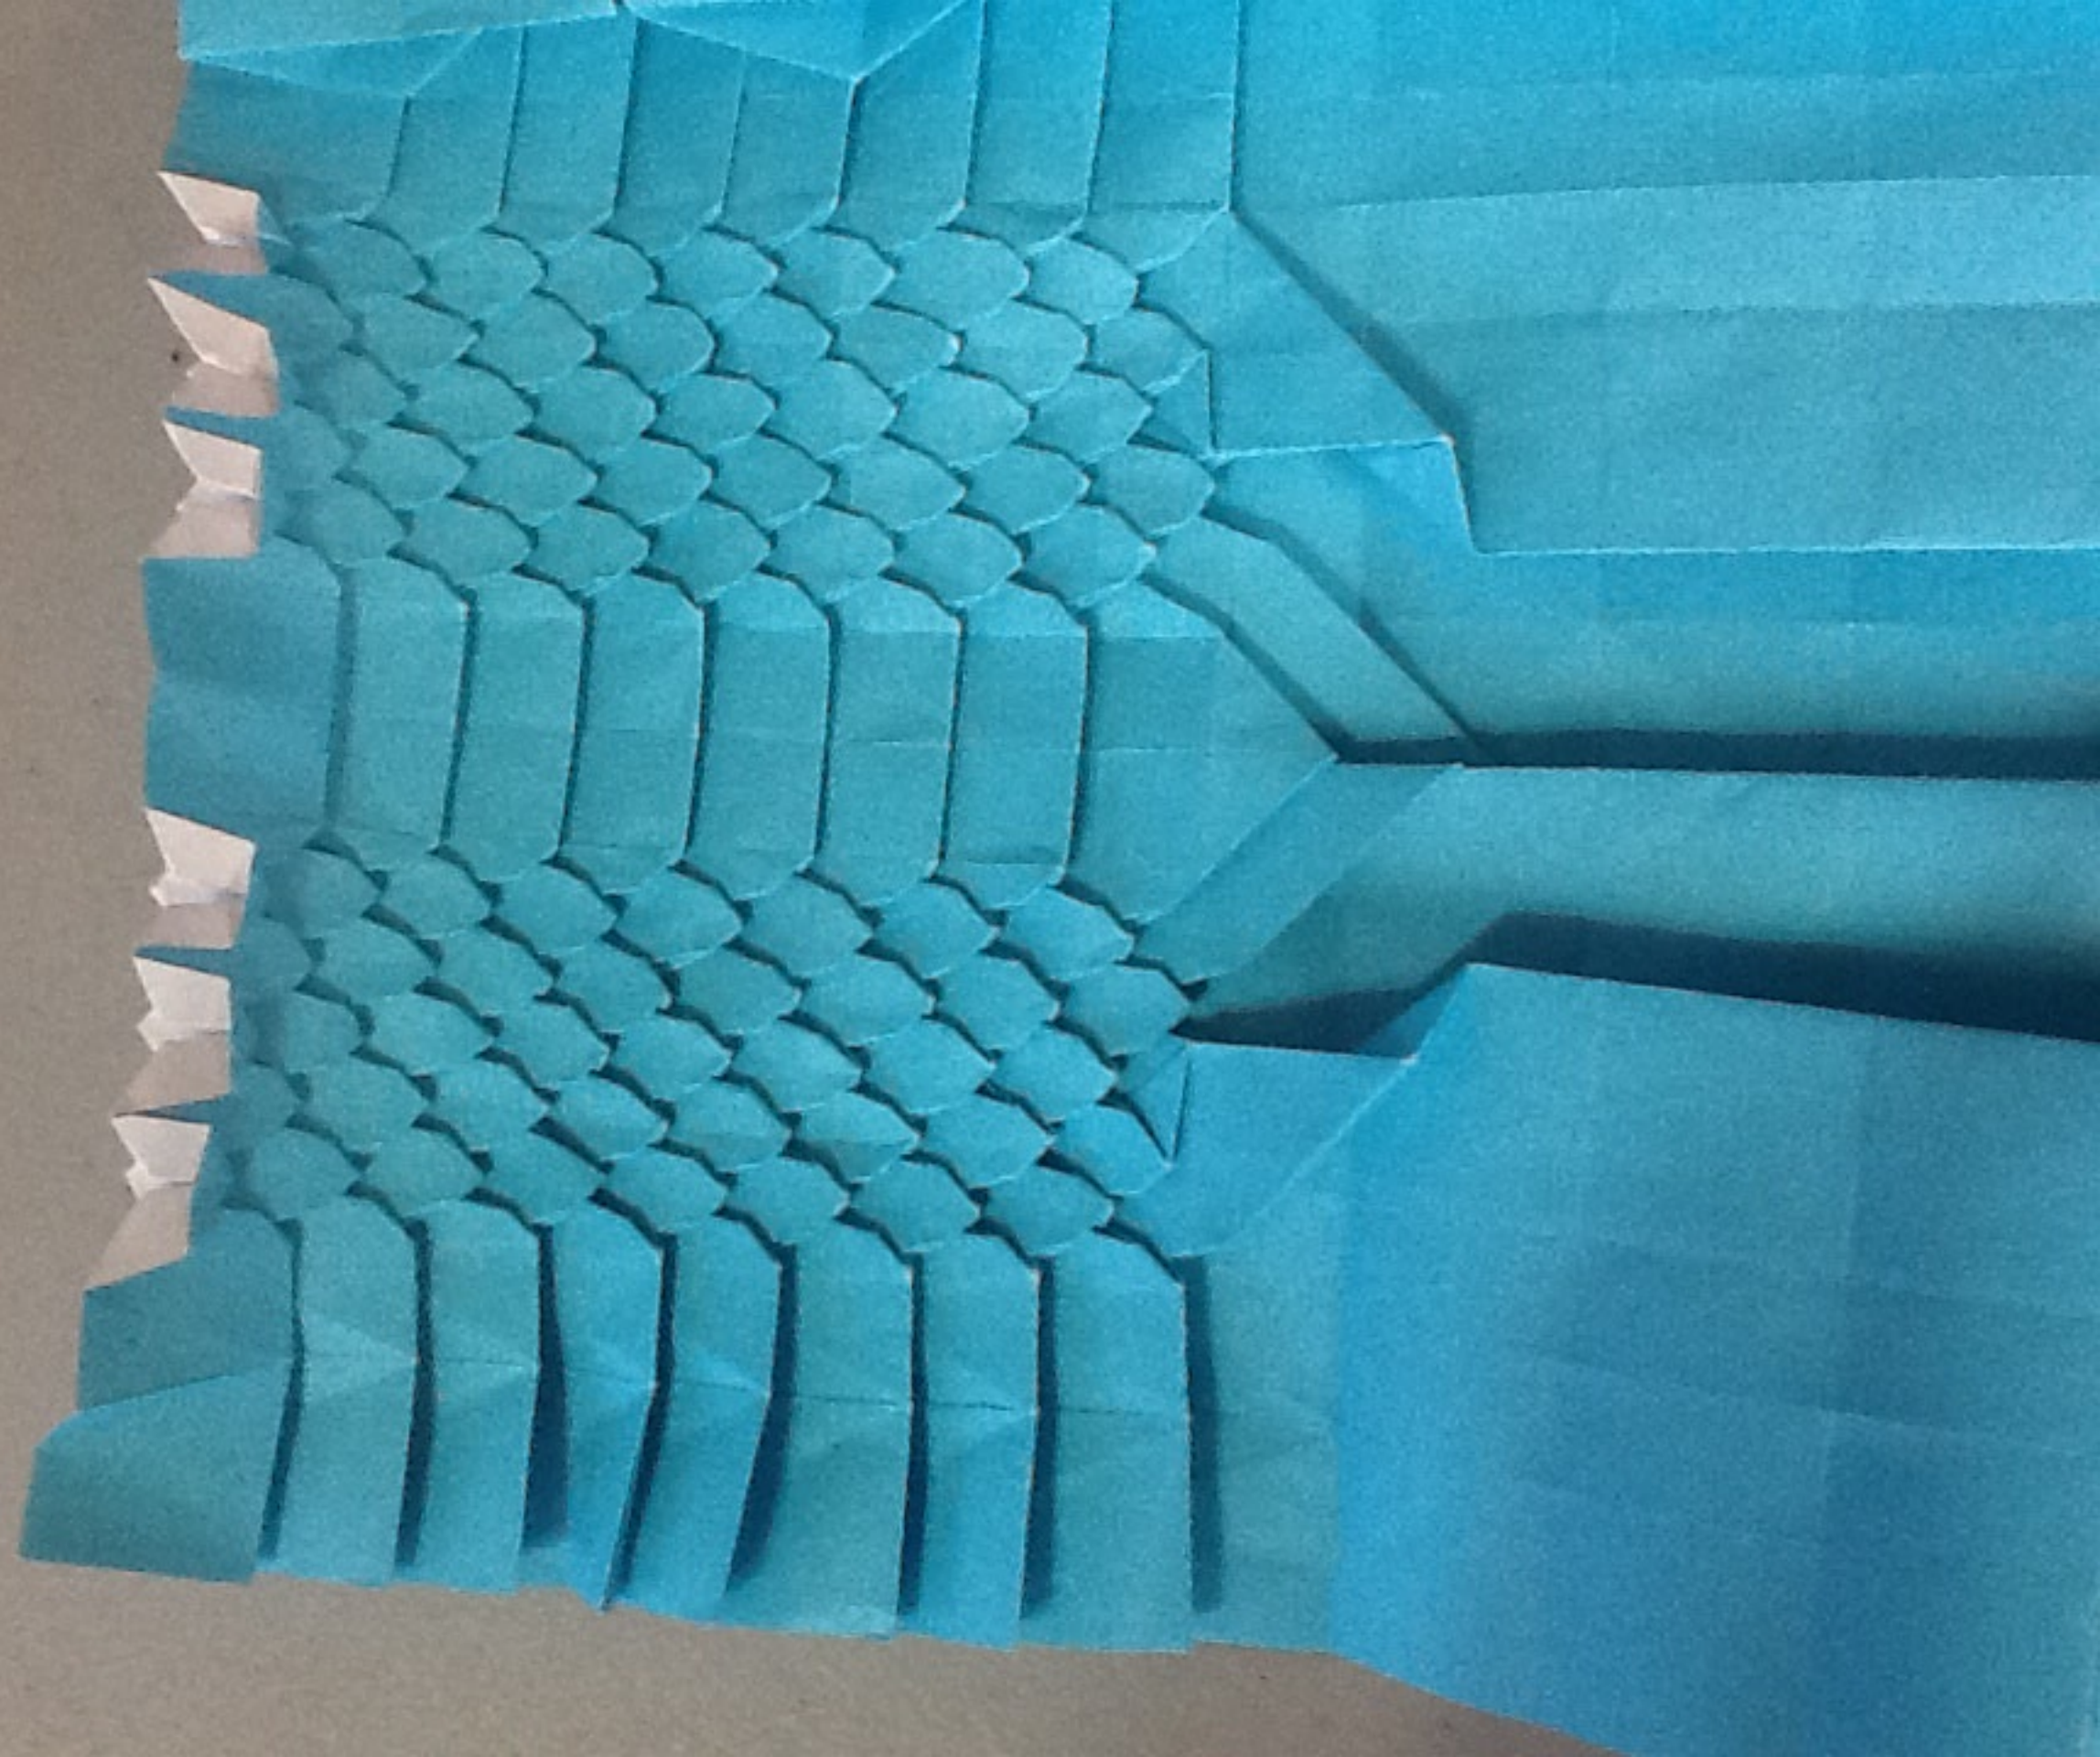

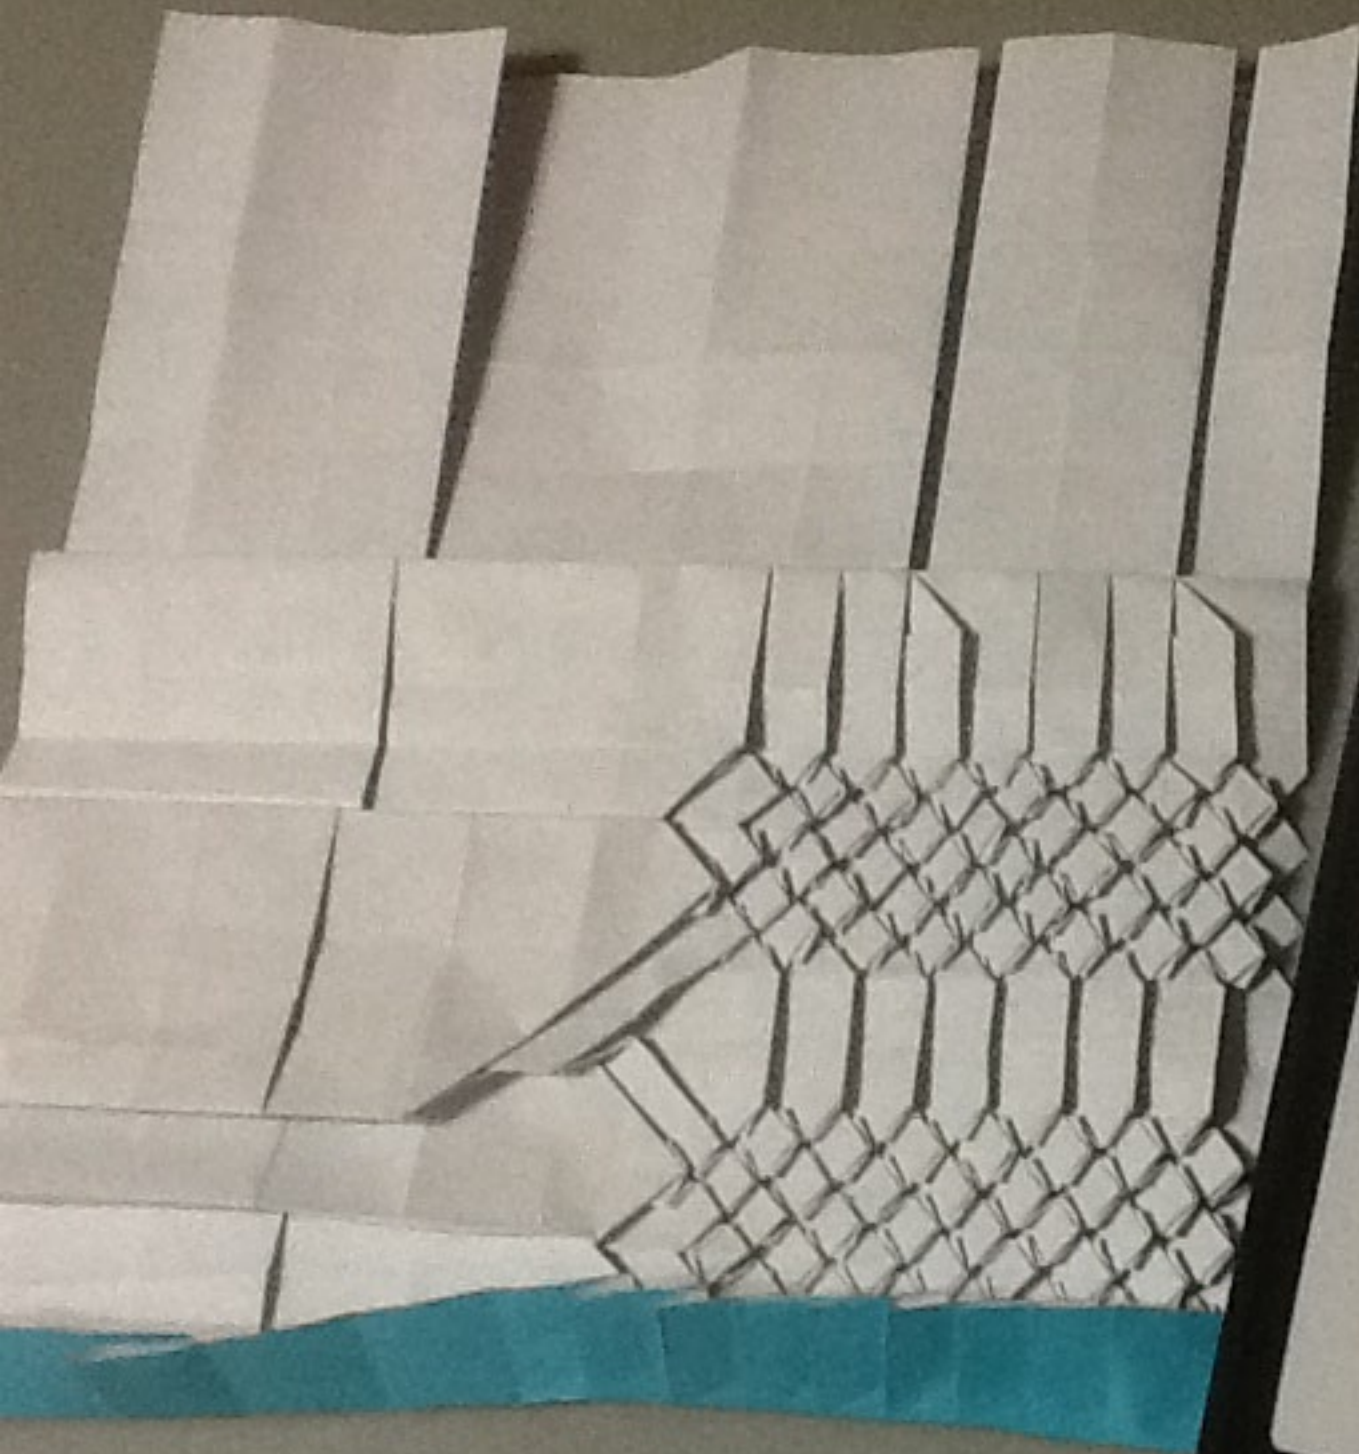

Scales are shaped
at this point on the
full model.

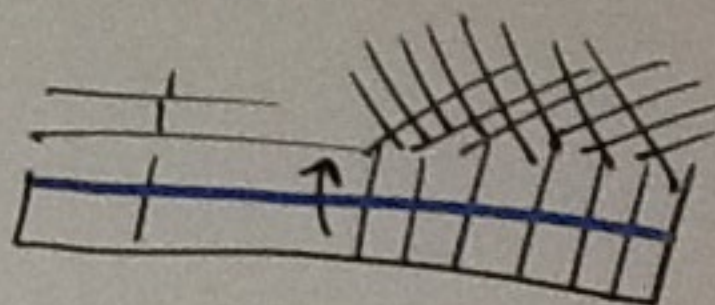

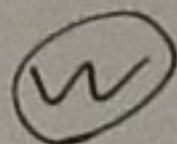

Not on the test fold though.

That would be silly.

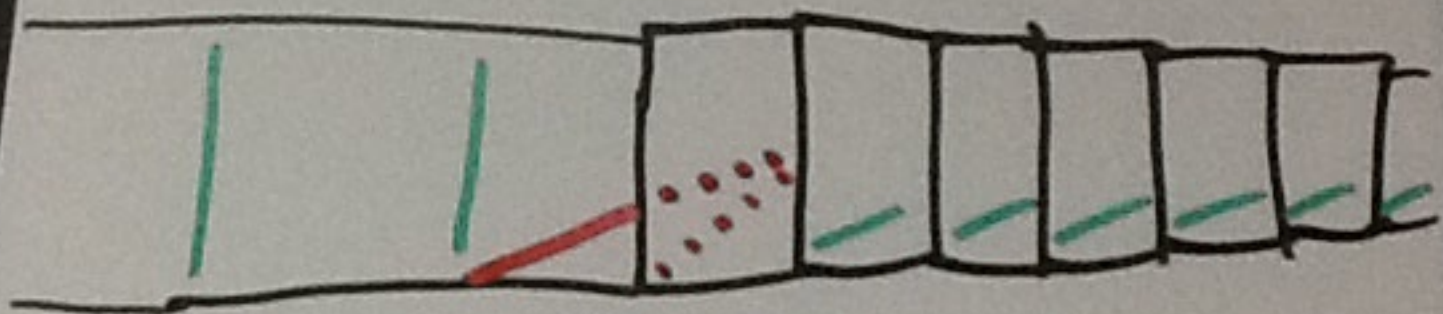

MVC

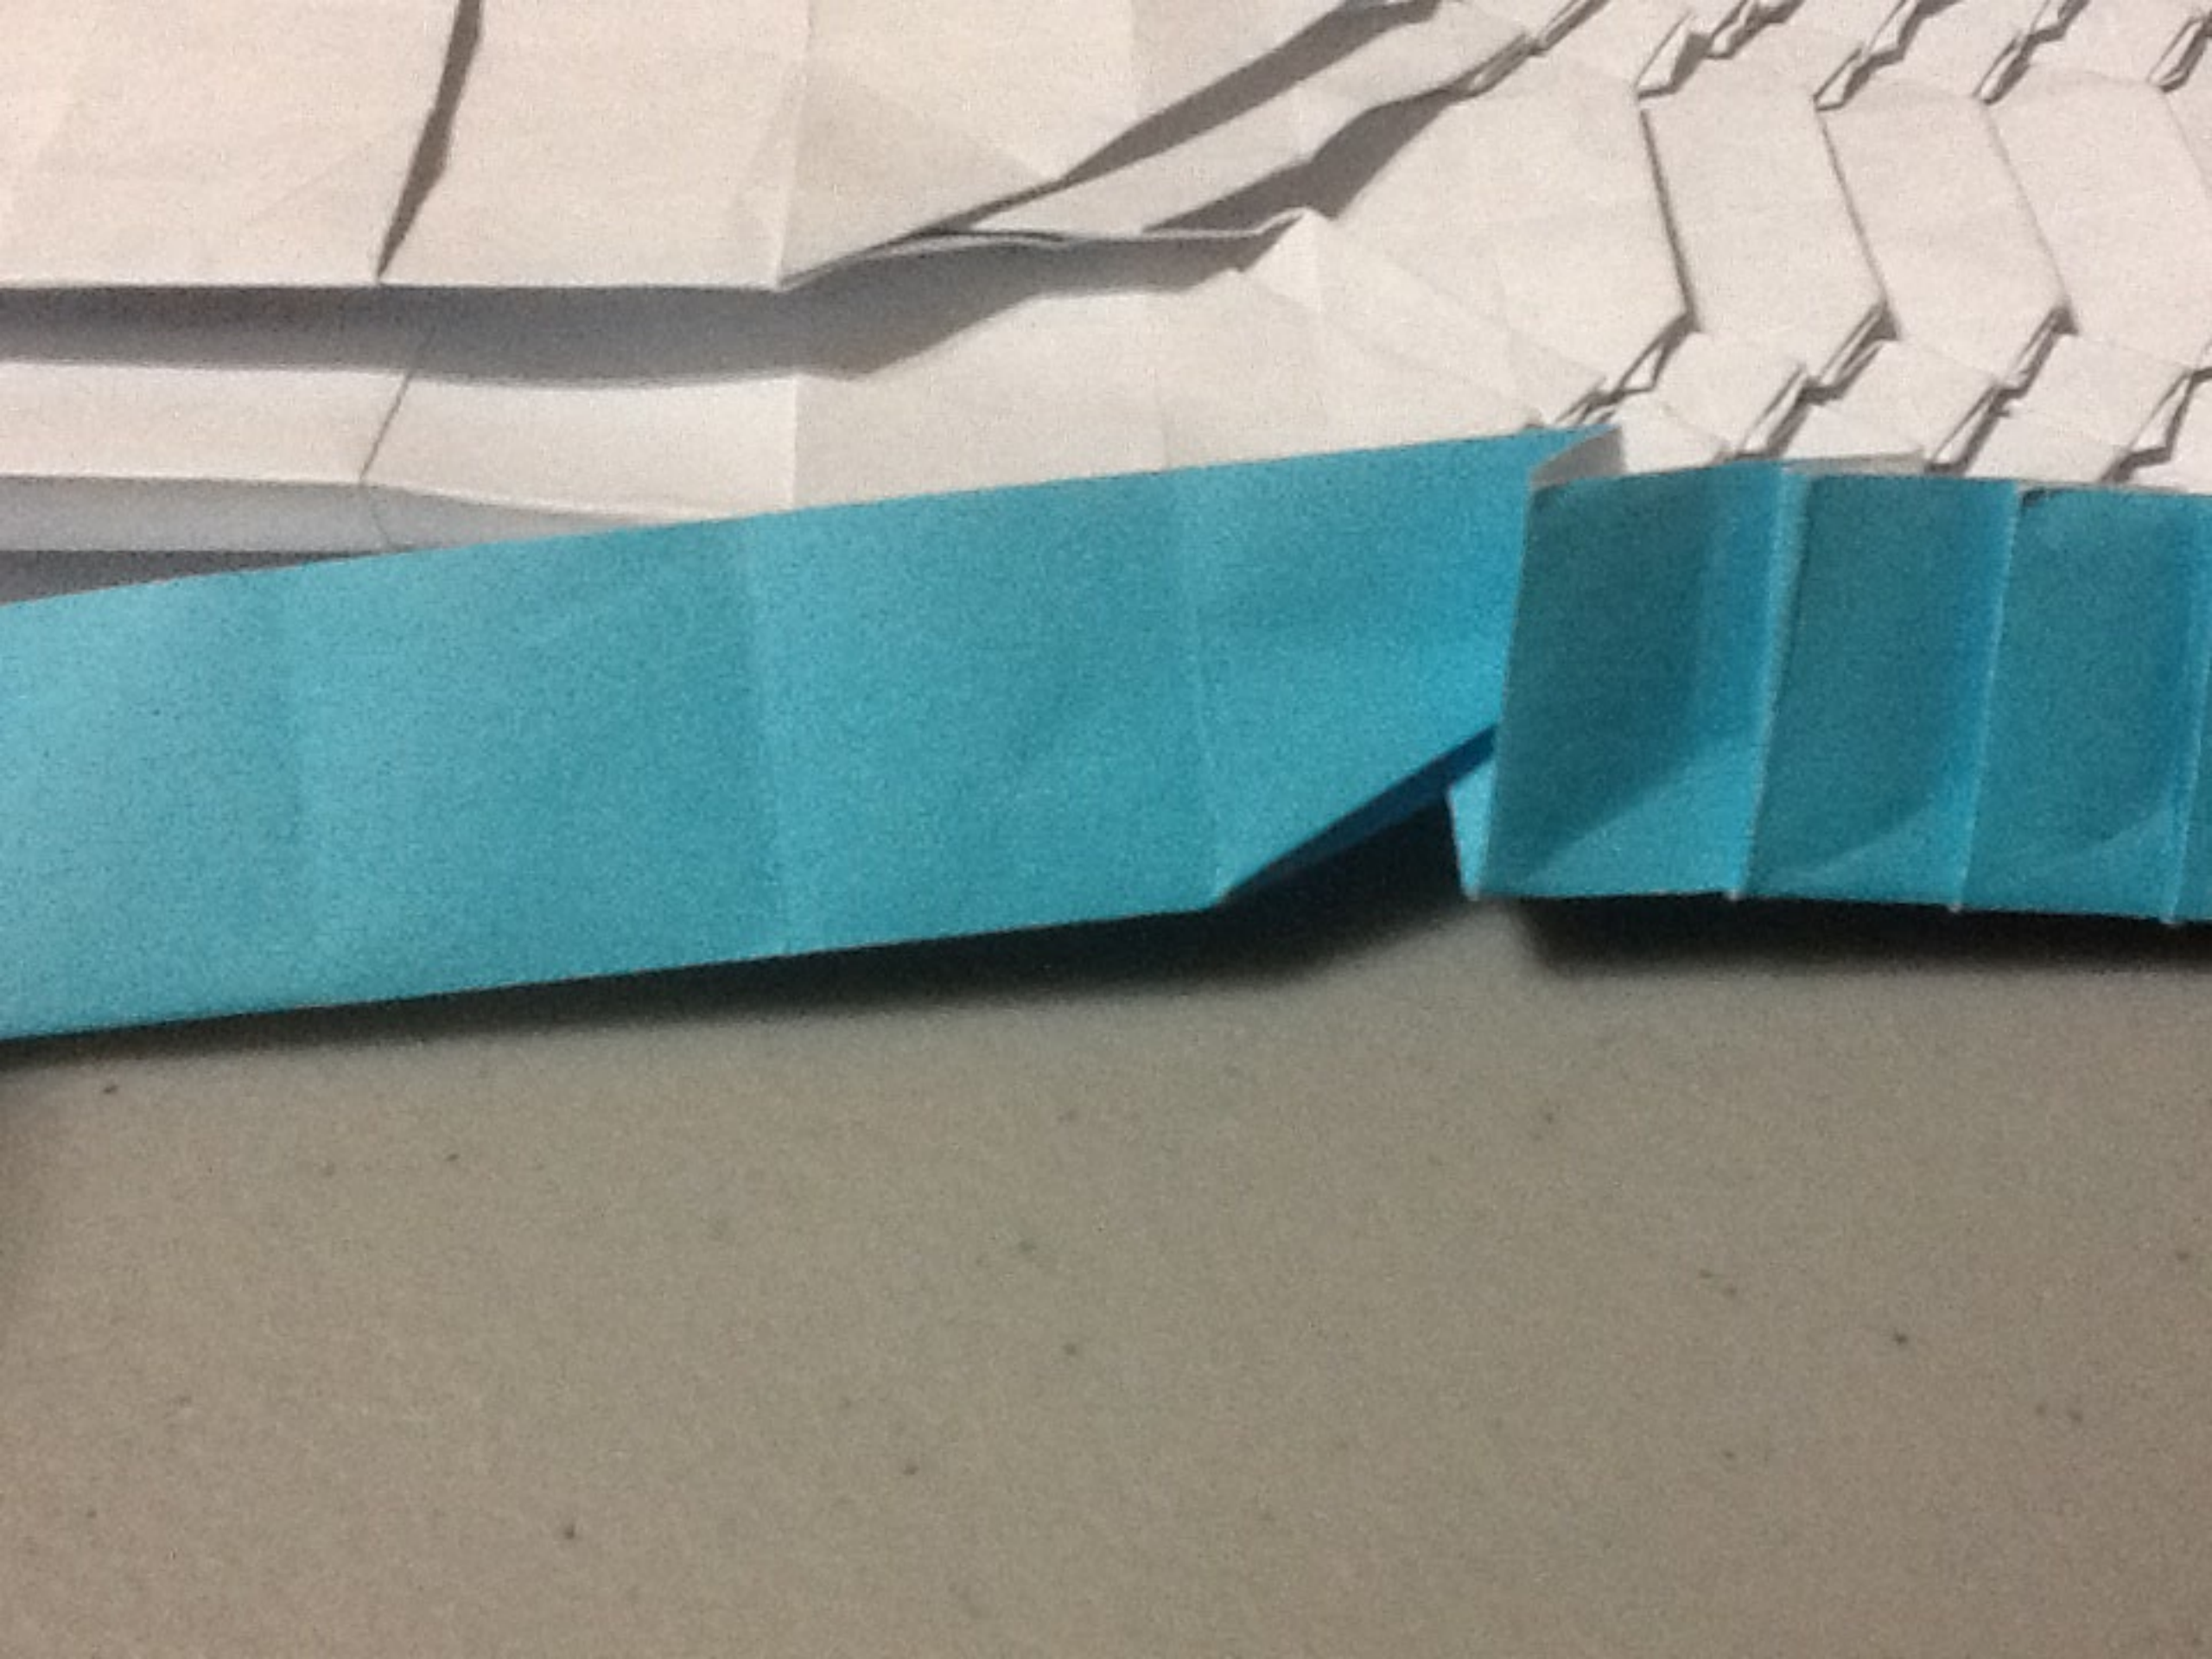

Fold up one unit

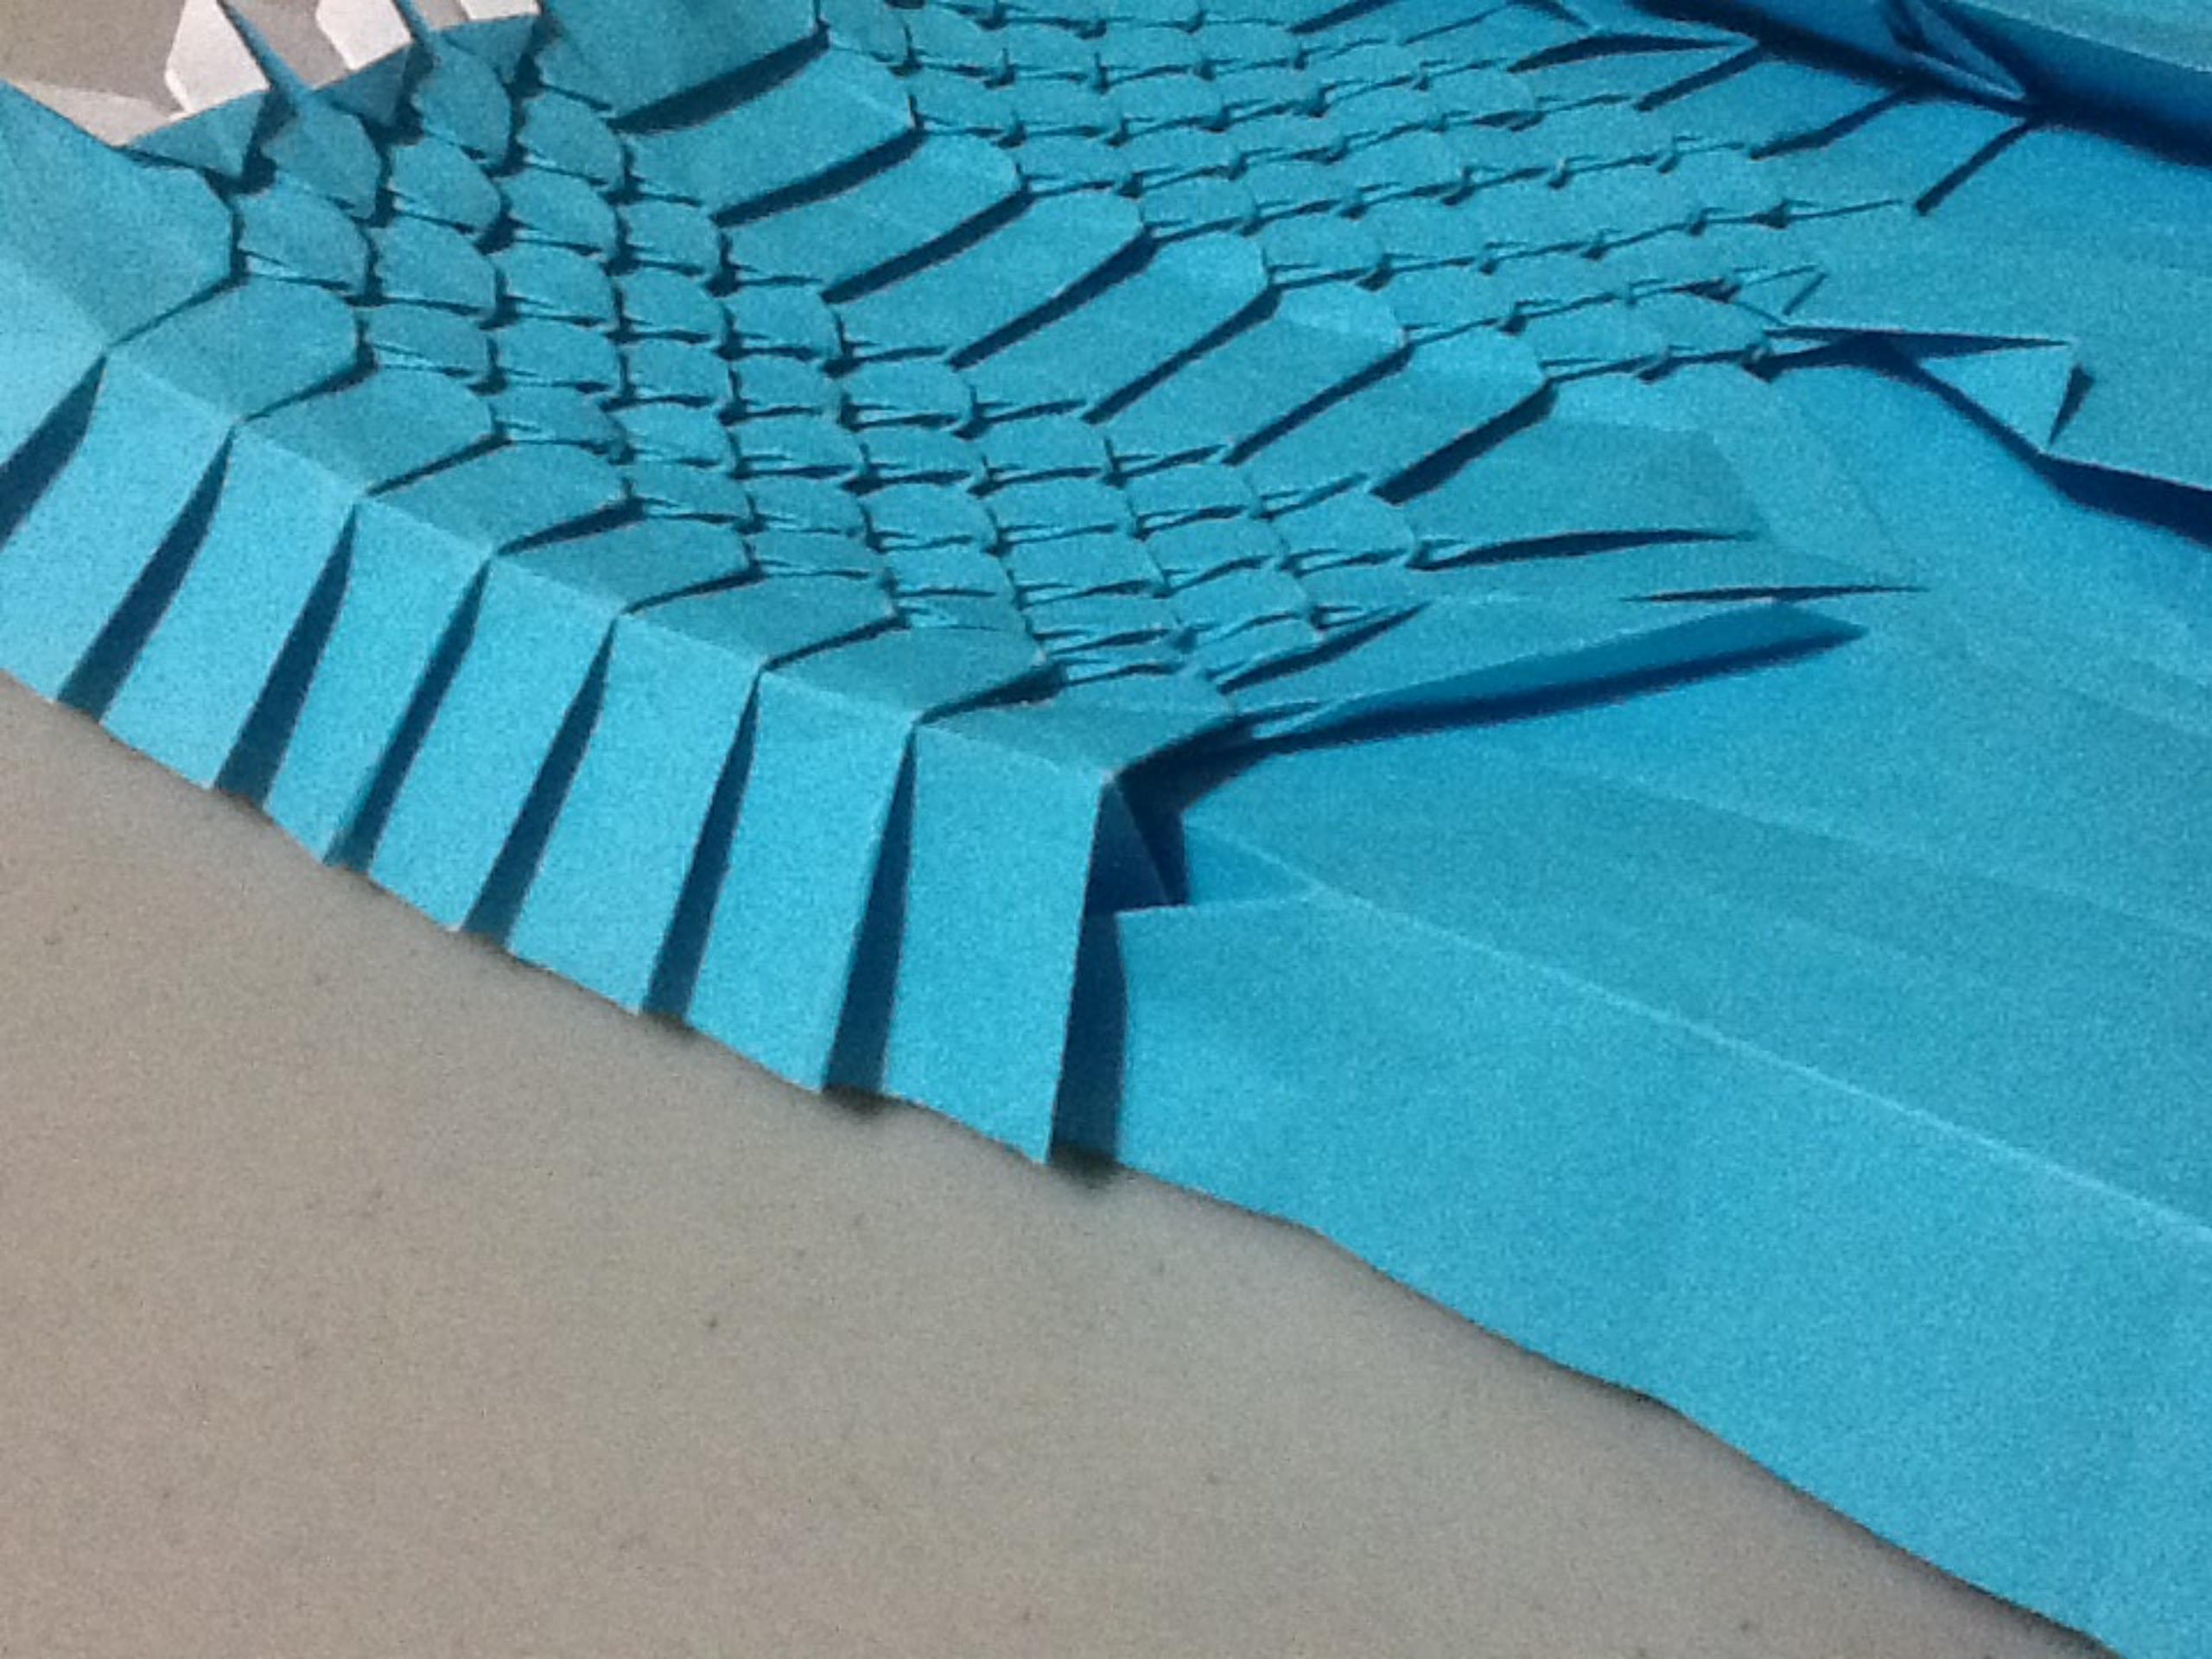

MVC

W

Swivel-sink along
the creases

MVC

Repeat on all other
small pleats
